This document was prepared under a grant from the Office of Grants and Training, United States Department of Homeland Security. Points of view or opinions expressed in this document are those of the authors and do not necessarily represent the official position or policies of the Office of Grants and Training or the U.S. Department of Homeland Security.

Immediate Action Checklist

Use the following Immediate Action Checklist to initiate Baker City's response and support to an emergency incident. If you are not qualified to implement this plan, dial 9-1-1 and ask for assistance.

1. Receive alert of incident.

- Alerts should be directed to the City Emergency Manager (City Manager).
- If the City Manager is not available, alerts should be directed to the Fire Chief, or Chief of Police based on the City line of succession.
- Alerts may be received through dispatch, responding agencies, the on-scene Incident Commander, the public or other sources.
- If you are the first person receiving notification of the incident, call 9-1-1 and provide as much detail as possible.
- *See FA 1 – Emergency Services of the City Emergency Operations Plan for more information on alert and warning.*

2. Determine need to implement the City's Emergency Management Organization.

- The City Emergency Manager should determine, in coordination with the on-scene Incident Commander, what level of support is needed from the City for the incident. This may range from the City Emergency Manager being on stand-by to full activation of the City Emergency Operations Center.
- Identify key personnel who will be needed to staff the City Emergency Operations Center.

3. Notify key City personnel and response partners.

- The City Emergency Manager will notify key personnel to staff the City Emergency Operations Center based on incident needs.
- Notify appropriate emergency response agencies.
- See the City Emergency Contact List maintained by the City Emergency Manager.

Immediate Action Checklist

4. Activate the City Emergency Operations Center as appropriate.

- The City will utilize the Incident Command System in managing the City Emergency Operations Center.
- The location of the City EOC will be decided by the Emergency Manager or Incident Commander based on the emergency situation. Locations within Baker City that may function as the City EOC are:
 - Baker City Fire Department – 1616 Second Avenue, Baker City, OR 97814
 - Baker City Police Department – 1768 Auburn Avenue, Baker City, OR 97814
- See Section 5.4 of the Basic Plan of the City Emergency Operations Plan for information on Emergency Operations Center operations.

5. Establish communications with the on-scene Incident Commander.

- Identify primary and back-up means to stay in contact with the on-scene Incident Commander.
- The on-scene Incident Commander may assign a radio frequency that the City Emergency Operations Center can use to communicate with the scene.
- See Functional Annex 1 – Emergency Services of the City Emergency Operations Plan for more information on communications systems.

6. Identify, in coordination with the on-scene Incident Commander, key incident needs.

- Consider coordination of the following, as required by the incident:
 - Protective Action measures including evacuation and shelter-in-place
 - Shelter and housing needs for displaced citizens
 - Emergency public information and coordination with the media
 - Provisions for Access and Functional Needs Populations
 - Provisions for animals in disaster

Immediate Action Checklist**7. Inform the County and OERS of Emergency Operations Center activation and request support as needed.**

- Baker County Emergency Management: (541) 523-8200 or 24 hour/Emergency at (541) 523-6415
- Oregon Emergency Response System: 800-452-0311
- If necessary, responsible parties would then call the National Response Center at 800-424-8802

8. Declare a state of emergency for the City, as appropriate.

- If the incident has or threatens to overwhelm the City's resources to respond, the City should declare a State of Emergency.
- A declaration may be made by the Mayor, City Council or the City Manager. A declaration made by the Mayor or City Manager should be ratified by Council as soon as practicable.
- The declaration should be submitted to Baker County Emergency Management.
- See Section 1.7 of the Basic Plan of the City Emergency Operations Plan for information on the disaster declaration process. A sample disaster declaration form is included in Appendix A.

THIS PAGE LEFT BLANK INTENTIONALLY

Preface

This Emergency Operations Plan is an all-hazard plan that describes how Baker City will organize and respond to emergencies and disasters in the community. It is based on, and is compatible with, Federal, State of Oregon, and other applicable laws, regulations, plans, and policies, including Presidential Policy Directive 8, the National Response Framework, State of Oregon Emergency Management Plan, and Baker County Emergency Operations Plan.

It is recognized that response to emergency or disaster conditions in order to maximize the safety of the public and to minimize property damage is a primary responsibility of government. It is the goal of Baker City that responses to such conditions are conducted in the most organized, efficient, and effective manner possible. To aid in accomplishing this goal, Baker City has, in addition to promulgating this plan, formally adopted the principles of the National Incident Management System, including the Incident Command System, and the National Response Framework.

Consisting of a Basic Plan, Functional Annexes aligned with the Baker County Emergency Support Functions, and Incident Annexes, this Emergency Operations Plan provides a framework for coordinated response and recovery activities during a large-scale emergency. The plan describes how various agencies and organizations in Baker City will coordinate resources and activities with other Federal, state, local, tribal, and private-sector partners.

THIS PAGE LEFT BLANK INTENTIONALLY

Letter of Promulgation

To All Recipients:

Promulgated herewith is the Emergency Operations Plan for Baker City. This plan supersedes any previous plans. It provides a framework with which Baker City can plan and perform its respective emergency functions during a disaster or national emergency.

This Emergency Operations Plan attempts to be all-inclusive in combining the five mission areas of emergency management to ensure the City is prepared to prevent, protect against, mitigate the effects of, respond to and recover from hazards that pose the greatest risk to the City. This includes the following:

- **Prevention:** activities necessary to avoid, prevent, or stop a threatened or actual act of terrorism.
- **Protection:** activities necessary to secure the City against acts of terrorism and manmade or natural disasters.
- **Mitigation:** activities that reduce loss of life and property by lessening the impact of disasters.
- **Response:** activities necessary to save lives, protect property and the environment, and meet basic human needs after an incident has occurred.
- **Recovery:** activities necessary to assist the community to recover effectively from a disaster.

This plan has been reviewed by the City Manager and approved by the City Council. It will be revised and updated as required. All recipients are requested to advise the City Manager of any changes that might result in its improvement or increase its usefulness. Plan changes will be transmitted to all addressees on the distribution list.

Richard Langrell, City Mayor

Mike Kee, City Manager

Plan Distribution List

Copies of this plan will be provided to the following jurisdictions, agencies, and persons electronically, unless otherwise indicated. Updates will be provided electronically, when available. Recipients will be responsible for updating their respective Emergency Operations Plans when changes are received. The Baker City Emergency Manager is ultimately responsible for dissemination of all plan updates. Copies of the plan will also be maintained at City Hall, 1655 First Street, Baker City, and posted online at <http://www.bakercity.com/community/disaster-preparedness>. A record of recipient names and contact information will be maintained separately in the City Manager’s Office.

No. of Copies	Department or Agency	Title
1 printed copy	Baker County Health Department	Director
1 digital copy	Baker County Sheriff’s Office	Sheriff
1 digital copy	City Attorney	City Attorney
1 digital copy	City Recorder	City Recorder
1 digital copy	City Finance Department	Director
1 printed copy	City Fire Department	Fire Chief
1 printed copy	City Manager’s Office	City Manager
1 printed copy	City Police Department	Chief of Police
1 printed copy	City Public Works Department	Director
1 digital copy	Baker County Library	Director
1 printed copy	Baker County Emergency Management	Emergency Manager
1 digital copy	Baker City/County Planning Department	Planning Director
1 printed copy	Baker County Consolidated Dispatch	Director
1 printed copy	American Red Cross	Readiness Specialist
1 digital copy	Oregon Emergency Management	Domestic Preparedness Coordinator

Emergency Operations Plan Review Assignments

Unless otherwise stated, the following table identifies agencies responsible for regular review of specific plan sections and annexes to ensure accuracy. Changes will be forwarded to the City Emergency Manager for revision and dissemination of the plan. This does not preclude other departments and agencies with a vital interest in the annex from providing input to the document; such input is, in fact, encouraged. It is also encouraged that plan review will be performed concurrently with review of other related City emergency plans and procedures to facilitate consistency.

Section / Annex	Responsible Party
Basic Plan	City Emergency Manager
Functional Annexes (FAs)	
FA 1 Emergency Services	Police Department County Consolidated Dispatch
FA 2 Human Services	City Emergency Manager
FA 3 Infrastructure Services	Public Works Department
FA 4 Recovery Strategy	City Emergency Manager

Basic Plan

1

Introduction

1.1 General

The City of Baker City emergency management mission is to ensure the City is prepared for a disaster by ensuring coordination of protection prevention, mitigation, response and recovery activities that increase the City's capabilities to minimize loss of life and reduce impacts from disasters.

Emergencies are handled effectively in the City every day. These "routine" emergencies are managed by emergency responders as part of their day-to-day responsibilities and are the most common emergency management activities that the City encounters. For the most part, these emergencies are handled by individual responders or a team of responders who work together regularly to save lives, contain threats and minimize damage. While the principles described in this Emergency Operations Plan (EOP) can also be applied to these daily responses, the plan is primarily designed to offer guidance for larger or more complex incidents related to a broad spectrum of hazards that exceed the response capability and / or resources of front line responders.

No plan can anticipate all situations and conditions that may arise during emergencies, and on-scene incident commanders must have the discretion to act as they see fit based on the specific circumstances of the incident at hand. It is imperative, however, that all jurisdictions and response agencies have a plan that provides general guidance and a common framework for preparing for, responding to and recovering from emergencies and disasters. This plan promulgates such a framework within the City that will bring a combination of technical capabilities and resources, plus the judgment and expertise of its emergency response personnel, department directors and other key stakeholders to bear on any incident. This EOP provides the foundation and guidance for use of a common language, fundamental principles and incident management system necessary to effectively manage incidents within or affecting the City.

No guarantee of a perfect response system is expressed or implied by this plan, implementing instructions or procedures. Recognizing City government assets and systems are vulnerable to natural and technological disaster, they may be overwhelmed. The City can only attempt to make every reasonable effort to respond based on the situation, information, and resources available at the time of disaster.

1. Introduction

1.1.1 Whole Community Planning

The ‘Whole Community’ planning approach is based on the recognition that it takes all aspects of a community to effectively prepare for, protect against, respond to, recover from, and mitigate against any disaster. This includes all emergency management partners, including volunteer, faith, and community-based organizations; the private sector; and the public.

Every person who lives or works in the City shares responsibility for minimizing the impact of disasters on the community. These individual responsibilities include hazard awareness, knowledge of appropriate protective actions, taking proactive steps to mitigate the impact of anticipated hazards, and preparations for personal and family safety and self-sufficiency. To the extent possible, the City will assist its citizens in carrying out this responsibility by providing preparedness and mitigation information, and delivering critical public services during a disaster. However, the reality is that a major emergency is likely to damage the City’s critical infrastructure and reduce the workforce available to continue essential government services. Knowledgeable citizens prepared to take care of themselves and their families in the early phases of an emergency can make a significant contribution towards survival and community resiliency.

1.2 Purpose and Scope

1.2.1 Purpose

The City EOP outlines the City’s approach to emergency response and enhances the City’s ability to protect the safety, health, and welfare of its citizens. The EOP describes the City’s emergency response organization and assigns responsibilities for various emergency functions, identifies lines of authority and coordination, and communicates the legal basis and references that provide a framework for emergency planning in the City. The EOP:

- Includes all hazards and types of emergencies likely to impact the City.
- Provides a framework for multi-discipline, multi-jurisdictional coordination and cooperation.
- Addresses all phases of a disaster through mitigation, preparedness, response, and recovery activities.
- Designates the National Incident Management System (NIMS) as the framework within which all emergency management activities occur.
- Directs use of the Incident Command System (ICS) for managing incident response.

1. Introduction

- Identifies roles and responsibilities of City departments, offices, and personnel in emergency operations, as well as those of cooperating public- and private-sector entities.
- Establishes life safety followed by property and the environment as emergency response priorities.
- Provides a common framework within which the City, county, special districts, and other agencies / organizations can integrate their emergency planning and response and recovery activities.

1.2.2 Scope

The EOP is activated whenever the City must respond to an emergency incident or planned event, the size or complexity of which is beyond that normally handled by routine operations. Such occurrences may include natural or man-made disasters and may impact unincorporated areas of the City, incorporated municipalities, or a combination thereof. This plan is intended to guide the City's emergency operations while complementing and supporting the emergency response plans and procedures of responding agencies, other local governments, special districts, and other public and private-sector entities.

A community's emergency management infrastructure is a complex network of relationships. The EOP establishes roles, responsibilities, and relationships among agencies and organizations involved in emergency operations, greatly facilitating multi-agency and multi-jurisdiction coordination. Using this framework, City departments and agencies that operate under this plan are expected to develop and keep current standard operating procedures (SOPs) that describe how emergency tasks will be performed. Additional responsibilities include ensuring the training and equipment necessary for response are in place.

The primary users of this plan are elected officials, department heads and their senior staff members, emergency management staff, coordinating response agencies and other stakeholders that support emergency operations. The general public is also welcome to review non-sensitive parts of this plan to better understand the processes by which the City manages the wide range of risks to which it is subject.

1.3 Plan Activation

Once promulgated by the City Council, the EOP is in effect and may be implemented in whole or in part to respond to:

- Incidents in or affecting the City;
- Health emergencies in or affecting the City; and
- Non-routine life-safety issues in or affecting the City.

1. Introduction

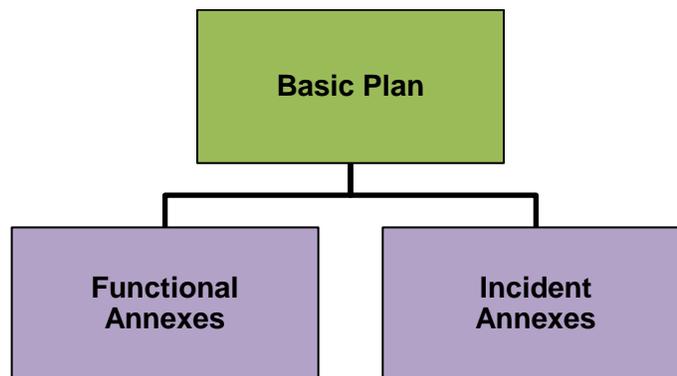

An Emergency Declaration is not required to implement the EOP or activate the Emergency Operations Center (EOC) / Emergency Coordination Center (ECC). The Emergency Manager, currently designated to be the City Manager, may implement the EOP as deemed appropriate for the situation or at the request of an Incident Commander (IC). The Emergency Manager may also appoint a designee to implement the EOP or activate the EOC / ECC.

1.4 Plan Organization

The City EOP is comprised of three main elements:

- Basic Plan (with Appendices);
- Functional Annexes (FAs); and
- Incident Annexes (IAs).

Figure 1-1 Baker City EOP Plan Organization

1.4.1 Basic Plan

The purpose of the Basic Plan is to:

- Provide a description of the legal authorities upon which the City has structured its Emergency Management Organization (EMO), including the emergency declaration process, activation of mutual aid agreements, and request for resources and emergency spending powers.
- Describe the context under which the City will respond to an incident, including a community profile and discussion of hazards and threats facing the community.
- Assign and describe roles and responsibilities for the City's employees tasked with emergency preparedness and response functions.

1. Introduction

- Describe a concept of operations for the City that describes how the City will conduct its emergency operations and coordinate with other agencies and jurisdictions.
- Describe the City's emergency response structure, including activation and operation of the City Emergency Operations Center (EOC) / Emergency Coordination Center (ECC) and implementation of ICS.
- Discuss the City's protocols for maintaining and reviewing this EOP, including training, exercises, and public education components.

1.4.2 Functional Annexes

The Functional Annexes (FAs) focus on critical tasks, capabilities, and resources provided by emergency response agencies for the City throughout all phases of an emergency. In the event of an incident for which the City's capabilities and/or resources are limited or exhausted, each annex clearly defines escalation pathways and resource request procedures for seeking additional support from County agencies are clearly defined in each annex.

For the purposes of this EOP, information regarding common management functions performed by the City and supporting agencies and organizations are grouped into four FAs, which supplement the information in the Basic Plan:

- FA 1 – Emergency Services;
- FA 2 – Human Services;
- FA 3 – Infrastructure Services; and
- FA 4 – Recovery Strategy.

The FAs are designed to be consistent with the 15 Emergency Support Function (ESF) annexes of the County EOP. Recognizing that the City relies on the County or other response partners to provide certain functions, the information was grouped to streamline the planning document and be more reflective of the City's organization and capabilities. Tables 1-1 through 1-4 show the relationship between the City's FAs and the County ESF annexes. This structure is also consistent with the State of Oregon EOP and the NRF. City emergency personnel should be familiar with the County's EOP and ESF structure to better understand how the City's response efforts would be coordinated with the County during an emergency event.

1. Introduction

1. Introduction

County ESFs	City Function
ESF 14 – Long-Term Community Recovery	<i>City supports County</i>
<p>NOTE: Additional functions described in the Recovery Strategy Annex may include long-term recovery activities such as:</p> <ul style="list-style-type: none"> ■ Community Planning and Capacity Building ■ Economic Recovery ■ Health and Social Services Recovery ■ Housing Recovery ■ Infrastructure Systems Recovery ■ Natural and Cultural Resources Recovery 	

1.4.3 Incident Annexes

While this EOP is developed as an all hazards planning document, there may be unique considerations that must be taken into account for specific hazards. To that end, IAs supplement the Basic Plan to identify critical tasks particular to specific natural and human-caused/technological hazards. The IAs are designed as functional checklists that identify step by step actions for each hazard through the pre-incident, response, and recovery phases of an incident. Table 1-5 identifies the IAs included in this plan.

Annex	Hazard
IA 1	Drought
IA 2	Earthquake
IA 3	Major Fire
IA 4	Flood
IA 5	Severe Weather
IA 6	Volcano
IA 7	Hazardous Materials Incident
IA 8	Public Health Incident
IA 9	Terrorism
IA 10	Transportation Accident
IA 11	Utility Incident / Major Interruption

Note: Resource shortages and civil disobedience are considered secondary risks during any emergency situation.

1.5 Relationship to Other Plans

1.5.1 Federal Plans

1.5.1.1 Presidential Policy Directive 8

Presidential Policy Directive 8: National Preparedness (PPD-8) describes the Nation's approach to preparing for the threats and hazards that pose the greatest risk to the security of the United States. National preparedness is the shared responsibility of our whole community. Every member contributes, including individuals, communities, the private and nonprofit sectors, faith based organizations, and Federal, state, and local governments.

1.5.1.1.1 National Preparedness Goal

The National Preparedness Goal describes the Nation's security and resilience posture through identifying key mission areas and core capabilities that are necessary to deal with great risks, using an integrated, layered, and all-of-Nation approach as our foundation.

Using the core capabilities, the National Preparedness Goal is achieved by:

- Preventing, avoiding, or stopping a threatened or an actual act of terrorism.
- Protecting our citizens, residents, visitors, and assets against the greatest threats and hazards in a manner that allows our interests, aspirations, and way of life to thrive.
- Mitigating the loss of life and property by lessening the impact of future disasters.
- Responding quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of a catastrophic incident.
- Recovering through a focus on the timely restoration, strengthening, and revitalization of infrastructure, housing, and a sustainable economy, as well as the health, social, cultural, historic, and environmental fabric of communities affected by a catastrophic incident.

1.5.1.1.2 National Preparedness System

The National Preparedness System is the instrument the Nation will employ to build, sustain, and deliver those mission areas and core capabilities identified in the National Preparedness Goal, in order to achieve the goal of a secure and resilient Nation. The guidance, programs, processes, and systems that support each component of the National Preparedness System enable a collaborative, whole community approach to national preparedness that engages individuals,

1. Introduction

families, communities, private and nonprofit sectors, faith-based organizations, and all levels of government.

1.5.1.2 National Incident Management System

In 2003, Homeland Security Presidential Directive (HSPD) 5 required all Federal agencies to adopt NIMS and use it to guide incident management. NIMS provides a consistent nationwide framework and comprehensive approach to enable government at all levels, the private sector, and nongovernmental organizations to work together to prepare for, prevent, respond to, recover from, and mitigate the effects of incidents regardless of their cause, size, location, or complexity.

A core component of NIMS is ICS. ICS is a management system designed to enable effective, efficient incident management by integrating a combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure.

1.5.1.3 National Response Framework

The NRF is a guide to how state and Federal government should conduct all-hazards response. It is built upon a scalable, flexible, and adaptable coordination structure to align key roles and responsibilities across the country. It describes specific authorities and best practices for managing incidents that range from the serious, but purely local, to large-scale terrorist attacks or catastrophic natural disasters.

The NRF organizes the types of response assistance a state is most likely to need into 15 ESFs. Each ESF has a primary agency assigned for maintaining and coordinating response activities.

1.5.1.4 National Disaster Recovery Framework

The NDRF provides guidance that enables effective recovery support to disaster-impacted states, tribes, and local jurisdictions. It provides a flexible structure that enables disaster recovery managers to operate in a unified and collaborative manner. It also focuses on how best to restore, redevelop, and revitalize the health, social, economic, natural, and environmental fabric of the community and build a more resilient Nation.

The NDRF defines:

- Core recovery principles;
- Roles and responsibilities of recovery coordinators and other stakeholders;
- A coordinating structure that facilitates communication and collaboration among all stakeholders;
- Guidance for pre- and post-disaster recovery planning; and

1. Introduction

- The overall process by which communities can capitalize on opportunities to rebuild.

1.5.2 State Plans

1.5.2.1 State of Oregon Emergency Management Plan

The Oregon EMP is developed, revised, and published by the Director of Oregon Emergency Management (OEM) under the provisions of Oregon Revised Statutes (ORS) 401.092, which are designed to coordinate the activities of all public and private organizations that provide emergency services within the State of Oregon and to provide for and staff a State Emergency Coordination Center (ECC) to aid the Governor. ORS 401.035 makes the Governor responsible for the emergency services system within the State of Oregon. The Director of OEM advises the Governor and coordinates the State's response to an emergency or disaster.

The Oregon EMP consists of three volumes:

- *Volume I: Preparedness and Mitigation* consists of plans and guidance necessary for State preparation to resist a disaster's effects. Sections include disaster hazard assessment, the Emergency Management Training and Exercise Program, and plans to mitigate (or lessen) a disaster's physical effects on citizens, the environment, and property.
- *Volume II: Emergency Operations Plan* broadly describes how the State uses organization to respond to emergencies and disasters. It delineates the EMO; contains FAs that describe the management of functional areas common to most major emergencies or disasters, such as communications, public information, and others; and contains hazard-specific annexes.
- *Volume III: Relief and Recovery* provides State guidance, processes, and rules for assisting Oregonians with recovery. It includes procedures for use by government, business, and citizens.

Activation and implementation of the Oregon EMP or specific elements of the plan may occur in various situations. The following criteria would result in activation of the EMP, including the EOP:

- The Oregon Emergency Response System receives an alert from an official warning point or agency, indicating an impending or probable incident or emergency.
- The Governor issues a "State of Emergency".
- A statewide disaster is imminent or occurring.
- Terrorist activities or weapons of mass destruction incidents are occurring or imminent.

1. Introduction

- An alert, site emergency, or general emergency is declared at the Washington Hanford Nuclear Reservation in Washington State or at the research reactors at Oregon State University or Reed College.
- A localized emergency escalates, adversely affecting a larger area or jurisdiction and exceeding local response capabilities.
- A geographically limited disaster requires closely coordinated response by more than one State agency.
- An affected city or county fails to act.

1.5.3 County Plans

The City relies on the County for many critical services during an emergency so it is vital to have an understanding of what plans the County has in place and how they link with City emergency plans.

1.5.3.1 Baker County Emergency Operations Plan

The County EOP is an all-hazard plan describing how the County will organize and respond to events that occur in individual cities, across the County, and in the surrounding region. The plan describes how various agencies and organizations in the County will coordinate resources and activities with other Federal, State, local, tribal, and private-sector partners. Use of NIMS / ICS is a key element in the overall County response structure and operations.

The County EOP Basic Plan describes roles, responsibilities, and concepts of operations, command, and control, while clearly defining escalation pathways and legal authorities involved with critical decision making and resource allocation by local and County governments. The 15 ESF annexes supplement the information in the Basic Plan and are consistent with the support functions identified in State and Federal plans. Each ESF serves as an operational-level mechanism for identifying primary and support entities to maintain capabilities for providing resources and services most likely needed throughout all phases of an emergency. In addition, the County EOP contains IAs to provide tactical information and critical tasks unique to specific natural and human-caused/technological hazards that could pose a threat to the County.

If capabilities or resources prove limited or unavailable to the City during an emergency or disaster, escalation pathways and resource request procedures for seeking additional resources through County, State, or Federal agencies are clearly defined in each County ESF.

1.5.3.2 Regional Hazard Mitigation Plan

The Regional Natural Hazard Mitigation Plan for northeast Oregon forms the foundation for the County's long-term strategy to reduce disaster losses and break the cycle of disaster damage, reconstruction, and repeated damage. The plan creates a framework for risk-based decision making to reduce deaths and injuries,

1. Introduction

property damage, and the economic impact from future disasters. Hazard mitigation is sustained action taken to reduce or eliminate long-term risk to people and their property from hazards.

See Chapter 2 for a more detailed hazard analysis.

1.5.3.3 Baker County Public Health Emergency Preparedness Program

The Baker County Health Department is responsible for developing plans to address how public health personnel plan for, respond to, and recover from all hazards that may impact public health, including communicable disease, pandemic scenarios, chemical incidents, radiological incidents and bioterrorism. The department maintains guidelines for public health personnel responding to a public health incident in the county.

County public health administrators are charged with the strict and thorough enforcement of the public health laws of Oregon. As part of their duties, they may enact protective public health measures on matters relating to the preservation of life and health of the people of the State. Except for a naturally occurring pandemic, a bioterrorism event may be the most challenging experience the public health arena will ever face. The control of such an epidemic requires a coordinated effort of public health, public safety agencies, and emergency management organizations traditionally lacking in integrated operations.

1.5.3.4 Baker County Community Wildfire Protection Plan

The Baker County Community Wildfire Protection Plan is the result of a countywide effort initiated to reduce wildland fire risk to communities and their citizens, the environment and quality of life within the County. Citizens, fire districts, county staff or elected officials, and agency representatives have worked together to create a plan that would be successful in implementing fuels reduction projects, fire prevention education campaigns, and other fire related programs.

Developed by the local coordinating group comprised of rural fire protection districts, local government, State and Federal agencies, and community-based organizations, the plan mission is to enhance community safety and values through fuel hazard reduction, risk reduction, fire prevention and reduce the risk from wildland fire to life, property and natural resources in the County.

1.5.4 City Plans

1.5.4.1 Continuity of Operations Plan

The City has not formalized a City Continuity of Operations (COOP) plan to date. However, once they have been developed and implemented, these plans may be used in conjunction with the EOP during various emergency situations. A COOP plan details the processes for accomplishing administrative and operational functions during emergencies that may disrupt normal business activities. Parts of these plans identify essential functions of local government, private sector

1. Introduction

businesses, and community services and delineate procedures to support their continuation. COOP plan elements may include, but are not limited to:

- Identification and prioritization of essential functions.
- Establishment of orders of succession for key positions.
- Establishment of delegations of authority for making policy determination and other decisions.
- Identification of alternate facilities, alternate uses for existing facilities, and, as appropriate, virtual office options, including telework.
- Development of interoperable communications systems.
- Protection of vital records needed to support essential functions.
- Management of human capital.
- Development of a Test, Training, and Exercise Program for continuity situations.
- Devolution of Control planning.
- Reconstitution and resumption of normal operations.

1.5.4.2 Natural Hazards Mitigation Plan

The City does not have a formal Hazard Mitigation Plan at this time.

Hazard mitigation planning is undertaken by the Baker County Hazard Mitigation Team which includes Baker City staff members. Chapter 2 provides a more detailed hazard analysis.

1.5.5 Support Agency Plans

The City's EMO is supported by a number of partner agencies. To the extent possible the City encourages support agencies to design their plans to complement the City EOP. The City will seek to engage support agencies in the EOP update process to ensure appropriate linkages.

1.6 Authorities

1.6.1 Legal Authorities

In the context of this EOP, a disaster or major emergency is characterized as an incident requiring the coordinated response of all government levels to save the lives and protect the property of a large portion of the population. This plan is issued in accordance with, and under the provisions of, ORS Chapter 401, which

1. Introduction

establishes the authority for the highest elected official of the City Council to declare a state of emergency.

The City conducts all emergency management functions in a manner consistent with NIMS. Procedures supporting NIMS implementation and training for the City will be developed and formalized by the City EMO.

As approved by the City Council, City Emergency Management has been identified as the lead entity in the EMO. The City Manager, given the collateral title of Emergency Manager, has the authority and responsibility for the organization, administration, and operations of the EMO. The Emergency Manager may delegate any of these activities to designees as appropriate.

Table 1-6 sets forth the Federal, State, and local legal authorities upon which the organizational and operational concepts of this EOP are based.

Baker City
<ul style="list-style-type: none"> – Baker City adopted NIMS through Joint Resolution between the County of Baker and all incorporated cities within Baker County – Baker City has also formally adopted NIMS with the City EOP

1.6.2 Mutual Aid and Intergovernmental Agreements

State law (ORS 402.010 and 402.015) authorizes local governments to enter into Cooperative Assistance Agreements with public and private agencies in accordance with their needs (e.g., the Omnibus Mutual Aid Agreement). Personnel, supplies, and services may be used by a requesting agency if the granting agency cooperates and extends such services. However, without a mutual aid pact, both parties must be aware that State statutes do not provide umbrella protection except in the case of fire suppression pursuant to ORS 476 (the Oregon State Emergency Conflagration Act).

See individual FAs for existing Mutual Aid Agreements.

Copies of these documents can be accessed through the Emergency Manager or designee. During an emergency situation, a local declaration may be necessary to activate these agreements and allocate appropriate resources.

1.7 Emergency Powers

1.7.1 General

Based on local ordinances and state statutes, a local declaration by the City Council allows for flexibility in managing resources under emergency conditions such as:

- Diverting funds and resources to emergency operations in order to meet immediate needs;
- Authorizing implementation of local emergency plans and implementing extraordinary protective measures;
- Receiving resources from organizations and individuals initiated through mutual aid and cooperative assistance agreement channels;
- Providing specific legal protection for actions initiated under emergency conditions;
- Setting the stage for requesting State and / or Federal assistance to augment local resources and capabilities; and

1. Introduction

- Raising public awareness and encouraging the community to become involved in protecting their resources.

The City Attorney should review and advise City officials on possible liabilities arising from disaster operations, including the exercising of any or all of the above powers.

1.7.2 Baker City Disaster Declaration Process

A declaration of emergency by the City is the first step in accessing State and Federal disaster assistance. As authorized by the Emergency Procedures Ordinance of the City Code of Ordinances, the City Manager may request that the City Council declare a state of emergency, or issue the declaration when the City Council is not reasonably available.

When the declaration is made by the City Manager, the City Council will ratify the declaration within seven days. *The emergency declaration is not invalidated should the City Council be unable to meet within seven days.*

This declaration is in effect until the City Council or other authorized person terminates the state of emergency when the emergency, or threat of emergency, no longer exists.

OEM has set forth the following criteria necessary in declaring a local emergency:

- Describe the circumstances impacting an identified area.
- Identify the problems for which assistance is needed.
- Clearly state what has been done locally to respond to the impact and needs.

If County, State, or Federal assistance is needed, it must also declare that all appropriate and available local resources have been expended and contain a request to the Governor for the type of assistance required. The Command and General Staff have the following responsibilities in the declaration process:

- **Command.** Present the package to City Council.
 - **Liaison Officer.** If the declaration is approved by the City Council notify neighboring jurisdictions.
- **Operations.** Identify necessary resources and outline special powers needed to respond to the emergency. Assist in initial damage assessment.
- **Planning.** Provide situation and resource summaries and initial and preliminary damage assessments.
- **Logistics.** Compile resource requests.

1. Introduction

- **Finance.** Assist in preliminary damage assessment and coordinate damage survey activities.

See Appendix B for sample Declaration of Emergency forms.

1.7.3 Baker County Declaration Process

Under ORS 401.309, the Baker County Board of Commissioners (BOC) has the legal authority to declare that a local emergency or disaster exists. Declaration of a local disaster enables the County BOC to invoke emergency authorities and to request additional resources from State or Federal Government. On such declaration, the Chair of the County BOC or designee is empowered to assume centralized control of, and have authority over, all departments and offices of the County for the purposes of responding to and overcoming the disaster event at hand. The state of emergency shall be terminated when the event no longer exists or the threat of an emergency has passed.

If the emergency area is within a city, the Chief Executive(s) of that city must process requests for assistance through the County Emergency Management Office. Requests for a State Declaration shall be made by the Executive Officer(s) of the County in which the emergency event is occurring. State assistance will be provided only after a “good faith” effort has been made, local resources are exhausted or nearing depletion, and mutual aid agreements have been initiated. Local resources include those available under mutual aid or through the County.

The following documents need to be forwarded to the County BOC for action:

- County BOC Order declaring an emergency, including a description of the disaster event, impacted areas, loss of life and injuries, damages to property, special powers enacted, and local resources applied to the disaster;
- Supporting documentation or findings as determined necessary by the Chair of the County BOC or successor; and
- Letter to the Governor advising of the County’s declaration and the request for a State declaration as appropriate, as well as any requests for assistance.

Requests for State assistance will be forwarded to OEM as soon as practical. These requests may be sent via FAX as the most expedient method if operable and available. The OEM FAX number is 503-588-1378. The original, signed copy will be either mailed or hand delivered, whichever is most secure and appropriate in a given situation.

If circumstances prohibit timely action by the BOC, the Chair of the BOC, or the succeeding Commissioner may verbally declare a state of emergency. For purposes of the immediate emergency, a single Commissioner’s signature will carry full authority for the County Emergency Declaration. A formal review

1. Introduction

before the County BOC will follow as soon as prudently possible, with a signed order replacing the emergency order.

1.7.4 State Assistance

State assistance may be provided after local resources are exhausted, nearing depletion, or projected to be inadequate, and mutual aid agreements have been initiated.

The State OEM Operations Officer coordinates with the agencies represented in the State Emergency Coordination Center (State ECC) to determine the best way to support local government requests. The Operations Officer evaluates resource requests based on the goals and priorities established by the Director. Agency representatives keep the Operations Officer informed of resources assigned, resources available for commitment, and the status of assigned missions.

State resources are provided to the local emergency management organization or to the local incident commander as agreed by the entities concerned. The OEM Director makes final decisions in cases of conflicting interest such as competing resource requests or priority questions.

1.7.5 Federal Assistance

The Federal Emergency Management Agency (FEMA) provides resources, coordination, planning, training, and funding to support state and local jurisdictions when requested by the Governor.

In the event that the capabilities of the State are not sufficient to meet the requirements as determined by the Governor, Federal assistance may be requested. OEM coordinates all requests for federal assistance through the State ECC. FEMA coordinates the Governor’s Presidential request for assistance in accordance with the NRF.

1.8 Continuity of Government

1.8.1 Lines of Succession

Table 1-7 provides the policy and operational lines of succession during an emergency for the City.

Table 1-7 City Lines of Succession	
Emergency Coordination	Emergency Policy and Governance
City Manager	Mayor and Councilor
Fire Chief	Acting Mayor and Councilor
Chief of Police	Most Senior Councilor

Each City department is responsible for pre-identifying staff patterns showing a line of succession in management’s absence. Lines of succession for each

1. Introduction

department can be found in the City Manager's Office / Emergency Management, Fire, Police, Public Works, and Finance Department. All employees shall be trained on the protocols and contingency plans required to maintain leadership within their departments. The Emergency Manager or designee will provide guidance and direction to department heads to maintain continuity of government and operations during an emergency. Individual department heads within the City are responsible for developing and implementing COOP / COG plans to ensure continued delivery of vital services during an emergency.

1.8.2 Preservation of Vital Records

Each City department must provide for the protection, accessibility and recovery of the agency's vital records, systems and equipment. These are records, systems, and equipment that if irretrievable, lost, or damaged will materially impair the agency's ability to conduct business or carry out essential functions. In regard, each agency should have a maintenance program for the preservation and quality assurance of data and systems. The program should take into account the cost of protecting or reconstructing records weighed against the necessity of the information to achieving the agency mission.

1.9 Administration and Logistics

1.9.1 Request, Allocation, and Distribution of Resources

Resource requests and emergency / disaster declarations must be submitted by the City Manager to the County Emergency Manager according to provisions outlined under ORS Chapter 401.

The City Manager is responsible for the direction and control of the City's resources during an emergency and for requesting any additional resources required for emergency operations. All assistance requests are to be made through County Emergency Management via the County EOC / ECC. County Emergency Management processes subsequent assistance requests to the State.

In the case of emergencies involving fires threatening life and structures, the Conflagration Act (ORS 476.510) can be invoked by the Governor through the Office of State Fire Marshal. This act allows the State Fire Marshal to mobilize and fund fire resources throughout the State during emergency situations. The Baker City Fire Department Fire Chief assesses the status of the incident(s) and, after determining that all criteria have been met for invoking the Conflagration Act, notifies the State Fire Marshal via the Oregon Emergency Response System. The State Fire Marshal reviews the information and notifies the Governor, who authorizes the act.

1.9.2 Financial Management

During an emergency, the City is likely to find it necessary to redirect City funds to effectively respond to the incident. The authority to adjust department budgets and funding priorities rests with the City Council. If an incident in the City

1. Introduction

requires major redirection of City fiscal resources, the City Council will meet in emergency session to decide how to respond to the emergency funding needs, declare a State of Emergency, and request assistance through the County as necessary.

The following general procedures will be carried out:

- The City Council will meet in emergency session to decide how to respond to the emergency funding needs.
- The City Council will declare a State of Emergency and request assistance through the County.
- If a quorum of councilors cannot be reached, and if a prompt decision will protect lives, City resources and facilities, or private property, the City Manager (or designee) may act on emergency funding requests. The Mayor and City Council will be advised of such actions as soon as practical.
- To facilitate tracking of financial resources committed to the incident, and to provide the necessary documentation, a discrete charge code for all incident-related personnel time, losses, and purchases will be established by the Finance Section.

Expenditure reports should be submitted to the Finance Department and managed through the Finance Director to identify budgetary shortfalls. The Finance Department will support procurement issues related to personnel, both volunteer and paid. In addition, copies of expense records and all supporting documentation should be submitted for filing FEMA Public Assistance reimbursement requests. During activation of the City EOC / ECC, financial management will be handled by the Finance Section which will be staffed by the Finance Department.

1.9.3 Legal Support and Liability Issues

Liability issues and potential concerns among government agencies, private entities, and other response partners and across jurisdictions are addressed in existing mutual aid agreements and other formal memoranda established for the City and its surrounding areas.

1.9.4 Reporting and Documentation

Proper documentation and reporting during an emergency is critical for the City to receive proper reimbursement for emergency expenditures and to maintain a historical record of the incident. City staff will maintain thorough and accurate documentation throughout the course of an incident or event. Incident documentation should include:

- Incident and damage assessment reports;

- Incident command logs;
- Cost recovery forms; and
- Incident critiques and after action reports (AARs).

1.10 Safety of Employees and Family

All department heads or designees are responsible for the safety of employees. Employees should attempt to make contact with their supervisors and managers within the first 24 hours following an incident. Emergency 9-1-1 should only be utilized if emergency assistance is needed. Agencies and departments with developed COOP plans will establish alternate facilities and staff locations, as applicable. Notification procedures for employee duty assignments will follow required procedures established by each agency and department.

During biological incidents or public health emergencies such as influenza pandemics, maintaining a resilient workforce is essential to performing the overall response activities required to protect the City and surrounding community from significant impacts to human lives and the economy. Thus, personnel should be provided with tools to protect themselves and their families while they provide health and medical services during a pandemic or other type of public health emergency.

Baker City has a pandemic response plan that addresses the safety and protection of medical and response personnel. Safety precautions and personal protective equipment decisions will be specific to the type of incident and will require just-in-time training among the first responder community and other support staff to implement appropriate procedures.

If necessary, the Oregon Occupational Safety and Health Administration, in coordination with the Oregon Health Authority, may provide assistance and guidance on worker safety and health issues. Information about emergency procedures and critical tasks involved in a biological emergency incident or disease outbreak is presented in ESF 8 of the County EOP.

While all City agencies and employees are expected to contribute to the emergency response and recovery efforts of the community, employees' first responsibility is to their own and their families' safety. Each employee is expected to develop family emergency plans to facilitate family safety and self-sufficiency, which in turn will enable employees to assume their responsibilities to the County and its citizens as rapidly as possible.

Processes that support employees and their families during emergency situations or disasters will be further developed through ongoing COOP planning.

THIS PAGE LEFT BLANK INTENTIONALLY

2

Situation and Planning Assumptions

2.1 Situation

Baker City is exposed to many hazards, all of which have the potential to disrupt the community, causing damage and creating casualties. Possible natural hazards include droughts, floods, wildfires, and winter storms. Acts of violence, such as school shootings, and the threat of a war or terrorism-related incident such as a nuclear, biochemical, or conventional attack is present as well. Other disaster situations could develop from hazardous material accidents, health-related incidents, conflagrations, major transportation accidents, or major utility disruptions.

2.1.1 Community Profile

Baker City characteristics are described in the sub-sections that follow. Data was derived from the US Census Bureau American Community Survey 5-Year Estimates for 2005-2009 as well as the Baker County Chamber of Commerce and Visitors Bureau and Baker School District websites.

2.1.1.1 Geography

Baker City is the Baker County seat, located in the northeast corner of Oregon between the Wallowa Mountains to the east and the Elkhorn Mountains to the west. The City has a total land area of 6.9 square miles (US Census Bureau). The City of La Grande in Union County is the nearest major city, located approximately 44 miles northwest of Baker City. I-84 serves as the connecting route between the two cities.

Water bodies within the city limits include the Powder River, Old Settlers Slough, and Kolb Reservoir. The Mason Dam and Phillips Reservoir are located approximately 17 miles to the southwest.

2.1.1.2 Demographics

The total population of Baker City is 9,470. The median age is 41, with 1,176 residents under 10 years of age and 1,695 above 65. The population is 49% male and 51% female. There are 4,583 housing units in Baker City, 527 of which are vacant. The average household size is 2.3 persons (US Census Bureau).

2. Situation and Assumptions

2.1.1.3 Economy

In Baker City, 59% (4,462) of the population is in the workforce (16 years and older as defined by the US Census Bureau) with an unemployment rate of 8.6%. The following industries provide employment to City residents. *The percentage of the total workforce represented in each industry is indicated in parentheses:*

- Educational and healthcare services (20%)
- Retail trade (13%)
- Entertainment, recreation, accommodation, and food services (12%)
- Manufacturing (10%)
- Construction (8%)
- Agriculture, forestry, fishing and hunting, and mining (7%)
- Public administration (7%)
- Transportation and utilities (6%)
- Real estate and finance (5%)
- Other (12%)

The mean annual household income is \$43,188 and per capita income is \$18,488 (US Census Bureau).

2.1.1.4 Education

The Baker School District includes two elementary schools, one middle school, and one high school. Baker High School, Baker Middle School, Brooklyn Primary, and South Baker Intermediate are located in Baker City proper. The Baker School District enrolled 1,698 K-12 students in the 2011-2012 school year.

2.1.1.5 Transportation

There is limited public transit in the Baker City, provided by Community Connection of Northeast, Inc. There is no passenger rail service, but there is an active freight rail line run by Union Pacific Railroad, which traverses the City on a northwest-southeast diagonal.

The nearest interstate roadway is I-84 east of the city. US Route 30 and Oregon Route 7 both pass through downtown.

The Baker City Municipal Airport is located Northeast of the City boundary.

An estimated 74% of the population commutes to work alone by car, truck, or van; 11% commute by carpooling; Less than 1% (12 residents) use public

2. Situation and Assumptions

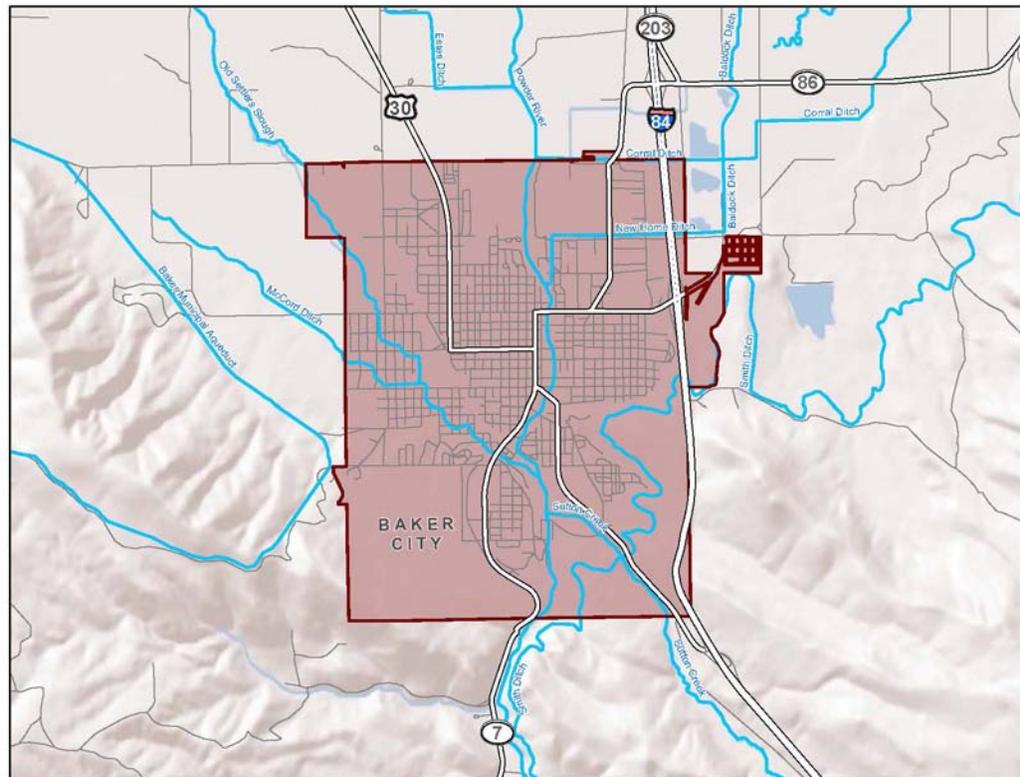

transport (excluding taxi), 5% walk, 6% use other means, at 4% telecommute (US Census Bureau).

2.1.1.6 Community Events

Baker City hosts a number of annual festivals and events. This includes, but is not limited to the following events:

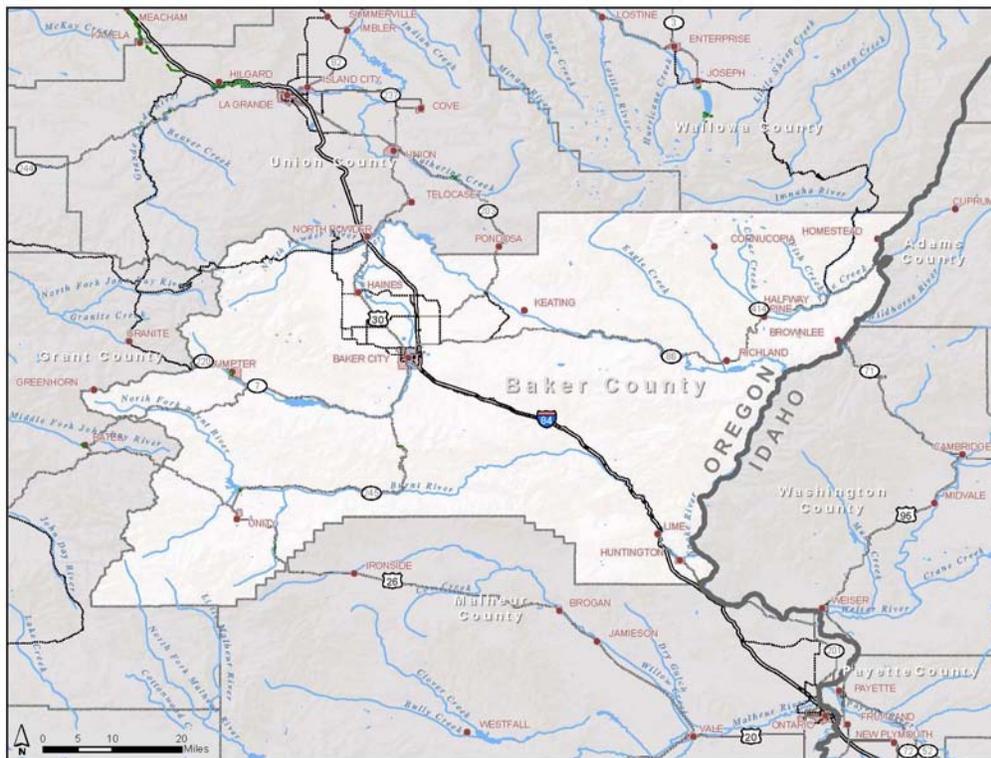

- Oregon School Activities Association basketball tournaments
- Baker City Cycling Classic
- Hell's Canyon Motorcycle Rally
- Miners' Jubilee
- East-West Shrine High School football game

Figure 2-1 Map of Baker City

2. Situation and Assumptions

Figure 2-2 Map of Baker County

2.1.2 Hazards and Threats

The City may be subject to a variety of natural, technological, and human-caused hazards and threats.

- **Natural Hazards.** Result from acts of nature.
- **Technological Hazards.** Result from accidents or the failures of systems and structures.
- **Threats or Human-Caused Incidents.** Result from intentional actions of an adversary.

Table 2-1 identifies the hazard/threat most likely to impact the City based on the community’s vulnerability and the resulting potential impacts of the hazard/threat.

Natural	Technological	Human-Caused
<ul style="list-style-type: none"> • Drought • Earthquake • Flood • Landslide 	<ul style="list-style-type: none"> • Dam Failure • Oil and Hazardous Materials • Utility Disruptions 	<ul style="list-style-type: none"> • School Shooting • Terrorism

2. Situation and Assumptions

Table 2-1 Baker City Identified Threats/Hazards		
Natural	Technological	Human-Caused
<ul style="list-style-type: none"> • Severe Weather • Volcano • Wildfire 		

2.1.2.1 Drought/Water Shortage

Baker City’s probability of and vulnerability to drought are high, which is the same as Baker County’s. Valley aquifers serving the agricultural community will be relied upon as a source of emergency water supply as primary supplies are depleted. The city may also be impacted by a water system failure which could limit the availability of water for general usage or fire suppression.

The City has the capacity to store approximately 200 million gallons of water in the event of a system disruption. The City also has a Water Curtailment Ordinance to be implemented by the Emergency Manager or designee as necessary.

2.1.2.2 Earthquake

Baker City has a low probability of an earthquake, which is the same as the County-level assessment. The City ranks its vulnerability as moderate, which is higher than the low vulnerability perceived at the County level.

2.1.2.3 Flood

Oregon’s most severe flooding occurs between November and February and most are associated with a period of intense warm rain on a heavy mountain snow pack. The probability of the City experiencing floods is low, while the County-level rating is high for localized floods. City and County vulnerabilities to flooding are considered moderate.

The State Regional Profile and Risk Assessment lists Old Settlers Slough as a principle flood source. Baker City does not consider the Slough a flood risk.

Baker County has identified the Powder River as one of the principle sources of flooding. Flood risks have declined since the Mason Dam was built; failure of this dam would pose flood risks to the City.

2.1.2.4 Landslide

Baker County has a high probability of a landslide, and moderate vulnerability. Several of Baker’s communities have limited evacuation routes. If road closures occur due to a landslide, populations may be isolated from emergency services. If road closures occur due to a winter storm, populations may be isolated from emergency services.

2. Situation and Assumptions

2.1.2.5 Oil and Hazardous Materials

Baker City faces the possibility of a HazMat spill occurring on the freight rail line or I-84 which traverse the City. Union Pacific shipments include petroleum and liquefied petroleum gas and various chemicals, and I-84 is a major thoroughway relied upon as a mode of transport for hazardous materials.

HazMat spills on either corridor could lead to negative impacts on human health and the environment. HazMat disasters on I-84 may require shutdowns on impacted segments of the roadway, leading to truck backups on the highway and at truck stops.

2.1.2.6 School Shooting

Baker High School, Baker Middle School, Brooklyn Primary, and South Baker Intermediate face the potential to experience a school shooting or other act of violence against the student body, faculty, and staff.

2.1.2.7 Severe Weather

Baker City may be impacted by a variety of severe weather (and cascading incidents) events including:

- **Wind Storms.** Baker County overall has a high probability of a windstorm, and moderate vulnerability. Many buildings, utilities, and transportation systems are vulnerable to damage from wind. Vulnerabilities also exist along tree-line roads and transmission lines and on residential parcels with trees. Insufficiently anchored manufactured homes and older buildings in need of roof repair are also particularly vulnerable to high winds.
- **Winter Storms/Blizzards.** The County has a high probability of and vulnerability to a winter storm event. Severe winter storms result in highway closures approximately 20 to 25 times per year. During these situations, travelers have to seek accommodations, sometimes in communities where lodging is very limited. Baker City residents must also be concerned with heating and food during a winter storm.

2.1.2.8 Utility Disruptions

Baker City is vulnerable to interruption of major utilities that service the City and its population (sewer, water, electrical, gas, oil, telecommunications) as a result of a storm, flood, earthquake, or other event with the potential to damage utility infrastructure.

Additionally, there is a natural gas pipeline that runs through the City which could impact the City through a disruption in service or a breach in the pipeline line leading to a hazardous leak or explosion.

2. Situation and Assumptions

2.1.2.9 Volcano

There are no volcanoes in close proximity to Baker City. Mount Saint Helens in Washington remains a possible source of air borne tephra (ashfall). Mount Jefferson in Oregon is another possible but unlikely source. Baker City is equally susceptible to tephra as other locations in Baker County. The annual probability of 1 cm or more of tephra accumulation from any Cascade volcano is about 1 in 5,000.

2.1.2.10 Wildfire

The County-level hazard analysis indicates high probability of a wildfire with particular wildland-urban interfaces (WUIs) designated as high or moderate priority. The majority of wildfires occur between June and October.

Baker City is concerned with the possibility of a wildfire encroaching on the City. Additionally the Baker City Watershed is susceptible to contamination from wildfire and is identify as a high priority WUI. The City's water quality may be threatened should a moderate to high intensity wildfire burn through the watershed area, resulting in public health concerns.

2.1.2.11 Hazards that Originate in Neighboring Jurisdictions

In addition to the hazards identified above hazards that originate in neighboring jurisdictions may create hazard conditions within the City. These hazards include:

- **Volcano.** See discussion above.
- **Tsunami.** As the City is located adjacent to a key eastbound travel, the City may be impacted by this proximity and the associated needs of residents fleeing from the impacts of a Cascadia Subduction Zone (or other catastrophic event) earthquake off the Oregon Coast. The City may be additionally impacted if a regional earthquake is the cause of the tsunami.

2.1.3 Hazard Analysis

In the Hazard Analysis, each of the hazards and threats described above is scored using a formula that incorporates four independently weighted rating criteria (history, vulnerability, maximum threat, and probability) and three levels of severity (low, moderate, and high). For each hazard, the score for a given rating criterion is determined by multiplying the criterion's severity rating by its weight factor. The four rating criteria scores for the hazard are then summed to provide a total risk score for that hazard.

Upon completion, the results of the Baker City hazard analysis will be provided in this EOP.

2. Situation and Assumptions

2.1.4 Capability Assessment

The availability of the City’s physical and staff resources may limit the City’s capability to conduct short- and long-term response actions on an independent basis. City response capabilities are also limited during periods when essential staff is on vacation, sick, or under furlough due to budgetary constraints.

Baker County previously completed an Office of Domestic Preparedness assessment, which may not reflect the current capabilities of Baker City. The City has not independently developed a formal capabilities assessment to date. Should one be developed in the future, it will summarize the jurisdiction’s prevention, protection, response, and recovery capabilities involving the defined hazards. It will also further describe the jurisdiction’s limitations on the basis of training, equipment and personnel.

Prevention	Protection	Mitigation	Response	Recovery
Planning				
Public Information and Warning				
Operational Coordination				
Forensics and Attribution Intelligence and Information Sharing Interdiction and Disruption Screening, Search, and Detection	Access Control and Identify Verification Cybersecurity Intelligence and Information Sharing Interdiction and Disruption Physical Protective Measures Risk Management for Protection Programs and Activities Screening, Search, and Detection Supply Chain Integrity and Security	Community Resilience Long-Term Vulnerability Reduction Risk and Disaster Resilience Assessment Threats and Hazard Identification	Critical Transportation Environmental Response/Health and Safety Fatality Management Services Infrastructure Systems Mass Care Services Mass Search and Rescue Operations On-Scene Security and Protection Operational Communications Public and Private Services and Resources Public Health and Medical Services Situational Assessment	Economic Recovery Health and Social Services Housing Infrastructure Systems Natural and Cultural Resources

2. Situation and Assumptions

2.1.5 Protection of Critical Infrastructure and Key Resources

Critical Infrastructure and Key Resources (CIKR) are owned and operated by the City or local partners and support the delivery of critical and essential services. This is essential to the City's security, public health and safety, and its economic vitality. CIKR includes the assets, systems, networks and functions that provide vital services to the city, state, region and sometimes the nation. Emergencies, natural hazards and terrorist attacks on CIKR could significantly disrupt those activities, produce cascading effects and result in large-scale human suffering, property destruction, economic loss and damage public confidence and morale.

Key facilities that should be considered in infrastructure protection planning include:

- Structures or facilities that produce, use, or store highly volatile, flammable, explosive, toxic and/or water reactive materials.
- Government facilities, such as departments, agencies, and administrative offices.
- Hospitals, nursing homes, and housing likely to contain occupants who may not be sufficiently mobile to avoid death or injury during a hazard event.
- Police stations, fire stations, vehicle and equipment storage facilities, and emergency operations centers that are needed for disaster response before, during, and after hazard events.
- Public and private utilities and infrastructure that are vital to maintaining or restoring normal services to areas damaged by hazard events

2.2 Assumptions

This EOP is based on the following assumptions and limitations:

- Essential City services will be maintained as long as conditions permit.
- An emergency will require prompt and effective response and recovery operations by City emergency services, disaster relief, volunteer organizations, and the private sector.
- All emergency response staff are trained and experienced in operating under the NIMS / ICS protocol.
- Each responding City and County agency will utilize existing directives and procedures in responding to major emergencies / disasters.

2. Situation and Assumptions

- Environmental, technological, and civil emergencies may be of a magnitude and severity that State and Federal assistance is required.
- County support of City emergency operations will be based on the principal of self-help. The City will be responsible for utilizing all available local resources along with initiating mutual aid and cooperative assistance agreements before requesting assistance from the County.
- Considering shortages of time, space, equipment, supplies, and personnel during a catastrophic disaster, self-sufficiency will be necessary for the first hours or days following the event.
- Local emergency planning efforts focus on accommodating residents while preparing for changes in population trends throughout the year. However, significant increases to the local population may introduce challenges in meeting the needs of non-residents and other travelers during an emergency or disaster.
- Parts or all of the City may be affected by environmental and technological emergencies.
- The United States Department of Homeland Security provides threat conditions over the United States and identifies possible targets.
- A terrorist-related incident or attack without warning may or may not occur. If such an attack occurs, the City could be subject to radioactive fallout or other WMD-related hazard. In accordance with national nuclear civil protection policy, two options have been developed to counteract such a threat: population protection and shelter-in-place programs.
- Outside assistance will be available in most major emergency/disaster situations that affect the City. Although this plan defines procedures for coordinating such assistance, it is essential for the City to be prepared to carry out disaster response and short-term actions on an independent basis.
- Control over City resources will remain at the City level even though the Governor has the legal authority to assume control in a State Declaration of Emergency.
- City communication and work centers may be destroyed or rendered inoperable during a disaster. Normal operations can be disrupted during a general emergency; however, the City can still operate effectively if public officials, first responders, employees, volunteers, and residents are:

2. Situation and Assumptions

- Familiar with established policies and procedures;
- Assigned pre-designated tasks;
- Provided with assembly instructions; and
- Formally trained in their duties, roles, and responsibilities required during emergency operations.

2. Situation and Assumptions

THIS PAGE LEFT BLANK INTENTIONALLY

3

Roles and Responsibilities

3.1 General

Local and County agencies and response partners may have various roles and responsibilities throughout an emergency's duration. Therefore, it is particularly important that the local command structure be established to support response and recovery efforts and maintain a significant amount of flexibility to expand and contract as the situation changes. Typical duties and roles may also vary depending on the incident's size and severity of impacts, as well as the availability of local resources. Thus, it is imperative to develop and maintain depth of qualified staff within the command structure and response community.

The County Emergency Manager is responsible for emergency management planning and operations for the area of the County lying outside the corporate limits of the incorporated municipalities of the County. The Mayor or other designated official (pursuant to city charter or ordinance) of each incorporated municipality is responsible for emergency management planning and operations for that jurisdiction. (These responsibilities may be shared with County Emergency Management under agreement.)

The City conducts all emergency management functions in accordance with NIMS. To assist with training and preparing essential response staff and supporting personnel to incorporate ICS / NIMS concepts in all facets of an emergency, each agency and department is responsible for ensuring that critical staff are identified and trained at a level enabling effective execution of existing response plans, procedures, and policies.

During a City-declared disaster, control is not relinquished to County or State authority but remains at the local level for the duration of the event. Some responsibilities may be shared under mutual consent.

Most City departments have emergency functions in addition to their normal duties. Each department is responsible for developing and maintaining its own emergency management procedures. Specific responsibilities are outlined below, as well as in individual annexes.

3.2 Emergency Management Organization

The City does not have an office or division of emergency management services separate from its existing departments. For the purposes of this plan, the City's emergency management structure will be referred to generally as the Baker City

3. Roles and Responsibilities

EMO. Under this structure, the City Manager would be considered the Emergency Manager, unless this role has been otherwise delegated. Roles and responsibilities of individual staff and agencies are described throughout the plan to further clarify the City's emergency management structure.

The Emergency Manager may, depending on the size or type of incident, delegate the authority to lead response and recovery actions to other City staff.

Additionally, some authority to act in the event of an emergency may already be delegated by ordinance or by practice. As a result, the organizational structure for the City's emergency management program can vary depending upon the location, size, and impact of the incident. The EMO for the City is divided into two general groups—the Executive Group and Emergency Response Agencies—organized by function.

3.2.1 Executive Group

The Executive Group is referred to in this plan as a single body, but it may include representation from each City department during an event. The Executive Group is responsible for the activities conducted within its jurisdiction. The members of the group include both elected and appointed executives with certain legal responsibilities. Key general responsibilities for local elected and appointed officials include:

- Establishing strong working relationships with local jurisdictional leaders and core private-sector organizations, voluntary agencies, and community partners.
- Leading and encouraging local leaders to focus on preparedness by participating in planning, training, and exercises.
- Supporting staff participation in local mitigation efforts within the jurisdiction and, as appropriate, including the private sector.
- Understanding and implementing laws and regulations that support emergency management and response.
- Ensuring that local emergency plans take into account the needs of:
 - The jurisdiction, including persons, property, and structures.
 - Vulnerable populations including unaccompanied children and those with service animals.
 - Individuals with household pets.
- Encouraging residents to be prepared and participate in volunteer organizations and training courses.

3. Roles and Responsibilities

3.2.1.1 Mayor and City Council

The ultimate responsibility for policy, budget, and political direction for the City government is borne by the City Council. During emergencies this responsibility includes encouraging positive support with citizen involvement and citizen assistance, issuing policy statements as needed to support actions and activities of recovery and response efforts, and providing the political contact needed for visiting State and Federal officials. Additionally, the Council will provide elected liaison with the community and other jurisdictions. In the event of a need for a State of Emergency, the Mayor or designee will initiate and terminate the State of Emergency through a Declaration ratified by the Council. *The City Manager may also issue an emergency declaration in the event that the Council members are not reasonably available.*

General responsibilities of the Mayor and City Council include:

- Establishing emergency management authority by City ordinance.
- Adopting an EOP and other emergency management related resolutions.
- Declaring a State of Emergency and providing support to the IC in requesting assistance through the County.
- Acting as liaison to the community during activation of the EOC / ECC.
- Acting on emergency funding needs.
- Attending PIO briefings.

3.2.1.2 City Manager

The City Manager is responsible for continuity of government, overall direction of City emergency operations, and dissemination of public information.

The City Manager is responsible for:

- Requesting State assistance in coordination with Baker County Emergency Management to proclaim a State of Emergency when local resources are inadequate to cope with the emergency.
- Directing and controlling the City EMO.
- Appointing or replacing the IC in accordance with NIMS protocol.
- Representing the City in dealings with public and private agencies on matters pertaining to the emergency.
- Directing coordination and cooperation among the City EMO services and staff and resolving questions of authority and responsibility.

3. Roles and Responsibilities

- Ensuring that all City departments develop, maintain, and exercise their respective service annexes to this plan.
- Supporting the overall preparedness program in terms of its budgetary and organizational requirements.
- Implementing the policies and decisions of the governing body.
- Ensuring, through the City Recorder / Human Resource Manager, that plans are in place for the protection and preservation of City records.

3.2.1.3 Emergency Manager

The City Manager serves as the Baker City Emergency Manager. The Emergency Manager or designee has the day-to-day authority and responsibility for overseeing emergency management programs and activities. The Emergency Manager or designee works with the Executive Group to ensure that there are unified objectives with regard to the City's emergency plans and activities, including coordinating all aspects of the City's capabilities. The Emergency Manager or designee coordinates all components of the local emergency management program, including assessing the availability and readiness of local resources most likely required during an incident and identifying and correcting any shortfalls. In particular, the Emergency Manager or designee is responsible for:

- Serving as staff advisor to the City Council for emergency matters.
- Coordinating the planning and general preparedness activities of the government and maintenance of this plan.
- Analyzing the emergency skills required and arranging the training necessary to provide those skills.
- Preparing and maintaining a resource inventory.
- Serving as the EOC / ECC Director.
- Keeping the governing body apprised of the City's preparedness status and anticipated needs.
- Serving as day-to-day liaison between the City and County Emergency Management.
- Maintaining liaison with organized emergency volunteer groups and private agencies.

3.2.1.4 City Department Heads

Department and agency heads collaborate with the Executive Group during development of local emergency plans and provide key response resources. City

3. Roles and Responsibilities

department and agency heads and their staffs develop, plan, and train to learn internal policies and procedures for meeting response and recovery needs safely. They also make staff available to participate in interagency training and exercise to develop and maintain the necessary capabilities as well as clearly reinforce preparedness expectations. Department and agency heads not assigned a specific function in this plan will be prepared to make their resources available for emergency duty at the direction of City Manager or designee.

3.2.2 Responsibilities of All Departments

Individual departments are an integral part of the emergency organization. While some departments' staff are first responders, the majority focus on supporting these first responders and/or on the continuity of services they provide to the public. Organizationally, they are a component that provides support and communication for responders.

All City departments are responsible for:

- Supporting EOC / ECC operations to ensure that the City is providing for the safety and protection of the citizens it serves.
- Establishing, in writing, an ongoing line of succession of authority for each department. This document must be made known to department employees, and a copy must be filed with the City Council and Emergency Manager.
- Developing alert and notification procedures for department personnel.
- Developing operating guidelines to implement assigned duties specified by this plan.
- Tracking incident-related costs, in coordination with the EOC Finance Section if activated, incurred by the department and submit expenditure reports in accordance with financial management practices. Incident-related costs may occur during response or recovery phases and may include personnel overtime, equipment used/expended, and contracts initiated.
- Establishing internal lines of succession of authority.
- Ensuring that vehicles and other equipment are equipped and ready, in accordance with SOPs.
- Identifying critical functions and develop procedures for maintaining and / or reestablishing services provided to the public and other City departments.
- Assigning personnel to the EOC / ECC, as charged by this plan.

3. Roles and Responsibilities

- Developing and implementing procedures for protecting vital records, materials, and facilities.
- Promoting family preparedness among employees.
- Ensuring that staff complete any NIMS-required training.
- Ensuring that department plans and SOPs incorporate NIMS components, principles, and policies.
- Dedicating staff time for preparedness training and participation in exercises.
- Preparing and maintaining supporting standard operating procedures (SOPs) and annexes.

3.2.3 Responsibilities by Function

This group includes services required for an effective emergency management program, of which response is a key element. These agencies include fire departments / districts, law enforcement, emergency medical service (EMS) providers, and the public health, environmental health, and public works departments. This section is organized by function, with the primary responsibility assigned to the appropriate City or County agency.

3.2.3.1 Transportation

Primary Agencies: *City Public Works Department, City Police Department, Other Agencies and Resources as Available*

Supporting Agencies: *City and County Emergency Management, City Fire Department, County Road Department, School District, Private / Non-Profit Organizations (Community Connections), State and Federal Agencies*

Transportation responsibilities include:

- Assisting with planning for and identifying high-hazard areas and numbers of potential evacuees, including the number of people requiring transportation to reception areas, including vulnerable populations.
- Identifying emergency traffic routes.
- Determining optimal traffic flow and movement priority from residences to highways.
- Confirming and managing locations of staging areas and pick-up points for evacuees requiring public transportation.
- Assisting with coordinating transportation services, equipment, and personnel using emergency routes.

3. Roles and Responsibilities

- Providing guidance on commuting arrangements for essential workers during the evacuation period.
- Proposing locations of roadblocks and patrols for evacuation movement.
- Providing patrols and safety measures in the evacuated area and reassigning personnel during the evacuation period as available.

See FA 3 – Infrastructure Services and the Baker County EOP, ESF 1 – Transportation for more details.

3.2.3.2 Communications

Alert and Warning

Primary Agencies: *County Consolidated Dispatch*

Supporting Agencies: *County and City Emergency Management, City Fire Department, City Police Department, State and Federal Agencies*

Alert and warning responsibilities include:

- Disseminating emergency public information, as requested.
- Receiving and disseminating warning information to the public and key County and City officials.
- Sounding a siren located at the City Hall building, as requested.

Communication Systems

Primary Agencies: *County Consolidated Dispatch*

Supporting Agencies: *County and City Emergency Management, City Fire Department, City Police Department, City Public Works Department, Private Telecommunications Companies, State and Federal Agencies*

Communication responsibilities include:

- Establishing and maintaining emergency communications systems.
- Coordinating use of all public and private communication systems necessary during emergencies.
- Managing and coordinating all emergency communication within the EOC / ECC, once activated.

See FA 1 – Emergency Services and the Baker County EOP, ESF 2 – Communications for more detail.

3. Roles and Responsibilities

3.2.3.3 Public Works and Engineering

Primary Agencies: *City Public Works Department*

Supporting Agencies: *City Building Department, City and County Emergency Management, City Fire Department, City Police Department, County Road Department, State and Federal Agencies*

Public works and engineering responsibilities include:

- Barricading hazardous areas.
- Performing priority restoration of streets and bridges.
- Protecting and restoring waste treatment and disposal systems.
- Augmenting sanitation services.
- Assessing damage to streets, bridges, traffic control devices, the wastewater treatment system, and other public works facilities.
- Removing debris.
- Assessment of damage to City-owned facilities.
- Condemning unsafe structures (Building Department).
- Directing temporary repair of essential facilities.

See FA 3 – Infrastructure Services and the Baker County EOP, ESF 3 – Public Works and Engineering for more detail.

3.2.3.4 Firefighting

Primary Agencies: *City Fire Department*

Supporting Agencies: *City and County Emergency Management, City Police Department, City Public Works Department, County Sheriff's Office, State and Federal Agencies*

Fire service responsibilities include:

- Providing fire prevention before, suppression during and emergency medical aid in order to prevent loss of life, loss of property, and damage to the environment.
- Inspecting damaged areas for fire hazards.
- Providing hazardous materials spills containment, planning, and coordination.
- Inspecting shelters for fire hazards.

3. Roles and Responsibilities

See FA 1 – Emergency Services and the Baker County EOP, ESF 4 – Firefighting for more detail.

3.2.3.5 Emergency Management

Emergency Operations Center / Emergency Coordination Center

Primary Agencies: *City Emergency Management*

Supporting Agencies: *County Emergency Management, City Fire Department, City Police Department, City Public Works Department, State and Federal Agencies*

EOC / ECC responsibilities include:

- Directing and controlling local operating forces in conjunction with the City and County.
- Maintaining contact with neighboring jurisdictions and the County EOC / ECC.
- Maintaining the EOC / ECC in an operating mode at all times or ensuring the ability to convert EOC / ECC space into an operating condition.
- Assigning representatives (by title) to report to the EOC / ECC and developing procedures for crisis training.
- Developing and identifying duties of staff, use of displays and message forms, and procedures for EOC / ECC activation.

See Chapter 5 – Command and Control, FA 1 – Emergency Services, and the Baker County EOP Basic Plan and ESF 5 – Emergency Management for more detail.

3.2.3.6 Mass Care, Emergency Assistance, Housing, and Human Services

Primary Agencies: *County Emergency Management*

Supporting Agencies: *City Emergency Management, City Fire Department, City Police Department, City Public Works Department, Private / Non-Profit Organizations, State and Federal Agencies*

County Emergency Management, with support from the American Red Cross Oregon Region and the Baker City Emergency Manager or designee, is responsible for ensuring that the mass care needs of the affected population are met, including sheltering, feeding, providing first aid, and reuniting families. Relevant operations are detailed in the County EOP, ESF 6, Housing and Human Services and ESF-11, Agriculture and Natural Resources.

3. Roles and Responsibilities

Mass care, emergency assistance, housing and human service responsibilities, to be led by the County and supported by the City, include:

- Maintaining the Community Shelter Plan.
- Supervising the Shelter Management program (stocking, marking and equipping, etc.) for emergency incidents.
- Coordinating support with other City and County departments, relief agencies, and volunteer groups.
- Designating a coordinator / liaison to participate in all phases of the County emergency management program, when necessary or as requested.
- Promoting emergency counseling for disaster victims and emergency response personnel suffering from behavioral and emotional disturbances.
- Coordinating with faith-based organizations and other volunteer agencies.
- Identifying emergency feeding sites in coordination with the American Red Cross and Salvation Army.
- Identifying sources of clothing for disaster victims (may coordinate with the Salvation Army or other disaster relief organization) .
- Securing sources of emergency food supplies in coordination with the American Red Cross and Salvation Army.
- Coordinating operation of shelter facilities operated by the City or County, local volunteers, or organized disaster relief agencies such as the American Red Cross.
- Coordinating special care requirements for sheltered groups such as unaccompanied children and the elderly.

See FA 2 – Human Services and the Baker County EOP, ESF 6 – Mass Care, Emergency Assistance, Housing and Human Services and ESF 11 – Agriculture and Natural Resources for more detail.

3.2.3.7 Logistics Management and Resource Support

Primary Agencies: *City Finance Department, City Manager (City Emergency Management)*

Supporting Agencies: *City Public Works Department, County Emergency Management, County Road Department, Private / Non-Profit Organizations, State and Federal Agencies*

3. Roles and Responsibilities

Logistics management and resource support responsibilities include:

- Establishing procedures for employing temporary personnel for disaster operations.
- In cooperation with law enforcement, and by utilizing mutual aid agreements, establishing and maintaining a staffing reserve as resource availability allows.
- Coordinating deployment of reserve personnel to City departments requiring augmentation.
- Establishing emergency purchasing procedures and / or a disaster contingency fund.
- Maintaining records of emergency-related expenditures for purchases and personnel.

See FA 1 – Emergency Services and the Baker County EOP, ESF 7 – Logistics Management and Resource Support for more detail.

3.2.3.8 Public Health and Emergency Medical Services

Public Health Services

Primary Agencies: *County Health Department*

Supporting Agencies: *City Fire Department, City and County Emergency Management, Private Service Providers, State and Federal Agencies*

The City relies on the County to provide public health and human services. The County Health Department Director is responsible for coordinating public health and welfare services required to cope with the control of communicable and non-communicable diseases associated with major emergencies, disasters, and widespread outbreaks caused by bioterrorism, epidemic or pandemic diseases, novel and highly fatal infectious agents or biological or chemical toxin incidents in urban or rural areas in the county. The Health Department Director also serves as the Health Department representative for the County EMO. Relevant operations are detailed in the County EOP, ESF 6 – Housing and Human Services and ESF 8 – Public Health and Medical Services of the County EOP. Public health responsibilities include:

- Coordinating with hospitals, clinics, nursing homes/care centers, and behavioral health organizations for adequate provision of public health, medical and behavioral health services, including making provisions for populations with functional needs.
- Coordinating public health surveillance.
- Coordinating mass prophylaxis and delivery and distribution set-up of the Strategic National Stockpile, if needed.

3. Roles and Responsibilities

- Coordinating mass fatality operations with the Medical Examiner and Funeral Directors to provide identification and disposal of the dead.
- Coordinating isolation and / or quarantine of infected persons.
- Coordinating dissemination of public health information.
- Coordinating health and medical needs for shelters.
- Designating a coordinator / liaison to participate in all phases of the County emergency management program, when necessary or as requested.

See FA 2 – Human Services and the Baker County EOP, ESF 8 – Public Health and Medical Services for more detail.

Emergency Medical Services

Primary Agencies: *City Fire Department*

Supporting Agencies: *Mutual Aid Partners, Area Medical Facilities*

Emergency medical service responsibilities include:

- Coordinating provision of EMS.
- Requesting additional EMS assets as necessary.

See FA 1 – Emergency Services and the Baker County EOP, ESF 8 – Public Health and Medical Services for more detail.

3.2.3.9 Search and Rescue

Primary Agencies: *County Sheriff's Office*

Supporting Agencies: *City Emergency Management, City Fire Department, City Police Department, State and Federal Agencies*

Search and rescue responsibilities include:

- Coordinating available resources to search for and rescue persons lost outdoors.
- Cooperating with and extending assistance to surrounding jurisdictions, on request and as resources allow.
- Establishing and monitoring training standards for certification of search and rescue personnel.

See FA 1 – Emergency Services and the Baker County EOP, ESF 9 – Search and Rescue for more detail.

3. Roles and Responsibilities

3.2.3.10 Oil and Hazardous Materials Response

Primary Agencies: *City Fire Department, OSFM Regional HazMat Team – Ontario*

Supporting Agencies: *City and County Emergency Management, City Police Department, City Public Works Department, County Sheriff's Office, Federal / State / Local Fire Districts, Private / Non-Profit Organizations, State and Federal Agencies*

Hazardous Materials Response

Oil and hazardous materials responsibilities include:

- Conducting oil and hazardous materials (chemical, biological, etc.) response.
- Assessing the health effects of a hazardous materials release.
- Identifying the needs for hazardous materials incident support from regional and State agencies.
- Providing protective actions.
- Conducting short- and long-term environmental cleanup.

Radiological Protection

Radiological protection responsibilities include:

- Securing initial and refresher training for instructors and monitors.
- Providing a localized radiological monitoring and reporting network, when necessary.
- Providing input to the Statewide monitoring and reporting system from incident scenes, as necessary.
- Under fallout conditions, providing City and County officials and department heads with information regarding fallout rates, fallout projections, and allowable doses provided by the State Radiation Protection Services or Federal government.
- Providing monitoring services and advice at the scene of accidents involving radioactive materials.

See FA 1 – Emergency Services and the Baker County EOP, ESF 10 – Oil and Hazardous Materials for more detail.

3. Roles and Responsibilities

3.2.3.11 Agriculture and Natural Resources

Primary Agencies: *County Health Department*

Supporting Agencies: *City Emergency Management, State and Federal Agencies*

Agriculture and natural resources–related responsibilities include:

- Providing nutrition assistance.
- Conducting animal and plant disease and pest response.
- Monitoring food safety and security.
- Providing natural and cultural resources and historic properties protection and restoration.
- Protecting the safety and well-being of household pets.

See FA 2 – Human Services and the Baker County EOP, ESF 11 – Agriculture and Natural Resources for more detail.

3.2.3.12 Energy and Utilities

Primary Agencies: *OTECC, Public Works Department, City and County Emergency Management, Private Service Providers*

Supporting Agencies: *City Fire Department, City Police Department, City Public Works Department, State and Federal Agencies*

Energy and utilities related responsibilities include:

- Working with local energy facilities to restore damaged energy utility infrastructure and accompanying systems.
- Coordinating temporary emergency power generation capabilities to support critical facilities until permanent restoration is accomplished. Critical facilities may include primary and alternate EOCs / ECCs, hospitals and critical care facilities, designated shelters, government offices and facilities, water and sewer systems, and other essential community services.

See FA 3 – Infrastructure Services and the Baker County EOP, ESF 12 – Energy for more detail.

3.2.3.13 Public Safety and Security

Primary Agencies: *City Police Department*

Supporting Agencies: *City and County Emergency Management, City Public Works Department, County Sheriff's Office, State and Federal Agencies*

Law enforcement responsibilities include:

3. Roles and Responsibilities

- Protecting life and property and preserving order.
- Providing law enforcement and criminal investigation.
- Providing traffic, crowd control, and site security.
- Isolation of damaged area.
- Providing damage reconnaissance and reporting.
- Evacuating disaster areas.

See FA 1 – Emergency Services and the Baker County EOP, ESF 13 – Public Safety and Security for more information.

3.2.3.14 Long-Term Community Recovery

Primary Agencies: *City and County Emergency Management*

Supporting Agencies: *City Finance Department, City Public Works Department, City Building Department, Private / Non-Profit Organizations, State and Federal Agencies*

Recovery-related responsibilities include:

- Coordinating private and governmental sector emergency recovery effort.
- Working with County and State partners to conduct damage assessments.
- Identifying and facilitating availability and use of recovery funding.
- Providing outreach, public education, and community involvement in recovery planning.
- Coordinating logistics management and resource support.
- Locating, purchasing, and coordinating delivery of resources needed during or after an incident.

See FA 4 – Recovery Strategy and the Baker County EOP, ESF 14 – Long-Term Community Recovery for more detail.

3.2.3.15 External Affairs

Primary Agencies: *City Emergency Management*

Supporting Agencies: *City Fire Department, City Police Department, City Public Works Department, County Emergency Management, State and Federal Agencies*

3. Roles and Responsibilities

External affairs responsibilities include:

- Conducting ongoing hazard awareness and public education programs;
- Compiling and preparing emergency information for the public;
- Arranging for media representatives to receive regular briefings on the City's status during extended emergency situations;
- Securing printed and photographic documentation of the disaster situation;
- Handling unscheduled inquiries from the media and the public; and
- Identifying Non-English-speaking and bilingual population centers within the City and County and preparing training and news releases accordingly.

See FA 1 – Emergency Services and the County EOP, ESF 15 – External Affairs for more details.

3.2.3.16 Evacuation and Population Protection

Primary Agencies: *Police Department*

Supporting Agencies: *City and County Emergency Management, City Fire Department, City Public Works Department, State and Federal Agencies*

Evacuation and population protection responsibilities include:

- Defining responsibilities of City departments and private sector groups.
- Identifying high hazard areas and corresponding number of potential evacuees.
- Coordinating evacuation planning, including:
 - Movement control
 - Transportation needs
 - Emergency Public Information materials
 - Security for staging areas and shelters as resources are available

See FA 1 – Emergency Services and City Evacuation Plan (maintained by the Police Department) for more details. Evacuation Planning should be coordinated accordingly.

3. Roles and Responsibilities

3.2.3.17 Damage Assessment

Primary Agencies: *County Assessor's Office, City and County Emergency Management*

Supporting Agencies: *City Public Works Department, City Building Department, City Finance Department, State and Federal Agencies*

Damage assessment responsibilities include:

- Establishing a damage assessment team from among City departments with assessment capabilities and responsibilities.
- Training and providing damage plotting team members to EOC / ECC.
- Assisting in reporting and compiling information regarding deaths, injuries, and dollar damage to tax-supported facilities and to private property.
- Assisting in determining the geographic extent of the damaged area.
- Compiling estimates of damage for use by City officials in requesting disaster assistance.
- Evaluating the effect of damage on the City's economic index, tax base, bond ratings, insurance ratings, etc. for use in long-range recovery planning.

See FA 4 – Recovery strategy for more details.

3.2.3.18 Legal Services

Primary Agencies: *City Attorney or Contracted Services*

Supporting Agencies: *City and County Emergency Management*

Legal service responsibilities include:

- Advising City officials on the emergency powers of local government and necessary procedures for measures to:
 - Implement wage, price, and rent controls
 - Establish rationing of critical resources
 - Establish curfews
 - Restrict or deny access
 - Specify routes of egress
 - Limit or restrict use of water or other utilities
 - Remove debris from publicly or privately owned property

3. Roles and Responsibilities

- Reviewing and advising City officials on possible liabilities arising from disaster operations, including the exercising of any or all of the above powers.
- Preparing and recommending local legislation to implement the emergency powers required during an emergency.
- Advising City officials and department heads regarding record keeping requirements and other documentation necessary for exercising emergency powers.
- Thoroughly reviewing and maintaining familiarity with current ORS 401 provisions as they apply to County or City government in disaster events.

3.2.3.19 Volunteer and Donation Management

Primary Agencies: *City and County Emergency Management*

Supporting Agencies: *Private / Non-Profit Organizations*

Government-Sponsored Volunteers

Responding to incidents frequently exceeds the City's resources. Government-sponsored volunteer organizations such as Community Emergency Response Teams (CERT), Fire Corps and/or Medical Reserve Corps, and Volunteers in Police Service provide vital support to emergency response agencies in completing their assigned tasks.

Unaffiliated Volunteers and Donations

Unaffiliated volunteers and donors can support response efforts in many ways, and it is essential that the City plan ahead to effectively incorporate volunteers and donated goods into its response activities.

3.2.3.20 Coordination with Special Facilities

Primary Agencies: *City and County Emergency Management*

Supporting Agencies: *Private / Non-Profit Organizations*

Coordination with special facilities (e.g., schools, care facilities, correctional institutions) includes:

- Establishing strong working relationships with local jurisdictional leaders and core private-sector organizations, voluntary agencies, and community partners.
- Encouraging staff preparedness by participating in planning, training, and exercises.

3. Roles and Responsibilities

- Educating staff, students, clients, etc. on facility emergency plans and procedures and the need for individual and/or family emergency planning.
- Preparing and maintaining emergency plans and SOPs.

3.2.3.21 Other Agency Responsibilities

Other City department and agency heads not assigned a specific function in this plan will be prepared to make their resources (including personnel) available for emergency duty at the direction of the Emergency Manager or designee.

3.3 Local and Regional Response Partners

The City's emergency organization is supported by a number of outside organizations, including the County, service organizations, and the private sector.

3.3.1 Private Sector

Private-sector organizations play a key role before, during, and after an incident. First, they must provide for the welfare and protection of their employees in the workplace. In addition, the City and County must work seamlessly with businesses that provide water, power, communication networks, transportation, medical care, security, and numerous other services upon which both response and recovery are particularly dependent. Essential private sector responsibilities include:

- Planning for the protection of employees, infrastructure, and facilities.
- Planning for the protection of information and the continuity of business operations.
- Planning for, responding to, and recovering from incidents that impact private sector infrastructure and facilities.
- Collaborating with emergency management personnel before an incident occurs to ascertain what assistance may be necessary and how private sector organizations can help.
- Developing and exercising emergency plans before an incident occurs.
- Where appropriate, establishing mutual aid and assistance agreements to provide specific response capabilities.
- Providing assistance (including volunteers) to support local emergency management, and public awareness during response and throughout the recovery process.

3. Roles and Responsibilities

3.3.2 Nongovernmental Organizations

Nongovernmental organizations (NGOs) play enormously important roles before, during, and after an incident. In the City, NGOs such as the American Red Cross provide sheltering, emergency food supplies, counseling services, and other vital support services to support response and promote the recovery of disaster victims. NGOs collaborate with responders, governments at all levels, and other agencies and organizations.

The roles of NGOs in an emergency may include:

- Training and managing volunteer resources.
- Identifying shelter locations and needed supplies.
- Providing critical emergency services to those in need, such as cleaning supplies, clothing, food and shelter, and assistance with post-emergency cleanup.
- Identifying those whose needs have not been met and helping to coordinate assistance.

3.3.3 Individuals and Households

Although not formally a part of the City's emergency operations, individuals and households play an important role in the overall emergency management strategy. Community members can contribute by:

- Reducing hazards in their homes.
- Preparing emergency supply kits and household emergency plans which consider all members of the household, including children and pets.
- Monitoring emergency communications carefully.
- Volunteering with established organizations.
- Enrolling in emergency response training courses.
- Encouraging children to participate in preparedness activities.

3.4 County Response Partners

The County Emergency Manager has been appointed under the authority of the Board of County Commissioners. The County Emergency Manager is responsible for developing a Countywide emergency management program that, through cooperative planning efforts with the incorporated communities of the County, will provide a coordinated response to a major emergency or disaster.

3. Roles and Responsibilities

See the County Emergency Operations Plan for details on the County's emergency management organization and detailed roles and responsibilities for County departments.

3.5 State Response Partners

Under the provisions of ORS 401.025 through 401.236, the Governor has broad responsibilities for the direction and control of all emergency activities in a State-Declared Emergency. The administrator of OEM is delegated authority by ORS 401.052 to 401.235 to coordinate all activities and organizations for emergency management within the State and to coordinate in emergency matters with other states and the Federal government.

Under the direction and control of department heads, agencies of State government represent the State emergency operations organization. Responsibility for conducting emergency support functions is assigned by the Governor to the department best suited to carry out each function applicable to the emergency situation. Some State agencies may call upon their Federal counterparts to provide additional support and resources following established procedures and policies for each agency.

See the State of Oregon Emergency Operations Plan for details on the State's emergency management organization and detailed roles and responsibilities for State departments.

3.6 Federal Response Partners

Federal response partners are typically requested by OEM in the event that State resources become limited or specialized services are needed. In most instances, Federal resources become available following a formal declaration of emergency by the Governor. Thus, procedures and policies for allocating and coordinating resources at the Federal level follow the Oregon EMP and, if necessary, the NRF.

See the National Response Framework for details on the Federal government's emergency management organization and detailed roles and responsibilities for Federal departments.

3.7 Primary and Support Agencies by Function

The following table assigns primary and support agencies for the primary emergency functions. Departments or agencies assigned as primary, but may only have the responsibility of **coordinating** with other primary or supporting agencies to ensure continuity.

- **Primary Agency(s)**

- Identifies lead agencies for emergency functions based on the agency's coordinating responsibilities, authority, functional expertise, resources and capabilities in managing incident

3. Roles and Responsibilities

activities. Primary agencies may not be responsible for all elements of a function, and will coordinate with supporting agencies.

■ Supporting Agency(s)

- Identifies those agencies with substantial support roles during major incidents.

See Section 3.2.3 for specific roles and responsibilities related to the functions in the following table.

3. Roles and Responsibilities

THIS PAGE LEFT BLANK INTENTIONALLY

4

Concept of Operations

4.1 General

Primary roles involved during the initial emergency response will focus on first responders, such as fire districts / departments, police departments, and public works departments; initial response also may include hospitals, local health departments, and fire and hazardous material teams. Typically, as the emergency situation evolves and the immediate response subsides, a transition period will occur during which emergency responders will hand responsibility for active coordination of the response to agencies or organizations involved with recovery operations. In all emergencies, saving and protecting human lives is the top priority.

The basic concept of emergency operations focuses on managing and using all available resources at the local level for effective response to all types of emergencies. Local government has the primary responsibility for emergency management functions and for protecting life and property from the effects of emergency and disaster events. This EOP should be used when Baker City or local emergency response agencies are reaching or have exceeded their abilities to respond to an emergency incident or for other non-routine incidents or pre-planned events.

Responsibilities include management and coordination of large-scale events, as well as identifying and obtaining additional assistance and resources for emergency response agencies from the County, State, and / or Federal government through the City EMO.

4.2 Emergency Management Mission Areas

This plan adheres to the emergency management principle of all-hazards planning, which is predicated on the fact that most responsibilities and functions performed during an emergency are not hazard-specific. It should be noted that this is an emergency operations plan and is focused on response and short-term recovery actions. Nevertheless, this EOP impacts and is informed by activities conducted before and after any emergency operations take place and is designed to assist the City in:

- Preventing, avoiding, or stopping a threatened or an actual act of terrorism.

4. Concept of Operations

- Protecting citizens, residents, visitors and assets against the greatest threats and hazards in a manner that allows City interests, aspirations, and way of life to thrive.
- Mitigating the loss of life and property by lessening the impact of future disasters.
- Responding quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of a catastrophic incident.
- Recovering through a focus on the timely restoration, strengthening, and revitalization of infrastructure, housing, and a sustainable economy, as well as the health, social, cultural, historic and environmental fabric of the community when affected by a disaster.

A brief description of these five mission areas, as identified in the National Preparedness Goal, is provided below.

4.2.1 Prevention

Prevention activities serve to avoid, intervene, or stop an incident from occurring.

Prevention activities are taken to protect lives and property. It involves applying intelligence and other information to a range of efforts. Those activities may include such countermeasures as deterrence operations; heightened inspections; improved surveillance and security operations; investigations to determine the full nature and source of the threat; public health and agricultural surveillance and testing processes; immunizations, isolation, or quarantine; and, as appropriate, specific law enforcement operations aimed at deterring, preempting, interdicting, or disrupting illegal activity and apprehending potential perpetrators and bringing them to justice.

4.2.2 Protection

Protection actions reduce the vulnerability of critical infrastructure or key resources. These efforts deter, mitigate, or neutralize terrorist attacks, major disasters, and other emergencies.

Protection actions require coordination on the part of federal, state, and local governments; the private sector; and concerned citizens across the country. Protection includes: continuity of government and operations planning; awareness elevation and understanding of threats and vulnerabilities to their critical facilities, systems, and functions; identification and promotion of effective sector-specific protection practices and methodologies; and expansion of voluntary security-related information sharing among private entities within the sector, as well as between government and private entities.

4. Concept of Operations

4.2.3 Mitigation

Mitigation program goals and project efforts are intended to reduce risks and vulnerabilities.

Mitigation activities are the on-going efforts that endeavor to maximize safety and security from natural, technological and human-induced hazards. The goal of mitigation efforts serves the safety and security of the City's population, infrastructure protection, and support economic stability.

The City's mitigation efforts are aligned with federal program guidelines and include: enhancing and maintaining a capacity to implement a comprehensive statewide hazard loss reduction strategy; supporting the development and enhancement of local capability to practice hazard mitigation; increasing public and private sectors awareness and support for disaster loss education; reducing the City's hazard vulnerability through the application of scientific research and development; and reducing the vulnerabilities of City-owned facilities and infrastructure resulting from assessed hazards.

4.2.4 Response

Response activities address the short-term and direct effects of an incident.

Response includes immediate actions to save lives, protect property, and meet basic human needs. Response also includes the execution of emergency operations plans and mitigation activities designed to limit the loss of life, personal injury, property damage, and other unfavorable outcomes.

If required by the situation, response activities include applying intelligence and other information to lessen the effects or consequences of an incident; increased security operations; continuing investigations into nature and source of the threat; ongoing public health and agricultural surveillance and testing processes; immunizations, isolation, or quarantine; and specific law enforcement operations.

4.2.5 Recovery

Recovery activities consist of short-term and long-term efforts.

Short-term recovery operations restore vital services. Examples include electrical power, water, and waste systems, debris removal, and provide assistance to disaster victims. Disaster relief programs administered by governmental, non-profit, and charitable organizations aid in restoring the personal, social, and economic wellbeing of private citizens.

Long-term recovery focuses on restoring communities to pre-event or updated conditions. This is accomplished by assisting property owners in repairing or rebuilding homes and businesses and assisting local governments, school districts, and other public non-profit agencies in restoring or reconstructing damaged infrastructure. State, local and non-government organizations administer the provisions of federal and state disaster relief funds to provide for restoration and

4. Concept of Operations

recovery of vital facilities. Post-disaster mitigation programs should be anticipated during the recovery period.

Long-term recovery activities are situational dependent and may include a range of services. Examples include the development, coordination, and execution of service- and site-restoration plans; the reconstitution of government operations and services; individual, private sector, nongovernmental, and public assistance programs to provide housing and to promote restoration; long-term care and treatment of affected persons; additional measures for social, political, environmental, and economic restoration; evaluation of the incident to identify lessons learned; post-incident reporting; and development of initiatives to mitigate the effects of future incidents.

4.3 Incident Levels

Incident levels assist response agencies in recognizing the degree of intensity and potential impact of a particular situation. Emergency situations will not always fit neatly into these levels, and any incident has the potential to intensify and expand. Special circumstances or external pressures may warrant outside assistance for relatively minor incidents.

4.3.1 Level 1

In a Level 1 incident, the normal organization and procedures of City departments, including police, fire, and public works, that do not require implementation of the City's emergency management organization.

4.3.2 Level 2

A Level 2 incident has special or unusual characteristics requiring response by more than one City Department, or which is beyond the scope of available local resources, may require partial implementation of the City's emergency management organization.

4.3.3 Level 3

A Level 3 incident that requires the coordinated response of local, regional, state, and federal resources to save lives and protect the property of a large portion of the population. Such an emergency may require the sheltering or relocation of the affected population. Under such conditions, the City's emergency management organization shall be fully activated.

4.3.4 NIMS Incident Levels

While the City uses incident levels that are consistent with the County and State EOPs, incident types at the Federal level are based on the following five levels of complexity. (Source: U.S. Fire Administration)

4. Concept of Operations

Table 4-1 NIMS Incident Levels	
Type 5	<ul style="list-style-type: none"> ■ The incident can be handled with one or two single resources with up to six personnel. ■ Command and General Staff positions (other than the Incident Commander) are not activated. ■ No written Incident Action Plan (IAP) is required. ■ The incident is contained within the first operational period and often within an hour to a few hours after resources arrive on scene. ■ Examples include a vehicle fire, an injured person, or a police traffic stop.
Type 4	<ul style="list-style-type: none"> ■ Command staff and general staff functions are activated only if needed. ■ Several resources are required to mitigate the incident. ■ The incident is usually limited to one operational period in the control phase. ■ The agency administrator may have briefings, and ensure the complexity analysis and delegation of authority are updated. ■ No written IAP is required but a documented operational briefing will be completed for all incoming resources. ■ The role of the agency administrator includes operational plans including objectives and priorities.
Type 3	<ul style="list-style-type: none"> ■ When capabilities exceed initial attack, the appropriate ICS positions should be added to match the complexity of the incident. ■ Some or all of the Command and General Staff positions may be activated, as well as Division / Group Supervisor and/or Unit Leader level positions. ■ A Type 3 Incident Management Team (IMT) or incident command organization manages initial action incidents with a significant number of resources, an extended attack incident until containment/control is achieved, or an expanding incident until transition to a Type 1 or 2 team. ■ The incident may extend into multiple operational periods. ■ A written IAP may be required for each operational period.

4. Concept of Operations

Table 4-1 NIMS Incident Levels	
Type 2	<ul style="list-style-type: none"> ■ This type of incident extends beyond the capabilities for local control and is expected to go into multiple operational periods. A Type 2 incident may require the response of resources out of area, including regional and/or national resources, to effectively manage the operations, command, and general staffing. ■ Most or all of the Command and General Staff positions are filled. ■ A written IAP is required for each operational period. ■ Many of the functional units are needed and staffed. ■ Operations personnel normally do not exceed 200 per operational period and total incident personnel do not exceed 500 (guidelines only). ■ The agency administrator is responsible for the incident complexity analysis, agency administrator briefings, and the written delegation of authority.
Type 1	<ul style="list-style-type: none"> ■ This type of incident is the most complex, requiring national resources to safely and effectively manage and operate. ■ All Command and General Staff positions are activated. ■ Operations personnel often exceed 500 per operational period and total personnel will usually exceed 1,000. ■ Branches need to be established. ■ The agency administrator will have briefings, and ensure that the complexity analysis and delegation of authority are updated. ■ Use of resource advisors at the incident base is recommended. ■ There is a high impact on the local jurisdiction, requiring additional staff for office administrative and support functions.

4.4 Response Priorities

4.4.1 Response

Response activities are taken immediately after an incident and a transition into recovery activities will take place as soon as conditions permit. Both response and recovery activities can take place concurrently until the life safety and protective actions are completed.

1. **Lifesaving:** Efforts to save lives and implement operations to minimize risks to public health and safety.
2. **Property:** Actions to reduce impacts to critical infrastructure and key resources, and minimize property damage.

4. Concept of Operations

3. **Environment:** Activities to mitigate long-term impacts to the environment.

4.4.2 Recovery

It is the responsibility of government to assist the public and private sector with recovery from disaster. A widespread disaster will likely impact the ability of businesses to function, disrupt employment, interrupt government services and impact tax revenues. Recovery is one of the four phases of emergency management. This EOP is not a recovery plan; that document is a separate endeavor. However, both response and recovery activities often take place concurrently until life safety and protective actions are completed. Recovery operations are the actions taken to protect lives and property while helping impacted areas of the County meet basic needs and resume self-sufficiency; returning to a “new normal” for the community.

1. **Damage Assessment:** Determine structure impacts to the City.
2. **Debris Removal:** Coordination of debris collection and removal.
3. **Infrastructure Restoration.** Coordination of infrastructure repair and restoration based.

Short-term recovery involves the restoration of critical services such as communications, water supply, sewage service, emergency medical capabilities and power, as well as garbage and debris removal. These functions must recover early in the incident to support life, health and safety of the population, and to support response missions.

4.5 Incident Management

4.5.1 Activation

When an emergency situation arises and it is determined that the normal organization and functions of City government are insufficient to effectively meet response requirements, the Emergency Manager or designee will implement all or part of this EOP. In addition, the Emergency Manager or designated EOC / ECC Director may partially or fully activate and staff the EOC / ECC based on an emergency's type, size, severity, and anticipated duration. An Emergency Declaration is not required to implement the EOP or activate the EOC / ECC. The Emergency Manager or designee may implement the EOP as deemed appropriate for the situation or at the request of an IC. Concurrently, all involved City emergency services will implement their respective plans, procedures, and processes and will provide the Emergency Manager or designee with the following information:

- Operational status.
- Readiness and availability of essential resources.

4. Concept of Operations

- Changing conditions and status of resources (personnel, equipment, facilities, supplies, etc.).
- Significant concerns and issues dealing with potential or actual loss of life or property.

4.5.2 Initial Actions

Upon implementation of all or part of this EOP, the IC (or designee) may immediately take the following actions:

- Alert threatened populations and initiate evacuation as necessary. *See FA 1 – Emergency Services Annex for more detail.*
- Initiate emergency sheltering procedures with the American Red Cross and other community partners if evacuation procedures are activated. *See FA 2 – Human Services Annex for more detail.*
- Instruct appropriate City emergency service providers to activate necessary resources.
- Assign radio frequencies and communications equipment, implement a communications plan, and confirm interoperability among EOC / ECC staff and response agencies.
- Request the City Council to prepare and submit a formal Declaration of Emergency through County Emergency Management when it is determined that local resources will not meet the needs of local emergency operations.
- Prepare to staff the City EOC / ECC as appropriate for the incident with maximum 12-hour shifts.
- City personnel and support staff will be deployed to restore normal activity and provide essential community services as soon as possible following the emergency. *See FA 4 – Recovery Strategy Annex for additional information regarding community recovery procedures.*

4.5.3 Communications, Notification, and Warning

Warnings, emergency information, or disaster reports may be received by any of the departments in the City. In all cases, such information will be relayed to the County Consolidated Dispatch and the Emergency Manager or designee. Decisions to respond, implement the disaster plan, activate the EOC / ECC will be made by the Emergency Manager or designee.

Traditional communication lines, such as landline telephones, cellular phones, siren, faxes, pagers, internet/e-mail, and radio, will be used by City response

4. Concept of Operations

personnel throughout the duration of response activities. *See FA 1 – Emergency Services for more detail.*

A public warning and broadcast system (Baker County Consolidated Dispatch) is established for the City to provide emergency information and instructions during a pending or actual emergency incident or disaster. The Emergency Manager or designee shall provide the public with educational and instructional materials and presentations on subjects regarding safety practices and survival tactics for the first 72 hours of a disaster. FA 1 – Emergency Services provides detailed information regarding how these systems are accessed, managed, and operated throughout an emergency's duration. Emergency notification procedures are established among the response community, and call-down lists are updated and maintained by each individual agency. External partners can be activated and coordinated through the EOC / ECC.

Plain language will be used during a multi-jurisdictional emergency response occurring in the City and is essential to public safety, especially the safety of first responders and those affected by the incident. The use of common terminology enables area commanders, State and local EOC / ECC personnel, Federal operational coordinators, and responders to communicate clearly with each other and effectively coordinate response activities, regardless of an incident's size, scope, or complexity. The ability of responders from different jurisdictions and different disciplines to work together depends greatly on their ability to communicate with each other.

4.5.3.1 Interoperability

To the extent possible, the City will maintain the ability of emergency management/response personnel to communicate within and across agencies and jurisdictions via voice, data, or video in real time, when needed, and when authorized. It is essential that these communications systems be capable of interoperability, as successful emergency management and incident response operations require the continuous flow of critical information among jurisdictions, disciplines, organizations, and agencies.

Interoperability planning requires accounting for emergency management and incident response contingencies and challenges. Interoperability plans should include considerations of governance, SOPs, technology, training and exercises, and usage within the context of the stress and chaos of a major response effort.

Coordinated decision making between agencies and jurisdictions is necessary to establish proper and coherent governance and is critical to achieving interoperability. Agreements and SOPs should clearly articulate the processes, procedures, and protocols necessary to achieve interoperability.

4. Concept of Operations

4.5.4 Situational Awareness and Intelligence Gathering

4.5.4.1 Situational Awareness

Constant situational awareness is essential to maintaining a forward-leaning posture that facilitates rapid response. Situational awareness refers to the ongoing process of collecting, analyzing, and disseminating intelligence, information, and knowledge to allow organizations and individuals to anticipate requirements and to react quickly and effectively. Situational awareness comprises an interactive process of sharing and evaluating information from multiple sources, integrating communications and reporting activities, and forecasting or predicting incidents to detect and monitor threats and hazards. These activities are the basis for advice, alert and warning, intelligence- and information-sharing, technical assistance, consultations, notifications, and informed decision making at all interagency and intergovernmental levels, as well as on the part of the private sector and the public.

Considerations that may increase the complexity of an event and heighten the need for good situational awareness include:

- Impacts to life, property and the economy.
- Community and responder safety.
- Potential hazardous materials.
- Weather and other environmental influences.
- Likelihood of cascading events or incidents.
- Potential crime scene, including terrorism.
- Political sensitivity, external influences and media relations.
- Area involved and jurisdictional boundaries.

4.5.4.2 Intelligence Gathering

Intelligence and investigations gathered within the Intelligence and Investigations function is information that lead to:

- Detection, prevention, apprehension, and prosecution of criminal activities (or the individual(s) involved), including terrorist incidents.
- Determination of the cause of a given incident (regardless of the source) such as public health events or fires with unknown origins.

Beyond maintaining situational awareness of an incident, gathering timely and accurate outside intelligence and having procedures for analyzing that data and distributing it to the right people is critical to effective incident response. The City

4. Concept of Operations

may choose to identify an intelligence position in its command structure. This position may be included as part of an expanded Command Staff or may fall to the Planning Section Chief or designee.

As part of forming a strategy for intelligence gathering, the City could:

- Pre-identify critical information needs and collection priorities.
- Establish sector-specific watch programs formed based on collaboration with the public.
- Delineate a process for long-term information collection and analysis.

4.5.4.3 Coordination with State Fusion Center

The State of Oregon maintains a Fusion Center to provide intelligence support as it relates to terrorism and terrorist activity. The Oregon TITAN Fusion Center (OTFC) and Portland Urban Area TITAN Fusion Center's mission is to protect the citizens of Oregon from terrorism and terrorist activity by providing an "all crimes, all threat and all hazard" information clearinghouse for federal, state, local and tribal law enforcement agencies. The center's goals are to identify, prevent, detect, disrupt and assist in investigating terrorism-related crimes by providing an efficient, timely and secure mechanism to exchange critical information between law enforcement agencies at all levels, state executive leadership, government agencies and our public and private-sector partners. The OTFC supports by:

- Pre- and post- terrorism event investigatory support with analysis and dissemination of the conclusions.
- Maintain the State of Oregon Terrorism Suspicious Activity Report intake log.
- Provide real time intelligence / information support, previously coordinated, to Oregon Emergency Management and other appropriate emergency management agencies during an emergency event or operation.
- Provide updated all crimes or terrorism-related intelligence information to local, state and federal law enforcement agencies as requested or required.
- Provide liaison support and information sharing in support of emergency operations by disseminating emergency information through the Terrorism Information and Threat Assessment Network (TITAN).
- Provide an Oregon TITAN Fusion Center staff member to be collocated within the Oregon Emergency Coordination Center in the event of an emergency.

4. Concept of Operations

- Provide terrorism-related alerts, bulletins and assessments to public and private-sector companies and organizations as requested or required.

4.5.5 Resource Management

Resource management during an emergency is normally done at the incident command post under the incident command system. In a major emergency or disaster, management of resources deployed to any one incident is still necessary at the incident command post, but it is also necessary at the EOC / ECC. At the EOC / ECC and under the direction of the Emergency Manager or designee and Public Works Director, a Resource Management Team may be assembled consisting of at least one representative from the Police and Fire Departments, with support from the Finance Department.

This team will keep a continuous record of all resources (personnel, materials, supplies, and equipment) available for response efforts and of the incident or staging area to which each is assigned, or any other storage location; the length of time resources have been in or out of use; when they must be rotated off duty; when they will require food, fuel, or maintenance; and other information pertinent to its availability for use in the response effort.

Under emergency conditions, members of the EOC / ECC staff will allocate resources according to the following guidelines:

- Deploy resources according to the following priorities:
 1. Protection of life
 2. Protection of responding resources
 3. Protection of public facilities
 4. Protection of private property
- Distribute resources in a manner that provides the most benefit for the amount of local resources expended.
- Coordinate citizen appeals for assistance through the PIO at the EOC / ECC. Local media will be used to provide citizens with information about where to make these requests.
- Escalate the activation of other available resources by activating mutual aid agreements with other jurisdictions.
- Should the emergency be of such magnitude that all local resources are committed or expended, request assistance from the County for County, State, and Federal resources.

4. Concept of Operations

- Activation of County, State, and / or Federal resources will be accomplished in a timely manner through an emergency declaration and request for assistance from the County.

4.5.5.1 Volunteer and Donations Management

At this time, the City does not have a formal volunteer and donations management program in place. Should one be developed in the future, the program will work to ensure the most efficient and effective use of unaffiliated volunteers, unaffiliated organizations, and unsolicited donated goods to support events and incidents.

The City Emergency Manager or designee will coordinate and manage volunteer services and donated goods through appropriate liaisons assigned at the EOC / ECC, with support from the Red Cross, Salvation Army, and other volunteer organizations. These activities are intended to maximize benefits without hindering emergency response operations. Procedures for accessing and managing these services during an emergency will follow NIMS/ICS standards. Elements of the City's volunteer and donations management program may include:

- Activation of a Volunteer and Donations Management coordinator within the City's emergency management organization to address volunteer and donations management including coordination with neighboring jurisdictions and the state's donation management system.
- Implementation of a system for tracking and utilizing volunteers and donations (including cash contributions).
- Coordination with the County, State and local volunteer agencies and Volunteer Organizations Active in Disaster groups.
- Establishment of facilities such as a warehouse and volunteer reception center.
- Methods and sites for collection, sorting, managing, and distributing in-kind contributions, including methods for disposing of or refusing goods that are not acceptable.
- Communications support such as coordination of a call center and public information.
- Procedures to verify and/or vet voluntary organizations and/or organizations operating relief funds.

The City may coordinate with the County to provide volunteer and donations management support.

4.5.5.2 Resource Typing

The City may choose to implement NIMS resource typing to better address resource and supply needs during an emergency. Resource typing is a method for

4. Concept of Operations

standardizing nomenclature used when requesting equipment and managing resources during an incident; NIMS approves this method for ordering supplies and providing mutual aid to partners during an emergency.

Within many of the resource types are divisions for size, power, or quantity. These are commonly listed as Type I, Type II, Type III, and so on. If interpreted properly, a resource typing list can increase the usefulness of the tools requested in an emergency and may reduce costs by eliminating orders for equipment that are inaccurate or inappropriate for the situation. Response personnel and support staff should practice using resource typing lists and become familiar with the standard terminology for commonly requested resources.

4.5.5.3 Credentialing of Personnel

The City should maintain a program for credentialing of response personnel that provides, respectively, documentation that identifies personnel and authenticates and verifies the qualifications of such personnel by ensuring that such personnel possess a minimum common level of training, experience, physical and medical fitness, and capability appropriate for a particular position.

The City's credentialing program may include the following elements:

- Conduct identify enrollment of personnel in accordance with approved standards.
- Identify type and quality personnel in accordance with published NIMS Job Titles. For those not covered by NIMS, develop typing for positions based on essential functions of a position, levels of training, experience levels, required licensure and certifications, and physical and medical fitness for qualifying for the position.
- Certify personnel based on completion of identify vetting and meeting qualifications for position to be filled.
- Card personnel after completing certification of identity, qualifications and typing.
- Provide authorization for deployment of credentialed personnel through order numbers, travel authorizations, etc.
- Ensure that personnel are credentialed only while they maintain employment and qualifications.

4.5.6 Access and Functional Needs Populations

Access to emergency services shall not be denied on the grounds of color, national origin, sex, age sexual orientation or functional needs. Also referred to as Vulnerable Populations and Special Needs Populations, Access and Functional Needs Populations describes members of the community who experience physical, mental or medical care needs who may require assistance before, during

4. Concept of Operations

and after an emergency incident after exhausting their usual resources and support network.

See FA 2 – Human Services for additional information on Access and Functional Needs Populations including Children, Household Pets and Service Animals and programs the City currently has in place.

4.5.7 Animals in Disaster

While the protection of human life is paramount, the need to care for domestic livestock and / or companion animals plays into decisions made by the affected population. The City will coordinate with local animal owners, veterinarians, and animal advocacy groups to address animal related issues that arise during an emergency.

4.5.8 Demobilization

As the emergency situation progresses and the immediate response subsides, a transition period will occur during which emergency responders will hand responsibility for active coordination of the response to agencies or organizations involved with short- and long-term recovery operations.

The Emergency Manager or designee will determine when a State of Emergency no longer exists and request restoration of normal city functions from the City Mayor or designee. Operations can then be terminated.

4.5.9 Transition to Recovery

Recovery comprises steps that the City will take during and after an emergency to restore government function and community services to the levels existing prior to the emergency. Recovery is both a short- and long-term process. Short-term operations seek to restore vital services to the community and provide for the basic needs of the public, such as bringing necessary lifeline systems (e.g., power, communication, water and sewage, disposal of solid and hazardous wastes, or removal of debris) to an acceptable standard while providing for basic human needs (e.g., food, clothing, and shelter). Once stability is achieved, the City can concentrate on long-term recovery efforts, which focus on restoring the community to a normal or improved state of affairs. The recovery period is also an opportune time to institute mitigation measures, particularly those related to the recent emergency. This is also the phase of reassessing applications, processes, and functions of all annexes of this disaster plan for deficiencies. Resources to restore or upgrade damaged areas may be available if it can be shown that extra repairs will mitigate or lessen the chances of, or damages caused by, another similar disaster in the future.

See FA 4 – Recovery Strategy for more details.

4. Concept of Operations

4.6 Inter-jurisdictional Coordination

4.6.1 Municipalities

The City is responsible for the direction and control of its local resources during emergencies, including requesting additional resources from mutual aid resources. For resources not covered under mutual aid, requests shall be directed to County Emergency Management, including any requests for a State Declaration of Emergency or presidential disaster declaration.

4.6.2 Mutual Aid

State law (ORS 402.010 and 402.015) authorizes the City to enter into Cooperative Assistance Agreements with public and private agencies in accordance with their needs. Personnel, supplies, and services may be used by a requesting agency if the granting agency cooperates and extends such services.

State law (ORS 402.210) authorizes the creation of an intrastate mutual assistance compact among local governments within the State. This compact streamlines the process by which a local government requests assistance and temporarily acquires resources.

4.6.3 Special Service Districts

These districts provide services such as fire protection and water delivery systems that are not available from City or County government. Each is governed by an elected Board of Directors and has policies separate from City and County government. They often overlap City and County boundary lines and thus may serve as primary responders to emergencies within their service districts.

4.6.4 Private Sector

Disaster response by local government agencies may be augmented by business, industry, and volunteer organizations. The Emergency Manager or designee will coordinate response efforts with business and industry, to include providing assistance, as appropriate, in action taken by industry to meet State emergency preparedness regulations governing businesses, such as utility companies, that provide essential services. Schools, hospitals, nursing/care homes and other institutional facilities are required by Federal, State, or local regulations to have disaster plans. The Public Information Officer (PIO) will also work with voluntary organizations to provide certain services in emergency situations, typically through previously established agreements. In the preparedness context, essential training programs will be coordinated by the sponsoring agencies of such organizations as the American Red Cross, faith-based groups, amateur radio clubs, Community Emergency Response Teams, etc.

4.6.5 County Government

The County EMO, as defined in the County EOP, can be activated through County Emergency Management. The County provides direct County agency

4. Concept of Operations

support at the local level and serves as a channel for obtaining resources from outside the County structure, including the assistance provided by State, regional, and Federal agencies. Local resources (personnel, equipment, funds, etc.) should be exhausted or projected to be exhausted before the County requests State assistance.

4.6.6 State Government

The State emergency organization, as defined in the State of Oregon EOP, can be activated through OEM. This department provides a duty officer at all times. The State provides direct agency support to the local level and serves as a channel for obtaining resources from outside the State structure, including the assistance provided by the Federal government.

4.6.7 Federal Government

The County shall make requests for Federal disaster assistance to the State of Oregon Emergency Management Division. Federal resources may be requested and provided prior to the formal declaration of a disaster in emergency response situations. A Presidential Disaster Declaration makes available extensive disaster response and recovery assistance, including financial support to governments, businesses, and individual citizens.

THIS PAGE LEFT BLANK INTENTIONALLY

5

Command and Control

5.1 General

The ultimate responsibility for command and control of City departments and resources lies with the Emergency Manager or designee. Direction and control of City emergency operations will be conducted via ICS and the Multi-Agency Coordination System. The City EMO is responsible for maintaining the readiness of the City Emergency Operations Center (City EOC) and identifying and training support staff. City departments will be requested to designate personnel who can be made available to be trained by City Emergency Management and to work in the City EOC during a major disaster. Other departments may be requested to provide assistance in a major emergency.

5.2 On-Scene Incident Management

Initial response to an incident will be managed by the responding agency (i.e., Public Works Department, Police Department, and/or Fire Department) who will assign an on-scene Incident Commander. The on-scene Incident Commander is responsible for performing such duties as causing emergency measures to be enforced and designating emergency areas. During the initial response, the on-scene Incident Commander may establish an Incident Command Post and may assume the responsibilities of Command Staff until delegated. Upon establishment of ICS, the on-scene Incident Commander will notify the City Emergency Manager and request activation of the City EOC, as appropriate.

5.3 Emergency Operations Center Support to On-Scene Operations

Depending on the type and size of incident, or at the request of the on-scene Incident Commander, the City may activate the City EOC and assign an EOC Director to support on-scene operations and coordinate City resources. The request will be submitted to the City Emergency Manager who will determine whether to activate the City EOC and will assume, or designate, the role of EOC Director. In most instances, the on-scene Incident Commander will retain tactical control over the incident, relying on the City EOC for resource coordination, communications and public information support. In a more complex incident, the Incident Commander may relocate to the City EOC to serve as part of Unified Command, ensuring proper coordination of resources across agencies.

5. Command and Control

Upon activation of the City EOC, the Emergency Manager or designee is empowered to assume executive control over all departments, divisions, and offices of Baker City during a state of emergency. The Emergency Manager or designee becomes the Incident Commander (IC) and is responsible for performing such duties as causing emergency measures to be enforced and designating emergency areas. The Emergency Manager or designee may declare a “state of emergency” should the City Council not be reasonably available. The Emergency places this plan into effect, may activate and staff the City EOC on full or partial basis. In the event that one or more of the above actions are implemented, a report of such action should be made to the Mayor and City Council at the first available opportunity.

Outside assistance, whether from other political jurisdictions or from organized volunteer groups, will be requested and used only as an adjunct to existing City services, and then only when the situation threatens to expand beyond the City’s response capabilities.

5.4 Emergency Operations Center / Emergency Coordination Center

Incident response activities will be supported from the City EOC and will be activated upon notification of a possible or actual emergency. The City EOC will track, manage, and allocate appropriate resources and personnel. During large-scale emergencies, the City EOC will, in fact, become the seat of government for the duration of the crisis. The City EOC will serve as a multi-agency coordination center, if needed.

The City Emergency Manager is responsible for maintaining the readiness of the EOC and identifying and training support staff. City departments will be requested to designate personnel who can be made available to be trained to support the City EMO and to work in the EOC during a major disaster. Other departments may be requested to provide assistance in a major emergency.

5.4.1 Emergency Operations Center Activation

During emergency operations and upon activation, the EOC staff will assemble and exercise Direction and Control, as outlined below.

- The City EOC will be activated by the Emergency Manager who may assume or designate the role of EOC Director. While the on-scene Incident Commander retains tactical control of the incident, the EOC Director assumes responsibility for coordinating and prioritizing City resources in support of emergency operations.
- The EOC Director or designee will determine the level of staffing required and will alert the appropriate personnel, agencies, and organizations.

5. Command and Control

- Emergency operations will be conducted by City departments, augmented as required by trained reserves, volunteer groups, and forces supplied through mutual aid agreements. County, State, and Federal support will be requested if the situation dictates.
- Communications equipment in the City EOC will be used to receive information, disseminate instructions, and coordinate emergency operations.
- The on-scene Incident Commander or designee may establish an on-scene command post at the scene to maintain close contact and coordination with the City EOC.
- Department heads and organization leaders are responsible for emergency functions assigned to their activities, as outlined in their respective annexes.
- The City EOC may, as appropriate, operate on a 24-hour basis, rotating on 12-hour shifts, or as needed.
- The City Emergency Manager or designee will immediately notify the County Emergency Management office upon activation. Periodic updates will be issued as the situation requires.

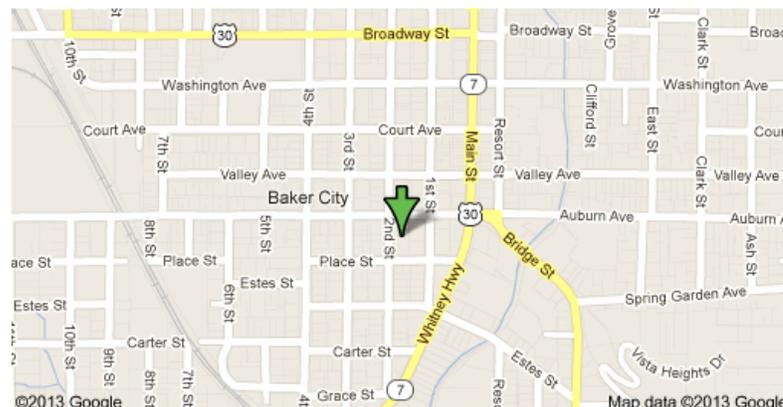

5.4.2 Emergency Operations Center / Emergency Coordination Center Location

The location of the City EOC will be decided by the Emergency Manager or Incident Commander based on the emergency situation. Locations within Baker City that may function as the City EOC are:

Baker City Fire Department

1616 Second Avenue
Baker City, OR 97814

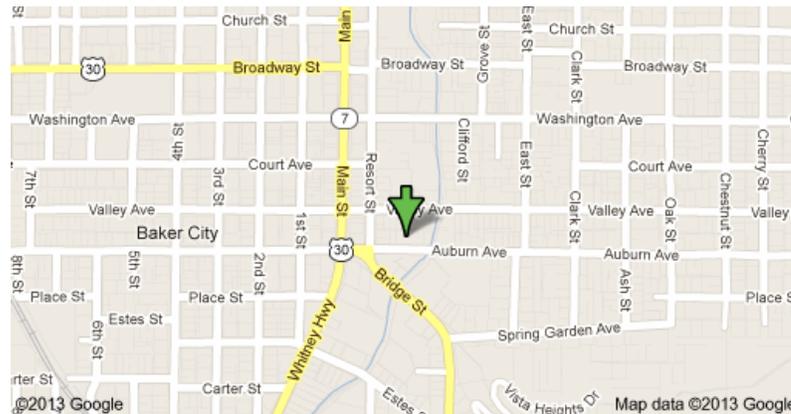

Figure 5-1 Baker City Fire Department

5. Command and Control

Baker City Police Department
1768 Auburn Avenue
Baker City, OR 97814

Figure 5-2 Baker City Police Department

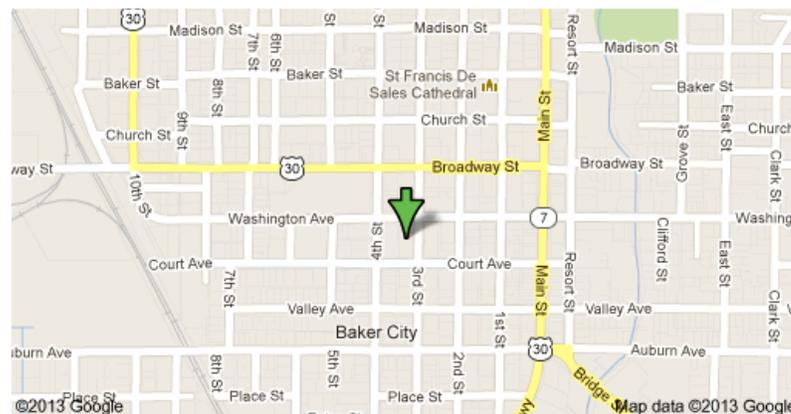

The City may also request support from the County in operating the EOC or in utilizing the County Emergency Coordination Center to support a City response. If the County has activated its ECC the City may also send a representative to support County response operations as part of a Unified Command structure.

The County ECC is located at:

Baker County Courthouse
1995 3rd Street
Baker City, OR 97814

Figure 5-3 Baker County Courthouse

To support the incident the on-scene Incident Commander may also establish an on-scene Incident Command Post (ICP) to direct on-scene tactical operations. Upon establishment of an ICP, the on-scene Incident Commander will notify the

5. Command and Control

City Emergency Manager and establish communications between the ICP and the City EOC if activated.

5.4.3 Emergency Operations Center / Emergency Coordination Center Staffing

Depending on the incident type, the City departments will provide staff to the EOC. The City may receive assistance from Baker County Emergency Management to support the City EOC. At any time, if the incident expands or contracts, changes in jurisdiction or discipline, or becomes more or less complex, the Incident Commander may change to meet the needs of the incident. In the event that local staffing resources are not adequate to maintain City EOC operations the City may request support from the State via the County.

Due to limited personnel and resources available in the City, it is imperative that all primary and alternate City EOC staff be trained on ICS functions outside their areas of expertise. Regularly exercising ICS, including sub-functions and liaison roles, with volunteers and other support staff will improve overall City EOC operation efficiency and add depth to existing City emergency management and response organizations.

5.4.4 Access and Security

Since the EOC / ECC is an operational center dealing with a large volume of incoming and outgoing, often sensitive, information, access will be limited to designated emergency operations personnel. Others may be allowed access as determined by the EOC Director, or designee. Appropriate security measures will be in place to identify personnel who are authorized to be present.

5.4.5 Deactivation

Each situation will need to be evaluated to determine the need for continued operation of the City EOC after the emergency response phase of the incident has been completed. This decision is made by the City Emergency Manager or in coordination with the County Emergency Manager if a Unified Command has been established.

During the initial phase of the recovery period for a major disaster, it may be desirable to continue to operate the City EOC during the day with limited staffing to facilitate the dissemination of information on disaster relief programs available for the public and local government. This alternative should be weighed against the option of immediately requiring the City Emergency Manager or designee and staff to handle the recovery phase as part of their daily responsibilities, which is the ultimate goal.

The City Emergency Manager or designee, in conjunction with the County Emergency Manager, has the final approval authority for activation and closure of the City EOC. Once the decision has been made to limit hours / staff or close the

5. Command and Control

City EOC, this needs to be disseminated to the same agencies that were notified when it was activated.

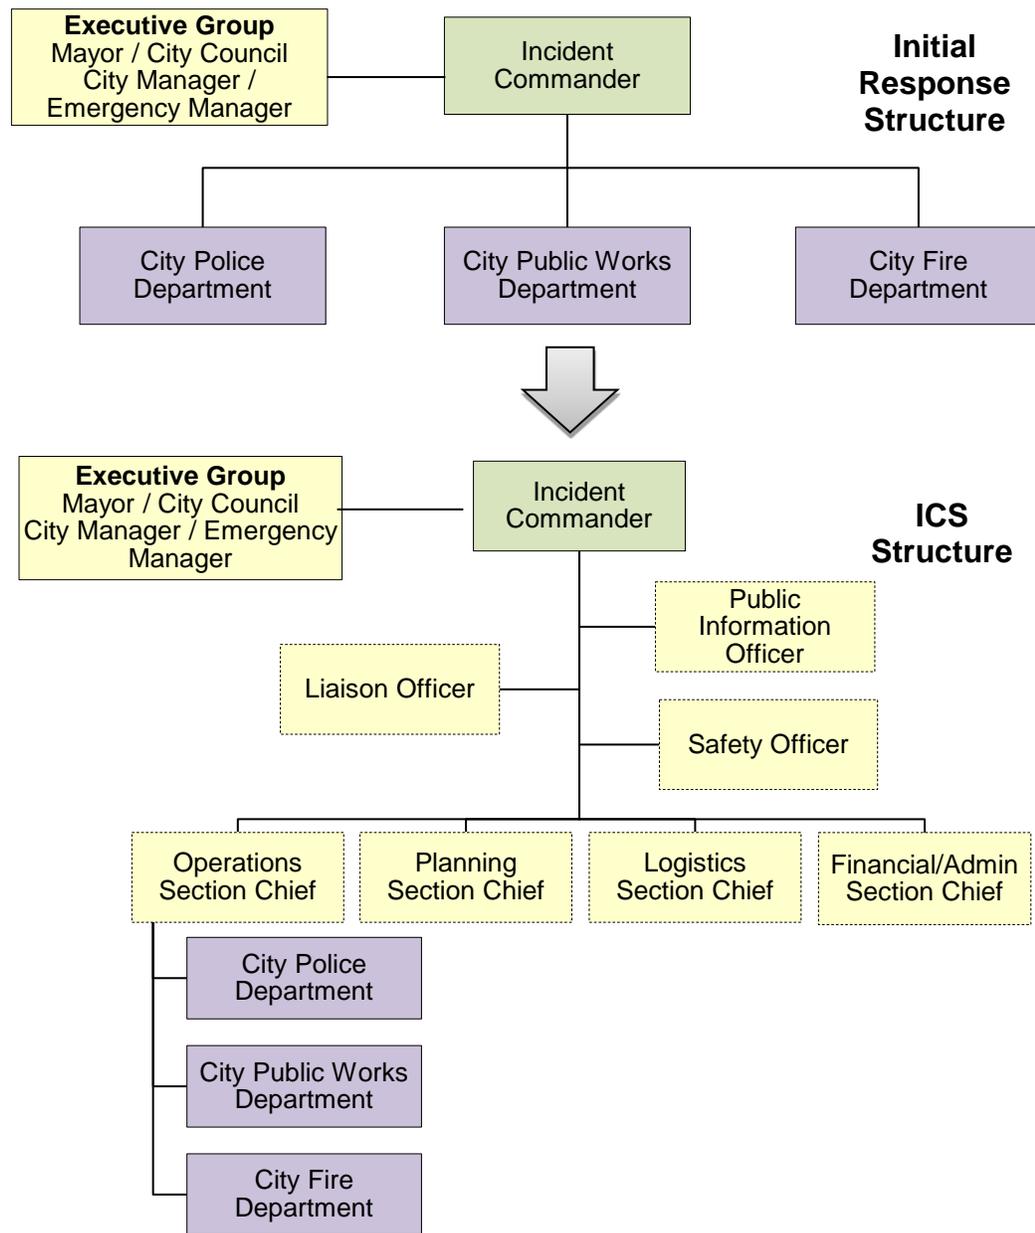

If necessary the City EOC may be re-opened (see activation procedures in section 5.4.1) and emergency operations may be re-initiated at any time. Similar to initial activation, re-activation of the City EOC would occur at the direction of the City Emergency Manager or designee, working in collaboration with the County Emergency Manager.

5.5 Incident Command System

In Oregon, implementation of NIMS and ICS is mandatory during an emergency incident. NIMS is a comprehensive, national approach to incident management, applicable to all jurisdictional levels and across functional disciplines. ICS is a standardized, flexible, and scalable, all-hazard incident management system designed to be utilized from the time an incident occurs until the need for management and operations no longer exists. The system consists of practices for managing resources and activities during an emergency response and allows agencies to communicate using common terminology and operating procedures. It also allows for effective coordination and allocation of resources throughout an incident's duration. The ICS structure can be expanded or contracted, depending on the incident's changing conditions. It can be staffed and operated by qualified personnel from any emergency service agency and may involve personnel from a variety of disciplines. As such, the system can be utilized for any type or size of emergency, ranging from a minor incident involving a single unit to a major emergency involving several agencies and spanning numerous jurisdictions. The City has established an EMO, supporting EOC / ECC activation and operational procedures, and position checklists compliant with NIMS / ICS. This information is contained within this EOP; however, this document is not an EOC / ECC manual. A transitional ICS organizational chart for the City is presented in Figure 5-4.

5. Command and Control

Figure 5-4 Example of a Scalable Command Structure for the City

5.5.1 Emergency Operations Center Command Staff

5.5.1.1 EOC Director

The EOC Director is responsible for the operations of the City EOC when it is activated and has overall responsibility for accomplishing the City EOC mission. In general, the EOC Director is responsible for:

- Approving and supporting implementation of an IAP.
- Coordinating activities supporting the incident or event.

5. Command and Control

- Approving release of information through the PIO.
- Performing the duties of the following command staff if no one is assigned to the position:
 - Safety Officer
 - Public Information Officer
 - Liaison Officer

5.5.1.2 Safety Officer

The Safety Officer position generally applies to incident scenes and is responsible for:

- Identifying initial hazards, determining personal protective equipment requirements, and defining decontamination areas.
- Implementing site control measures.
- Monitoring and assessing the health and safety of response personnel and support staff (may be necessary for the City EOC as well).
- Preparing and implementing a site Health and Safety Plan and updating the EOC Director regarding safety issues or concerns, as necessary (may be necessary for the City EOC as well).
- Exercising emergency authority to prevent or stop unsafe acts (may be necessary for the City EOC as well).

The County may support the functions of the Safety Officer as necessary during an incident.

5.5.1.3 Public Information Officer

A lead PIO will most likely coordinate and manage a larger public information network representing local, County, regional, and State agencies; tribal entities; political officials; and other emergency management stakeholders. The PIO's duties include:

- Developing and coordinating release of information to incident personnel, media, and the general public.
- Coordinating information sharing among the public information network through the use of a Joint Information System (JIS) and, if applicable, participating in a Joint Information Center (JIC).
- Implementing information clearance processes with the IC.

5. Command and Control

- Conducting and / or managing media briefings and implementing media-monitoring activities.

5.5.1.4 Liaison Officer

Specific liaison roles may be incorporated into the command structure established at the City EOC or County ECC, depending on the type of emergency incident that has occurred. Liaisons represent entities and organizations such as hospitals, school districts, tribes, public works/utility companies, and volunteer services such as the American Red Cross. Responsibilities typically associated with a liaison role include:

- Serving as the contact point for local government officials, agency or tribal representatives, and stakeholders.
- Coordinating information and incident updates among interagency contacts, including the public information network.
- Providing resource status updates and limitations among personnel, capabilities, equipment, and facilities to the EOC Director, government officials, and stakeholders.

The annexes attached to this plan contain general guidelines for the City governmental entities, organizations, and County officials and departments to carry out responsibilities assigned at the City EOC or other designated facility where response efforts will be coordinated.

5.5.2 EOC General Staff

5.5.2.1 Operations Section Chief

The Operations Section Chief position is typically filled by the lead agency managing response activities for a specific type of incident. The Operations Section is organized into functional units representing agencies involved in tactical operations. The following agencies are typically included in the Operations Section:

- Fire (emergencies dealing with fire, earthquake with rescue, or hazardous materials).
- Law Enforcement (incident(s) involving civil disorder/disturbance, significant security/public safety concerns, transportation-related accidents, and/or criminal investigations).
- Public Health Officials (contamination issues, disease outbreaks, and/or emergency incidents posing threats to human, animal, and environmental health).
- Public Works (incidents resulting in major utility disruptions, damage to critical infrastructure, and building collapse).

5. Command and Control

Private entities, companies, and NGOs may also support the Operations section. The Operations Chief is responsible for:

- Providing organizational support and directing implementation of unit operational plans and field response activities.
- Developing and coordinating tactical operations to carry out the IAP;
- Managing and coordinating various liaisons representing community response partners and stakeholders.
- Directing IAP tactical implementation.
- Requesting resources needed to support the IAP.

5.5.2.2 Planning Section Chief

The Planning Section is responsible for forecasting future needs and events of the response effort while ensuring implementation of appropriate procedures and processes. This section is typically supported by four primary units: Resources, Situation, Documentation, and Demobilization. The Planning Chief is responsible for:

- Collecting, evaluating, and distributing information regarding the incident and providing a status summary.
- Preparing and disseminating the IAP.
- Conducting planning meetings and developing alternatives for tactical operations.
- Maintaining resource status.

5.5.2.3 Logistics Section Chief

The Logistics Section is typically supported by the units responsible for Supply, Food, Communications, Medical, Facilities, and Ground Support. Depending on the incident's type and size, these units can be divided into two branches: Service and Support. The Logistics Chief is responsible for:

- Providing and managing resources to meet the needs of incident personnel.
- Managing various coordinators of particular resources, such as transportation-related equipment, City EOC staff support services, supplies, facilities, and personnel.
- Estimating future support and resource requirements.
- Assisting with development and preparation of the IAP.

5. Command and Control

5.5.2.4 Finance / Administration

The Finance/Administration Section is specific to the incident type and severity of resulting impacts. In some instances, agencies may not require assistance, or only a specific function of the section may be needed that can be staffed by a technical specialist in the Planning section. Potential units assigned to this section include: Compensation/Claims, Procurement, Cost, and Time. The Finance and Administration Chief is responsible for:

- Monitoring costs related to the incident.
- Maintaining accounting, procurement, and personnel time records.
- Conducting cost analyses.

5.5.3 Unified Command

In some cases, such as public health-related incidents, several organizations may share response authority. ICS has the advantage of combining different local, County, regional, State, and Federal agencies into the same organizational system, maximizing coordination of response activities, and avoiding duplication of efforts. A structure called Unified Command (UC) allows the IC position to be shared among several agencies and organizations that maintain jurisdiction. UC members retain their original authority but work to resolve issues in a cooperative fashion to enable a more efficient response and recovery.

In a large incident involving multiple jurisdictions and/or regional, state, and Federal response partners, a UC may replace a single organization IC. Each of the four primary ICS sections may be further subdivided, as needed. In smaller situations, where additional persons are not required, the IC will directly manage all aspects of the incident organization. Figure 5-5 is an example of a UC organizational chart for the City. It provides operational flexibility to expand or contract staffing, depending on the incident's nature and size.

5.5.4 Area Command

Area Command is activated only if necessary, depending on the complexity of the incident and span-of-control considerations. An area command is established either to oversee the management of multiple incidents that are being handled by separate ICS organizations or to oversee the management of a very large incident that involves multiple ICS organizations. It is important to note that Area Command does not have operational responsibilities. For incidents under its authority, the Area Command:

- Sets overall agency incident-related priorities.
- Allocates critical resources according to established priorities.
- Ensures that incidents are managed properly.

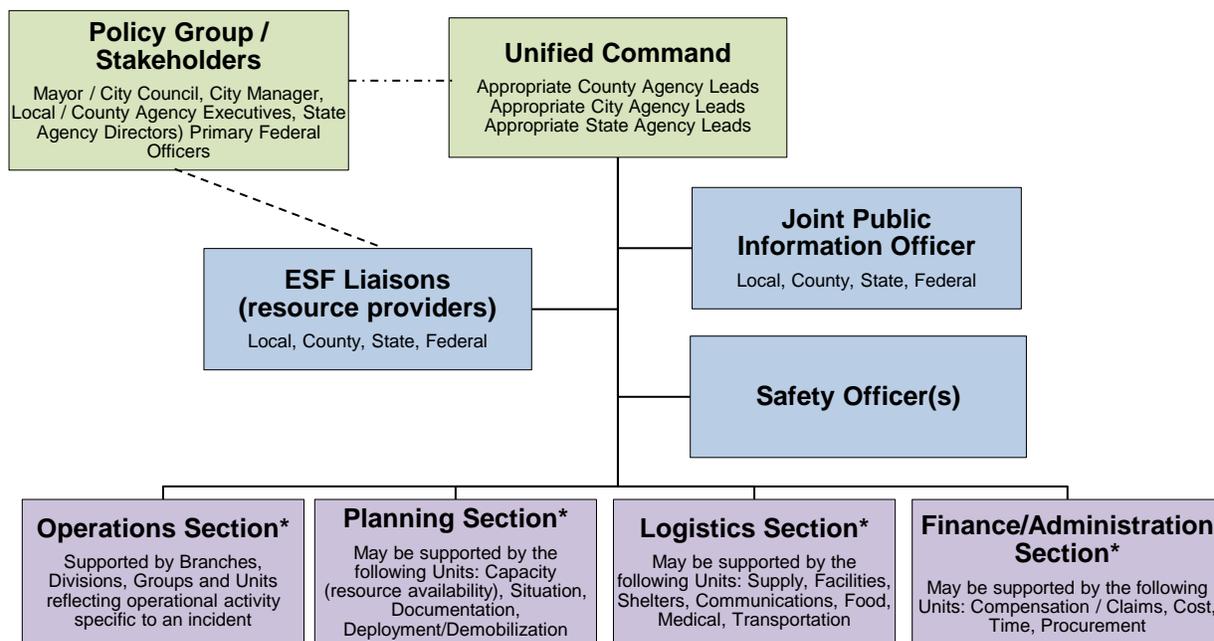

5. Command and Control

- Ensures effective communications.
- Ensures that incident management objectives are met and do not conflict with each other or with agency policies.
- Identifies critical resource needs and reports them to the Emergency Operations Center(s).
- Ensures that short-term emergency recovery is coordinated to assist in the transition to full recovery operations.
- Provides for personnel accountability and a safe operating environment.

5.5.5 Multi-Agency Coordination

In the event the City is coordinating a response with other jurisdictions or agencies with authority over the incident it may choose to implement a Multi-Agency Coordination (MAC) Group. Typically, administrators/executives, or their appointed representatives, who are authorized to commit agency resources and funds, are brought together and form MAC Groups. MAC Groups may also be known as multiagency committees, emergency management committees, or as otherwise defined by the system. A MAC Group can provide coordinated decision making and resource allocation among cooperating agencies, and may establish the priorities among incidents, harmonize agency policies, and provide strategic guidance and direction to support incident management activities.

Figure 5-5 Example of Unified Command for the City

*Note: In any type of incident, a Section Chief may be assigned a Deputy. In addition, an Intelligence Section would be incorporated into the command structure in response to incidents of national significance or those presumed or confirmed to be terrorist-related.

6

Plan Development, Maintenance and Implementation

6.1 Plan Review and Maintenance

At a minimum, this EOP will be formally reviewed and re-promulgated every five years to comply with State requirements. This review will be coordinated by the Baker City Manager and will include participation by members from each of the departments assigned as lead agencies in this EOP and its supporting annexes. This review will:

- Verify contact information.
- Review the status of resources noted in the plan.
- Evaluate the procedures outlined to ensure their continued viability.

In addition, lead agencies will review the annexes and appendices assigned to their respective departments. A more frequent schedule for plan review and revision may be necessary.

Recommended changes should be forwarded to:

City of Baker City
ATTN: City Manager
1655 First Street
P.O. Box 650
Baker City, OR 97814

6.2 Training Program

The City Manager specifically coordinates training for City personnel and encourages them to participate in trainings hosted by other jurisdictions throughout the region.

Current training and operational requirements set forth under NIMS have been adopted and implemented by the City. Each City Department maintains records and lists of training received by City personnel. Training requirements apply to all first responders and disaster workers, including first-line supervisors, middle management, and command and general staff. NIMS identifies these positions as follows:

6. Plan Development, Maintenance and Implementation

- EMS personnel
- Firefighters
- Law enforcement personnel
- Public works and utility personnel
- Skilled support personnel
- Other emergency management response personnel
- Support/volunteer personnel at all levels

Table 6-1 provides the minimum training requirements for the City’s emergency personnel.

Table 6-1 Minimum Training Standards

Emergency Personnel	Training Standard
Direct role in emergency management or emergency response	ICS-100 IS-700a
First-line supervisors, mid-level management and command and general staff	ICS-100, -200 IS-700a
Supervisory role in expanding incidents or have a management role in an EOC	ICS-100, -200, -300 IS-700a
Management capacity in an area command situation or EOC	ICS-100, -200, -300, -400 IS-700a, -701a
Public Information Officers	IS-702a
Resource management	IS-703a
Communication or incident information systems	IS-701
Development of mutual aid Agreements and/or mutual aid operational plans	IS 706
Planning	IS-800b
<i>Additional information about training requirements can be found on the OEM website at http://www.oregon.gov/OMD/OEM/plans_train/docs/nims/nims_who_takes_what.pdf. Independent study courses can be found at http://training.fema.gov/IS/crslst.asp.</i>	

6.3 Exercise Program

Baker City will conduct exercises throughout the year to test and evaluate this EOP. Whenever feasible, the City will coordinate with neighboring jurisdictions and State and Federal government to participate in joint exercises. These exercises will consist of a variety of tabletop exercises, drills, functional exercises, and full-scale exercises. The City will aim to hold exercises on a semi-annual basis.

6. Plan Development, Maintenance and Implementation

As appropriate, the City will use Homeland Security Exercise and Evaluation Program (HSEEP) procedures and tools to develop, conduct, and evaluate these exercises. Information about this program can be found at <http://hseep.dhs.gov>.

The Emergency Manager or designee will work with other City and County departments and agencies to identify and implement corrective actions and mitigation measures, based on exercises conducted through Emergency Management.

6.4 Event Critique and After Action Reporting

In order to document and track lessons learned from exercises, the Emergency Manager or designee will conduct a review, or “hot wash,” with exercise participants after each exercise. The Emergency Manager or designee will also coordinate an After Action Report (AAR), which will describe the objectives of the exercise and document the results of the evaluation.

Similarly, reviews and AARs will be facilitated after an actual disaster that will document activities of the incident to improve the City’s readiness. All agencies involved in the emergency response will participate in the AAR. The AAR following an incident should include actions taken, identification of equipment shortcomings as well as highlight of strengths, and make recommendations to improve operational readiness. Recommendations may include suggested future exercise events and programs. Valuable success stories and lessons learned maybe submitted to the Lessons Learned Information Sharing website (www.llis.gov). The Emergency Manager or designee will ensure that equipment, training, and planning shortfalls identified following an incident are addressed by the City’s EMO.

6.5 Community Outreach and Preparedness Education

Educational tools are used to teach the public about threats, disasters, and what to do when an emergency occurs. The City maintains an active community preparedness program and recognizes that citizen preparedness and education are vital components of the City’s overall readiness.

Information about the City’s public education programs, hazard and mitigation information, and other emergency management and emergency services can be found on the City’s website at <http://www.bakercity.com/community/disaster-preparedness>.

6.6 Funding and Sustainment

It is a priority of the City to fund and maintain an emergency management organization that ensures the City’s ability to respond to and recover from disasters. The Emergency Manager or designee will work with City Council and community stakeholders to:

6. Plan Development, Maintenance and Implementation

- Identify funding sources for emergency management programs, personnel and equipment.
- Ensure Council is informed of progress toward building emergency response and recovery capabilities and is aware of gaps to be addressed.
- Leverage partnerships with local, regional and state partners to maximize use of scarce resources.

Appendix A. Sample Disaster Declaration Forms

DECLARATION OF STATE OF EMERGENCY

To: _____,
Baker County Department of Emergency Management and Homeland Security

From: _____,
Baker City, Oregon

At _____ (time) on _____ (date),

a/an _____ (description
of emergency incident or event type) occurred in the Baker City threatening life
and property.

The current situation and conditions are:

Three horizontal lines for describing the current situation and conditions.

The geographic boundaries of the emergency are:

Two horizontal lines for describing the geographic boundaries of the emergency.

WE DO HEREBY DECLARE THAT A STATE OF EMERGENCY NOW EXISTS IN THE BAKER CITY AND THAT THE CITY HAS EXPENDED OR WILL SHORTLY EXPEND ITS NECESSARY AND AVAILABLE RESOURCES. WE RESPECTFULLY REQUEST THAT THE COUNTY PROVIDE ASSISTANCE, CONSIDER THE CITY AN "EMERGENCY AREA" AS PROVIDED FOR IN ORS 401, AND, AS APPROPRIATE, REQUEST SUPPORT FROM STATE AGENCIES AND/OR THE FEDERAL GOVERNMENT.

Signed: _____

Title: _____ Date & Time: _____

This request may be passed to the County via radio, telephone, email, or FAX. The original signed document must be sent to the County Emergency Management Office, with a copy placed in the final incident package.

Incident Command System Forms

THIS PAGE LEFT BLANK INTENTIONALLY

Appendix B. Incident Command System Forms

Index of Incident Command System (ICS) Forms

The following ICS forms are included in this appendix.

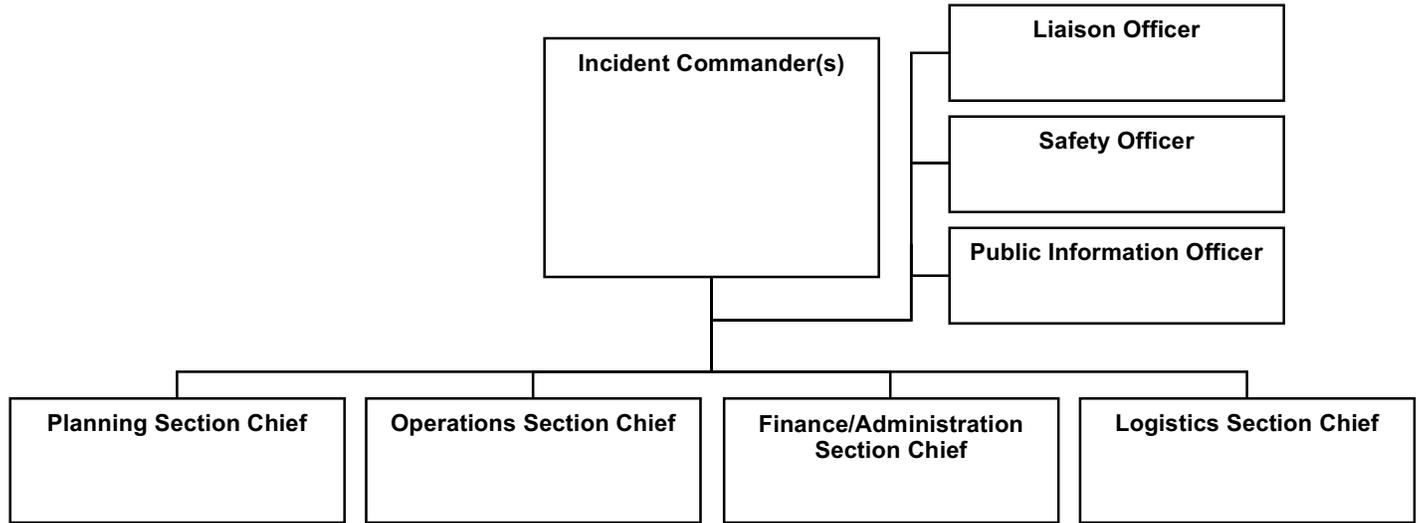

ICS Form No.	Form Title
ICS Form 201	Incident Briefing
ICS Form 202	Incident Objectives
ICS Form 203	Organization Assignment List
ICS Form 204	Assignment List
ICS Form 205	Incident Radio Communications Plan
ICS Form 205a	Communications List
ICS Form 206	Medical Plan
ICS Form 207	Incident Organizational Chart
ICS Form 208	Safety Message/Plan
ICS Form 209	Incident Status Summary
ICS Form 210	Resource Status Change
ICS Form 211	Incident Check-in List
ICS Form 213	General Message
ICS Form 214	Activity Log
ICS Form 215	Operational Planning Worksheet
ICS Form 215a	Incident Action Plan Safety Analysis
ICS Form 218	Support Vehicle/Equipment Inventory
ICS Form 219	Resource Status Card (T-Card)
ICS Form 220	Air Operations Summary
ICS Form 221	Demobilization Plan
ICS Form 225	Incident Personnel Performance Rating

INCIDENT BRIEFING (ICS 201)

1. Incident Name:	2. Incident Number:	3. Date/Time Initiated: Date: _____ Time: _____
-------------------	---------------------	--

9. Current Organization (fill in additional organization as appropriate):

6. Prepared by: Name: _____	Position/Title: _____	Signature: _____
ICS 201, Page 3	Date/Time: _____	

ICS 201 Incident Briefing

Purpose. The Incident Briefing (ICS 201) provides the Incident Commander (and the Command and General Staffs) with basic information regarding the incident situation and the resources allocated to the incident. In addition to a briefing document, the ICS 201 also serves as an initial action worksheet. It serves as a permanent record of the initial response to the incident.

Preparation. The briefing form is prepared by the Incident Commander for presentation to the incoming Incident Commander along with a more detailed oral briefing.

Distribution. Ideally, the ICS 201 is duplicated and distributed before the initial briefing of the Command and General Staffs or other responders as appropriate. The “Map/Sketch” and “Current and Planned Actions, Strategies, and Tactics” sections (pages 1–2) of the briefing form are given to the Situation Unit, while the “Current Organization” and “Resource Summary” sections (pages 3–4) are given to the Resources Unit.

Notes:

- The ICS 201 can serve as part of the initial Incident Action Plan (IAP).
- If additional pages are needed for any form page, use a blank ICS 201 and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Incident Number	Enter the number assigned to the incident.
3	Date/Time Initiated <ul style="list-style-type: none"> • Date, Time 	Enter date initiated (month/day/year) and time initiated (using the 24-hour clock).
4	Map/Sketch (include sketch, showing the total area of operations, the incident site/area, impacted and threatened areas, overflight results, trajectories, impacted shorelines, or other graphics depicting situational status and resource assignment)	Show perimeter and other graphics depicting situational status, resource assignments, incident facilities, and other special information on a map/sketch or with attached maps. Utilize commonly accepted ICS map symbology. If specific geospatial reference points are needed about the incident's location or area outside the ICS organization at the incident, that information should be submitted on the Incident Status Summary (ICS 209). North should be at the top of page unless noted otherwise.
5	Situation Summary and Health and Safety Briefing (for briefings or transfer of command): Recognize potential incident Health and Safety Hazards and develop necessary measures (remove hazard, provide personal protective equipment, warn people of the hazard) to protect responders from those hazards.	Self-explanatory.
6	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position/title, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).
7	Current and Planned Objectives	Enter the objectives used on the incident and note any specific problem areas.

Block Number	Block Title	Instructions
8	Current and Planned Actions, Strategies, and Tactics <ul style="list-style-type: none"> • Time • Actions 	Enter the current and planned actions, strategies, and tactics and time they may or did occur to attain the objectives. If additional pages are needed, use a blank sheet or another ICS 201 (Page 2), and adjust page numbers accordingly.
9	Current Organization (fill in additional organization as appropriate) <ul style="list-style-type: none"> • Incident Commander(s) • Liaison Officer • Safety Officer • Public Information Officer • Planning Section Chief • Operations Section Chief • Finance/Administration Section Chief • Logistics Section Chief 	<ul style="list-style-type: none"> • Enter on the organization chart the names of the individuals assigned to each position. • Modify the chart as necessary, and add any lines/spaces needed for Command Staff Assistants, Agency Representatives, and the organization of each of the General Staff Sections. • If Unified Command is being used, split the Incident Commander box. • Indicate agency for each of the Incident Commanders listed if Unified Command is being used.
10	Resource Summary <ul style="list-style-type: none"> • Resource • Resource Identifier • Date/Time Ordered • ETA • Arrived • Notes (location/assignment/status) 	Enter the following information about the resources allocated to the incident. If additional pages are needed, use a blank sheet or another ICS 201 (Page 4), and adjust page numbers accordingly.
		Enter the number and appropriate category, kind, or type of resource ordered.
		Enter the relevant agency designator and/or resource designator (if any).
		Enter the date (month/day/year) and time (24-hour clock) the resource was ordered.
		Enter the estimated time of arrival (ETA) to the incident (use 24-hour clock).
		Enter an "X" or a checkmark upon arrival to the incident.
		Enter notes such as the assigned location of the resource and/or the actual assignment and status.

ICS 202 Incident Objectives

Purpose. The Incident Objectives (ICS 202) describes the basic incident strategy, incident objectives, command emphasis/priorities, and safety considerations for use during the next operational period.

Preparation. The ICS 202 is completed by the Planning Section following each Command and General Staff meeting conducted to prepare the Incident Action Plan (IAP). In case of a Unified Command, one Incident Commander (IC) may approve the ICS 202. If additional IC signatures are used, attach a blank page.

Distribution. The ICS 202 may be reproduced with the IAP and may be part of the IAP and given to all supervisory personnel at the Section, Branch, Division/Group, and Unit levels. All completed original forms must be given to the Documentation Unit.

Notes:

- The ICS 202 is part of the IAP and can be used as the opening or cover page.
- If additional pages are needed, use a blank ICS 202 and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident. If needed, an incident number can be added.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Objective(s)	Enter clear, concise statements of the objectives for managing the response. Ideally, these objectives will be listed in priority order. These objectives are for the incident response for this operational period as well as for the duration of the incident. Include alternative and/or specific tactical objectives as applicable. Objectives should follow the SMART model or a similar approach: <u>S</u>pecific – Is the wording precise and unambiguous? <u>M</u>easurable – How will achievements be measured? <u>A</u>ction-oriented – Is an action verb used to describe expected accomplishments? <u>R</u>ealistic – Is the outcome achievable with given available resources? <u>T</u>ime-sensitive – What is the timeframe?
4	Operational Period Command Emphasis	Enter command emphasis for the operational period, which may include tactical priorities or a general weather forecast for the operational period. It may be a sequence of events or order of events to address. This is not a narrative on the objectives, but a discussion about where to place emphasis if there are needs to prioritize based on the Incident Commander's or Unified Command's direction. Examples: Be aware of falling debris, secondary explosions, etc.
	General Situational Awareness	General situational awareness may include a weather forecast, incident conditions, and/or a general safety message. If a safety message is included here, it should be reviewed by the Safety Officer to ensure it is in alignment with the Safety Message/Plan (ICS 208).
5	Site Safety Plan Required? Yes <input type="checkbox"/> No <input type="checkbox"/>	Safety Officer should check whether or not a site safety plan is required for this incident.
	Approved Site Safety Plan(s) Located At	Enter the location of the approved Site Safety Plan(s).

Block Number	Block Title	Instructions
6	<p>Incident Action Plan (the items checked below are included in this Incident Action Plan):</p> <p><input type="checkbox"/> ICS 202</p> <p><input type="checkbox"/> ICS 203</p> <p><input type="checkbox"/> ICS 204</p> <p><input type="checkbox"/> ICS 205</p> <p><input type="checkbox"/> ICS 205A</p> <p><input type="checkbox"/> ICS 206</p> <p><input type="checkbox"/> ICS 207</p> <p><input type="checkbox"/> ICS 208</p> <p><input type="checkbox"/> Map/Chart</p> <p><input type="checkbox"/> Weather Forecast/ Tides/Currents</p> <p><u>Other Attachments:</u></p>	<p>Check appropriate forms and list other relevant documents that are included in the IAP.</p> <p><input type="checkbox"/> ICS 202 – Incident Objectives</p> <p><input type="checkbox"/> ICS 203 – Organization Assignment List</p> <p><input type="checkbox"/> ICS 204 – Assignment List</p> <p><input type="checkbox"/> ICS 205 – Incident Radio Communications Plan</p> <p><input type="checkbox"/> ICS 205A – Communications List</p> <p><input type="checkbox"/> ICS 206 – Medical Plan</p> <p><input type="checkbox"/> ICS 207 – Incident Organization Chart</p> <p><input type="checkbox"/> ICS 208 – Safety Message/Plan</p>
7	<p>Prepared by</p> <ul style="list-style-type: none"> • Name • Position/Title • Signature 	<p>Enter the name, ICS position, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).</p>
8	<p>Approved by Incident Commander</p> <ul style="list-style-type: none"> • Name • Signature • Date/Time 	<p>In the case of a Unified Command, one IC may approve the ICS 202. If additional IC signatures are used, attach a blank page.</p>

ICS 203

Organization Assignment List

Purpose. The Organization Assignment List (ICS 203) provides ICS personnel with information on the units that are currently activated and the names of personnel staffing each position/unit. It is used to complete the Incident Organization Chart (ICS 207) which is posted on the Incident Command Post display. An actual organization will be incident or event-specific. **Not all positions need to be filled.** Some blocks may contain more than one name. The size of the organization is dependent on the magnitude of the incident, and can be expanded or contracted as necessary.

Preparation. The Resources Unit prepares and maintains this list under the direction of the Planning Section Chief. Complete only the blocks for the positions that are being used for the incident. If a trainee is assigned to a position, indicate this with a "T" in parentheses behind the name (e.g., "A. Smith (T)").

Distribution. The ICS 203 is duplicated and attached to the Incident Objectives (ICS 202) and given to all recipients as part of the Incident Action Plan (IAP). All completed original forms must be given to the Documentation Unit.

Notes:

- The ICS 203 serves as part of the IAP.
- If needed, more than one name can be put in each block by inserting a slash.
- If additional pages are needed, use a blank ICS 203 and repaginate as needed.
- ICS allows for organizational flexibility, so the Intelligence/Investigations Function can be embedded in several different places within the organizational structure.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none">• Date and Time From• Date and Time To	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Incident Commander(s) and Command Staff <ul style="list-style-type: none">• IC/UCs• Deputy• Safety Officer• Public Information Officer• Liaison Officer	Enter the names of the Incident Commander(s) and Command Staff. Label Assistants to Command Staff as such (for example, "Assistant Safety Officer"). For all individuals, use at least the first initial and last name. For Unified Command, also include agency names.
4	Agency/Organization Representatives <ul style="list-style-type: none">• Agency/Organization• Name	Enter the agency/organization names and the names of their representatives. For all individuals, use at least the first initial and last name.
5	Planning Section <ul style="list-style-type: none">• Chief• Deputy• Resources Unit• Situation Unit• Documentation Unit• Demobilization Unit• Technical Specialists	Enter the name of the Planning Section Chief, Deputy, and Unit Leaders after each position title. List Technical Specialists with an indication of specialty. If there is a shift change during the specified operational period, list both names, separated by a slash. For all individuals, use at least the first initial and last name.

Block Number	Block Title	Instructions
6	Logistics Section <ul style="list-style-type: none"> • Chief • Deputy Support Branch <ul style="list-style-type: none"> • Director • Supply Unit • Facilities Unit • Ground Support Unit Service Branch <ul style="list-style-type: none"> • Director • Communications Unit • Medical Unit • Food Unit 	<p>Enter the name of the Logistics Section Chief, Deputy, Branch Directors, and Unit Leaders after each position title.</p> <p>If there is a shift change during the specified operational period, list both names, separated by a slash.</p> <p>For all individuals, use at least the first initial and last name.</p>
7	Operations Section <ul style="list-style-type: none"> • Chief • Deputy • Staging Area Branch <ul style="list-style-type: none"> • Branch Director • Deputy • Division/Group Air Operations Branch <ul style="list-style-type: none"> • Air Operations Branch Director 	<p>Enter the name of the Operations Section Chief, Deputy, Branch Director(s), Deputies, and personnel staffing each of the listed positions. For Divisions/Groups, enter the Division/Group identifier in the left column and the individual's name in the right column.</p> <p>Branches and Divisions/Groups may be named for functionality or by geography. For Divisions/Groups, indicate Division/Group Supervisor. Use an additional page if more than three Branches are activated.</p> <p>If there is a shift change during the specified operational period, list both names, separated by a slash.</p> <p>For all individuals, use at least the first initial and last name.</p>

9	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	<p>Enter the name, ICS position, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).</p>

THIS PAGE LEFT BLANK INTENTIONALLY

ICS 204 Assignment List

Purpose. The Assignment List(s) (ICS 204) informs Division and Group supervisors of incident assignments. Once the Command and General Staffs agree to the assignments, the assignment information is given to the appropriate Divisions and Groups.

Preparation. The ICS 204 is normally prepared by the Resources Unit, using guidance from the Incident Objectives (ICS 202), Operational Planning Worksheet (ICS 215), and the Operations Section Chief. It must be approved by the Incident Commander, but may be reviewed and initialed by the Planning Section Chief and Operations Section Chief as well.

Distribution. The ICS 204 is duplicated and attached to the ICS 202 and given to all recipients as part of the Incident Action Plan (IAP). In some cases, assignments may be communicated via radio/telephone/fax. All completed original forms must be given to the Documentation Unit.

Notes:

- The ICS 204 details assignments at Division and Group levels and is part of the IAP.
- Multiple pages/copies can be used if needed.
- If additional pages are needed, use a blank ICS 204 and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Branch Division Group Staging Area	This block is for use in a large IAP for reference only. Write the alphanumeric abbreviation for the Branch, Division, Group, and Staging Area (e.g., "Branch 1," "Division D," "Group 1A") in large letters for easy referencing.
4	Operations Personnel <ul style="list-style-type: none"> • Name, Contact Number(s) <ul style="list-style-type: none"> – Operations Section Chief – Branch Director – Division/Group Supervisor 	Enter the name and contact numbers of the Operations Section Chief, applicable Branch Director(s), and Division/Group Supervisor(s).
5	Resources Assigned	Enter the following information about the resources assigned to the Division or Group for this period:
	<ul style="list-style-type: none"> • Resource Identifier 	The identifier is a unique way to identify a resource (e.g., ENG-13, IA-SCC-413). If the resource has been ordered but no identification has been received, use TBD (to be determined).
	<ul style="list-style-type: none"> • Leader 	Enter resource leader's name.
	<ul style="list-style-type: none"> • # of Persons 	Enter total number of persons for the resource assigned, including the leader.
	<ul style="list-style-type: none"> • Contact (e.g., phone, pager, radio frequency, etc.) 	Enter primary means of contacting the leader or contact person (e.g., radio, phone, pager, etc.). Be sure to include the area code when listing a phone number.
5 (continued)	<ul style="list-style-type: none"> • Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information 	Provide special notes or directions specific to this resource. If required, add notes to indicate: (1) specific location/time where the resource should report or be dropped off/picked up; (2) special equipment and supplies that will be used or needed; (3) whether or not the resource received briefings; (4) transportation needs; or (5) other information.

Block Number	Block Title	Instructions
6	Work Assignments	Provide a statement of the tactical objectives to be achieved within the operational period by personnel assigned to this Division or Group.
7	Special Instructions	Enter a statement noting any safety problems, specific precautions to be exercised, dropoff or pickup points, or other important information.
8	Communications (radio and/or phone contact numbers needed for this assignment) <ul style="list-style-type: none"> • Name/Function • Primary Contact: indicate cell, pager, or radio (frequency/system/channel) 	Enter specific communications information (including emergency numbers) for this Branch/Division/Group. If radios are being used, enter function (command, tactical, support, etc.), frequency, system, and channel from the Incident Radio Communications Plan (ICS 205). Phone and pager numbers should include the area code and any satellite phone specifics. In light of potential IAP distribution, use sensitivity when including cell phone number. Add a secondary contact (phone number or radio) if needed.
9	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).

THIS PAGE LEFT BLANK INTENTIONALLY

ICS 205 Incident Radio Communications Plan

Purpose. The Incident Radio Communications Plan (ICS 205) provides information on all radio frequency or trunked radio system talkgroup assignments for each operational period. The plan is a summary of information obtained about available radio frequencies or talkgroups and the assignments of those resources by the Communications Unit Leader for use by incident responders. Information from the Incident Radio Communications Plan on frequency or talkgroup assignments is normally placed on the Assignment List (ICS 204).

Preparation. The ICS 205 is prepared by the Communications Unit Leader and given to the Planning Section Chief for inclusion in the Incident Action Plan.

Distribution. The ICS 205 is duplicated and attached to the Incident Objectives (ICS 202) and given to all recipients as part of the Incident Action Plan (IAP). All completed original forms must be given to the Documentation Unit. Information from the ICS 205 is placed on Assignment Lists.

Notes:

- The ICS 205 is used to provide, in one location, information on all radio frequency assignments down to the Division/Group level for each operational period.
- The ICS 205 serves as part of the IAP.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Date/Time Prepared	Enter date prepared (month/day/year) and time prepared (using the 24-hour clock).
3	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
4	Basic Radio Channel Use	Enter the following information about radio channel use:
	Zone Group	
	Channel Number	Use at the Communications Unit Leader's discretion. Channel Number (Ch #) may equate to the channel number for incident radios that are programmed or cloned for a specific Communications Plan, or it may be used just as a reference line number on the ICS 205 document.
	Function	Enter the Net function each channel or talkgroup will be used for (Command, Tactical, Ground-to-Air, Air-to-Air, Support, Dispatch).
	Channel Name/Trunked Radio System Talkgroup	Enter the nomenclature or commonly used name for the channel or talkgroup such as the National Interoperability Channels which follow DHS frequency Field Operations Guide (FOG).
	Assignment	Enter the name of the ICS Branch/Division/Group/Section to which this channel/talkgroup will be assigned.
	RX (Receive) Frequency (N or W)	Enter the Receive Frequency (RX Freq) as the mobile or portable subscriber would be programmed using xxx.xxxx out to four decimal places, followed by an "N" designating narrowband or a "W" designating wideband emissions. The name of the specific trunked radio system with which the talkgroup is associated may be entered across all fields on the ICS 205 normally used for conventional channel programming information.
	RX Tone/NAC	Enter the Receive Continuous Tone Coded Squelch System (CTCSS) subaudible tone (RX Tone) or Network Access Code (RX NAC) for the receive frequency as the mobile or portable subscriber would be programmed.

Block Number	Block Title	Instructions
4 (continued)	TX (Transmit) Frequency (N or W)	Enter the Transmit Frequency (TX Freq) as the mobile or portable subscriber would be programmed using xxx.xxxx out to four decimal places, followed by an "N" designating narrowband or a "W" designating wideband emissions.
	TX Tone/NAC	Enter the Transmit Continuous Tone Coded Squelch System (CTCSS) subaudible tone (TX Tone) or Network Access Code (TX NAC) for the transmit frequency as the mobile or portable subscriber would be programmed.
	Mode (A, D, or M)	Enter "A" for analog operation, "D" for digital operation, or "M" for mixed mode operation.
	Remarks	Enter miscellaneous information concerning repeater locations, information concerning patched channels or talkgroups using links or gateways, etc.
5	Special Instructions	Enter any special instructions (e.g., using cross-band repeaters, secure-voice, encoders, private line (PL) tones, etc.) or other emergency communications needs). If needed, also include any special instructions for handling an incident within an incident.
6	Prepared by (Communications Unit Leader) <ul style="list-style-type: none"> • Name • Signature • Date/Time 	Enter the name and signature of the person preparing the form, typically the Communications Unit Leader. Enter date (month/day/year) and time prepared (24-hour clock).

THIS PAGE LEFT BLANK INTENTIONALLY

ICS 205A Communications List

Purpose. The Communications List (ICS 205A) records methods of contact for incident personnel. While the Incident Radio Communications Plan (ICS 205) is used to provide information on all radio frequencies down to the Division/Group level, the ICS 205A indicates all methods of contact for personnel assigned to the incident (radio frequencies, phone numbers, pager numbers, etc.), and functions as an incident directory.

Preparation. The ICS 205A can be filled out during check-in and is maintained and distributed by Communications Unit personnel. This form should be updated each operational period.

Distribution. The ICS 205A is distributed within the ICS organization by the Communications Unit, and posted as necessary. All completed original forms must be given to the Documentation Unit. If this form contains sensitive information such as cell phone numbers, it should be clearly marked in the header that it contains sensitive information and is not for public release.

Notes:

- The ICS 205A is an optional part of the Incident Action Plan (IAP).
- This optional form is used in conjunction with the ICS 205.
- If additional pages are needed, use a blank ICS 205A and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Basic Local Communications Information	Enter the communications methods assigned and used for personnel by their assigned ICS position.
	<ul style="list-style-type: none"> • Incident Assigned Position 	Enter the ICS organizational assignment.
	<ul style="list-style-type: none"> • Name 	Enter the name of the assigned person.
	<ul style="list-style-type: none"> • Method(s) of Contact (phone, pager, cell, etc.) 	For each assignment, enter the radio frequency and contact number(s) to include area code, etc. If applicable, include the vehicle license or ID number assigned to the vehicle for the incident (e.g., HAZMAT 1, etc.).
4	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).

MEDICAL PLAN (ICS 206)

1. Incident Name:	2. Operational Period: Date From: _____ Time From: _____	Date To: _____ Time To: _____
--------------------------	--	----------------------------------

3. Medical Aid Stations:			
Name	Location	Contact Number(s)/Frequency	Paramedics on Site?
			<input type="checkbox"/> Yes <input type="checkbox"/> No
			<input type="checkbox"/> Yes <input type="checkbox"/> No
			<input type="checkbox"/> Yes <input type="checkbox"/> No
			<input type="checkbox"/> Yes <input type="checkbox"/> No
			<input type="checkbox"/> Yes <input type="checkbox"/> No
			<input type="checkbox"/> Yes <input type="checkbox"/> No

---------	----------------	------------------

ICS 206 Medical Plan

Purpose. The Medical Plan (ICS 206) provides information on incident medical aid stations, transportation services, hospitals, and medical emergency procedures.

Preparation. The ICS 206 is prepared by the Medical Unit Leader and reviewed by the Safety Officer to ensure ICS coordination. If aviation assets are utilized for rescue, coordinate with Air Operations.

Distribution. The ICS 206 is duplicated and attached to the Incident Objectives (ICS 202) and given to all recipients as part of the Incident Action Plan (IAP). Information from the plan pertaining to incident medical aid stations and medical emergency procedures may be noted on the Assignment List (ICS 204). All completed original forms must be given to the Documentation Unit.

Notes:

- The ICS 206 serves as part of the IAP.
- This form can include multiple pages.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Medical Aid Stations	Enter the following information on the incident medical aid station(s):
	<ul style="list-style-type: none"> • Name 	Enter name of the medical aid station.
	<ul style="list-style-type: none"> • Location 	Enter the location of the medical aid station (e.g., Staging Area, Camp Ground).
	<ul style="list-style-type: none"> • Contact Number(s)/Frequency 	Enter the contact number(s) and frequency for the medical aid station(s).
	<ul style="list-style-type: none"> • Paramedics on Site? <input type="checkbox"/> Yes <input type="checkbox"/> No 	Indicate (yes or no) if paramedics are at the site indicated.
4	Transportation (indicate air or ground)	Enter the following information for ambulance services available to the incident:
	<ul style="list-style-type: none"> • Ambulance Service 	Enter name of ambulance service.
	<ul style="list-style-type: none"> • Location 	Enter the location of the ambulance service.
	<ul style="list-style-type: none"> • Contact Number(s)/Frequency 	Enter the contact number(s) and frequency for the ambulance service.
	<ul style="list-style-type: none"> • Level of Service <input type="checkbox"/> ALS <input type="checkbox"/> BLS 	Indicate the level of service available for each ambulance, either ALS (Advanced Life Support) or BLS (Basic Life Support).

Block Number	Block Title	Instructions
5	Hospitals	Enter the following information for hospital(s) that could serve this incident:
	<ul style="list-style-type: none"> Hospital Name 	Enter hospital name and identify any predesignated medivac aircraft by name a frequency.
	<ul style="list-style-type: none"> Address, Latitude & Longitude if Helipad 	Enter the physical address of the hospital and the latitude and longitude if the hospital has a helipad.
	<ul style="list-style-type: none"> Contact Number(s)/ Frequency 	Enter the contact number(s) and/or communications frequency(s) for the hospital.
	<ul style="list-style-type: none"> Travel Time <ul style="list-style-type: none"> Air Ground 	Enter the travel time by air and ground from the incident to the hospital.
	<ul style="list-style-type: none"> Trauma Center <input type="checkbox"/> Yes Level: _____ 	Indicate yes and the trauma level if the hospital has a trauma center.
	<ul style="list-style-type: none"> Burn Center <input type="checkbox"/> Yes <input type="checkbox"/> No 	Indicate (yes or no) if the hospital has a burn center.
	<ul style="list-style-type: none"> Helipad <input type="checkbox"/> Yes <input type="checkbox"/> No 	Indicate (yes or no) if the hospital has a helipad. Latitude and Longitude data format need to compliment Medical Evacuation Helicopters and Medical Air Resources
6	Special Medical Emergency Procedures	Note any special emergency instructions for use by incident personnel, including (1) who should be contacted, (2) how should they be contacted; and (3) who manages an incident within an incident due to a rescue, accident, etc. Include procedures for how to report medical emergencies.
	<input type="checkbox"/> Check box if aviation assets are utilized for rescue. If assets are used, coordinate with Air Operations.	Self explanatory. Incident assigned aviation assets should be included in ICS 220.
7	Prepared by (Medical Unit Leader) <ul style="list-style-type: none"> Name Signature 	Enter the name and signature of the person preparing the form, typically the Medical Unit Leader. Enter date (month/day/year) and time prepared (24-hour clock).
8	Approved by (Safety Officer) <ul style="list-style-type: none"> Name Signature Date/Time 	Enter the name of the person who approved the plan, typically the Safety Officer. Enter date (month/day/year) and time reviewed (24-hour clock).

INCIDENT ORGANIZATION CHART (ICS 207)

1. Incident Name: _____

2. Operational Period: Date From: _____ Date To: _____
 Time From: _____ Time To: _____

3. Organization Chart

ICS 207 IAP Page _____

4. Prepared by: Name: _____ Position/Title: _____

Signature: _____ Date/Time: _____

ICS 207 Incident Organization Chart

Purpose. The Incident Organization Chart (ICS 207) provides a **visual wall chart** depicting the ICS organization position assignments for the incident. The ICS 207 is used to indicate what ICS organizational elements are currently activated and the names of personnel staffing each element. An actual organization will be event-specific. The size of the organization is dependent on the specifics and magnitude of the incident and is scalable and flexible. Personnel responsible for managing organizational positions are listed in each box as appropriate.

Preparation. The ICS 207 is prepared by the Resources Unit Leader and reviewed by the Incident Commander. Complete only the blocks where positions have been activated, and add additional blocks as needed, especially for Agency Representatives and all Operations Section organizational elements. For detailed information about positions, consult the NIMS ICS Field Operations Guide. The ICS 207 is intended to be used as a wall-size chart and printed on a plotter for better visibility. A chart is completed for each operational period, and updated when organizational changes occur.

Distribution. The ICS 207 is intended to be **wall mounted** at Incident Command Posts and other incident locations as needed, and is not intended to be part of the Incident Action Plan (IAP). All completed original forms must be given to the Documentation Unit.

Notes:

- The ICS 207 is intended to be **wall mounted** (printed on a plotter). Document size can be modified based on individual needs.
- Also available as 8½ x 14 (legal size) chart.
- ICS allows for organizational flexibility, so the Intelligence/Investigative Function can be embedded in several different places within the organizational structure.
- Use additional pages if more than three branches are activated. Additional pages can be added based on individual need (such as to distinguish more Division/Groups and Branches as they are activated).

Block Number	Block Title	Instructions
1	Incident Name	Print the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Organization Chart	<ul style="list-style-type: none"> • Complete the incident organization chart. • For all individuals, use at least the first initial and last name. • List agency where it is appropriate, such as for Unified Commanders. • If there is a shift change during the specified operational period, list both names, separated by a slash.
4	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).

ICS 208 Safety Message/Plan

Purpose. The Safety Message/Plan (ICS 208) expands on the Safety Message and Site Safety Plan.

Preparation. The ICS 208 is an optional form that may be included and completed by the Safety Officer for the Incident Action Plan (IAP).

Distribution. The ICS 208, if developed, will be reproduced with the IAP and given to all recipients as part of the IAP. All completed original forms must be given to the Documentation Unit.

Notes:

- The ICS 208 may serve (optionally) as part of the IAP.
- Use additional copies for continuation sheets as needed, and indicate pagination as used.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan	Enter clear, concise statements for safety message(s), priorities, and key command emphasis/decisions/directions. Enter information such as known safety hazards and specific precautions to be observed during this operational period. If needed, additional safety message(s) should be referenced and attached.
4	Site Safety Plan Required? Yes <input type="checkbox"/> No <input type="checkbox"/>	Check whether or not a site safety plan is required for this incident.
	Approved Site Safety Plan(s) Located At	Enter where the approved Site Safety Plan(s) is located.
5	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).

45. Estimated Incident Costs to Date:

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

ICS 209 Incident Status Summary

Purpose. The ICS 209 is used for reporting information on significant incidents. It is not intended for every incident, as most incidents are of short duration and do not require scarce resources, significant mutual aid, or additional support and attention. The ICS 209 contains basic information elements needed to support decisionmaking at all levels above the incident to support the incident. Decisionmakers may include the agency having jurisdiction, but also all multiagency coordination system (MACS) elements and parties, such as cooperating and assisting agencies/organizations, dispatch centers, emergency operations centers, administrators, elected officials, and local, tribal, county, State, and Federal agencies. Once ICS 209 information has been submitted from the incident, decisionmakers and others at all incident support and coordination points may transmit and share the information (based on its sensitivity and appropriateness) for access and use at local, regional, State, and national levels as it is needed to facilitate support.

Accurate and timely completion of the ICS 209 is necessary to identify appropriate resource needs, determine allocation of limited resources when multiple incidents occur, and secure additional capability when there are limited resources due to constraints of time, distance, or other factors. The information included on the ICS 209 influences the priority of the incident, and thus its share of available resources and incident support.

The ICS 209 is designed to provide a “snapshot in time” to effectively move incident decision support information where it is needed. It should contain the most accurate and up-to-date information available at the time it is prepared. However, readers of the ICS 209 may have access to more up-to-date or real-time information in reference to certain information elements on the ICS 209. Coordination among communications and information management elements within ICS and among MACS should delineate authoritative sources for more up-to-date and/or real-time information when ICS 209 information becomes outdated in a quickly evolving incident.

Reporting Requirements. The ICS 209 is intended to be used when an incident reaches a certain threshold where it becomes significant enough to merit special attention, require additional resource support needs, or cause media attention, increased public safety threat, etc. Agencies or organizations may set reporting requirements and, therefore, ICS 209s should be completed according to each jurisdiction or discipline’s policies, mobilization guide, or preparedness plans. It is recommended that consistent ICS 209 reporting parameters be adopted and used by jurisdictions or disciplines for consistency over time, documentation, efficiency, trend monitoring, incident tracking, etc.

For example, an agency or MAC (Multiagency Coordination) Group may require the submission of an initial ICS 209 when a new incident has reached a certain predesignated level of significance, such as when a given number of resources are committed to the incident, when a new incident is not completed within a certain timeframe, or when impacts/threats to life and safety reach a given level.

Typically, ICS 209 forms are completed either once daily or for each operational period – in addition to the initial submission. Jurisdictional or organizational guidance may indicate frequency of ICS 209 submission for particular definitions of incidents or for all incidents. This specific guidance may help determine submission timelines when operational periods are extremely short (e.g., 2 hours) and it is not necessary to submit new ICS 209 forms for all operational periods.

Any plans or guidelines should also indicate parameters for when it is appropriate to stop submitting ICS 209s for an incident, based upon incident activity and support levels.

Preparation. When an Incident Management Organization (such as an Incident Management Team) is in place, the Situation Unit Leader or Planning Section Chief prepares the ICS 209 at the incident. On other incidents, the ICS 209 may be completed by a dispatcher in the local communications center, or by another staff person or manager. This form should be completed at the incident or at the closest level to the incident.

The ICS 209 should be completed with the best possible, currently available, and verifiable information at the time it is completed and signed.

This form is designed to serve incidents impacting specific geographic areas that can easily be defined. It also has the flexibility for use on ubiquitous events, or those events that cover extremely large areas and that may involve many jurisdictions and ICS organizations. For these incidents, it will be useful to clarify on the form exactly which portion of the larger incident the ICS 209 is meant to address. For example, a particular ICS 209 submitted during a statewide outbreak of mumps may be relevant only to mumps-related activities in Story County, Iowa. This can be indicated in both the incident name, Block 1, and in the Incident Location Information section in Blocks 16–26.

While most of the “Incident Location Information” in Blocks 16–26 is optional, the more information that can be submitted, the better. Submission of multiple location indicators increases accuracy, improves interoperability, and increases information sharing between disparate systems. Preparers should be certain to follow accepted protocols or standards when entering location information, and clearly label all location information. As with other ICS 209 data, geospatial information may be widely shared and utilized, so accuracy is essential.

If electronic data is submitted with the ICS 209, do not attach or send extremely large data files. Incident geospatial data that is distributed with the ICS 209 should be in simple incident geospatial basics, such as the incident perimeter, point of origin, etc. Data file sizes should be small enough to be easily transmitted through dial-up connections or other limited communications capabilities when ICS 209 information is transmitted electronically. Any attached data should be clearly labeled as to format content and collection time, and should follow existing naming conventions and standards.

Distribution. ICS 209 information is meant to be completed at the level as close to the incident as possible, preferably at the incident. Once the ICS 209 has been submitted outside the incident to a dispatch center or MACS element, it may subsequently be transmitted to various incident supports and coordination entities based on the support needs and the decisions made within the MACS in which the incident occurs.

Coordination with public information system elements and investigative/intelligence information organizations at the incident and within MACS is essential to protect information security and to ensure optimal information sharing and coordination. There may be times in which particular ICS 209s contain sensitive information that should not be released to the public (such as information regarding active investigations, fatalities, etc.). When this occurs, the ICS 209 (or relevant sections of it) should be labeled appropriately, and care should be taken in distributing the information within MACS.

All completed and signed original ICS 209 forms MUST be given to the incident’s Documentation Unit and/or maintained as part of the official incident record.

Notes:

- To promote flexibility, only a limited number of ICS 209 blocks are typically required, and most of those are required only when applicable.
- Most fields are optional, to allow responders to use the form as best fits their needs and protocols for information collection.
- For the purposes of the ICS 209, responders are those personnel who are assigned to an incident or who are a part of the response community as defined by NIMS. This may include critical infrastructure owners and operators, nongovernmental and nonprofit organizational personnel, and contract employees (such as caterers), depending on local/jurisdictional/discipline practices.
- For additional flexibility only pages 1–3 are numbered, for two reasons:
 - Possible submission of additional pages for the Remarks Section (Block 47), and
 - Possible submission of additional copies of the fourth/last page (the “Incident Resource Commitment Summary”) to provide a more detailed resource summary.

Block Number	Block Title	Instructions
*1	Incident Name	<p>REQUIRED BLOCK.</p> <ul style="list-style-type: none"> • Enter the full name assigned to the incident. • Check spelling of the full incident name. • For an incident that is a Complex, use the word “Complex” at the end of the incident name. • If the name changes, explain comments in Remarks, Block 47. • Do not use the same incident name for different incidents in the same calendar year.

Block Number	Block Title	Instructions
2	Incident Number	<ul style="list-style-type: none"> • Enter the appropriate number based on current guidance. The incident number may vary by jurisdiction and discipline. • Examples include: <ul style="list-style-type: none"> ○ A computer-aided dispatch (CAD) number. ○ An accounting number. ○ A county number. ○ A disaster declaration number. ○ A combination of the State, unit/agency ID, and a dispatch system number. ○ A mission number. ○ Any other unique number assigned to the incident and derived by means other than those above. • Make sure the number entered is correct. • Do not use the same incident number for two different incidents in the same calendar year. • Incident numbers associated with host jurisdictions or agencies and incident numbers assigned by agencies represented in Unified Command should be listed, or indicated in Remarks, Block 47.
*3	Report Version (check one box on left)	<p>REQUIRED BLOCK.</p> <ul style="list-style-type: none"> • This indicates the current version of the ICS 209 form being submitted. • If only one ICS 209 will be submitted, check BOTH “Initial” and “Final” (or check only “Final”).
	<input type="checkbox"/> Initial	Check “Initial” if this is the first ICS 209 for this incident.
	<input type="checkbox"/> Update	Check “Update” if this is a subsequent report for the same incident. These can be submitted at various time intervals (see “Reporting Requirements” above).
	<input type="checkbox"/> Final	<ul style="list-style-type: none"> • Check “Final” if this is the last ICS 209 to be submitted for this incident (usually when the incident requires only minor support that can be supplied by the organization having jurisdiction). • Incidents may also be marked as “Final” if they become part of a new Complex (when this occurs, it can be indicated in Remarks, Block 47).
Report # (if used)	Use this optional field if your agency or organization requires the tracking of ICS 209 report numbers. Agencies may also track the ICS 209 by the date/time submitted.	
*4	Incident Commander(s) & Agency or Organization	<p>REQUIRED BLOCK.</p> <ul style="list-style-type: none"> • Enter both the first and last name of the Incident Commander. • If the incident is under a Unified Command, list all Incident Commanders by first initial and last name separated by a comma, including their organization. For example: L. Burnett – Minneapolis FD, R. Domanski – Minneapolis PD, C. Taylor – St. Paul PD, Y. Martin – St. Paul FD, S. McIntyre – U.S. Army Corps, J. Hartl – NTSB
5	Incident Management Organization	Indicate the incident management organization for the incident, which may be a Type 1, 2, or 3 Incident Management Team (IMT), a Unified Command, a Unified Command with an IMT, etc. This block should not be completed unless a recognized incident management organization is assigned to the incident.

Block Number	Block Title	Instructions
*6	Incident Start Date/Time	REQUIRED. This is always the start date and time of the incident (not the report date and time or operational period).
	Date	Enter the start date (month/day/year).
	Time	Enter the start time (using the 24-hour clock).
	Time Zone	Enter the time zone of the incident (e.g., EDT, PST).
7	Current Incident Size or Area Involved (use unit label – e.g., “sq mi,” “city block”)	<ul style="list-style-type: none"> • Enter the appropriate incident descriptive size or area involved (acres, number of buildings, square miles, hectares, square kilometers, etc.). • Enter the total area involved for incident Complexes in this block, and list each sub-incident and size in Remarks (Block 47). • Indicate that the size is an estimate, if a more specific figure is not available. • Incident size may be a population figure rather than a geographic figure, depending on the incident definition and objectives. • If the incident involves more than one jurisdiction or mixed ownership, agencies/organizations may require listing a size breakdown by organization, or including this information in Remarks (Block 47). • The incident may be one part of a much larger event (refer to introductory instructions under “Preparation”). Incident size/area depends on the area actively managed within the incident objectives and incident operations, and may also be defined by a delegation of authority or letter of expectation outlining management bounds.
8	Percent (%) Contained or Completed (circle one)	<ul style="list-style-type: none"> • Enter the percent that this incident is completed or contained (e.g., 50%), with a % label. • For example, a spill may be 65% contained, or flood response objectives may be 50% met.
*9	Incident Definition	REQUIRED BLOCK. Enter a general definition of the incident in this block. This may be a general incident category or kind description, such as “tornado,” “wildfire,” “bridge collapse,” “civil unrest,” “parade,” “vehicle fire,” “mass casualty,” etc.
10	Incident Complexity Level	Identify the incident complexity level as determined by Unified/Incident Commanders, if available or used.
*11	For Time Period	REQUIRED BLOCK. <ul style="list-style-type: none"> • Enter the time interval for which the form applies. This period should include all of the time since the last ICS 209 was submitted, or if it is the initial ICS 209, it should cover the time lapsed since the incident started. • The time period may include one or more operational periods, based on agency/organizational reporting requirements.
	From Date/Time	<ul style="list-style-type: none"> • Enter the start date (month/day/year). • Enter the start time (using the 24-hour clock).
	To Date/Time	<ul style="list-style-type: none"> • Enter the end date (month/day/year). • Enter the end time (using the 24-hour clock).

Block Number	Block Title	Instructions
APPROVAL & ROUTING INFORMATION		
*12	Prepared By	REQUIRED BLOCK. When an incident management organization is in place, this would be the Situation Unit Leader or Planning Section Chief at the incident. On other incidents, it could be a dispatcher in the local emergency communications center, or another staff person or manager.
	Print Name	Print the name of the person preparing the form.
	ICS Position	The ICS title of the person preparing the form (e.g., "Situation Unit Leader").
	Date/Time Prepared	Enter the date (month/day/year) and time (using the 24-hour clock) the form was prepared. Enter the time zone if appropriate.
*13	Date/Time Submitted	REQUIRED. Enter the submission date (month/day/year) and time (using the 24-hour clock).
	Time Zone	Enter the time zone from which the ICS 209 was submitted (e.g., EDT, PST).
*14	Approved By	REQUIRED. When an incident management organization is in place, this would be the Planning Section Chief or Incident Commander at the incident. On other incidents, it could be the jurisdiction's dispatch center manager, organizational administrator, or other manager.
	Print Name	Print the name of the person approving the form.
	ICS Position	The position of the person signing the ICS 209 should be entered (e.g., "Incident Commander").
	Signature	Signature of the person approving the ICS 209, typically the Incident Commander. The original signed ICS 209 should be maintained with other incident documents.
*15	Primary Location, Organization, or Agency Sent To	REQUIRED BLOCK. Enter the appropriate primary location or office the ICS 209 was sent to apart from the incident. This most likely is the entity or office that ordered the incident management organization that is managing the incident. This may be a dispatch center or a MACS element such as an emergency operations center. If a dispatch center or other emergency center prepared the ICS 209 for the incident, indicate where it was submitted initially.
INCIDENT LOCATION INFORMATION		
<ul style="list-style-type: none"> • Much of the "Incident Location Information" in Blocks 16–26 is optional, but completing as many fields as possible increases accuracy, and improves interoperability and information sharing between disparate systems. • As with all ICS 209 information, accuracy is essential because the information may be widely distributed and used in a variety of systems. Location and/or geospatial data may be used for maps, reports, and analysis by multiple parties outside the incident. • Be certain to follow accepted protocols, conventions, or standards where appropriate when submitting location information, and clearly label all location information. • Incident location information is usually based on the point of origin of the incident, and the majority of the area where the incident jurisdiction is. 		
*16	State	REQUIRED BLOCK WHEN APPLICABLE. <ul style="list-style-type: none"> • Enter the State where the incident originated. • If other States or jurisdictions are involved, enter them in Block 25 or Block 44.
*17	County / Parish / Borough	REQUIRED BLOCK WHEN APPLICABLE. <ul style="list-style-type: none"> • Enter the county, parish, or borough where the incident originated. • If other counties or jurisdictions are involved, enter them in Block 25 or Block 47.

Block Number	Block Title	Instructions
*18	City	<p>REQUIRED BLOCK WHEN APPLICABLE.</p> <ul style="list-style-type: none"> • Enter the city where the incident originated. • If other cities or jurisdictions are involved, enter them in Block 25 or Block 47.
19	Unit or Other	<p>Enter the unit, sub-unit, unit identification (ID) number or code (if used), or other information about where the incident originated. This may be a local identifier that indicates primary incident jurisdiction or responsibility (e.g., police, fire, public works, etc.) or another type of organization. Enter specifics in Block 25.</p>
*20	Incident Jurisdiction	<p>REQUIRED BLOCK WHEN APPLICABLE.</p> <p>Enter the jurisdiction where the incident originated (the entry may be general, such as Federal, city, or State, or may specifically identify agency names such as Warren County, U.S. Coast Guard, Panama City, NYPD).</p>
21	Incident Location Ownership (if different than jurisdiction)	<ul style="list-style-type: none"> • When relevant, indicate the ownership of the area where the incident originated, especially if it is different than the agency having jurisdiction. • This may include situations where jurisdictions contract for emergency services, or where it is relevant to include ownership by private entities, such as a large industrial site.
22	<p>22. Longitude (indicate format):</p> <p>Latitude (indicate format):</p>	<ul style="list-style-type: none"> • Enter the longitude and latitude where the incident originated, if available and normally used by the authority having jurisdiction for the incident. • Clearly label the data, as longitude and latitude can be derived from various sources. For example, if degrees, minutes, and seconds are used, label as “33 degrees, 45 minutes, 01 seconds.”
23	US National Grid Reference	<ul style="list-style-type: none"> • Enter the US National Grid (USNG) reference where the incident originated, if available and commonly used by the agencies/jurisdictions with primary responsibility for the incident. • Clearly label the data.
24	Legal Description (township, section, range)	<ul style="list-style-type: none"> • Enter the legal description where the incident originated, if available and commonly used by the agencies/jurisdictions with primary responsibility for the incident. • Clearly label the data (e.g., N 1/2 SE 1/4, SW 1/4, S24, T32N, R18E).
*25	Short Location or Area Description (list all affected areas or a reference point)	<p>REQUIRED BLOCK.</p> <ul style="list-style-type: none"> • List all affected areas as described in instructions for Blocks 16–24 above, OR summarize a general location, OR list a reference point for the incident (e.g., “the southern third of Florida,” “in ocean 20 miles west of Catalina Island, CA,” or “within a 5 mile radius of Walden, CO”). • This information is important for readers unfamiliar with the area (or with other location identification systems) to be able to quickly identify the general location of the incident on a map. • Other location information may also be listed here if needed or relevant for incident support (e.g., base meridian).
26	UTM Coordinates	<p>Indicate Universal Transverse Mercator reference coordinates if used by the discipline or jurisdiction.</p>

Block Number	Block Title	Instructions
27	<p>Note any electronic geospatial data included or attached (indicate data format, content, and collection time information and labels)</p>	<ul style="list-style-type: none"> • Indicate whether and how geospatial data is included or attached. • Utilize common and open geospatial data standards. • WARNING: Do not attach or send extremely large data files with the ICS 209. Incident geospatial data that is distributed with the ICS 209 should be simple incident geospatial basics, such as the incident perimeter, origin, etc. Data file sizes should be small enough to be easily transmitted through dial-up connections or other limited communications capabilities when ICS 209 information is transmitted electronically. • NOTE: Clearly indicate data content. For example, data may be about an incident perimeter (such as a shape file), the incident origin (a point), a point and radius (such as an evacuation zone), or a line or lines (such as a pipeline). • NOTE: Indicate the data format (e.g., .shp, .kml, .kmz, or .gml file) and any relevant information about projection, etc. • NOTE: Include a hyperlink or other access information if incident map data is posted online or on an FTP (file transfer protocol) site to facilitate downloading and minimize information requests. • NOTE: Include a point of contact for getting geospatial incident information, if included in the ICS 209 or available and supporting the incident.
INCIDENT SUMMARY		
*28	<p>Significant Events for the Time Period Reported (summarize significant progress made, evacuations, incident growth, etc.)</p>	<p>REQUIRED BLOCK.</p> <ul style="list-style-type: none"> • Describe significant events that occurred during the period being reported in Block 6. Examples include: <ul style="list-style-type: none"> ○ Road closures. ○ Evacuations. ○ Progress made and accomplishments. ○ Incident command transitions. ○ Repopulation of formerly evacuated areas and specifics. ○ Containment. • Refer to other blocks in the ICS 209 when relevant for additional information (e.g., “Details on evacuations may be found in Block 33”), or in Remarks, Block 47. • Be specific and detailed in reference to events. For example, references to road closures should include road number and duration of closure (or include further detail in Block 33). Use specific metrics if needed, such as the number of people or animals evacuated, or the amount of a material spilled and/or recovered. • This block may be used for a single-paragraph synopsis of overall incident status.
29	<p>Primary Materials or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc.)</p>	<ul style="list-style-type: none"> • When relevant, enter the appropriate primary materials, fuels, or other hazards involved in the incident that are leaking, burning, infecting, or otherwise influencing the incident. • Examples include hazardous chemicals, wildland fuel models, biohazards, explosive materials, oil, gas, structural collapse, avalanche activity, criminal activity, etc.
	Other	Enter any miscellaneous issues which impacted Critical Infrastructure and Key Resources.

Block Number	Block Title	Instructions
30	Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc.)	<ul style="list-style-type: none"> • Include a short summary of damage or use/access restrictions/limitations caused by the incident for the reporting period, and cumulatively. • Include if needed any information on the facility status, such as operational status, if it is evacuated, etc. when needed. • Include any critical infrastructure or key resources damaged/destroyed/impacted by the incident, the kind of infrastructure, and the extent of damage and/or impact and any known cascading impacts. • Refer to more specific or detailed damage assessment forms and packages when they are used and/or relevant.
	A. Structural Summary	Complete this table as needed based on the definitions for 30B–F below. Note in table or in text block if numbers entered are estimates or are confirmed. Summaries may also include impact to Shoreline and Wildlife, etc.
	B. # Threatened (72 hrs)	Enter the number of structures potentially threatened by the incident within the next 72 hours, based on currently available information.
	C. # Damaged	Enter the number of structures damaged by the incident.
	D. # Destroyed	Enter the number of structures destroyed beyond repair by the incident.
	E. Single Residences	Enter the number of single dwellings/homes/units impacted in Columns 30B–D. Note any specifics in the text block if needed, such as type of residence (apartments, condominiums, single-family homes, etc.).
	F. Nonresidential Commercial Properties	Enter the number of buildings or units impacted in Columns 30B–D. This includes any primary structure used for nonresidential purposes, excluding Other Minor Structures (Block 30G). Note any specifics regarding building or unit types in the text block.
	Other Minor Structures	Enter any miscellaneous structures impacted in Columns 30B–D not covered in 30E–F above, including any minor structures such as booths, sheds, or outbuildings.
	Other	Enter any miscellaneous issues which impacted Critical Infrastructure and Key Resources.

Block Number	Block Title	Instructions
ADDITIONAL INCIDENT DECISION SUPPORT INFORMATION (PAGE 2)		
*31	Public Status Summary	<ul style="list-style-type: none"> • This section is for summary information regarding incident-related injuries, illness, and fatalities for civilians (or members of the public); see 31C–N below. • Explain or describe the nature of any reported injuries, illness, or other activities in Life, Safety, and Health Status/Threat Remarks (Block 33). • Illnesses include those that may be caused through a biological event such as an epidemic or an exposure to toxic or radiological substances. • NOTE: <i>Do not estimate any fatality information.</i> • NOTE: Please use caution when reporting information in this section that may be on the periphery of the incident or change frequently. This information should be reported as accurately as possible as a snapshot in time, as much of the information is subject to frequent change. • NOTE: Do not complete this block if the incident covered by the ICS 209 is <i>not directly responsible</i> for these actions (such as evacuations, sheltering, immunizations, etc.) <i>even if they are related to the incident.</i> <ul style="list-style-type: none"> ○ Only the authority having jurisdiction should submit reports for these actions, to mitigate multiple/conflicting reports. ○ For example, if managing evacuation shelters is part of the incident operation itself, do include these numbers in Block 31J with any notes in Block 33. • NOTE: <u>When providing an estimated value, denote in parenthesis: "est."</u> <p><u>Handling Sensitive Information</u></p> <ul style="list-style-type: none"> • Release of information in this section should be carefully coordinated within the incident management organization to ensure synchronization with public information and investigative/intelligence actions. • Thoroughly review the “Distribution” section in the introductory ICS 209 instructions for details on handling sensitive information. Use caution when providing information in any situation involving fatalities, and verify that appropriate notifications have been made prior to release of this information. Electronic transmission of any ICS 209 may make information available to many people and networks at once. • Information regarding fatalities should be cleared with the Incident Commander and/or an organizational administrator prior to submission of the ICS 209.
	A. # This Reporting Period	Enter the total number of individuals impacted in each category for this reporting period (since the previous ICS 209 was submitted).
	B. Total # to Date	<ul style="list-style-type: none"> • Enter the total number of individuals impacted in each category for the entire duration of the incident. • This is a cumulative total number that should be adjusted each reporting period.
	C. Indicate Number of Civilians (Public) Below	<ul style="list-style-type: none"> • For lines 31D–M below, enter the number of civilians affected for each category. • Indicate if numbers are estimates, for those blocks where this is an option. • Civilians are those members of the public who are affected by the incident, but who are not included as part of the response effort through Unified Command partnerships and those organizations and agencies assisting and cooperating with response efforts.
	D. Fatalities	<ul style="list-style-type: none"> • Enter the number of <i>confirmed</i> civilian/public fatalities. • See information in introductory instructions (“Distribution”) and in Block 31 instructions regarding sensitive handling of fatality information.
	E. With Injuries/Illness	Enter the number of civilian/public injuries or illnesses directly related to the incident. Injury or illness is defined by the incident or jurisdiction(s).

Block Number	Block Title	Instructions
*31 (continued)	F. Trapped/In Need of Rescue	Enter the number of civilians who are trapped or in need of rescue due to the incident.
	G. Missing (note if estimated)	Enter the number of civilians who are missing due to the incident. Indicate if an estimate is used.
	H. Evacuated (note if estimated)	Enter the number of civilians who are evacuated due to the incident. These are likely to be best estimates, but indicate if they are estimated.
	I. Sheltering-in-Place (note if estimated)	Enter the number of civilians who are sheltering in place due to the incident. Indicate if estimates are used.
	J. In Temporary Shelters (note if estimated)	Enter the number of civilians who are in temporary shelters as a direct result of the incident, noting if the number is an estimate.
	K. Have Received Mass Immunizations	Enter the number of civilians who have received mass immunizations due to the incident and/or as part of incident operations. Do not estimate.
	L. Require Mass Immunizations (note if estimated)	Enter the number of civilians who require mass immunizations due to the incident and/or as part of incident operations. Indicate if it is an estimate.
	M. In Quarantine	Enter the number of civilians who are in quarantine due to the incident and/or as part of incident operations. Do not estimate.
	N. Total # Civilians (Public) Affected	Enter sum totals for Columns 31A and 31B for Rows 31D–M.
*32	Responder Status Summary	<ul style="list-style-type: none"> • This section is for summary information regarding incident-related injuries, illness, and fatalities for responders; see 32C–N. • Illnesses include those that may be related to a biological event such as an epidemic or an exposure to toxic or radiological substances directly in relation to the incident. • Explain or describe the nature of any reported injuries, illness, or other activities in Block 33. • NOTE: <i>Do not estimate any fatality information or responder status information.</i> • NOTE: Please use caution when reporting information in this section that may be on the periphery of the incident or change frequently. This information should be reported as accurately as possible as a snapshot in time, as much of the information is subject to frequent change. • NOTE: Do not complete this block if the incident covered by the ICS 209 is <i>not directly responsible</i> for these actions (such as evacuations, sheltering, immunizations, etc.) even if they are related to the incident. Only the authority having jurisdiction should submit reports for these actions, to mitigate multiple/conflicting reports. <p>Handling Sensitive Information</p> <ul style="list-style-type: none"> • Release of information in this section should be carefully coordinated within the incident management organization to ensure synchronization with public information and investigative/intelligence actions. • Thoroughly review the “Distribution” section in the introductory ICS 209 instructions for details on handling sensitive information. Use caution when providing information in any situation involving fatalities, and verify that appropriate notifications have been made prior to release of this information. Electronic transmission of any ICS 209 may make information available to many people and networks at once. • Information regarding fatalities should be cleared with the Incident Commander and/or an organizational administrator prior to submission of the ICS 209.

Block Number	Block Title	Instructions
*32 (continued)	A. # This Reporting Period	Enter the total number of responders impacted in each category for this reporting period (since the previous ICS 209 was submitted).
	B. Total # to Date	<ul style="list-style-type: none"> Enter the total number of individuals impacted in each category for the <i>entire duration</i> of the incident. This is a <i>cumulative</i> total number that should be adjusted each reporting period.
	C. Indicate Number of Responders Below	<ul style="list-style-type: none"> For lines 32D–M below, enter the number of responders relevant for each category. Responders are those personnel included as part of Unified Command partnerships and those organizations and agencies assisting and cooperating with response efforts.
	D. Fatalities	<ul style="list-style-type: none"> Enter the number of <i>confirmed</i> responder fatalities. See information in introductory instructions (“Distribution”) and for Block 32 regarding sensitive handling of fatality information.
	E. With Injuries/Illness	<ul style="list-style-type: none"> Enter the number of incident responders with serious injuries or illnesses due to the incident. <i>For responders, serious injuries or illness are typically those in which the person is unable to continue to perform in his or her incident assignment, but the authority having jurisdiction may have additional guidelines on reporting requirements in this area.</i>
	F. Trapped/In Need Of Rescue	Enter the number of incident responders who are in trapped or in need of rescue due to the incident.
	G. Missing	Enter the number of incident responders who are missing due to incident conditions.
	H.	(BLANK; use however is appropriate.)
	I. Sheltering in Place	Enter the number of responders who are sheltering in place due to the incident. Once responders become the victims, this needs to be noted in Block 33 or Block 47 and handled accordingly.
	J.	(BLANK; use however is appropriate.)
	L. Require Immunizations	Enter the number of responders who require immunizations due to the incident and/or as part of incident operations.
	M. In Quarantine	Enter the number of responders who are in quarantine as a direct result of the incident and/or related to incident operations.
	N. Total # Responders Affected	Enter sum totals for Columns 32A and 32B for Rows 32D–M.
33	Life, Safety, and Health Status/Threat Remarks	<ul style="list-style-type: none"> Enter any details needed for Blocks 31, 32, and 34. Enter any specific comments regarding illness, injuries, fatalities, and threat management for this incident, such as whether estimates were used for numbers given in Block 31. This information should be reported as accurately as possible as a snapshot in time, as much of the information is subject to frequent change. Evacuation information can be very sensitive to local residents and officials. Be accurate in the assessment. Clearly note primary responsibility and contacts for any activities or information in Blocks 31, 32, and 34 that may be caused by the incident, but that are being managed and/or reported by other parties. Provide additional explanation or information as relevant in Blocks 28, 36, 38, 40, 41, or in Remarks (Block 47).

Block Number	Block Title	Instructions
*34	Life, Safety, and Health Threat Management	Note any details in Life, Safety, and Health Status/Threat Remarks (Block 33), and provide additional explanation or information as relevant in Blocks 28, 36, 38, 40, 41, or in Remarks (Block 47). Additional pages may be necessary for notes.
	A. Check if Active	Check any applicable blocks in 34C–P based on currently available information regarding incident activity and potential.
	B. Notes	Note any specific details, or include in Block 33.
	C. No Likely Threat	Check if there is no likely threat to life, health, and safety.
	D. Potential Future Threat	Check if there is a potential future threat to life, health, and safety.
	E. Mass Notifications In Progress	<ul style="list-style-type: none"> • Check if there are any mass notifications in progress regarding emergency situations, evacuations, shelter in place, or other public safety advisories related to this incident. • These may include use of threat and alert systems such as the Emergency Alert System or a “reverse 911” system. • Please indicate the areas where mass notifications have been completed (e.g., “mass notifications to ZIP codes 50201, 50014, 50010, 50011,” or “notified all residents within a 5-mile radius of Gatlinburg”).
	F. Mass Notifications Completed	Check if actions referred to in Block 34E above have been completed.
	G. No Evacuation(s) Imminent	Check if evacuations are not anticipated in the near future based on current information.
	H. Planning for Evacuation	Check if evacuation planning is underway in relation to this incident.
	I. Planning for Shelter-in-Place	Check if planning is underway for shelter-in-place activities related to this incident.
	J. Evacuation(s) in Progress	Check if there are active evacuations in progress in relation to this incident.
	K. Shelter-In-Place in Progress	Check if there are active shelter-in-place actions in progress in relation to this incident.
	L. Repopulation in Progress	Check if there is an active repopulation in progress related to this incident.
	M. Mass Immunization in Progress	Check if there is an active mass immunization in progress related to this incident.
	N. Mass Immunization Complete	Check if a mass immunization effort has been completed in relation to this incident.
	O. Quarantine in Progress	Check if there is an active quarantine in progress related to this incident.
	P. Area Restriction in Effect	Check if there are any restrictions in effect, such as road or area closures, especially those noted in Block 28.

Block Number	Block Title	Instructions
35	Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern)	<ul style="list-style-type: none"> • Complete a short synopsis/discussion on significant weather factors that could cause concerns for the incident when relevant. • Include current and/or predicted weather factors, and the timeframe for predictions. • Include relevant factors such as: <ul style="list-style-type: none"> ○ Wind speed (label units, such as mph). ○ Wind direction (clarify and label where wind is coming from and going to in plain language – e.g., “from NNW,” “from E,” or “from SW”). ○ Temperature (label units, such as F). ○ Relative humidity (label %). ○ Watches. ○ Warnings. ○ Tides. ○ Currents. • Any other weather information relative to the incident, such as flooding, hurricanes, etc.
36	Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour timeframes 12 hours 24 hours 48 hours 72 hours Anticipated after 72 hours	<ul style="list-style-type: none"> • Provide an estimate (when it is possible to do so) of the direction/scope in which the incident is expected to spread, migrate, or expand during the next indicated operational period, or other factors that may cause activity changes. • Discuss incident potential relative to values at risk, or values to be protected (such as human life), and the potential changes to those as the incident changes. • Include an estimate of the acreage or area that will likely be affected. • If known, provide the above information in 12-, 24-, 48- and 72-hour timeframes, and any activity anticipated after 72 hours.
37	Strategic Objectives (define planned end-state for incident)	Briefly discuss the desired outcome for the incident based on currently available information. Note any high-level objectives and any possible strategic benefits as well (especially for planned events).

Block Number	Block Title	Instructions
ADDITIONAL INCIDENT DECISION SUPPORT INFORMATION (continued) (PAGE 3)		
<p>38</p>	<p>Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts.</p> <p>12 hours 24 hours 48 hours 72 hours Anticipated after 72 hours</p>	<p>Summarize major or significant threats due to incident activity based on currently available information. Include a breakdown of threats in terms of 12-, 24-, 48-, and 72-hour timeframes.</p>

Block Number	Block Title	Instructions
39	<p>Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:</p> <p>12 hours 24 hours 48 hours 72 hours Anticipated after 72 hours</p>	<ul style="list-style-type: none"> • List the specific critical resources and numbers needed, in order of priority. <i>Be specific as to the need.</i> • Use plain language and common terminology for resources, and indicate resource category, kind, and type (if available or known) to facilitate incident support. • If critical resources are listed in this block, there should be corresponding orders placed for them through appropriate resource ordering channels. • Provide critical resource needs in 12-, 24-, 48- and 72-hour increments. List the most critical resources needed for each timeframe, if needs have been identified for each timeframe. Listing critical resources by the time they are needed gives incident support personnel a “heads up” for short-range planning, and assists the ordering process to ensure these resources will be in place when they are needed. • More than one resource need may be listed for each timeframe. For example, a list could include: <ul style="list-style-type: none"> ○ <u>24 hrs</u>: 3 Type 2 firefighting helicopters, 2 Type I Disaster Medical Assistance Teams ○ <u>48 hrs</u>: Mobile Communications Unit (Law/Fire) ○ <u>After 72 hrs</u>: 1 Type 2 Incident Management Team • Documentation in the ICS 209 can help the incident obtain critical regional or national resources through outside support mechanisms including multiagency coordination systems and mutual aid. <ul style="list-style-type: none"> ○ Information provided in other blocks on the ICS 209 can help to support the need for resources, including Blocks 28, 29, 31–38, and 40–42. ○ Additional comments in the Remarks section (Block 47) can also help explain what the incident is requesting and why it is critical (for example, “Type 2 Incident Management Team is needed in three days to transition command when the current Type 2 Team times out”). • Do not use this block for noncritical resources.
40	<p>Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:</p> <p>1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results.</p> <p>Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.</p>	<ul style="list-style-type: none"> • Wording should be consistent with Block 39 to justify critical resource needs, which should relate to planned actions in the Incident Action Plan. • Give a short assessment of the likelihood of meeting the incident management targets, given the current management strategy and currently known constraints. • Identify when the chosen management strategy will succeed given the current constraints. Adjust the anticipated incident management completion target in Block 43 as needed based on this discussion. • Explain major problems and concerns as indicated.

Block Number	Block Title	Instructions
41	Planned Actions for Next Operational Period	<ul style="list-style-type: none"> • Provide a short summary of actions planned for the next operational period. • Examples: <ul style="list-style-type: none"> ○ “The current Incident Management Team will transition out to a replacement IMT.” ○ “Continue to review operational/ engineering plan to facilitate removal of the partially collapsed west bridge supports.” ○ “Continue refining mapping of the recovery operations and damaged assets using GPS.” ○ “Initiate removal of unauthorized food vendors.”
42	Projected Final Incident Size/Area (use unit label – e.g., “sq mi”)	<ul style="list-style-type: none"> • Enter an estimate of the total area likely to be involved or affected over the course of the incident. • Label the estimate of the total area or population involved, affected, or impacted with the relevant units such as acres, hectares, square miles, etc. • Note that total area involved may not be limited to geographic area (see previous discussions regarding incident definition, scope, operations, and objectives). Projected final size may involve a population rather than a geographic area.
43	Anticipated Incident Management Completion Date	<ul style="list-style-type: none"> • Enter the date (month/day/year) at which time it is expected that incident objectives will be met. This is often explained similar to incident containment or control, or the time at which the incident is expected to be closed or when significant incident support will be discontinued. • Avoid leaving this block blank if possible, as this is important information for managers.
44	Projected Significant Resource Demobilization Start Date	Enter the date (month/day/year) when initiation of significant resource demobilization is anticipated.
45	Estimated Incident Costs to Date	<ul style="list-style-type: none"> • Enter the estimated total incident costs to date for the entire incident based on currently available information. • Incident costs include estimates of all costs for the response, including all management and support activities per discipline, agency, or organizational guidance and policy. • This does not include damage assessment figures, as they are impacts from the incident and not response costs. • If costs decrease, explain in Remarks (Block 47). • If additional space is required, please add as an attachment.
46	Projected Final Incident Cost Estimate	<ul style="list-style-type: none"> • Enter an estimate of the total costs for the incident once all costs have been processed based on current spending and projected incident potential, per discipline, agency, or organizational guidance and policy. This is often an estimate of daily costs combined with incident potential information. • This does not include damage assessment figures, as they are impacts from the incident and not response costs. • If additional space is required, please add as an attachment.

Block Number	Block Title	Instructions
47	Remarks (or continuation of any blocks above – list block number in notation)	<ul style="list-style-type: none"> • Use this block to expand on information that has been entered in previous blocks, or to include other pertinent information that has not been previously addressed. • List the block number for any information continued from a previous block. • Additional information may include more detailed weather information, specifics on injuries or fatalities, threats to critical infrastructure or other resources, more detailed evacuation site locations and number of evacuated, information or details regarding incident cause, etc. • For Complexes that include multiple incidents, list all sub-incidents included in the Complex. • List jurisdictional or ownership breakdowns if needed when an incident is in more than one jurisdiction and/or ownership area. Breakdown may be: <ul style="list-style-type: none"> ○ By size (e.g., 35 acres in City of Gatlinburg, 250 acres in Great Smoky Mountains), and/or ○ By geography (e.g., incident area on the west side of the river is in jurisdiction of City of Minneapolis; area on east side of river is City of St. Paul jurisdiction; river is joint jurisdiction with USACE). • Explain any reasons for incident size reductions or adjustments (e.g., reduction in acreage due to more accurate mapping). • This section can also be used to list any additional information about the incident that may be needed by incident support mechanisms outside the incident itself. This may be basic information needed through multiagency coordination systems or public information systems (e.g., a public information phone number for the incident, or the incident Web site address). • Attach additional pages if it is necessary to include additional comments in the Remarks section.

INCIDENT RESOURCE COMMITMENT SUMMARY (PAGE 4)

- This last/fourth page of the ICS 209 can be copied and used if needed to accommodate additional resources, agencies, or organizations. Write the actual page number on the pages as they are used.
- Include only resources that have been assigned to the incident and that have arrived and/or been checked in to the incident. Do not include resources that have been ordered but have *not* yet arrived.

For summarizing:

- When there are large numbers of responders, it may be helpful to group agencies or organizations together. Use the approach that works best for the multiagency coordination system applicable to the incident. For example,
 - Group State, local, county, city, or Federal responders together under such headings, or
 - Group resources from one jurisdiction together and list only individual jurisdictions (e.g., list the public works, police, and fire department resources for a city under that city's name).
- On a large incident, it may also be helpful to group similar categories, kinds, or types of resources together for this summary.

Block Number	Block Title	Instructions
48	Agency or Organization	<ul style="list-style-type: none"> • List the agencies or organizations contributing resources to the incident as responders, through mutual aid agreements, etc. • List agencies or organizations using clear language so readers who may not be from the discipline or host jurisdiction can understand the information. • Agencies or organizations may be listed individually or in groups. • When resources are grouped together, individual agencies or organizations may be listed below in Block 53. • Indicate in the rows under Block 49 how many resources are assigned to the incident under each resource identified. <ul style="list-style-type: none"> ○ These can listed with the number of resources on the top of the box, and the number of personnel associated with the resources on the bottom half of the box. ○ For example: <ul style="list-style-type: none"> ▪ <i>Resource:</i> Type 2 Helicopters... 3/8 (indicates 3 aircraft, 8 personnel). ▪ <i>Resource:</i> Type 1 Decontamination Unit... 1/3 (indicates 1 unit, 3 personnel). • Indicate in the rows under Block 51 the total number of personnel assigned for each agency listed under Block 48, including both individual overhead and those associated with other resources such as fire engines, decontamination units, etc.
49	Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box)	<ul style="list-style-type: none"> • List resources using clear language when possible – so ICS 209 readers who may not be from the discipline or host jurisdiction can understand the information. <ul style="list-style-type: none"> ○ Examples: Type 1 Fire Engines, Type 4 Helicopters • Enter total numbers in columns for each resource by agency, organization, or grouping in the proper blocks. <ul style="list-style-type: none"> ○ These can listed with the number of resources on the top of the box, and the number of personnel associated with the resources on the bottom half of the box. ○ For example: <ul style="list-style-type: none"> ▪ <i>Resource:</i> Type 2 Helicopters... 3/8 (indicates 3 aircraft, 8 personnel). ▪ <i>Resource:</i> Type 1 Decontamination Unit... 1/3 (indicates 1 unit, 3 personnel). • NOTE: One option is to group similar resources together when it is sensible to do so for the summary. <ul style="list-style-type: none"> ○ For example, do not list every type of fire engine – rather, it may be advisable to list two generalized types of engines, such as “structure fire engines” and “wildland fire engines” in separate columns with totals for each. • NOTE: It is not advisable to list individual overhead personnel individually in the resource section, especially as this form is intended as a summary. These personnel should be included in the Total Personnel sums in Block 51.
50	Additional Personnel not assigned to a resource	List the number of <i>additional</i> individuals (or overhead) that are not assigned to a specific resource by agency or organization.
51	Total Personnel (includes those associated with resources – e.g., aircraft or engines – <i>and</i> individual overhead)	<ul style="list-style-type: none"> • Enter the total personnel for each agency, organization, or grouping in the Total Personnel column. • WARNING: Do not simply add the numbers across! • The number of Total Personnel for each row should include <u>both</u>: <ul style="list-style-type: none"> ○ The total number of personnel assigned to each of the resources listed in Block 49, and ○ The total number of additional individual overhead personnel from each agency, organization, or group listed in Block 50.

Block Number	Block Title	Instructions
52	Total Resources	Include the sum total of resources for each column, including the total for the column under Blocks 49, 50, and 51. This should include the total number of <i>resources</i> in Block 49, as personnel totals will be counted under Block 51.
53	Additional Cooperating and Assisting Organizations Not Listed Above	<ul style="list-style-type: none"> • List all agencies and organizations that are not directly involved in the incident, but are providing support. • Examples may include ambulance services, Red Cross, DHS, utility companies, etc. • Do not repeat any resources counted in Blocks 48–52, unless explanations are needed for groupings created under Block 48 (Agency or Organization).

THIS PAGE LEFT BLANK INTENTIONALLY

ICS 210 Resource Status Change

Purpose. The Resource Status Change (ICS 210) is used by the Incident Communications Center Manager to record status change information received on resources assigned to the incident. This information could be transmitted with a General Message (ICS 213). The form could also be used by Operations as a worksheet to track entry, etc.

Preparation. The ICS 210 is completed by radio/telephone operators who receive status change information from individual resources, Task Forces, Strike Teams, and Division/Group Supervisors. Status information could also be reported by Staging Area and Helibase Managers and fixed-wing facilities.

Distribution. The ICS 210 is maintained by the Communications Unit and copied to Resources Unit and filed by Documentation Unit.

Notes:

- The ICS 210 is essentially a message form that can be used to update Resource Status Cards or T-Cards (ICS 219) for incident-level resource management.
- If additional pages are needed, use a blank ICS 210 and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Resource Number	Enter the resource identification (ID) number (this may be a letter and number combination) assigned by either the sending unit or the incident.
4	New Status (Available, Assigned, Out of Service)	Indicate the current status of the resource: <ul style="list-style-type: none"> • Available – Indicates resource is available for incident use immediately. • Assigned – Indicates resource is checked in and assigned a work task on the incident. • Out of Service – Indicates resource is assigned to the incident but unable to respond for mechanical, rest, or personnel reasons. If space permits, indicate the estimated time of return (ETR). It may be useful to indicate the reason a resource is out of service (e.g., “O/S – Mech” (for mechanical issues), “O/S – Rest” (for off shift), or “O/S – Pers” (for personnel issues).
5	From (Assignment and Status)	Indicate the current location of the resource (where it came from) and the status. When more than one Division, Staging Area, or Camp is used, identify the specific location (e.g., Division A, Staging Area, Incident Command Post, Western Camp).
6	To (Assignment and Status)	Indicate the assigned incident location of the resource and status. When more than one Division, Staging Area, or Camp is used, identify the specific location.
7	Time and Date of Change	Enter the time and location of the status change (24-hour clock). Enter the date as well if relevant (e.g., out of service).
8	Comments	Enter any special information provided by the resource or dispatch center. This may include details about why a resource is out of service, or individual identifying designators (IDs) of Strike Teams and Task Forces.
9	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position/title, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).

ICS 211 Incident Check-In List

Purpose. Personnel and equipment arriving at the incident can check in at various incident locations. Check-in consists of reporting specific information, which is recorded on the Check-In List (ICS 211). The ICS 211 serves several purposes, as it: (1) records arrival times at the incident of all overhead personnel and equipment, (2) records the initial location of personnel and equipment to facilitate subsequent assignments, and (3) supports demobilization by recording the home base, method of travel, etc., for resources checked in.

Preparation. The ICS 211 is initiated at a number of incident locations including: Staging Areas, Base, and Incident Command Post (ICP). Preparation may be completed by: (1) overhead at these locations, who record the information and give it to the Resources Unit as soon as possible, (2) the Incident Communications Center Manager located in the Communications Center, who records the information and gives it to the Resources Unit as soon as possible, (3) a recorder from the Resources Unit during check-in to the ICP. As an option, the ICS 211 can be printed on colored paper to match the designated Resource Status Card (ICS 219) colors. The purpose of this is to aid the process of completing a large volume of ICS 219s. The ICS 219 colors are:

- 219-1: Header Card – Gray (used only as label cards for T-Card racks)
- 219-2: Crew/Team Card – Green
- 219-3: Engine Card – Rose
- 219-4: Helicopter Card – Blue
- 219-5: Personnel Card – White
- 219-6: Fixed-Wing Card – Orange
- 219-7: Equipment Card – Yellow
- 219-8: Miscellaneous Equipment/Task Force Card – Tan
- 219-10: Generic Card – Light Purple

Distribution. ICS 211s, which are completed by personnel at the various check-in locations, are provided to the Resources Unit, Demobilization Unit, and Finance/Administration Section. The Resources Unit maintains a master list of all equipment and personnel that have reported to the incident.

Notes:

- Also available as 8½ x 14 (legal size) or 11 x 17 chart.
- Use reverse side of form for remarks or comments.
- If additional pages are needed for any form page, use a blank ICS 211 and repaginate as needed.
- Contact information for sender and receiver can be added for communications purposes to confirm resource orders. Refer to 213RR example (Appendix B)

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Incident Number	Enter the number assigned to the incident.
3	Check-In Location <input type="checkbox"/> Base <input type="checkbox"/> Staging Area <input type="checkbox"/> ICP <input type="checkbox"/> Helibase <input type="checkbox"/> Other	Check appropriate box and enter the check-in location for the incident. Indicate specific information regarding the locations under each checkbox. ICP is for Incident Command Post. Other may include...
4	Start Date/Time • Date • Time	Enter the date (month/day/year) and time (using the 24-hour clock) that the form was started.

Block Number	Block Title	Instructions
	Check-In Information	Self explanatory.
5	List single resource personnel (overhead) by agency and name, OR list resources by the following format	Enter the following information for resources: OPTIONAL: Indicate if resource is a single resource versus part of Strike Team or Task Force. Fields can be left blank if not necessary.
	• State	Use this section to list the home State for the resource.
	• Agency	Use this section to list agency name (or designator), and individual names for all single resource personnel (e.g., ORC, ARL, NYPD).
	• Category	Use this section to list the resource category based on NIMS, discipline, or jurisdiction guidance.
	• Kind	Use this section to list the resource kind based on NIMS, discipline, or jurisdiction guidance.
	• Type	Use this section to list the resource type based on NIMS, discipline, or jurisdiction guidance.
	• Resource Name or Identifier	Use this section to enter the resource name or unique identifier. If it is a Strike Team or a Task Force, list the unique Strike Team or Task Force identifier (if used) on a single line with the component resources of the Strike Team or Task Force listed on the following lines. For example, for an Engine Strike Team with the call sign "XLT459" show "XLT459" in this box and then in the next five rows, list the unique identifier for the five engines assigned to the Strike Team.
• ST or TF	Use ST or TF to indicate whether the resource is part of a Strike Team or Task Force. See above for additional instructions.	
6	Order Request #	The order request number will be assigned by the agency dispatching resources or personnel to the incident. Use existing protocol as appropriate for the jurisdiction and/or discipline, since several incident numbers may be used for the same incident.
7	Date/Time Check-In	Enter date (month/day/year) and time of check-in (24-hour clock) to the incident.
8	Leader's Name	<ul style="list-style-type: none"> • For equipment, enter the operator's name. • Enter the Strike Team or Task Force leader's name. • Leave blank for single resource personnel (overhead).
9	Total Number of Personnel	Enter total number of personnel associated with the resource. Include leaders.
10	Incident Contact Information	Enter available contact information (e.g., radio frequency, cell phone number, etc.) for the incident.
11	Home Unit or Agency	Enter the home unit or agency to which the resource or individual is normally assigned (may not be departure location).
12	Departure Point, Date and Time	Enter the location from which the resource or individual departed for this incident. Enter the departure time using the 24-hour clock.
13	Method of Travel	Enter the means of travel the individual used to bring himself/herself to the incident (e.g., bus, truck, engine, personal vehicle, etc.).
14	Incident Assignment	Enter the incident assignment at time of dispatch.
15	Other Qualifications	Enter additional duties (ICS positions) pertinent to the incident that the resource/individual is qualified to perform. Note that resources should not be reassigned on the incident without going through the established ordering process. This data may be useful when resources are demobilized and remobilized for another incident.

Block Number	Block Title	Instructions
16	Data Provided to Resources Unit	Enter the date and time that the information pertaining to that entry was transmitted to the Resources Unit, and the initials of the person who transmitted the information.
17	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position/title, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).

GENERAL MESSAGE (ICS 213)

1. Incident Name (Optional):		
2. To (Name and Position):		
3. From (Name and Position):		
4. Subject:	5. Date:	6. Time
7. Message:		
8. Approved by: Name: _____ Signature: _____ Position/Title: _____		
9. Reply:		
10. Replied by: Name: _____ Position/Title: _____ Signature: _____		
ICS 213	Date/Time: _____	

ICS 213 General Message

Purpose. The General Message (ICS 213) is used by the incident dispatchers to record incoming messages that cannot be orally transmitted to the intended recipients. The ICS 213 is also used by the Incident Command Post and other incident personnel to transmit messages (e.g., resource order, incident name change, other ICS coordination issues, etc.) to the Incident Communications Center for transmission via radio or telephone to the addressee. This form is used to send any message or notification to incident personnel that requires hard-copy delivery.

Preparation. The ICS 213 may be initiated by incident dispatchers and any other personnel on an incident.

Distribution. Upon completion, the ICS 213 may be delivered to the addressee and/or delivered to the Incident Communication Center for transmission.

Notes:

- The ICS 213 is a three-part form, typically using carbon paper. The sender will complete Part 1 of the form and send Parts 2 and 3 to the recipient. The recipient will complete Part 2 and return Part 3 to the sender.
- A copy of the ICS 213 should be sent to and maintained within the Documentation Unit.
- Contact information for the sender and receiver can be added for communications purposes to confirm resource orders. Refer to 213RR example (Appendix B)

Block Number	Block Title	Instructions
1	Incident Name (Optional)	Enter the name assigned to the incident. This block is optional.
2	To (Name and Position)	Enter the name and position the General Message is intended for. For all individuals, use at least the first initial and last name. For Unified Command, include agency names.
3	From (Name and Position)	Enter the name and position of the individual sending the General Message. For all individuals, use at least the first initial and last name. For Unified Command, include agency names.
4	Subject	Enter the subject of the message.
5	Date	Enter the date (month/day/year) of the message.
6	Time	Enter the time (using the 24-hour clock) of the message.
7	Message	Enter the content of the message. Try to be as concise as possible.
8	Approved by <ul style="list-style-type: none"> • Name • Signature • Position/Title 	Enter the name, signature, and ICS position/title of the person approving the message.
9	Reply	The intended recipient will enter a reply to the message and return it to the originator.
10	Replied by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position/title, and signature of the person replying to the message. Enter date (month/day/year) and time prepared (24-hour clock).

ICS 214 Activity Log

Purpose. The Activity Log (ICS 214) records details of notable activities at any ICS level, including single resources, equipment, Task Forces, etc. These logs provide basic incident activity documentation, and a reference for any after-action report.

Preparation. An ICS 214 can be initiated and maintained by personnel in various ICS positions as it is needed or appropriate. Personnel should document how relevant incident activities are occurring and progressing, or any notable events or communications.

Distribution. Completed ICS 214s are submitted to supervisors, who forward them to the Documentation Unit. All completed original forms must be given to the Documentation Unit, which maintains a file of all ICS 214s. It is recommended that individuals retain a copy for their own records.

Notes:

- The ICS 214 can be printed as a two-sided form.
- Use additional copies as continuation sheets as needed, and indicate pagination as used.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Name	Enter the title of the organizational unit or resource designator (e.g., Facilities Unit, Safety Officer, Strike Team).
4	ICS Position	Enter the name and ICS position of the individual in charge of the Unit.
5	Home Agency (and Unit)	Enter the home agency of the individual completing the ICS 214. Enter a unit designator if utilized by the jurisdiction or discipline.
6	Resources Assigned	Enter the following information for resources assigned:
	<ul style="list-style-type: none"> • Name 	Use this section to enter the resource's name. For all individuals, use at least the first initial and last name. Cell phone number for the individual can be added as an option.
	<ul style="list-style-type: none"> • ICS Position 	Use this section to enter the resource's ICS position (e.g., Finance Section Chief).
	<ul style="list-style-type: none"> • Home Agency (and Unit) 	Use this section to enter the resource's home agency and/or unit (e.g., Des Moines Public Works Department, Water Management Unit).
7	Activity Log <ul style="list-style-type: none"> • Date/Time • Notable Activities 	<ul style="list-style-type: none"> • Enter the time (24-hour clock) and briefly describe individual notable activities. Note the date as well if the operational period covers more than one day. • Activities described may include notable occurrences or events such as task assignments, task completions, injuries, difficulties encountered, etc. • This block can also be used to track personal work habits by adding columns such as "Action Required," "Delegated To," "Status," etc.
8	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position/title, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).

ICS 215 Operational Planning Worksheet

Purpose. The Operational Planning Worksheet (ICS 215) communicates the decisions made by the Operations Section Chief during the Tactics Meeting concerning resource assignments and needs for the next operational period. The ICS 215 is used by the Resources Unit to complete the Assignment Lists (ICS 204) and by the Logistics Section Chief for ordering resources for the incident.

Preparation. The ICS 215 is initiated by the Operations Section Chief and often involves logistics personnel, the Resources Unit, and the Safety Officer. The form is shared with the rest of the Command and General Staffs during the Planning Meeting. It may be useful in some disciplines or jurisdictions to prefill ICS 215 copies prior to incidents.

Distribution. When the Branch, Division, or Group work assignments and accompanying resource allocations are agreed upon, the form is distributed to the Resources Unit to assist in the preparation of the ICS 204. The Logistics Section will use a copy of this worksheet for preparing requests for resources required for the next operational period.

Notes:

- This worksheet can be made into a wall mount.
- Also available as 8½ x 14 (legal size) and 11 x 17 chart.
- If additional pages are needed, use a blank ICS 215 and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Branch	Enter the Branch of the work assignment for the resources.
4	Division, Group, or Other	Enter the Division, Group, or other location (e.g., Staging Area) of the work assignment for the resources.
5	Work Assignment & Special Instructions	Enter the specific work assignments given to each of the Divisions/Groups and any special instructions, as required.
6	Resources	Complete resource headings for category, kind, and type as appropriate for the incident. The use of a slash indicates a single resource in the upper portion of the slash and a Strike Team or Task Force in the bottom portion of the slash.
	• Required	Enter, for the appropriate resources, the number of resources by type (engine, squad car, Advanced Life Support ambulance, etc.) required to perform the work assignment.
	• Have	Enter, for the appropriate resources, the number of resources by type (engines, crew, etc.) available to perform the work assignment.
	• Need	Enter the number of resources needed by subtracting the number in the "Have" row from the number in the "Required" row.
7	Overhead Position(s)	List any supervisory and nonsupervisory ICS position(s) not directly assigned to a previously identified resource (e.g., Division/Group Supervisor, Assistant Safety Officer, Technical Specialist, etc.).
8	Special Equipment & Supplies	List special equipment and supplies, including aviation support, used or needed. This may be a useful place to monitor span of control.
9	Reporting Location	Enter the specific location where the resources are to report (Staging Area, location at incident, etc.).
10	Requested Arrival Time	Enter the time (24-hour clock) that resources are requested to arrive at the reporting location.

Block Number	Block Title	Instructions
11	Total Resources Required	Enter the total number of resources required by category/kind/type as preferred (e.g., engine, squad car, ALS ambulance, etc.). A slash can be used again to indicate total single resources in the upper portion of the slash and total Strike Teams/ Task Forces in the bottom portion of the slash.
12	Total Resources Have on Hand	Enter the total number of resources on hand that are assigned to the incident for incident use. A slash can be used again to indicate total single resources in the upper portion of the slash and total Strike Teams/Task Forces in the bottom portion of the slash.
13	Total Resources Need To Order	Enter the total number of resources needed. A slash can be used again to indicate total single resources in the upper portion of the slash and total Strike Teams/Task Forces in the bottom portion of the slash.
14	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).

THIS PAGE LEFT BLANK INTENTIONALLY

ICS 215A Incident Action Plan Safety Analysis

Purpose. The purpose of the Incident Action Plan Safety Analysis (ICS 215A) is to aid the Safety Officer in completing an operational risk assessment to prioritize hazards, safety, and health issues, and to develop appropriate controls. This worksheet addresses communications challenges between planning and operations, and is best utilized in the planning phase and for Operations Section briefings.

Preparation. The ICS 215A is typically prepared by the Safety Officer during the incident action planning cycle. When the Operations Section Chief is preparing for the tactics meeting, the Safety Officer collaborates with the Operations Section Chief to complete the Incident Action Plan Safety Analysis. This worksheet is closely linked to the Operational Planning Worksheet (ICS 215). Incident areas or regions are listed along with associated hazards and risks. For those assignments involving risks and hazards, mitigations or controls should be developed to safeguard responders, and appropriate incident personnel should be briefed on the hazards, mitigations, and related measures. Use additional sheets as needed.

Distribution. When the safety analysis is completed, the form is distributed to the Resources Unit to help prepare the Operations Section briefing. All completed original forms must be given to the Documentation Unit.

Notes:

- This worksheet can be made into a wall mount, and can be part of the IAP.
- If additional pages are needed, use a blank ICS 215A and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Incident Number	Enter the number assigned to the incident.
3	Date/Time Prepared	Enter date (month/day/year) and time (using the 24-hour clock) prepared.
4	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (24-hour clock) and end date and time for the operational period to which the form applies.
5	Incident Area	Enter the incident areas where personnel or resources are likely to encounter risks. This may be specified as a Branch, Division, or Group.
6	Hazards/Risks	List the types of hazards and/or risks likely to be encountered by personnel or resources at the incident area relevant to the work assignment.
7	Mitigations	List actions taken to reduce risk for each hazard indicated (e.g., specify personal protective equipment or use of a buddy system or escape routes).
8	Prepared by (Safety Officer and Operations Section Chief) <ul style="list-style-type: none"> • Name • Signature • Date/Time 	Enter the name of both the Safety Officer and the Operations Section Chief, who should collaborate on form preparation. Enter date (month/day/year) and time (24-hour clock) reviewed.

ICS 218 Support Vehicle/Equipment Inventory

Purpose. The Support Vehicle/Equipment Inventory (ICS 218) provides an inventory of all transportation and support vehicles and equipment assigned to the incident. The information is used by the Ground Support Unit to maintain a record of the types and locations of vehicles and equipment on the incident. The Resources Unit uses the information to initiate and maintain status/resource information.

Preparation. The ICS 218 is prepared by Ground Support Unit personnel at intervals specified by the Ground Support Unit Leader.

Distribution. Initial inventory information recorded on the form should be given to the Resources Unit. Subsequent changes to the status or location of transportation and support vehicles and equipment should be provided to the Resources Unit immediately.

Notes:

- If additional pages are needed, use a blank ICS 218 and repaginate as needed.
- Also available as 8½ x 14 (legal size) and 11 x 17 chart.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Incident Number	Enter the number assigned to the incident.
3	Date/Time Prepared	Enter the date (month/day/year) and time (using the 24-hour clock) the form is prepared.
4	Vehicle/Equipment Category	Enter the specific vehicle or equipment category (e.g., buses, generators, dozers, pickups/sedans, rental cars, etc.). Use a separate sheet for each vehicle or equipment category.
5	Vehicle/Equipment Information	Record the following information:
	Order Request Number	Enter the order request number for the resource as used by the jurisdiction or discipline, or the relevant EMAC order request number.
	Incident Identification Number	Enter any special incident identification numbers or agency radio identifier assigned to the piece of equipment used only during the incident, if this system is used (e.g., "Decontamination Unit 2," or "Water Tender 14").
	Vehicle or Equipment Classification	Enter the specific vehicle or equipment classification (e.g., bus, backhoe, Type 2 engine, etc.) as relevant.
	Vehicle or Equipment Make	Enter the vehicle or equipment manufacturer name (e.g., "GMC," "International").
	Category/Kind/Type, Capacity, or Size	Enter the vehicle or equipment category/kind/type, capacity, or size (e.g., 30-person bus, 3/4-ton truck, 50 kW generator).
	Vehicle or Equipment Features	Indicate any vehicle or equipment features such as 2WD, 4WD, towing capability, number of axles, heavy-duty tires, high clearance, automatic vehicle locator (AVL), etc.
	Agency or Owner	Enter the name of the agency or owner of the vehicle or equipment.
	Operator Name or Contact	Enter the operator name and/or contact information (cell phone, radio frequency, etc.).
	Vehicle License or Identification Number	Enter the license plate number or another identification number (such as a serial or rig number) of the vehicle or equipment.
	Incident Assignment	Enter where the vehicle or equipment will be located at the incident and its function (use abbreviations per discipline or jurisdiction).

Block Number	Block Title	Instructions
5 (continued)	Incident Start Date and Time	Indicate start date (month/day/year) and time (using the 24-hour clock) for driver or for equipment as may be relevant.
	Incident Release Date and Time	Enter the date (month/day/year) and time (using the 24-hour clock) the vehicle or equipment is released from the incident.
6	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature 	Enter the name, ICS position/title, and signature of the person preparing the form.

ICS 219

Resource Status Card (T-Card)

Purpose. Resource Status Cards (ICS 219) are also known as “T-Cards,” and are used by the Resources Unit to record status and location information on resources, transportation, and support vehicles and personnel. These cards provide a visual display of the status and location of resources assigned to the incident.

Preparation. Information to be placed on the cards may be obtained from several sources including, but not limited to:

- Incident Briefing (ICS 201).
- Incident Check-In List (ICS 211).
- General Message (ICS 213).
- Agency-supplied information or electronic resource management systems.

Distribution. ICS 219s are displayed in resource status or “T-Card” racks where they can be easily viewed, retrieved, updated, and rearranged. The Resources Unit typically maintains cards for resources assigned to an incident until demobilization. At demobilization, all cards should be turned in to the Documentation Unit.

Notes. There are eight different status cards (see list below) and a header card, to be printed front-to-back on cardstock. Each card is printed on a different color of cardstock and used for a different resource category/kind/type. The format and content of information on each card varies depending upon the intended use of the card.

- 219-1: Header Card – Gray (used only as label cards for T-Card racks)
- 219-2: Crew/Team Card – Green
- 219-3: Engine Card – Rose
- 219-4: Helicopter Card – Blue
- 219-5: Personnel Card – White
- 219-6: Fixed-Wing Card – Orange
- 219-7: Equipment Card – Yellow
- 219-8: Miscellaneous Equipment/Task Force Card – Tan
- 219-10: Generic Card – Light Purple

Acronyms. Abbreviations utilized on the cards are listed below:

- AOV: Agency-owned vehicle
- ETA: Estimated time of arrival
- ETD: Estimated time of departure
- ETR: Estimated time of return
- O/S Mech: Out-of-service for mechanical reasons
- O/S Pers: Out-of-service for personnel reasons
- O/S Rest: Out-of-service for rest/recuperation purposes/guidelines, or due to operating time limits/policies for pilots, operators, drivers, equipment, or aircraft
- POV: Privately owned vehicle

ICS 219-2 CREW/TEAM (GREEN)			

ICS 219-2: Crew/Team Card

Block Title	Instructions
ST/Unit	Enter the State and/or unit identifier (3–5 letters) used by the authority having jurisdiction.
LDW (Last Day Worked)	Indicate the last available workday that the resource is allowed to work
# Pers	Enter total number of personnel associated with the crew/team. Include leaders.
Order #	The order request number will be assigned by the agency dispatching resources or personnel to the incident. Use existing protocol as appropriate for the jurisdiction and/or discipline, since several incident numbers may be used for the same incident.
Agency	Use this section to list agency name or designator (e.g., ORC, ARL, NYPD).
Cat/Kind/Type	Enter the category/kind/type based on NIMS, discipline, or jurisdiction guidance.
Name/ID #	Use this section to enter the resource name or unique identifier (e.g., 13, Bluewater, Utility 32).
Date/Time Checked In	Enter date (month/day/year) and time of check-in (24-hour clock) to the incident.
Leader Name	Enter resource leader's name (use at least the first initial and last name).
Primary Contact Information	Enter the primary contact information (e.g., cell phone number, radio, etc.) for the leader. If radios are being used, enter function (command, tactical, support, etc.), frequency, system, and channel from the Incident Radio Communications Plan (ICS 205). Phone and pager numbers should include the area code and any satellite phone specifics.
Crew/Team ID #(s) or Name(s)	Provide the identifier number(s) or name(s) for this crew/team (e.g., Air Monitoring Team 2, Entry Team 3).
Manifest <input type="checkbox"/> Yes <input type="checkbox"/> No	Use this section to enter whether or not the resource or personnel has a manifest. If they do, indicate the manifest number.
Total Weight	Enter the total weight for the crew/team. This information is necessary when the crew/team are transported by charter air.
Method of Travel to Incident <input type="checkbox"/> AOV <input type="checkbox"/> POV <input type="checkbox"/> Bus <input type="checkbox"/> Air <input type="checkbox"/> Other	Check the box(es) for the appropriate method(s) of travel the individual used to bring himself/herself to the incident. AOV is "agency-owned vehicle." POV is "privately owned vehicle."
Home Base	Enter the home base to which the resource or individual is normally assigned (may not be departure location).
Departure Point	Enter the location from which the resource or individual departed for this incident.
ETD	Use this section to enter the crew/team's estimated time of departure (using the 24-hour clock) from their home base.
ETA	Use this section to enter the crew/team's estimated time of arrival (using the 24-hour clock) at the incident.

Block Title	Instructions
Transportation Needs at Incident <input type="checkbox"/> Vehicle <input type="checkbox"/> Bus <input type="checkbox"/> Air <input type="checkbox"/> Other	Check the box(es) for the appropriate method(s) of transportation at the incident.

Block Title	Instructions
ST/Unit	Enter the State and or unit identifier (3–5 letters) used by the authority having jurisdiction.
LDW (Last Day Worked)	Indicate the last available workday that the resource is allowed to work.
# Pers	Enter total number of personnel associated with the resource. Include the pilot.
Order #	The order request number will be assigned by the agency dispatching resources or personnel to the incident. Use existing protocol as appropriate for the jurisdiction and/or discipline since several incident numbers may be used for the same incident.
Agency	Use this section to list agency name or designator (e.g., ORC, ARL, NYPD).
Cat/Kind/Type	Enter the category/kind/type based on NIMS, discipline, or jurisdiction guidance.
Name/ID #	Use this section to enter the resource name or unique identifier.
Date/Time Checked In	Enter date (month/day/year) and time of check-in (24-hour clock) to the incident.
Pilot Name:	Enter pilot's name (use at least the first initial and last name).
Home Base	Enter the home base to which the resource or individual is normally assigned (may not be departure location).
Departure Point	Enter the location from which the resource or individual departed for this incident.
ETD	Use this section to enter the resource's estimated time of departure (using the 24-hour clock) from their home base.
ETA	Use this section to enter the resource's estimated time of arrival (using the 24-hour clock) at the destination point.
Destination Point	Use this section to enter the location at the incident where the resource has been requested to report.
Date/Time Ordered	Enter date (month/day/year) and time (24-hour clock) the resource was ordered to the incident.
Manufacturer	Enter the manufacturer of the aircraft.
Remarks	Enter any additional information pertaining to the resource.
BACK OF FORM	
Incident Location	Enter the location of the resource.

ICS 220 Air Operations Summary

Purpose. The Air Operations Summary (ICS 220) provides the Air Operations Branch with the number, type, location, and specific assignments of helicopters and air resources.

Preparation. The ICS 220 is completed by the Operations Section Chief or the Air Operations Branch Director during each Planning Meeting. General air resources assignment information is obtained from the Operational Planning Worksheet (ICS 215), which also is completed during each Planning Meeting. Specific designators of the air resources assigned to the incident are provided by the Air and Fixed-Wing Support Groups. If aviation assets would be utilized for rescue or are referenced on the Medical Plan (ICS 206), coordinate with the Medical Unit Leader and indicate on the ICS 206.

Distribution. After the ICS 220 is completed by Air Operations personnel, the form is given to the Air Support Group Supervisor and Fixed-Wing Coordinator personnel. These personnel complete the form by indicating the designators of the helicopters and fixed-wing aircraft assigned missions during the specified operational period. This information is provided to Air Operations personnel who, in turn, give the information to the Resources Unit.

Notes:

- If additional pages are needed for any form page, use a blank ICS 220 and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Operational Period <ul style="list-style-type: none"> • Date and Time From • Date and Time To 	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
3	Sunrise/Sunset	Enter the sunrise and sunset times.
4	Remarks (safety notes, hazards, air operations special equipment, etc.)	Enter special instructions or information, including safety notes, hazards, and priorities for Air Operations personnel.
5	Ready Alert Aircraft <ul style="list-style-type: none"> • Medivac • New Incident 	Identify ready alert aircraft that will be used as Medivac for incident assigned personnel and indicate on the Medical Plan (ICS 206). Identify aircraft to be used for new incidents within the area or new incident(s) within an incident.
6	Temporary Flight Restriction Number <ul style="list-style-type: none"> • Altitude • Center Point 	Enter Temporary Flight Restriction Number, altitude (from the center point), and center point (latitude and longitude). This number is provided by the Federal Aviation Administration (FAA) or is the order request number for the Temporary Flight Restriction.
7	Personnel <ul style="list-style-type: none"> • Name • Phone Number 	Enter the name and phone number of the individuals in Air Operations.
	Air Operations Branch Director	
	Air Support Group Supervisor	
	Air Tactical Group Supervisor	
	Helicopter Coordinator	
	Helibase Manager	

Block Number	Block Title	Instructions
8	Frequencies <ul style="list-style-type: none"> • AM • FM 	Enter primary air/air, air/ground (if applicable), command, deck coordinator, take-off and landing coordinator, and other radio frequencies to be used during the incident.
	Air/Air Fixed-Wing	
	Air/Air Rotary-Wing – Flight Following	Flight following is typically done by Air Operations.
	Air/Ground	
	Command	
	Deck Coordinator	
	Take-Off & Landing Coordinator	
	Air Guard	
9	Fixed-Wing (category/kind/type, make/model, N#, base)	Enter the category/kind/type based on NIMS, discipline, or jurisdiction guidance, make/model, N#, and base of air assets allocated to the incident.
	Air Tactical Group Supervisor Aircraft	
	Other Fixed-Wing Aircraft	
10	Helicopters	Enter the following information about the helicopter resources allocated to the incident.
	FAA N#	Enter the FAA N#.
	Category/Kind/Type	Enter the helicopter category/kind/type based on NIMS, discipline, or jurisdiction guidance.
	Make/Model	Enter the make and model of the helicopter.
	Base	Enter the base where the helicopter is located.
	Available	Enter the time the aircraft is available.
	Start	Enter the time the aircraft becomes operational.
	Remarks	
11	Prepared by <ul style="list-style-type: none"> • Name • Position/Title • Signature • Date/Time 	Enter the name, ICS position, and signature of the person preparing the form. Enter date (month/day/year) and time prepared (24-hour clock).
12	Task/Mission/Assignment (category/kind/type and function includes: air tactical, reconnaissance, personnel transport, search and rescue, etc.)	Enter the specific assignment (e.g., water or retardant drops, logistical support, or availability status for a specific purpose, support backup, recon, Medivac, etc.). If applicable, enter the primary air/air and air/ground radio frequency to be used. Mission assignments may be listed by priority.
	Category/Kind/Type and Function	
	Name of Personnel or Cargo (if applicable) or Instructions for Tactical Aircraft	
	Mission Start	
	Fly From	Enter the incident location or air base the aircraft is flying from.
	Fly To	Enter the incident location or air base the aircraft is flying to.

ICS 221 Demobilization Check-Out

Purpose. The Demobilization Check-Out (ICS 221) ensures that resources checking out of the incident have completed all appropriate incident business, and provides the Planning Section information on resources released from the incident. Demobilization is a planned process and this form assists with that planning.

Preparation. The ICS 221 is initiated by the Planning Section, or a Demobilization Unit Leader if designated. The Demobilization Unit Leader completes the top portion of the form and checks the appropriate boxes in Block 6 that may need attention after the Resources Unit Leader has given written notification that the resource is no longer needed. The individual resource will have the appropriate overhead personnel sign off on any checked box(es) in Block 6 prior to release from the incident.

Distribution. After completion, the ICS 221 is returned to the Demobilization Unit Leader or the Planning Section. All completed original forms must be given to the Documentation Unit. Personnel may request to retain a copy of the ICS 221.

Notes:

- Members are not released until form is complete when all of the items checked in Block 6 have been signed off.
- If additional pages are needed for any form page, use a blank ICS 221 and repaginate as needed.

Block Number	Block Title	Instructions
1	Incident Name	Enter the name assigned to the incident.
2	Incident Number	Enter the number assigned to the incident.
3	Planned Release Date/Time	Enter the date (month/day/year) and time (using the 24-hour clock) of the planned release from the incident.
4	Resource or Personnel Released	Enter name of the individual or resource being released.
5	Order Request Number	Enter order request number (or agency demobilization number) of the individual or resource being released.
6	Resource or Personnel You and your resources are in the process of being released. Resources are not released until the checked boxes below have been signed off by the appropriate overhead and the Demobilization Unit Leader (or Planning Section representative). <ul style="list-style-type: none"> • Unit/Leader/Manager/Other • Remarks • Name • Signature 	Resources are not released until the checked boxes below have been signed off by the appropriate overhead. Blank boxes are provided for any additional unit requirements as needed (e.g., Safety Officer, Agency Representative, etc.).
	Logistics Section <input type="checkbox"/> Supply Unit <input type="checkbox"/> Communications Unit <input type="checkbox"/> Facilities Unit <input type="checkbox"/> Ground Support Unit <input type="checkbox"/> Security Manager	The Demobilization Unit Leader will enter an "X" in the box to the left of those Units requiring the resource to check out. Identified Unit Leaders or other overhead are to sign the appropriate line to indicate release.

Block Number	Block Title	Instructions
6 (continued)	Finance/Administration Section <input type="checkbox"/> Time Unit	The Demobilization Unit Leader will enter an "X" in the box to the left of those Units requiring the resource to check out. Identified Unit Leaders or other overhead are to sign the appropriate line to indicate release.
	Other Section/Staff <input type="checkbox"/>	The Demobilization Unit Leader will enter an "X" in the box to the left of those Units requiring the resource to check out. Identified Unit Leaders or other overhead are to sign the appropriate line to indicate release.
	Planning Section <input type="checkbox"/> Documentation Leader <input type="checkbox"/> Demobilization Leader	The Demobilization Unit Leader will enter an "X" in the box to the left of those Units requiring the resource to check out. Identified Unit Leaders or other overhead are to sign the appropriate line to indicate release.
7	Remarks	Enter any additional information pertaining to demobilization or release (e.g., transportation needed, destination, etc.). This section may also be used to indicate if a performance rating has been completed as required by the discipline or jurisdiction.
8	Travel Information	Enter the following travel information:
	Room Overnight	Use this section to enter whether or not the resource or personnel will be staying in a hotel overnight prior to returning home base and/or unit.
	Estimated Time of Departure	Use this section to enter the resource's or personnel's estimated time of departure (using the 24-hour clock).
	Actual Release Date/Time	Use this section to enter the resource's or personnel's actual release date (month/day/year) and time (using the 24-hour clock).
	Destination	Use this section to enter the resource's or personnel's destination.
	Estimated Time of Arrival	Use this section to enter the resource's or personnel's estimated time of arrival (using the 24-hour clock) at the destination.
	Travel Method	Use this section to enter the resource's or personnel's travel method (e.g., POV, air, etc.).
	Contact Information While Traveling	Use this section to enter the resource's or personnel's contact information while traveling (e.g., cell phone, radio frequency, etc.).
	Manifest <input type="checkbox"/> Yes <input type="checkbox"/> No Number	Use this section to enter whether or not the resource or personnel has a manifest. If they do, indicate the manifest number.
Area/Agency/Region Notified	Use this section to enter the area, agency, and/or region that was notified of the resource's travel. List the name (first initial and last name) of the individual notified and the date (month/day/year) he or she was notified.	
9	Reassignment Information <input type="checkbox"/> Yes <input type="checkbox"/> No	Enter whether or not the resource or personnel was reassigned to another incident. If the resource or personnel was reassigned, complete the section below.
	Incident Name	Use this section to enter the name of the new incident to which the resource was reassigned.
	Incident Number	Use this section to enter the number of the new incident to which the resource was reassigned.
	Location	Use this section to enter the location (city and State) of the new incident to which the resource was reassigned.
	Order Request Number	Use this section to enter the new order request number assigned to the resource or personnel.

INCIDENT PERSONNEL PERFORMANCE RATING (ICS 225)

THIS RATING IS TO BE USED <u>ONLY</u> FOR DETERMINING AN INDIVIDUAL'S PERFORMANCE ON AN INCIDENT/EVENT						
1. Name:		2. Incident Name:		3. Incident Number:		
4. Home Unit Name and Address:			5. Incident Agency and Address:			
6. Position Held on Incident:		7. Date(s) of Assignment: From: To:		8. Incident Complexity Level: <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5		
10. Evaluation						
Rating Factors	N/A	1 – Unacceptable	2	3 – Met Standards	4	5 – Exceeded Expectations
11. Knowledge of the Job/ Professional Competence: Ability to acquire, apply, and share technical and administrative knowledge and skills associated with description of duties. (Includes operational aspects such as marine safety, seamanship, airmanship, SAR, etc., as appropriate.)	<input type="checkbox"/>	Questionable competence and credibility. Operational or specialty expertise inadequate or lacking in key areas. Made little effort to grow professionally. Used knowledge as power against others or bluffed rather than acknowledging ignorance. Effectiveness reduced due to limited knowledge of own organizational role and customer needs.	<input type="checkbox"/>	Competent and credible authority on specialty or operational issues. Acquired and applied excellent operational or specialty expertise for assigned duties. Showed professional growth through education, training, and professional reading. Shared knowledge and information with others clearly and simply. Understood own organizational role and customer needs.	<input type="checkbox"/>	Superior expertise; advice and actions showed great breadth and depth of knowledge. Remarkable grasp of complex issues, concepts, and situations. Rapidly developed professional growth beyond expectations. Vigorously conveyed knowledge, directly resulting in increased workplace productivity. Insightful knowledge of own role, customer needs, and value of work.
12. Ability To Obtain Performance/Results: Quality, quantity, timeliness, and impact of work.	<input type="checkbox"/>	Routine tasks accomplished with difficulty. Results often late or of poor quality. Work had a negative impact on department or unit. Maintained the status quo despite opportunities to improve.	<input type="checkbox"/>	Got the job done in all routine situations and in many unusual ones. Work was timely and of high quality; required same of subordinates. Results had a positive impact on IMT. Continuously improved services and organizational effectiveness.	<input type="checkbox"/>	Maintained optimal balance among quality, quantity, and timeliness of work. Quality of own and subordinates' work surpassed expectations. Results had a significant positive impact on the IMT. Established clearly effective systems of continuous improvement.
13. Planning/ Preparedness: Ability to anticipate, determine goals, identify relevant information, set priorities and deadlines, and create a shared vision of the Incident Management Team (IMT).	<input type="checkbox"/>	Got caught by the unexpected; appeared to be controlled by events. Set vague or unrealistic goals. Used unreasonable criteria to set priorities and deadlines. Rarely had plan of action. Failed to focus on relevant information.	<input type="checkbox"/>	Consistently prepared. Set high but realistic goals. Used sound criteria to set priorities and deadlines. Used quality tools and processes to develop action plans. Identified key information. Kept supervisors and stakeholders informed.	<input type="checkbox"/>	Exceptional preparation. Always looked beyond immediate events or problems. Skillfully balanced competing demands. Developed strategies with contingency plans. Assessed all aspects of problems, including underlying issues and impact.
14. Using Resources: Ability to manage time, materials, information, money, and people (i.e., all IMT components as well as external publics).	<input type="checkbox"/>	Concentrated on unproductive activities or often overlooked critical demands. Failed to use people productively. Did not follow up. Mismanaged information, money, or time. Used ineffective tools or left subordinates without means to accomplish tasks. Employed wasteful methods.	<input type="checkbox"/>	Effectively managed a variety of activities with available resources. Delegated, empowered, and followed up. Skilled time manager, budgeted own and subordinates' time productively. Ensured subordinates had adequate tools, materials, time, and direction. Cost conscious, sought ways to cut waste.	<input type="checkbox"/>	Unusually skilled at bringing scarce resources to bear on the most critical of competing demands. Optimized productivity through effective delegation, empowerment, and follow-up control. Found ways to systematically reduce cost, eliminate waste, and improve efficiency.
15. Adaptability/Attitude: Ability to maintain a positive attitude and modify work methods and priorities in response to new information, changing conditions, political realities, or unexpected obstacles.	<input type="checkbox"/>	Unable to gauge effectiveness of work, recognize political realities, or make adjustments when needed. Maintained a poor outlook. Overlooked or screened out new information. Ineffective in ambiguous, complex, or pressured situations.	<input type="checkbox"/>	Receptive to change, new information, and technology. Effectively used benchmarks to improve performance and service. Monitored progress and changed course as required. Maintained a positive approach. Effectively dealt with pressure and ambiguity. Facilitated smooth transitions. Adjusted direction to accommodate political realities.	<input type="checkbox"/>	Rapidly assessed and confidently adjusted to changing conditions, political realities, new information, and technology. Very skilled at using and responding to measurement indicators. Championed organizational improvements. Effectively dealt with extremely complex situations. Turned pressure and ambiguity into constructive forces for change.
16. Communication Skills: Ability to speak effectively and listen to understand. Ability to express facts and ideas clearly and convincingly.	<input type="checkbox"/>	Unable to effectively articulate ideas and facts; lacked preparation, confidence, or logic. Used inappropriate language or rambled. Nervous or distracting mannerisms detracted from message. Failed to listen carefully or was too argumentative. Written material frequently unclear, verbose, or poorly organized. Seldom proofread.	<input type="checkbox"/>	Effectively expressed ideas and facts in individual and group situations; nonverbal actions consistent with spoken message. Communicated to people at all levels to ensure understanding. Listened carefully for intended message as well as spoken words. Written material clear, concise, and logically organized. Proofread conscientiously.	<input type="checkbox"/>	Clearly articulated and promoted ideas before a wide range of audiences; accomplished speaker in both formal and extemporaneous situations. Adept at presenting complex or sensitive issues. Active listener; remarkable ability to listen with open mind and identify key issues. Clearly and persuasively expressed complex or controversial material, directly contributing to stated objectives.

INCIDENT PERSONNEL PERFORMANCE RATING (ICS 225)

1. Name:		2. Incident Name:			3. Incident Number:	
10. Evaluation						
Rating Factors	N/A	1 – Unacceptable	2	3 – Met Standards	4	5 – Exceeded Expectations
17. Ability To Work on a Team: Ability to manage, lead and participate in teams, encourage cooperation, and develop esprit de corps.	<input type="checkbox"/>	Used teams ineffectively or at wrong times. Conflicts mismanaged or often left unresolved, resulting in decreased team effectiveness. Excluded team members from vital information. Stifled group discussions or did not contribute productively. Inhibited cross functional cooperation to the detriment of unit or service goals.	<input type="checkbox"/>	Skillfully used teams to increase unit effectiveness, quality, and service. Resolved or managed group conflict, enhanced cooperation, and involved team members in decision process. Valued team participation. Effectively negotiated work across functional boundaries to enhance support of broader mutual goals.	<input type="checkbox"/>	Insightful use of teams raised unit productivity beyond expectations. Inspired high level of esprit de corps, even in difficult situations. Major contributor to team effort. Established relationships and networks across a broad range of people and groups, raising accomplishments of mutual goals to a remarkable level.
18. Consideration for Personnel/Team Welfare: Ability to consider and respond to others' personal needs, capabilities, and achievements; support for and application of worklife concepts and skills.	<input type="checkbox"/>	Seldom recognized or responded to needs of people; left outside resources untapped despite apparent need. Ignorance of individuals' capabilities increased chance of failure. Seldom recognized or rewarded deserving subordinates or other IMT members.	<input type="checkbox"/>	Cared for people. Recognized and responded to their needs; referred to outside resources as appropriate. Considered individuals' capabilities to maximize opportunities for success. Consistently recognized and rewarded deserving subordinates or other IMT members.	<input type="checkbox"/>	Always accessible. Enhanced overall quality of life. Actively contributed to achieving balance among IMT requirements and professional and personal responsibilities. Strong advocate for subordinates; ensured appropriate and timely recognition, both formal and informal.
19. Directing Others: Ability to influence or direct others in accomplishing tasks or missions.	<input type="checkbox"/>	Showed difficulty in directing or influencing others. Low or unclear work standards reduced productivity. Failed to hold subordinates accountable for shoddy work or irresponsible actions. Unwilling to delegate authority to increase efficiency of task accomplishment.	<input type="checkbox"/>	A leader who earned others' support and commitment. Set high work standards; clearly articulated job requirements, expectations, and measurement criteria; held subordinates accountable. When appropriate, delegated authority to those directly responsible for the task.	<input type="checkbox"/>	An inspirational leader who motivated others to achieve results not normally attainable. Won people over rather than imposing will. Clearly articulated vision; empowered subordinates to set goals and objectives to accomplish tasks. Modified leadership style to best meet challenging situations.
20. Judgment/Decisions Under Stress: Ability to make sound decisions and provide valid recommendations by using facts, experience, political acumen, common sense, risk assessment, and analytical thought.	<input type="checkbox"/>	Decisions often displayed poor analysis. Failed to make necessary decisions, or jumped to conclusions without considering facts, alternatives, and impact. Did not effectively weigh risk, cost, and time considerations. Unconcerned with political drivers on organization.	<input type="checkbox"/>	Demonstrated analytical thought and common sense in making decisions. Used facts, data, and experience, and considered the impact of alternatives and political realities. Weighed risk, cost, and time considerations. Made sound decisions promptly with the best available information.	<input type="checkbox"/>	Combined keen analytical thought, an understanding of political processes, and insight to make appropriate decisions. Focused on the key issues and the most relevant information. Did the right thing at the right time. Actions indicated awareness of impact of decisions on others. Not afraid to take reasonable risks to achieve positive results.
21. Initiative Ability to originate and act on new ideas, pursue opportunities to learn and develop, and seek responsibility without guidance and supervision.	<input type="checkbox"/>	Postponed needed action. Implemented or supported improvements only when directed to do so. Showed little interest in career development. Feasible improvements in methods, services, or products went unexplored.	<input type="checkbox"/>	Championed improvement through new ideas, methods, and practices. Anticipated problems and took prompt action to avoid or resolve them. Pursued productivity gains and enhanced mission performance by applying new ideas and methods.	<input type="checkbox"/>	Aggressively sought out additional responsibility. A self-learner. Made worthwhile ideas and practices work when others might have given up. Extremely innovative. Optimized use of new ideas and methods to improve work processes and decisionmaking.
22. Physical Ability for the Job: Ability to invest in the IMT's future by caring for the physical health and emotional well-being of self and others.	<input type="checkbox"/>	Failed to meet minimum standards of sobriety. Tolerated or condoned others' alcohol abuse. Seldom considered subordinates' health and well-being. Unwilling or unable to recognize and manage stress despite apparent need.	<input type="checkbox"/>	Committed to health and well-being of self and subordinates. Enhanced personal performance through activities supporting physical and emotional well-being. Recognized and managed stress effectively.	<input type="checkbox"/>	Remarkable vitality, enthusiasm, alertness, and energy. Consistently contributed at high levels of activity. Optimized personal performance through involvement in activities that supported physical and emotional well-being. Monitored and helped others deal with stress and enhance health and well-being.
23. Adherence to Safety: Ability to invest in the IMT's future by caring for the safety of self and others.	<input type="checkbox"/>	Failed to adequately identify and protect personnel from safety hazards.	<input type="checkbox"/>	Ensured that safe operating procedures were followed.	<input type="checkbox"/>	Demonstrated a significant commitment toward safety of personnel.
24. Remarks:						
25. Rated Individual (This rating has been discussed with me):						
Signature: _____			Date/Time: _____			
26. Rated by: Name: _____			Signature: _____			
Home Unit: _____			Position Held on This Incident: _____			
ICS 225			Date/Time: _____			

ICS 225 Incident Personnel Performance Rating

Purpose. The Incident Personnel Performance Rating (ICS 225) gives supervisors the opportunity to evaluate subordinates on incident assignments. THIS RATING IS TO BE USED ONLY FOR DETERMINING AN INDIVIDUAL'S PERFORMANCE ON AN INCIDENT/EVENT.

Preparation. The ICS 225 is normally prepared by the supervisor for each subordinate, using the evaluation standard given in the form. The ICS 225 will be reviewed with the subordinate, who will sign at the bottom. It will be delivered to the Planning Section before the rater leaves the incident

Distribution. The ICS 225 is provided to the Planning Section Chief before the rater leaves the incident.

Notes:

- Use a blank ICS 225 for each individual.
- Additional pages can be added based on individual need.

Block Number	Block Title	Instructions
1	Name	Enter the name of the individual being rated.
2	Incident Name	Enter the name assigned to the incident.
3	Incident Number	Enter the number assigned to the incident.
4	Home Unit Address	Enter the physical address of the home unit for the individual being rated.
5	Incident Agency and Address	Enter the name and address of the authority having jurisdiction for the incident.
6	Position Held on Incident	Enter the position held (e.g., Resources Unit Leader, Safety Officer, etc.) by the individual being rated.
7	Date(s) of Assignment <ul style="list-style-type: none"> • From • To 	Enter the date(s) (month/day/year) the individual was assigned to the incident.
8	Incident Complexity Level <ul style="list-style-type: none"> <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 	Indicate the level of complexity for the incident.
9	Incident Definition	Enter a general definition of the incident in this block. This may be a general incident category or kind description, such as "tornado," "wildfire," "bridge collapse," "civil unrest," "parade," "vehicle fire," "mass casualty," etc.
10	Evaluation	Enter "X" under the appropriate column indicating the individual's level of performance for each duty listed.
	N/A	The duty did not apply to this incident.
	1 – Unacceptable	Does not meet minimum requirements of the individual element. Deficiencies/Improvements needed must be identified in Remarks.
	2 – Needs Improvement	Meets some or most of the requirements of the individual element. IDENTIFY IMPROVEMENT NEEDED IN REMARKS.
	3 – Met Standards	Satisfactory. Employee meets all requirements of the individual element.

Block Number	Block Title	Instructions
	4 – Fully Successful	Employee meets all requirements and exceeds one or several of the requirements of the individual element.
10	5 – Exceeded Expectations	Superior. Employee consistently exceeds the performance requirements.
11	Knowledge of the Job/ Professional Competence:	Ability to acquire, apply, and share technical and administrative knowledge and skills associated with description of duties. (Includes operational aspects such as marine safety, seamanship, airmanship, SAR, etc., as appropriate.)
12	Ability To Obtain Performance/Results:	Quality, quantity, timeliness, and impact of work.
13	Planning/Preparedness:	Ability to anticipate, determine goals, identify relevant information, set priorities and deadlines, and create a shared vision of the Incident Management Team (IMT).
14	Using Resources:	Ability to manage time, materials, information, money, and people (i.e., all IMT components as well as external publics).
15	Adaptability/Attitude:	Ability to maintain a positive attitude and modify work methods and priorities in response to new information, changing conditions, political realities, or unexpected obstacles.
16	Communication Skills:	Ability to speak effectively and listen to understand. Ability to express facts and ideas clearly and convincingly.
17	Ability To Work on a Team:	Ability to manage, lead and participate in teams, encourage cooperation, and develop esprit de corps.
18	Consideration for Personnel/Team Welfare:	Ability to consider and respond to others' personal needs, capabilities, and achievements; support for and application of worklife concepts and skills.
19	Directing Others:	Ability to influence or direct others in accomplishing tasks or missions.
20	Judgment/Decisions Under Stress:	Ability to make sound decisions and provide valid recommendations by using facts, experience, political acumen, common sense, risk assessment, and analytical thought.
21	Initiative	Ability to originate and act on new ideas, pursue opportunities to learn and develop, and seek responsibility without guidance and supervision.
22	Physical Ability for the Job:	Ability to invest in the IMT's future by caring for the physical health and emotional well-being of self and others.
23	Adherence to Safety:	Ability to invest in the IMT's future by caring for the safety of self and others.
24	Remarks	Enter specific information on why the individual received performance levels.
25	Rated Individual (This rating has been discussed with me) <ul style="list-style-type: none"> • Signature • Date/Time 	Enter the signature of the individual being rated. Enter the date (month/day/year) and the time (24-hour clock) signed.
26	Rated by <ul style="list-style-type: none"> • Name • Signature • Home Unit • Position Held on This Incident • Date/Time 	Enter the name, signature, home unit, and position held on the incident of the person preparing the form and rating the individual. Enter the date (month/day/year) and the time (24-hour clock) prepared.

Index of ICS Checklists

The following checklists are included in this appendix.

- Communication Unit Leader Checklist
- Compensation/Claims Unit Leader Checklist
- Cost Unit Leader Checklist
- Demobilization Unit Leader Checklist
- Documentation Unit Leader Checklist
- Facilities Unit Leader Checklist
- Finance – Administration Section Chief Checklist
- Food Unit Leader Checklist
- Ground Support Unit Leader Checklist
- Incident Commander Checklist
- Liaison Officer Checklist
- Logistics Section Chief Checklist
- Medical Unit Leader Checklist
- Operations Branch Director Checklist
- Operations Section Chief Checklist
- Planning Section Chief Checklist
- Procurement Unit Leader Checklist
- Public Information Officer Checklist
- Resources Unit Leader Checklist
- Safety Officer Checklist
- Service Branch Director Checklist
- Situation Unit Leader Checklist
- Staging Area Manager Checklist
- Supply Unit Leader Checklist
- Support Branch Director Checklist
- Time Unit Leader Checklist

Appendix C. Emergency Operations Center / Emergency Coordination Center Position Checklists

Figure C-1 EOC / ECC Position Organizational Chart

Communication Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from the Logistics Section Chief or Service Branch Director.

2. Organize and staff Unit as appropriate:

- Assign Communications Center Manager and Lead Incident Dispatcher.
- Assign Message Center Manager and ensure adequate staff is assigned to answer phones and attend fax machines.

3. Assess communications systems/frequencies in use; advise on communications capabilities/limitations.

4. Develop and implement effective communications procedures (flow) internal and external to the incident/Incident Command Post.

5. Assess Incident Command Post phone load and request additional lines as needed.

6. Prepare and implement Incident Communications Plan (ICS Form 205):

- Obtain current organizational chart.
- Determine most hazardous tactical activity; ensure adequate communications.
- Make communications assignments to all other Operations elements, including volunteer, contract, or mutual aid.
- Determine Command communications needs.
- Determine support communications needs.
- Establish and post any specific procedures for use of Incident Command Post communications equipment.

Communication Unit Leader Position Checklist

7. Include cellular phones and pagers in Incident Communications Plan (ICS Form 205), if appropriate:
- Determine specific organizational elements to be assigned telephones.
 - Identify all facilities/locations with which communications must be established (shelters, press area, liaison area, agency facilities, other governmental entities' Emergency Operations Centers (EOCs), etc.), identify and document phone numbers.
 - Determine which phones/numbers should be used by what personnel and for what purpose. Assign specific telephone numbers for **incoming** calls, and report these numbers to staff and off-site parties such as other local jurisdictions, State and Federal agencies.
 - **Do not publicize OUTGOING call lines.**

8. Activate, serve as contact point, and supervise the integration of volunteer radio organizations into the communications system.

9. Ensure radio and telephone logs are available and being used.

10. Determine need and research availability of additional nets and systems:

- Order through Supply Unit after approval by Section Chief.
- Federal systems:
 - Additional radios and other communications devices, including repeaters, radio-telephone interconnects and satellite down-link capabilities may be available through FEMA or the USDA Forest Service.

11. Document malfunctioning communications equipment, facilitate repair.

12. Establish and maintain communications equipment accountability system.

13. Provide technical information, as required, on:

- Adequacy of communications system currently in use.
- Geographic limitation on communications equipment.
- Equipment capabilities.
- Amount and types of equipment available.
- Anticipated problems in the use of communications equipment.

Communication Unit Leader Position Checklist

14. Estimate Unit needs for expected operations; order relief personnel.

15. Provide briefing to relief on current activities and unusual situations.

16. Document all activity on Unit Log (ICS Form 214).

THIS PAGE LEFT BLANK INTENTIONALLY

Compensation/Claims Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Finance/Administration Section Chief:

- Determine accidents/injuries to date.
- Determine status of investigations.

2. Establish contact with incident Safety Officer and Liaison Officer or department/agency representatives.

3. Determine the need for Compensation for Injury and Claims Specialists, request additional personnel, as necessary.

4. Establish procedures with Medical Unit Leader on prompt notification of injuries or deaths.

5. Ensure that volunteer personnel have been appropriately registered.

6. Ensure written authority for persons requiring medical treatment.

7. Ensure correct billing forms for transmittal to doctor and/or hospital.

8. Ensure all witness statements and statements from Safety Officer and Medical Unit are reviewed for completeness.

9. Coordinate with Safety Officer to:

- Provide liaison with Occupational Safety and Health Administration (OSHA).
- Provide analysis of injuries.
- Ensure appropriate level of personal protective equipment (PPE) is being used, and that personnel have been trained in its use.

10. Maintain copies of hazardous materials and other medical debriefings; ensure they are included as part of the final incident package.

11. Provide briefing to relief on current activities and unusual events

12. Document all activity on Unit Log (ICS Form 214).

Compensation/Claims Unit Leader Position Checklist

Claims Specialist:

1. Work closely with Operations and Planning for information from the field.

2. Some agencies/Units have "Claims Teams" who are trained to do claims investigation and documentation for large incidents.

3. Coordinate with FEMA, private aid organizations (Red Cross), and other Government agencies for claims documentation and their needs (the Liaison Officer can often be a help coordinate and obtain information from other agencies or private entities).

4. "Damage assessment" for ongoing disaster recovery is normally not the responsibility of the Compensation and Claims Unit. However, information gathered by the Unit may be forwarded to the agency as part of its recovery effort.

Compensation for Injury Specialist:

1. Determine accidents/injuries to date.

2. Coordinate with incident Safety Officer, Liaison Officer and/or department/agency representatives.

3. Work with Safety Officer to determine trends of accidents and provide analysis of injuries.

4. Work with local agency representatives to find treatment options for injuries.

5. Establish procedures with Medical Unit Leader on prompt notification of injuries or deaths.

6. Prepare written authority for persons requiring medical treatment, and correct billing forms for transmittal to doctor and/or hospital. Ensure all witness statements are reviewed for completeness.

7. Keep informed and report on status of hospitalized personnel.

8. Maintain log of all injuries occurring on incident.

9. Arrange for notification of next of kin for serious injuries and deaths (this will be done through Command).

Cost Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Finance/Administration Section Chief:

- Determine reporting time-lines.
- Determine standard and special reports required.
- Determine desired report format.

2. Obtain and record all cost data:

- Agency Equipment costs.
- Contract or mutual aid equipment costs.
- Contract or mutual aid personnel costs.
- Damage to facilities, infrastructure, equipment or vehicles.
- Supplies.
- Food.
- Facility rental.

3. Identify in reports all equipment/personnel requiring payment.

4. Prepare incident cost summaries by operational period, or as directed by the Finance/Administration Section Chief.

5. If cost share agreement is done, determine what costs need to be tracked. They may be different than total incident costs.

6. Prepare resources use cost estimates for Planning:

- Make sure estimates are updated with actual costs as they become available.
- Make sure information is provided to Planning according to Planning's schedule.

Cost Unit Leader Position Checklist

7. Make recommendations on cost savings to Finance/Administration Section Chief. This must be coordinated with Operations and Planning Sections—use of high cost equipment may have justifications unknown to Finance/Administration.

8. Maintain cumulative incident cost records. Costs should reflect each individual entity (individual or crew personnel, individual pieces of equipment, food, facilities) the entity's agency or contractor, pay premiums (overtime/hazard). These records should reflect:

- Agency, contract, and/or mutual aid equipment costs.
- Agency, contract, and/or mutual aid personnel costs and pay premiums (straight, hazard, and overtime).
- Contract or mutual aid equipment costs.
- Contract or mutual aid personnel costs.
- Damage to agency facilities, infrastructure, equipment or vehicles.
- Supplies.
- Food.
- Facility rental.

9. Ensure that all cost documents are accurately prepared.

10. Enter data into an agency cost analysis system (Incident Cost Analysis Reporting System (ICARS) or similar system, if appropriate).

11. Provide briefing to relief on current activity and unusual events.

12. Document all activity on Unit Log (ICS Form 214).

Demobilization Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Planning Section Chief:

- Determine objectives, priorities and constraints on demobilization.

2. Review incident resource records to determine scope of demobilization effort:

- Resource tracking system.
- Check-in forms.
- Master resource list.

3. Meet with agency representatives to determine:

- Agencies not requiring formal demobilization.
- Personnel rest and safety needs.
- Coordination procedures with cooperating-assisting agencies.

4. Assess the current and projected resource needs of the Operations Section.

5. Obtain identification of surplus resources and probable release times.

6. Determine logistical support needs of released resources (rehab, transportation, equipment replacement, etc.).

7. Determine Finance/Administration, Communications, Supply, and other incident check-out stops.

8. Determine de-briefing requirements.

9. Establish communications links with off-incident organizations and facilities.

Demobilization Unit Leader Position Checklist

10. Prepare Demobilization Plan (ICS Form 221):

- General - Discussion of demobilization procedure.
- Responsibilities - Specific implementation responsibilities and activities.
- Release Priorities - According to agency and kind and type of resource.
- Release Procedures - Detailed steps and process to be followed.
- Directories - Maps, telephone numbers, instructions and other needed elements.
- Continuity of operations (follow up to incident operations):
 - Public Information.
 - Finance/Administration.
 - Other.
- Designate to whom outstanding paperwork must be submitted.
- Include demobilization of Incident Command Post staff. In general, Incident Command Post staff will not be released until:
 - Incident activity and work load are at the level the agency can reasonably assume.
 - Incident is controlled.
 - On-scene personnel are released except for those needed for final tactical assignments.
 - Incident Base is reduced or in the process of being shut down.
 - Planning Section has organized final incident package.
 - Finance/Administration Section has resolved major known finance problems and defined process for follow-up.
 - Rehabilitation/cleanup accomplished or contracted.
 - Team has conducted or scheduled required debriefings.

11. Obtain approval of Demobilization Plan (ICS Form 221) from Planning Section Chief.

12. Distribute Demobilization Plan (ICS Form 221) to processing points both on and off incident.

13. Monitor implementation of Demobilization Plan (ICS Form 221).

Demobilization Unit Leader Position Checklist

14. Assist in the coordination of the Demobilization Plan (ICS Form 221).

15. Provide briefing to relief on current activities and unusual events.

16. Document all activity on Unit Log (ICS Form 214).

17. Give completed incident files to Documentation Unit Leader for inclusion in the final incident package.

THIS PAGE LEFT BLANK INTENTIONALLY

Documentation Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Planning Section Chief.

2. Organize, staff, and supervise Unit, as appropriate, and provide for adequate relief.

3. Establish work area:

- Ensure adequate duplication capability for large-scale operations and adequate staff to assist in the duplication and documentation process.

4. Establish and organize incident files.

5. Establish duplication services, and respond to requests.

6. Determine number needed and duplicate Incident Action Plan (IAP) accordingly.

7. Retain and file duplicate copies of official forms and reports.

8. Accept and file reports and forms submitted by incident personnel.

9. Check the accuracy and completeness of records submitted for files.

10. Ensure that legal restrictions on public and exempt records are observed.

11. Provide briefing to relief on current activities and unusual events.

12. Document all activity on Unit Log (ICS Form 214).

13. Give completed incident files to Planning Section Chief.

THIS PAGE LEFT BLANK INTENTIONALLY

Facilities Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Logistics Section Chief or Support Branch Director:

- Expected duration and scope of the incident.
- Facilities already activated.
- Anticipated facility needs.

2. Obtain a copy of the Incident Action Plan (IAP) and determine:

- Location of Incident Command Post.
- Staging Areas.
- Incident Base.
- Supply/Receiving/Distribution Centers.
- Information/Media Briefing Center.
- Other incident facilities.

3. Determine requirements for each facility to be established:

- Sanitation.
- Sleeping.
- Feeding.
- Supply area.
- Medical support.
- Communications needs.
- Security needs.
- Lighting.

Facilities Unit Leader Position Checklist

4. In cooperation with other incident staff, determine the following requirements for each facility:

- Needed space.
- Specific location.
- Access.
- Parking.
- Security.
- Safety.

5. Plan facility layouts in accordance with above requirements.

6. Coordinate negotiation for rental office or storage space:

- < 60 days - Coordinate with Procurement Unit.
- > 60 days - Coordinate with Procurement Unit, agency Facilities Manager, and agency Finance Department.

7. Video or photograph rental office or storage space prior to taking occupancy.

8. Document all activity on Unit Log (ICS Form 214).

Finance/Administration Section Chief Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident. Tasks may be delegated to the appropriate Unit Leader.

Task

1. Obtain briefing from Incident Commander:

- Incident objectives.
- Participating/coordinating agencies.
- Anticipated duration/complexity of incident.
- Determine any political considerations.
- Obtain the names of any agency contacts the Incident Commander knows about.
- Possibility of cost sharing.
- Work with Incident Commander and Operations Section Chief to ensure work/rest guidelines are being met, as applicable.

2. Obtain briefing from agency administrator:

- Determine level of fiscal process required.
- Delegation of authority to Incident Commander, as well as for financial processes, particularly procurement.
- Assess potential for legal claims arising out of incident activities.
- Identify applicable financial guidelines and policies, constraints and limitations.

Finance/Administration Section Chief Position Checklist

3. Obtain briefing from agency Finance/Administration representative:

- Identify financial requirements for planned and expected operations.
- Determine agreements are in place for land use, facilities, equipment, and utilities.
- Confirm/establish procurement guidelines.
- Determine procedure for establishing charge codes.
- Important local contacts.
- Agency/local guidelines, processes.
- Copies of all incident-related agreements, activated or not.
- Determine potential for rental or contract services.
- Is an Incident Business Advisor (IBA) available, or the contact information for an agency Financial/Administration representative?
- Coordinate with Command and General Staff and agency Human Resources staff to determine the need for temporary employees.
- Ensure that proper tax documentation is completed.
- Determine whether hosting agency will maintain time records, or whether the incident will document all time for the incident, and what forms will be used.

4. Ensure all Sections and the Supply Unit are aware of charge code.

5. Attend Planning Meeting:

- Provide financial and cost-analysis input.
- Provide financial summary on labor, materials, and services.
- Prepare forecasts on costs to complete operations.
- Provide cost benefit analysis, as requested.
- Obtain information on status of incident; planned operations; changes in objectives, use of personnel, equipment, aircraft; and local agency/political concerns.

Finance/Administration Section Chief Position Checklist

Sample Planning Meeting Agenda

Agenda Item	Responsible Party
1 Briefing on situation/resource status.	Planning/Operations Section Chiefs
2 Discuss safety issues.	Safety Officer
3 Set/confirm incident objectives.	Incident Commander
4 Plot control lines & Division boundaries.	Operations Section Chief
5 Specify tactics for each Division/Group.	Operations Section Chief
6 Specify resources needed for each Division/Group.	Operations/Planning Section Chiefs
7 Specify facilities and reporting locations.	Operations/Planning/Logistics Section Chiefs
8 Develop resource order.	Logistics Section Chief
9 Consider communications/medical/transportation plans.	Logistics/Planning Section Chiefs
10 Provide financial update.	Finance/Administration Section Chief
11 Discuss interagency liaison issues.	Liaison Officer
12 Discuss information issues.	Public Information Officer
13 Finalize/approve/implement plan.	Incident Commander/All

6. Gather continuing information:

- Equipment time – Ground Support Unit Leader and Operations Section.
- Personnel time – Crew Leaders, Unit Leaders, and individual personnel.
- Accident reports – Safety Officer, Ground Support Unit Leader, and Operations Section.
- Potential and existing claims – Operations Section, Safety Officer, equipment contractors, agency representative, and Compensation/Claims Unit Leader.
- Arrival and demobilization of personnel and equipment – Planning Section.
- Daily incident status – Planning Section.
- Injury reports – Safety Officer, Medical Unit Leader, and Compensation/Claims Unit Leader.
- Status of supplies – Supply Unit Leader and Procurement Unit Leader.
- Guidelines of responsible agency – Incident Business Advisor, local administrative personnel.
- Use agreements – Procurement Unit Leader and local administrative personnel.
- What has been ordered? – Supply Unit Leader.
- Unassigned resources – Resource Unit Leader and Cost Unit Leader.

Finance/Administration Section Chief Position Checklist

- 7. Meet with assisting and cooperating agencies, as required, to determine any cost-share agreements or financial obligation.
- 8. Coordinate with all cooperating agencies and specifically administrative personnel in hosting agency.
- 9. Initiate, maintain, and ensure completeness of documentation needed to support claims for emergency funds, including auditing and documenting labor, equipment, materials, and services:
 - Labor - with breakdown of work locations, hours and rates for response personnel, contract personnel, volunteers, and consultants.
 - Equipment - with breakdown of work locations, hours and rates for owned and rented aircraft, heavy equipment, fleet vehicles, and other equipment.
 - Materials and supplies purchased and/or rented, including equipment, communications, office and warehouse space, and expendable supplies.
- 10. Initiate, maintain, and ensure completeness of documentation needed to support claims for injury and property damage. (Injury information should be kept on contracted personnel formally assigned to the incident, as well as paid employees and mutual aid personnel).
- 11. Ensure that all personnel time records reflect incident activity and that records for non-agency personnel are transmitted to home agency or department according to policy:
 - Notify incident management personnel when emergency timekeeping process is in effect and where timekeeping is taking place.
 - Distribute time-keeping forms to all Sections-ensure forms are being completed correctly.
- 12. Ensure that all obligation documents initiated by the incident are properly prepared and completed.
- 13. Assist Logistics in resource procurement:
 - Identify vendors for which open purchase orders or contracts must be established.
 - Negotiate ad hoc contracts.
- 14. Ensure coordination between Finance/Administration and other Command and General Staff.
- 15. Coordinate Finance/Administration demobilization.
- 16. Provide briefing to relief on current activities and unusual events.

Finance/Administration Section Chief Position Checklist

17. Ensure all Logistics Units are documenting actions on Unit Log (ICS Form 214).

18. Submit all Section documentation to Documentation Unit.

THIS PAGE LEFT BLANK INTENTIONALLY

Food Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Logistics Section Chief or Service Branch Director:

- Determine potential duration of incident.
- Number and location of personnel to be fed.
- Last meal provided.
- Proposed time of next meal.

2. Determine food service requirements for planned and expected operations.

3. Determine best method of feeding to fit situation and obtain bids if not done prior to incident (coordinate with Procurement Unit).

4. Determine location of working assignment.

5. Ensure sufficient potable water and beverages for all incident personnel.

6. Coordinate transportation of food and drinks to the scene with Ground Support and Operations Section Chief.

7. Ensure that appropriate health and safety measures are taken and coordinate activity with Safety Officer.

8. Supervise administration of food service agreement, if applicable.

9. Provide copies of receipts, bills to Finance/Administration Section.

10. Let Supply Unit know when food orders are complete.

11. Provide briefing to relief on current activities and unusual situations.

12. Document all activity on Unit Log (ICS Form 214).

THIS PAGE LEFT BLANK INTENTIONALLY

Ground Support Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Logistics Section Chief or Support Branch Director:
 - Fueling needs of apparatus on incident.
 - Transportation needed for responders.
 - Location of Supply Unit receiving and distribution point(s).
 - Incident transportation maps and restrictions on transportation routes.
 - Need for vehicle repair services, and policy toward repair and fueling of mutual aid and rental equipment.

2. Staff Unit by the above considerations, as indicated.

3. Consider the need to use agency pool vehicles or rental vehicles to augment transportation resources.

4. Support out-of-service resources according to agreement for mutual aid and rental equipment.

5. Notify Resources Unit of all changes on support and transportation vehicles.

6. Arrange for and activate towing, fueling, maintenance, and repair services.

7. Maintain fuel, parts, and service use records and cost summaries. Forward to Finance/Administration Section.

8. Maintain inventory of support and transportation vehicles.

Ground Support Unit Leader Position Checklist

9. Provide transportation services:

- Review Incident Action Plan (IAP) for transportation requirements.
- Review inventory for needed resources.
- Request additional resources through Supply Unit. Give type, time needed, and reporting location.
- Schedule use of support vehicles.
- Document mileage, fuel consumption, and other costs.

10. Implement Transportation Plan:

- Determine time-lines.
- Identify types of services required.
- Assign resources required to implement Transportation Plan.

11. Ensure that the condition of rental equipment is documented prior to use and coordinate with Procurement Unit Leader.

12. Document all activity on Unit Log (ICS Form 214).

Incident Commander Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Ensure welfare and safety of incident personnel.

2. Supervise Command and General Staff.

3. Obtain initial briefing from current Incident Commander and agency administrator.

4. Assess incident situation:

- Review the current situation status and initial incident objectives. Ensure that all local, State and Federal agencies impacted by the incident have been notified.

5. Determine need for, establish, and participate in Unified Command.

6. Authorize protective action statements, as necessary.

7. Activate appropriate Command and General Staff positions. Safety Officer must be appointed on hazardous materials incidents:

- Confirm dispatch and arrival times of activated resources.
- Confirm work assignments.

8. Brief staff:

- Identify incident objectives and any policy directives for the management of the incident.
- Provide a summary of current organization.
- Provide a review of current incident activities.
- Determine the time and location of first Planning Meeting.

9. Determine information needs and inform staff of requirements.

10. Determine status of disaster declaration and delegation of authority.

Incident Commander Position Checklist

11. Establish parameters for resource requests and releases:

- Review requests for critical resources.
- Confirm who has ordering authority within the organization.
- Confirm those orders that require Command authorization.

12. Authorize release of information to the media:

- If operating within a Unified Command, ensure all Incident Commanders approve release.

13. Establish level of planning to be accomplished:

- Written Incident Action Plan (IAP).
- Contingency planning.
- Formal Planning Meeting.

14. Ensure Planning Meetings are conducted as indicated:

Sample Planning Meeting Agenda

	Agenda Item	Responsible Party
1	Briefing on situation/resource status.	Planning/Operations Section Chiefs
2	Discuss safety issues.	Safety Officer
3	Set/confirm incident objectives.	Incident Commander
4	Plot control lines & Division boundaries.	Operations Section Chief
5	Specify tactics for each Division/Group.	Operations Section Chief
6	Specify resources needed for each Division/Group.	Operations/Planning Section Chiefs
7	Specify facilities and reporting locations.	Operations/Planning/Logistics Section Chiefs
8	Develop resource order.	Logistics Section Chief
9	Consider communications/medical/transportation plans.	Logistics/Planning Section Chiefs
10	Provide financial update.	Finance/Administration Section Chief
11	Discuss interagency liaison issues.	Liaison Officer
12	Discuss information issues.	Public Information Officer
13	Finalize/approve/implement plan.	Incident Commander/All

Incident Commander Position Checklist

15. Approve and authorize implementation of the IAP:

- Review IAP for completeness and accuracy.
- Verify that objectives are incorporated and prioritized.
- Sign ICS Form 202.

16. Ensure Command and General Staff coordination:

- Periodically check progress on assigned tasks of Command and General Staff personnel.
- Approve necessary changes to strategic goals and IAP.
- Ensure that Liaison Officer is making periodic contact with participating agencies.

17. Work with agency staff to declare state of emergency according to agency protocol.

18. Keep agency administrator informed on incident-related problems and progress.

THIS PAGE LEFT BLANK INTENTIONALLY

Liaison Officer Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Incident Commander:

- Obtain summary of incident organization (ICS Forms 201 and 203).
- Determine companies/agencies/non-governmental organizations already involved in the incident, and whether they are assisting (have tactical equipment and/or personnel assigned to the organization), or cooperating (operating in a support mode "outside" the organization).

2. Obtain cooperating and assisting agency information, including:

- Contact person(s).
- Radio frequencies.
- Phone numbers.
- Cooperative agreements.
- Resource type.
- Number of personnel.
- Condition of personnel and equipment.
- Agency constraints/limitations.

3. Establish workspace for Liaison function and notify agency representatives of location.

4. Contact and brief assisting/cooperating agency representatives and mutual aid cooperators.

5. Interview agency representatives concerning resources and capabilities, and restrictions on use-provide this information at planning meetings.

6. Work with Public Information Officer and Incident Commander to coordinate media releases associated with inter-governmental cooperation issues.

Liaison Officer Position Checklist

7. Monitor incident operations to identify potential inter-organizational problems. Keep Command apprised of such issues:

- Bring complaints pertaining to logistical problems, inadequate communications, and strategic and tactical direction to the attention of Incident Management Team (IMT).

8. Participate in Planning Meetings:

Sample Planning Meeting Agenda

Agenda Item	Responsible Party
1 Briefing on situation/resource status.	Planning/Operations Section Chiefs
2 Discuss safety issues.	Safety Officer
3 Set/confirm incident objectives.	Incident Commander
4 Plot control lines & Division boundaries.	Operations Section Chief
5 Specify tactics for each Division/Group.	Operations Section Chief
6 Specify resources needed for each Division/Group.	Operations/Planning Section Chiefs
7 Specify facilities and reporting locations.	Operations/Planning/Logistics Section Chiefs
8 Develop resource order.	Logistics Section Chief
9 Consider communications/medical/transportation plans.	Logistics/Planning Section Chiefs
10 Provide financial update.	Finance/Administration Section Chief
11 Discuss interagency liaison issues.	Liaison Officer
12 Discuss information issues.	Public Information Officer
13 Finalize/approve/implement plan.	Incident Commander/All

9. Document all activity on Unit Log (ICS Form 214).

Logistics Section Chief Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident. Tasks may be delegated to the appropriate Branch Director or Unit Leader.

Task

1. Obtain briefing from Incident Commander:

- Review situation and resource status for number of personnel assigned to incident.
- Review current organization.
- Determine which incident facilities have been/should be activated.

2. Ensure Incident Command Post and other incident facilities are physically activated, as appropriate.

3. Confirm resource ordering process.

4. Assess adequacy of current Incident Communications Plan (ICS Form 205).

5. Organize and staff Logistics Section, as appropriate, and consider the need for facility security, and Communication and Supply Units.

6. Assemble, brief, and assign work locations and preliminary work tasks to Section personnel:

- Provide summary of emergency situation.
- Provide summary of the kind and extent of Logistics support the Section may be asked to provide.

7. Notify Resources Unit of other Units activated, including names and location of assigned personnel.

Logistics Section Chief Position Checklist

8. Attend Planning Meetings:

Sample Planning Meeting Agenda

Agenda Item	Responsible Party
1 Briefing on situation/resource status.	Planning/Operations Section Chiefs
2 Discuss safety issues.	Safety Officer
3 Set/confirm incident objectives.	Incident Commander
4 Plot control lines & Division boundaries.	Operations Section Chief
5 Specify tactics for each Division/Group.	Operations Section Chief
6 Specify resources needed for each Division/Group.	Operations/Planning Section Chiefs
7 Specify facilities and reporting locations.	Operations/Planning/Logistics Section Chiefs
8 Develop resource order.	Logistics Section Chief
9 Consider communications/medical/transportation plans.	Logistics/Planning Section Chiefs
10 Provide financial update.	Finance/Administration Section Chief
11 Discuss interagency liaison issues.	Liaison Officer
12 Discuss information issues.	Public Information Officer
13 Finalize/approve/implement plan.	Incident Commander/All

9. Participate in preparation of Incident Action Plan (IAP):

- Provide input on resource availability, support needs, identified shortages, and response time-lines for key resources.
- Identify future operational needs (both current and contingency), in order to anticipate logistical requirements.
- Ensure Incident Communications Plan (ICS Form 205) is prepared.
- Ensure Medical Plan (ICS Form 206) is prepared.
- Assist in the preparation of Transportation Plan.

10. Review IAP and estimate section needs for next operational period; order relief personnel if necessary.

11. Research availability of additional resources.

12. Hold Section meetings, as necessary, to ensure communication and coordination among Logistics Branches and Units.

13. Ensure coordination between Logistics and other Command and General Staff.

14. Ensure general welfare and safety of Section personnel.

Logistics Section Chief Position Checklist

15. Provide briefing to relief on current activities and unusual situations.

16. Ensure that all personnel observe established level of operational security.

17. Ensure all Logistics functions are documenting actions on Unit Log (ICS Form 214).

18. Submit all Section documentation to Documentation Unit.

THIS PAGE LEFT BLANK INTENTIONALLY

Medical Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Service Branch Director or Logistics Section Chief:

- Obtain information on any injuries that occurred during initial response operations.
- Name and location of Safety Officer.

2. Determine level of emergency medical activities performed prior to activation of Medical Unit:

- Number and location of aid stations.
- Number and location of stand-by ambulances, helicopters, and medical personnel to assign to the incident.
- Potential for special medical problems, i.e., hypothermia, dehydration, heat stroke, exposure to hazardous materials, etc.
- Medical supplies needed.

3. Respond to requests for medical treatment and transportation.

4. Request/supervise ambulance support. Order through established Incident chain of command.

5. Prepare the Medical Plan (ICS Form 206), including procedures for major medical emergency. **This plan should be coordinated with the medical organization within the Operations Section.** Plan should include:

- Medical Assembly Area.
- Triage Area.
- Ambulance Traffic Route.
- Landing Zone for Life flight (incident and hospital).
- Aid Station Location(s).
- Hazard specific information (HAZMAT treatment, etc.).
- Closest hospitals.
- Consideration should be given to separate treatment areas for responders and victims, as well as sending all responders to a single hospital.

Medical Unit Leader Position Checklist

- 6. Obtain Safety Officer approval for Medical Plan.
- 7. Coordinate Medical Plan with local hospitals.
- 8. Respond to requests for medical aid.
- 9. Notify Safety Officer and Logistics Section Chief of all accidents and injuries.
- 10. Respond to requests for medical supplies.
- 11. Prepare medical reports; provide copies to Documentation Unit.
- 12. Submit reports as directed; provide copies to Documentation Unit Leader.
- 13. Provide briefing to relief on current activities and unusual circumstances.
- 14. Document all activity on Unit Log (ICS Form 214).

Operations Branch Director Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Operations Section Chief or Incident Commander:
 - Determine resources assigned to the Branch, current location, and activities.
 - Review assignments for Divisions and/or Groups within Branch and modify based on effectiveness of current operations.
 - If modification requires re-assignment or changes of status of resources, provide resource information to the Operations Section Chief or Incident Commander.
 - Determine general organizational structure, including identification of other Branches, Divisions, and Groups operating on the incident.

2. Attend Operations Briefing.

3. Develop tactical assignments, with subordinates, for Branch control operations.

4. Assign specific work tasks to Division/Group Supervisors.

5. Resolve logistical problems reported by subordinates:
 - Monitor radio transmissions and cell phone use to assess communications needs.
 - Ensure resources receive adequate food, liquids, and rehabilitation.
 - Request additional resources through approved ordering channels.

6. Report to Operations Section Chief whenever:
 - Incident Action Plan (IAP) is to be modified.
 - Additional resources are needed.
 - Surplus resources are available.
 - Hazardous situations or significant events occur.

7. Coordinate activities with other Branch Directors.

Operations Branch Director Position Checklist

8. Attend Planning Meetings at the request of the Operations Section Chief.

9. Debrief on shift activities, prior to leaving shift, with Operations Section Chief and Planning Section Chief or Situation Unit Leader.

10. Ensure Branch fiscal record-keeping.

11. Document all activity on Unit Log (ICS Form 214).

Operations Section Chief Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Incident Commander:

- Determine incident objectives and recommended strategies.
- Determine status of current tactical assignments.
- Identify current organization, location of resources, and assignments.
- Confirm resource ordering process.
- Determine location of current Staging Areas and resources assigned there.

2. Organize Operations Section to ensure operational efficiency, personnel safety and adequate span of control.

3. Establish operational period.

4. Establish and demobilize Staging Areas.

5. Attend Operations Briefing and assign Operations personnel in accordance with Incident Action Plan (IAP):

- Brief Staging Area Manager on types and numbers of resources to be maintained in Staging.
- Brief tactical elements (Branches, Divisions/Groups, Task Force/Strike-Team Leaders) on assignments, ordering process, protective equipment, and tactical assignments.

6. Develop and manage tactical operations to meet incident objectives.

Operations Section Chief Position Checklist

7. Assess life safety:

- Adjust perimeters, as necessary, to ensure scene security.
- Evaluate and enforce use of appropriate protective clothing and equipment.
- Implement and enforce appropriate safety precautions.

8. Evaluate situation and provide update to Planning Section:

- Location, status, and assignment of resources.
- Effectiveness of tactics.
- Desired contingency plans.

9. Determine need and request additional resources.

10. Notify Resources Unit of Section Branches, Divisions/Groups, Strike Teams/Task Forces, and single resources which are staffed, including location of resources and names of leaders.

11. Keep Resources Unit up to date on changes in resource status.

12. Write formal Operations portion of IAP with the Planning Section Chief, if so directed by the Incident Commander:

- Identify assignments by Division or Group.
- Identify specific tactical assignments.
- Identify resources needed to accomplish assignments.

Operations Section Chief Position Checklist

13. Ensure coordination of the Operations Section with other Command and General Staff:

- Ensure Operations Section time-keeping, activity logs, and equipment use documents are maintained and passed to Planning, Logistics, and Finance/Administration Sections, as appropriate.
- Ensure resource ordering and logistical support needs are passed to Logistics in a timely fashion-enforce ordering process.
- Notify Logistics of communications problems.
- Keep Planning up-to-date on resource and situation status.
- Notify Liaison Officer of issues concerning cooperating and assisting agency resources.
- Keep Safety Officer involved in tactical decision-making.
- Keep Incident Commander apprised of status of operational efforts.
- Coordinate media field visits with the Public Information Officer.

14. Attend the Tactics Meeting with Planning Section Chief, Safety Officer, and Incident Commander prior to the Planning Meeting to review strategy, discuss tactics, and outline organization assignments.

15. Attend Planning Meetings:

Sample Planning Meeting Agenda

Agenda Item	Responsible Party
1 Briefing on situation/resource status.	Planning/Operations Section Chiefs
2 Discuss safety issues.	Safety Officer
3 Set/confirm incident objectives.	Incident Commander
4 Plot control lines & Division boundaries.	Operations Section Chief
5 Specify tactics for each Division/Group.	Operations Section Chief
6 Specify resources needed for each Division/Group.	Operations/Planning Section Chiefs
7 Specify facilities and reporting locations.	Operations/Planning/Logistics Section Chiefs
8 Develop resource order.	Logistics Section Chief
9 Consider communications/medical/transportation plans.	Logistics/Planning Section Chiefs
10 Provide financial update.	Finance/Administration Section Chief
11 Discuss interagency liaison issues.	Liaison Officer
12 Discuss information issues.	Public Information Officer
13 Finalize/approve/implement plan.	Incident Commander/All

16. Hold Section meetings, as necessary, to ensure communication and coordination among Operations Branches, Divisions, and Groups.

THIS PAGE LEFT BLANK INTENTIONALLY

Planning Section Chief Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident. Tasks may be delegated to the appropriate Unit Leader

Task

1. Obtain briefing from Incident Commander:

- Determine current resource status (ICS Form 201).
- Determine current situation status/intelligence (ICS Form 201).
- Determine current incident objectives and strategy.
- Determine whether Incident Commander requires a written Incident Action Plan (IAP).
- Determine time and location of first Planning Meeting.
- Determine desired contingency plans.

2. Activate Planning Section positions, as necessary, and notify Resources Unit of positions activated.

3. Establish and maintain resource tracking system.

4. Complete ICS Form 201, if not previously completed, and provide copies to Command, Command Staff, and General Staff.

5. Advise Incident Command Post (ICP) staff of any significant changes in incident status.

6. Compile and display incident status summary information. Document on ICS Form 209, Incident Status Summary (or other approved agency forms):

- Forward incident status summaries to Agency Administrator and/or other designated staff once per operational period, or as required.
- Provide copy to Public Information Officer.

7. Obtain/develop incident maps.

8. Establish information requirements and reporting schedules for ICP and field staff.

Planning Section Chief Position Checklist

9. Prepare contingency plans:

- Review current and projected incident and resource status.
- Develop alternative strategies.
- Identify resources required to implement contingency plan.
- Document alternatives for presentation to Incident Commander and Operations, and for inclusion in the written IAP.

10. Meet with Operations Section Chief and/or Command, prior to Planning Meetings, to discuss proposed strategy and tactics and diagram incident organization and resource location.

11. Conduct Planning Meetings according to following agenda:

Sample Planning Meeting Agenda

Agenda Item	Responsible Party
1 Briefing on situation/resource status.	Planning/Operations Section Chiefs
2 Discuss safety issues.	Safety Officer
3 Set/confirm incident objectives.	Incident Commander
4 Plot control lines & Division boundaries.	Operations Section Chief
5 Specify tactics for each Division/Group.	Operations Section Chief
6 Specify resources needed for each Division/Group.	Operations/Planning Section Chiefs
7 Specify facilities and reporting locations.	Operations/Planning/Logistics Section Chiefs
8 Develop resource order.	Logistics Section Chief
9 Consider communications/medical/transportation plans.	Logistics/Planning Section Chiefs
10 Provide financial update.	Finance/Administration Section Chief
11 Discuss interagency liaison issues.	Liaison Officer
12 Discuss information issues.	Public Information Officer
13 Finalize/approve/implement plan.	Incident Commander/All

12. Supervise preparation and distribution of the written IAP, if indicated. Minimum distribution is to all Command, Command Staff, General Staff, and Operations personnel to the Division/Group Supervisor level:

- Establish information requirements and reporting schedules for use in preparing the IAP.
- Ensure that detailed contingency plan information is available for consideration by Operations and Command.
- Verify that all support and resource needs are coordinated with Logistics Section prior to release of the IAP.

Planning Section Chief Position Checklist

- Include fiscal documentation forms in written IAP as requested by the Finance/Administration Section.
- Coordinate IAP changes with General Staff personnel and distribute written changes, as appropriate.

13. Coordinate development of Incident Traffic Plan with Operations and the Ground Support Unit Leader.

14. Coordinate preparation of the Safety Message with Safety Officer.

15. Coordinate preparation of the Incident Communications Plan and Medical Plan with Logistics.

16. Instruct Planning Section Units in distribution of incident information.

17. Provide periodic predictions on incident potential.

18. Establish a weather data collection system, when necessary.

19. Identify need for specialized resources; discuss need with Operations and Command; facilitate resource requests with Logistics.

20. Ensure Section has adequate coverage and relief.

21. Hold Section meetings as necessary to ensure communication and coordination among Planning Section Units.

22. Ensure preparation of demobilization plan, if appropriate.

23. Ensure preparation of final incident package and route to Agency Administrator for archiving or follow-up after Incident Management Team (IMT) demobilization.

24. Provide briefing to relief on current and unusual situations.

25. Ensure that all staff observe established level of operational security.

26. Ensure all Planning functions are documenting actions on Unit Log (ICS Form 214).

27. Submit all Section documentation to Documentation Unit.

THIS PAGE LEFT BLANK INTENTIONALLY

Procurement Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Finance/Administration Section Chief:

- Determine charge code, and delegation of authority to commit agency funds. If the agency cannot delegate procurement authority to the Procurement Unit Leader, they will need to assign one of their procurement people to the incident.
- Determine whether a buying team has been assigned to purchase all equipment, supplies, etc. for the incident. The Procurement Unit Leader will coordinate closely with this group.
- Determine status of bid process.
- Determine current vendor list.
- Determine current blanket Purchase Order (PO) list.
- Determine time-lines established for reporting cost information.

2. Contact Supply Unit on incident needs and any special procedures or requirements.

3. Prepare and sign offers for rental, as necessary.

4. Develop Incident Procurement Plan. This plan should address/include:

- Spending caps.
- Necessary Forms.
- Identify who has purchasing authority.
- Process for obtaining approval to exceed caps.
- Coordination process with Supply Unit.
- Supply of emergency purchase orders.

Procurement Unit Leader Position Checklist

- 5. Review equipment rental agreement and use statements for terms and conditions of use within 24 hours after equipment arrival at incident. Provide hourly rates and associated costs to Cost Unit.
- 6. Prepare and sign contracts, land-use agreements, and cost-share agreements, as necessary.
- 7. Draft Memorandums of Understanding as needed (obtain legal review and Incident Commander's signature prior to implementation).
- 8. Establish contact with supply vendors, as needed.
- 9. Determine whether additional vendor-service agreements will be necessary.
- 10. Interpret contracts/agreements, and resolve claims or disputes within delegated authority.
- 11. Provide cost data from rental agreements, contracts, etc. to Cost Unit Leader according to reporting time frames established for operational period.
- 12. Verify all invoices.
- 13. It is imperative that all contractors are accounted for and their time documented:
 - Coordinate with all Sections.
 - It may be helpful to hire one person (or more) to simply travel the incident and document everything they see being used.
 - Ensure that all equipment rental documents and inspections are complete (coordinate inspection information with Ground Support Unit and/or Operations) before signing.
- 14. Complete final processing and send documents for payment.
- 15. Maintain final incident receiving documents:
 - Obtain copies of all vendor invoices.
 - Verify that all equipment time records are complete.
 - Maintain comprehensive audit trail for all procurement documents.
 - Check completeness of all data entries on vendor invoices.
 - Compare invoices against procurement documents.
 - Assure that only authorized personnel initiate orders.

Procurement Unit Leader Position Checklist

16. Provide briefing to relief on current activities and unusual events.

17. Document all activity on Unit Log (ICS Form 214).

THIS PAGE LEFT BLANK INTENTIONALLY

Public Information Officer Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Incident Commander:

- Determine current status of Incident (ICS Form 209 or equivalent).
- Identify current organization (ICS Forms 201 and 203, resource lists, etc.).
- Determine point of contact for media (scene or Command Post).
- Determine current media presence.

2. Participate in Administrative Officer's briefing:

- Determine constraints on information process.
- Determine pre-existing agreements for information centers, Joint Information Centers (JICs), etc.

3. Assess need for special alert and warning efforts, including the hearing impaired, non-English speaking populations, and industries especially at risk for a specific hazard, or which may need advance notice in order to shut down processes.

4. Coordinate the development of door-to-door protective action statements with Operations.

5. Prepare initial information summary as soon as possible after activation. If no other information is available, consider the use of the following general statement:

Sample Initial Information Summary

We are aware that an *[accident/incident]* involving *[type of incident]* occurred at approximately *[time]*, in the vicinity of *[general location]*. *[Agency personnel]* are responding, and we will have additional information available as we are able to confirm it. We will hold a briefing at *[location]*, and will notify the press at least ½ hour prior to the briefing. At this time, this briefing is the only place where officials authorized to speak about the incident and confirmed information will be available. Thank you for your assistance.

Public Information Officer Position Checklist

- 6. Arrange for necessary work space, materials, telephones, and staff. Consider assigning Assistant Public Information Officers to:
 - Joint Information Center (JIC).
 - Field (scene) Information.
 - Internal Information.
- 7. Establish contact with local and national media representatives, as appropriate.
- 8. Establish location of Information Center for media and public away from Command Post.
- 9. Establish schedule for news briefings.
- 10. Coordinate, with Logistics, the activation and staffing of message center "rumor control" lines to receive requests and answer questions from the public. Provide statement to operators.
- 11. Obtain current incident status reports from Planning Section; coordinate a schedule for updates.
- 12. Observe constraints on the release of information imposed by the Incident Commander and according to agency guidance.
- 13. Obtain approval for information release from Incident Commander:
 - Confirm details to ensure no conflicting information is released.
 - Identify site and time for press briefings, and confirm participation by other Incident Management Team (IMT) members.
- 14. Release news to media, and post information in Command Post and other appropriate locations.
- 15. Record all interviews and copy all news releases:
 - Contact media to correct erroneous or misleading information being provided to the public via the media.

Public Information Officer Position Checklist

16. Update off-incident agency personnel on a regular basis:

- Utilize electronic mail for agency updates.
- Establish phone line in the Command Post dedicated to internal communications to update agency personnel.
- Provide standard statement which can be given to general requests for information.

17. Coordinate information releases with information staff from other impacted agencies and jurisdictions:

- Ensure that information provided to the public is consistent across jurisdictional boundaries, when appropriate.

18. Attend Planning Meetings:

Sample Planning Meeting Agenda

Agenda Item	Responsible Party
1 Briefing on situation/resource status.	Planning/Operations Section Chiefs
2 Discuss safety issues.	Safety Officer
3 Set/confirm incident objectives.	Incident Commander
4 Plot control lines & Division boundaries.	Operations Section Chief
5 Specify tactics for each Division/Group.	Operations Section Chief
6 Specify resources needed for each Division/Group.	Operations/Planning Section Chiefs
7 Specify facilities and reporting locations.	Operations/Planning/Logistics Section Chiefs
8 Develop resource order.	Logistics Section Chief
9 Consider communications/medical/transportation plans.	Logistics/Planning Section Chiefs
10 Provide financial update.	Finance/Administration Section Chief
11 Discuss interagency liaison issues.	Liaison Officer
12 Discuss information issues.	Public Information Officer
13 Finalize/approve/implement plan.	Incident Commander/All

19. Respond to special requests for information.

20. Provide all news releases, bulletins, and summaries to Documentation Unit to be included in the final incident package.

21. Confirm the process for the release of information concerning incident-related injuries or deaths.

22. Document all activity on Unit Log (ICS Form 214).

THIS PAGE LEFT BLANK INTENTIONALLY

Resources Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Planning Section Chief.

2. Organize, staff, and supervise Unit, as appropriate, and provide for adequate relief.

3. Establish check-in function at incident locations (ICS Form 211).

4. Establish contact with incident information sources such as Staging Area Manager, Operations Section Chief, and initial Incident Commander to determine what resources have been assigned to the incident, their status, and location.

5. Compile, maintain, and display resource status information on: 1) all tactical and support personnel and apparatus (including agency-owned, mutual aid, or hired), and 2) transportation and support vehicles:

- Review ICS Form 201 for resource information.
- Review Check-In List (ICS Form 211).
- Confirm resources assigned to Staging.
- Confirm resources assigned to tactical Operations organization.
- Confirm resources assigned to other Command and General Staff functions.

6. Establish and maintain resource tracking system.

7. Maintain master roster of all resources at the incident:

- Total number of personnel assigned to the incident.
- Total number of resources assigned to each Section and/or Unit.
- Total number of specific equipment/apparatus types.

Resources Unit Leader Position Checklist

8. Assist in preparation of the Incident Action Plan (IAP):

- Prepare Organization Chart (ICS Form 207) and post in each room of the Incident Command Post (ICP).
- Assist in preparing the Organizational Planning Worksheet (ICS Form 215).
- Prepare Organization Assignment List (ICS Form 203).
- Prepare Division/Group Assignment Sheets (ICS Form 204).

9. Participate in Planning Meetings, as assigned.

10. Provide briefing to relief on current and unusual situations.

11. Assist in identification of additional and special resources:

- Other disciplines.
- Technical Specialists.
- Resources needed to implement contingency plans.

12. Document all activity on Unit Log (ICS Form 214).

Safety Officer Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Incident Commander and/or from initial on-scene Safety Officer.

2. Identify hazardous situations associated with the incident. Ensure adequate levels of protective equipment are available, and being used.

3. Staff and organize function, as appropriate:

- In multi-discipline incidents, consider the use of an Assistant Safety Officer from each discipline.
- Multiple high-risk operations may require an Assistant Safety Officer at each site.
- Request additional staff through incident chain of command.

4. Identify potentially unsafe acts.

5. Identify corrective actions and ensure implementation. Coordinate corrective action with Command and Operations.

6. Ensure adequate sanitation and safety in food preparation.

7. Debrief Assistant Safety Officers prior to Planning Meetings.

8. Prepare Incident Action Plan Safety and Risk Analysis (USDA ICS Form 215A).

9. Participate in Planning and Tactics Meetings:

- Listen to tactical options being considered. If potentially unsafe, assist in identifying options, protective actions, or alternate tactics.
- Discuss accidents/injuries to date. Make recommendations on preventative or corrective actions.

10. Attend Planning meetings:

Safety Officer Position Checklist

Sample Planning Meeting Agenda

Agenda Item	Responsible Party
1 Briefing on situation/resource status.	Planning/Operations Section Chiefs
2 Discuss safety issues.	Safety Officer
3 Set/confirm incident objectives.	Incident Commander
4 Plot control lines & Division boundaries.	Operations Section Chief
5 Specify tactics for each Division/Group.	Operations Section Chief
6 Specify resources needed for each Division/Group.	Operations/Planning Section Chiefs
7 Specify facilities and reporting locations.	Operations/Planning/Logistics Section Chiefs
8 Develop resource order.	Logistics Section Chief
9 Consider communications/medical/transportation plans.	Logistics/Planning Section Chiefs
10 Provide financial update.	Finance/Administration Section Chief
11 Discuss interagency liaison issues.	Liaison Officer
12 Discuss information issues.	Public Information Officer
13 Finalize/approve/implement plan.	Incident Commander/All

11. Participate in the development of Incident Action Plan (IAP):

- Review and approve Medical Plan (ICS Form 206).
- Provide Safety Message (ICS Form 202) and/or approved document.
- Assist in the development of the "Special Instructions" block of ICS Form 204, as requested by the Planning Section.

12. Investigate accidents that have occurred within incident areas:

- Ensure accident scene is preserved for investigation.
- Ensure accident is properly documented.
- Coordinate with incident Compensation and Claims Unit Leader, agency Risk Manager, and Occupational Safety and Health Administration (OSHA).
- Prepare accident report as per agency policy, procedures, and direction.
- Recommend corrective actions to Incident Commander and agency.

13. Coordinate critical incident stress, hazardous materials, and other debriefings, as necessary.

14. Document all activity on Unit Log (ICS Form 214).

Service Branch Director Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Logistics Section Chief:

- Determine number of personnel to be fed.
- Determine communications systems in use.
- Determine medical support needs of the incident.
- Confirm personnel already requested for Branch.

2. Assemble, brief, and assign work locations and preliminary work tasks to Branch personnel:

- Provide summary of emergency situation.
- Provide summary of the communications, food, and medical needs of the incident.

3. Ensure establishment of effective Incident Communications Plan (ICS Form 205).

4. Ensure that incident personnel receive adequate food and water.

5. Coordinate with Operations to ensure adequate medical support to incident personnel.

6. Participate in organizational meetings of Logistics Section personnel.

7. Coordinate activities of Branch Units.

8. Keep Logistics Section Chief apprised of Branch Activities.

9. Document all activity on Unit Log (ICS Form 214).

THIS PAGE LEFT BLANK INTENTIONALLY

Situation Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Planning Section Chief.

- Review ICS Form 201 for incident status.
- Determine incident objectives and strategy.
- Determine necessary contingency plans.
- Identify reporting requirements and schedules-both internal and external to the incident.

2. Organize and staff Unit, as appropriate:

- Assign Field Observers.
- Request Technical Specialists, as needed.

3. Supervise Technical Specialists as assigned (on very complex incidents, it may be necessary to assign a supervisor to oversee Technical Specialists):

- Brief Technical Specialists on current incident status.
- Assign analysis tasks.
- Notify staff of time lines and format requirements.
- Monitor progress.

Situation Unit Leader Position Checklist

4. Compile, maintain and display incident status information for Incident Command Post (ICP) staff:

- Sort data into required categories of information (i.e. geographic area, population, facilities, environmental values at risk, location of facilities, etc.).
- Determine appropriate map displays.
- Review all data for completeness, accuracy, and relevancy prior to posting.
- Plot incident boundaries, location of perimeters, facilities, access routes, etc. on display maps in Planning area.
- Develop additional displays (weather reports, incident status summaries, etc.), as necessary.
- Ensure displays and maps are kept up to date.

5. Provide photographic services and maps:

- Photographic services may be used to document operations and intelligence activities, public information activities, and accident investigations.
- Issue disposable or digital cameras to Field Observers and Operations personnel as appropriate.
- Ensure photographs are processed at the end of each operational period.
- Request or develop additional and specialized maps as required.
- Provide Incident Map(s) for Incident Action Plan (IAP).

6. Provide situation evaluation, prediction and analysis for Command and Operations; prepare information on alternative strategies:

- Review current and projected incident and resource status.
- Develop alternative strategies.
- Identify resources required to implement contingency plan.
- Document alternatives for presentation to Incident Commander and Operations and inclusion in the written IAP, using the ICS Form 204, Contingency Plan.

7. Interview Operations personnel coming off duty to determine effectiveness of strategy and tactics, work accomplished and left to be accomplished.

Situation Unit Leader Position Checklist

8. Request weather forecasts and spot weather forecasts, as necessary, directly from the National Weather Service.

9. Prepare Incident Status Summary (ICS Form 209) and other status reports, as assigned prior to each Planning Meeting:

- Provide copies to Command and General Staff.
- Forward to agency administrator and to other entities, as directed.

10. Participate in Planning Meetings, as required.

11. Prepare predictions at periodic intervals, or upon request of the Planning Section Chief. Notify Command and General Staff if unforeseen changes occur.

12. Provide briefing to relief on current and unusual situations.

13. Document all activity on Unit Log (ICS Form 214).

THIS PAGE LEFT BLANK INTENTIONALLY

Staging Area Manager Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain a briefing from Incident Commander or Operations Section Chief:
 - Determine types and numbers of resources to be maintained in Staging.
 - Confirm process for requesting additional resources for Staging.
 - Confirm process for reporting status changes.

2. Proceed to Staging Area; establish Staging Area layout (apparatus and vehicles in Staging should face outward to ensure quick response, general principle of "first in, first out" should be maintained).

3. Ensure efficient check-in and coordinate process with Planning Section Resources Unit Leader.

4. Identify and track resources assigned to staging; report resource status changes to Operations or Command and Resources Unit.

5. Determine any support needs for equipment, feeding, sanitation and security; request through Logistics.

6. Post areas for identification and traffic control.

7. Respond to requests for resources:
 - Organize Task Forces or Strike Teams, as necessary.

8. Request additional tactical resources for Staging through Logistics, according to established staffing levels.

9. Obtain and issue receipts for radio equipment and other supplies distributed and received at the Staging Area.

10. Maintain Staging Area in orderly condition.

11. Demobilize Staging Area in accordance with instructions.

12. Document all activity on Unit Log (ICS Form 214).

THIS PAGE LEFT BLANK INTENTIONALLY

Supply Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Logistics Section Chief or Support Branch Director:

- Determine charge code for incident.
- Confirm ordering process.
- Assess need for 24-hour staffing.
- Determine scope of supply process.

2. Organize and staff Unit, as appropriate:

- Consider need for "lead agency" representation in ordering process.
- Consider dividing ordering responsibilities either by discipline or by category (equipment, personnel, supplies).

3. Determine ordering parameters, authorities and restrictions. Ensure that Unit staff observes ordering system and chain of command for ordering:

- Establish clearly defined time when the Supply Unit will assume responsibility for all ordering. This will require close coordination with Operations and Planning staff.
- Confirm process for coordinating contract related activities with the Procurement Unit.
- Confirm process for emergency purchase orders with Finance Section.

4. Determine type and amount of supplies and equipment on hand and en route:

- Contact Resources Unit to determine resources on order.

Supply Unit Leader Position Checklist

5. Receive resource orders from authorized incident staff. Document on Resource Order Form (ICS Form 208):
- Determine qualifying specifications (size, extra equipment, personnel protective equipment, qualifications, etc.).
 - Desired delivery time and location, person ordering, and person to whom the resource should report or be delivered.
 - Obtain estimated price for resources which expect reimbursement.
 - Coordinate delivery of rented equipment to Ground Support Unit for inspection before use.

6. Arrange to receive ordered supplies and equipment. Work with Facilities Unit to identify and activate appropriate facilities for supply storage.

7. Order, receive, distribute, and store supplies and equipment:
- Obtain resource name, number, identifiers, etc., along with Estimated Times of Arrival (ETA's).
 - Relay this information to appropriate staff.

8. Advise affected Unit or Section of changes in arrival times of requested resources. Advise immediately if order cannot be filled.

9. Alert Section Chief to changes in resource availability which may affect incident operations.

10. Develop and implement safety and security requirements for supply areas.

11. Review Incident Action Plan (IAP) for information affecting Supply Unit.

12. Maintain inventory of supplies and equipment.

13. Service re-usable equipment.

14. Keep and submit copies of all orders and related documentation to the Documentation Unit.

15. Provide briefing to relief on status of outstanding orders, current activities, and unusual situations.

16. Document all activity on Unit Log (ICS Form 214).

Support Branch Director Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Logistics Section Chief:

- Determine facilities activated in support of the incident.
- Determine ground support and transportation needs.
- Determine resource ordering process.
- Confirm personnel already requested for Branch.

2. Confirm resource ordering process and who is authorized to order with Command and Logistics Section Chief.

3. Confirm facilities in use and determine the potential for additional facilities.

4. Determine need for fuel delivery and vehicle support.

5. Determine whether or not mutual aid and contract equipment are in use. Confirm method of inspection.

6. Staff Branch appropriately.

7. Assemble, brief, and assign work locations and preliminary work tasks to Branch personnel:

- Provide summary of emergency situation.
- Provide summary of the facility, supply, and ground support needs of the incident.

8. Participate in organizational meetings of Logistics Section personnel.

9. Coordinate activities of Branch Units.

10. Keep Logistics Section Chief apprised of Branch Activities.

11. Document all activity on Unit Log (ICS Form 214).

THIS PAGE LEFT BLANK INTENTIONALLY

Time Unit Leader Position Checklist

The following checklist should be considered as the minimum requirements for this position. Note that some of the tasks are one-time actions; others are ongoing or repetitive for the duration of the incident.

Task

1. Obtain briefing from Finance/Administration Section Chief:

- Determine incident requirements for time recording.
- Determine required time-lines for reports.
- Determine location of timekeeping activity.
- Determine number of personnel and rental equipment for which time will be kept.

2. Organize and staff Unit, as appropriate.

3. Advise Ground Support Unit, Air Support Group (if applicable), Facilities Unit (and other users of equipment) of the requirement of a daily record of equipment time.

4. Establish contact with appropriate agency personnel representatives:

- Determine time-keeping constraints of individual agencies.
- Time records should be maintained for volunteer and mutual aid resources regardless of whether time will be reimbursed.

5. Ensure that daily personnel and equipment time recording documents are prepared, and compliance with time policy is maintained.

6. Establish files for time records, as appropriate.

7. Provide for records security.

8. Ensure that all records are complete or current prior to demobilization.

9. Time reports from assisting agencies should be released to the respective agency representatives prior to demobilization.

10. Brief Finance/Administration Chief on current problems, recommendations, outstanding issues, and follow-up requirements.

Time Unit Leader Position Checklist

11. Provide briefing to relief on current activity and unusual events.

12. Document all activity on Unit Log (ICS Form 214).

Appendix E. Acronyms and Glossary

Glossary of Key Terms

Accessible: Having the legally required features and/or qualities that ensure easy entrance, participation, and usability of places, programs, services, and activities by individuals with a wide variety of disabilities.

Acquisition Procedures: A process used to obtain resources to support operational requirements.

Agency: A division of government with a specific function offering a particular kind of assistance. In the Incident Command System, agencies are defined either as jurisdictional (having statutory responsibility for incident management) or as assisting or cooperating (providing resources or other assistance). Governmental organizations are most often in charge of an incident, though in certain circumstances private-sector organizations may be included. Additionally, nongovernmental organizations may be included to provide support.

Agency Administrator / Executive: The official responsible for administering policy for an agency or jurisdiction. An Agency Administrator/Executive (or other public official with jurisdictional responsibility for the incident) usually makes the decision to establish an Area Command.

Agency Dispatch: The agency or jurisdictional facility from which resources are sent to incidents.

Agency Representative: A person assigned by a primary, assisting, or cooperating Federal, State, tribal, or local government agency, or nongovernmental or private organization, that has been delegated authority to make decisions affecting that agency's or organization's participation in incident management activities following appropriate consultation with the leadership of that agency.

All-Hazards: Describing an incident, natural or manmade, that warrants action to protect life, property, environment, and public health or safety, and to minimize disruptions of government, social, or economic activities.

Allocated Resource: Resource dispatched to an incident.

Area Command: An organization established to oversee the management of multiple incidents that are each being handled by a separate Incident Command System organization or to oversee the management of a very large or evolving incident that has multiple Incident Management Teams engaged. An Agency Administrator/Executive or other public official with jurisdictional responsibility for the incident usually makes the decision to establish an Area Command. An Area Command is activated only if necessary, depending on the complexity of the incident and incident management span-of-control considerations.

Assessment: The process of acquiring, collecting, processing, examining, analyzing, evaluating, monitoring, and interpreting the data, information,

Appendix E. Acronyms and Glossary

evidence, objects, measurements, images, sound, etc., whether tangible or intangible, to provide a basis for decision making.

Assigned Resource: Resource checked in and assigned work tasks on an incident.

Assignment: Task given to a personnel resource to perform within a given operational period that is based on operational objectives defined in the Incident Action Plan.

Assistant: Title for subordinates of principal Command Staff positions. The title indicates a level of technical capability, qualifications, and responsibility subordinate to the primary positions. Assistants may also be assigned to Unit Leaders.

Assisting Agency: An agency or organization providing personnel, services, or other resources to the agency with direct responsibility for incident management. See Supporting Agency.

Available Resource: Resource assigned to an incident, checked in, and available for a mission assignment, normally located in a Staging Area.

Badging: The assignment of physical incident-specific credentials to establish legitimacy and limit access to various incident sites.

Branch: The organizational level having functional or geographical responsibility for major aspects of incident operations. A Branch is organizationally situated between the Section Chief and the Division or Group in the Operations Section, and between the Section and Units in the Logistics Section. Branches are identified by the use of Roman numerals or by functional area.

Cache: A predetermined complement of tools, equipment, and/or supplies stored in a designated location, available for incident use.

Camp: A geographical site within the general incident area (separate from the Incident Base) that is equipped and staffed to provide sleeping, food, water, and sanitary services to incident personnel.

Categorizing Resources: The process of organizing resources by category, kind, and type, including size, capacity, capability, skill, and other characteristics. This makes the resource ordering and dispatch process within and across organizations and agencies, and between governmental and nongovernmental entities, more efficient, and ensures that the resources received are appropriate to their needs.

Certifying Personnel: The process of authoritatively attesting that individuals meet professional standards for the training, experience, and performance required for key incident management functions.

Chain of Command: The orderly line of authority within the ranks of the incident management organization.

Appendix E. Acronyms and Glossary

Check-In: The process through which resources first report to an incident. All responders, regardless of agency affiliation, must report in to receive an assignment in accordance with the procedures established by the Incident Commander.

Chief: The Incident Command System title for individuals responsible for management of functional Sections: Operations, Planning, Logistics, Finance/Administration, and Intelligence/Investigations (if established as a separate Section).

Command: The act of directing, ordering, or controlling by virtue of explicit statutory, regulatory, or delegated authority.

Command Staff: The staff who report directly to the Incident Commander, including the Public Information Officer, Safety Officer, Liaison Officer, and other positions as required. They may have an assistant or assistants, as needed.

Common Operating Picture: An overview of an incident by all relevant parties that provides incident information enabling the Incident Commander/Unified Command and any supporting agencies and organizations to make effective, consistent, and timely decisions.

Common Terminology: Normally used words and phrases-avoiding the use of different words/phrases for same concepts-to ensure consistency and to allow diverse incident management and support organizations to work together across a wide variety of incident management functions and hazard scenarios.

Communications: The process of transmission of information through verbal, written, or symbolic means.

Communications / Dispatch Center: Agency or interagency dispatch centers, 911 call centers, emergency control or command dispatch centers, or any naming convention given to the facility and staff that handles emergency calls from the public and communication with emergency management / response personnel. The center can serve as a primary coordination and support element of the Multiagency Coordination System(s) (MACS) for an incident until other elements of the MACS are formally established.

Complex: Two or more individual incidents located in the same general area and assigned to a single Incident Commander or to Unified Command.

Comprehensive Preparedness Guide 101: A guide designed to assist jurisdictions with developing operations plans. It promotes a common understanding of the fundamentals of planning and decision making to help emergency planners examine a hazard and produce integrated, coordinated, and synchronized plans.

Continuity of Government: A coordinated effort within the Federal Government's executive branch to ensure that National Essential Functions

Appendix E. Acronyms and Glossary

continue to be performed during a catastrophic emergency (as defined in National Security Presidential Directive 51 / Homeland Security Presidential Directive 20).

Continuity of Operations: An effort within individual organizations to ensure that Primary Mission Essential Functions continue to be performed during a wide range of emergencies.

Cooperating Agency: An agency supplying assistance other than direct operational or support functions or resources to the incident management effort.

Coordinate: To advance an analysis and exchange of information systematically among principals who have or may have a need to know certain information to carry out specific incident management responsibilities.

Corrective Actions: The implementation of procedures that are based on lessons learned from actual incidents or from training and exercises.

Credentialing: The authentication and verification of the certification and identity of designated incident managers and emergency responders.

Critical Infrastructure: Assets, systems, and networks, whether physical or virtual, so vital to the United States that the incapacitation or destruction of such assets, systems, or networks would have a debilitating impact on security, national economic security, national public health or safety, or any combination of those matters.

Delegation of Authority: A statement provided to the Incident Commander by the Agency Executive delegating authority and assigning responsibility. The delegation of authority can include objectives, priorities, expectations, constraints, and other considerations or guidelines, as needed. Many agencies require written delegation of authority to be given to the Incident Commander prior to assuming command on larger incidents. (Also known as Letter of Expectation.)

Demobilization: The orderly, safe, and efficient return of an incident resource to its original location and status.

Department Operations Center (DOC): An Emergency Operations Center (EOC) specific to a single department or agency. The focus of a DOC is on internal agency incident management and response. DOCs are often linked to and, in most cases, are physically represented in a combined agency EOC by authorized agent(s) for the department or agency.

Deputy: A fully qualified individual who, in the absence of a superior, can be delegated the authority to manage a functional operation or to perform a specific task. In some cases a deputy can act as relief for a superior, and therefore must be fully qualified in the position. Deputies generally can be assigned to the Incident Commander, General Staff, and Branch Directors.

Director: The Incident Command System title for individuals responsible for supervision of a Branch.

Appendix E. Acronyms and Glossary

Dispatch: The ordered movement of a resource or resources to an assigned operational mission, or an administrative move from one location to another.

Division: The organizational level having responsibility for operations within a defined geographic area. Divisions are established when the number of resources exceeds the manageable span of control of the Section Chief. See Group.

Emergency: Any incident, whether natural or manmade, that requires responsive action to protect life or property. Under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, an emergency means any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States.

Emergency Management Assistance Compact (EMAC): A congressionally ratified organization that provides form and structure to interstate mutual aid. Through EMAC, a disaster-affected State can request and receive assistance from other member States quickly and efficiently, resolving two key issues up front: liability and reimbursement.

Emergency Management / Response Personnel: Includes Federal, State, territorial, tribal, substate regional, and local governments, NGOs, private sector-organizations, critical infrastructure owners and operators, and all other organizations and individuals who assume an emergency management role. (Also known as emergency responder.)

Emergency Operations Center (EOC) / Emergency Coordination Center (ECC): The physical location at which the coordination of information and resources to support incident management (on-scene operations) activities normally takes place. An EOC may be a temporary facility or may be located in a more central or permanently established facility, perhaps at a higher level of organization within a jurisdiction. EOCs may be organized by major functional disciplines (e.g., fire, law enforcement, medical services), by jurisdiction (e.g., Federal, State, regional, tribal, city, county), or by some combination thereof.

EOC / ECC Director: The EOC / ECC Director has overall responsibility and EOC / ECC operation. Responsibilities include staffing the EOC, coordinates emergency response agencies, and prioritizes response activities with ICS General Staff.

Emergency Operations Plan: An ongoing plan for responding to a wide variety of potential hazards.

Emergency Public Information: Information that is disseminated primarily in anticipation of or during an emergency. In addition to providing situational information to the public, it frequently provides directive actions required to be taken by the general public.

Appendix E. Acronyms and Glossary

Evacuation: The organized, phased, and supervised withdrawal, dispersal, or removal of civilians from dangerous or potentially dangerous areas, and their reception and care in safe areas.

Event: See Planned Event.

Federal: Of or pertaining to the Federal Government of the United States of America.

Field Operations Guide: Durable pocket or desk guides that contain essential information required to perform specific assignments or functions.

Finance / Administration Section: The Incident Command System Section responsible for all administrative and financial considerations surrounding an incident.

Function: The five major activities in the Incident Command System: Command, Operations, Planning, Logistics, and Finance/Administration. A sixth function, Intelligence/Investigations, may be established, if required, to meet incident management needs. The term function is also used when describing the activity involved (e.g., the planning function).

General Staff: A group of incident management personnel organized according to function and reporting to the Incident Commander. The General Staff normally consists of the Operations Section Chief, Planning Section Chief, Logistics Section Chief, and Finance/Administration Section Chief. An Intelligence/Investigations Chief may be established, if required, to meet incident management needs.

Group: An organizational subdivision established to divide the incident management structure into functional areas of operation. Groups are composed of resources assembled to perform a special function not necessarily within a single geographic division. See Division.

Hazard: Something that is potentially dangerous or harmful, often the root cause of an unwanted outcome.

Incident: An occurrence, natural or manmade, that requires a response to protect life or property. Incidents can, for example, include major disasters, emergencies, terrorist attacks, terrorist threats, civil unrest, wildland and urban fires, floods, hazardous materials spills, nuclear accidents, aircraft accidents, earthquakes, hurricanes, tornadoes, tropical storms, tsunamis, war-related disasters, public health and medical emergencies, and other occurrences requiring an emergency response.

Incident Action Plan: An oral or written plan containing general objectives reflecting the overall strategy for managing an incident. It may include the identification of operational resources and assignments. It may also include attachments that provide direction and important information for management of the incident during one or more operational periods.

Appendix E. Acronyms and Glossary

Incident Base: The location at which primary Logistics functions for an incident are coordinated and administered. There is only one Base per incident. (Incident name or other designator will be added to the term Base.) The Incident Command Post may be co-located with the Incident Base.

Incident Command: The Incident Command System organizational element responsible for overall management of the incident and consisting of the Incident Commander (either single or unified command structure) and any assigned supporting staff.

Incident Commander (IC): The individual responsible for all incident activities, including the development of strategies and tactics and the ordering and release of resources. The IC has overall authority and responsibility for conducting incident operations and is responsible for the management of all incident operations at the incident site.

Incident Command Post (ICP): The field location where the primary functions are performed. The ICP may be co-located with the Incident Base or other incident facilities.

Incident Command System (ICS): A standardized on-scene emergency management construct specifically designed to provide an integrated organizational structure that reflects the complexity and demands of single or multiple incidents, without being hindered by jurisdictional boundaries. ICS is the combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure, designed to aid in the management of resources during incidents. It is used for all kinds of emergencies and is applicable to small as well as large and complex incidents. ICS is used by various jurisdictions and functional agencies, both public and private, to organize field-level incident management operations.

Incident Management: The broad spectrum of activities and organizations providing effective and efficient operations, coordination, and support applied at all levels of government, utilizing both governmental and nongovernmental resources to plan for, respond to, and recover from an incident, regardless of cause, size, or complexity.

Incident Management Team (IMT): An Incident Commander and the appropriate Command and General Staff personnel assigned to an incident. The level of training and experience of the IMT members, coupled with the identified formal response requirements and responsibilities of the IMT, are factors in determining "type," or level, of IMT.

Incident Objectives: Statements of guidance and direction needed to select appropriate strategy(s) and the tactical direction of resources. Incident objectives are based on realistic expectations of what can be accomplished when all allocated resources have been effectively deployed. Incident objectives must be achievable and measurable, yet flexible enough to allow strategic and tactical alternatives.

Appendix E. Acronyms and Glossary

Information Management: The collection, organization, and control over the structure, processing, and delivery of information from one or more sources and distribution to one or more audiences who have a stake in that information.

Integrated Planning System: A system designed to provide common processes for developing and integrating plans for the Federal Government to establish a comprehensive approach to national planning in accordance with the Homeland Security Management System as outlined in the National Strategy for Homeland Security.

Intelligence/Investigations: An organizational subset within ICS. Intelligence gathered within the Intelligence/Investigations function is information that either leads to the detection, prevention, apprehension, and prosecution of criminal activities-or the individual(s) involved-including terrorist incidents or information that leads to determination of the cause of a given incident (regardless of the source) such as public health events or fires with unknown origins. This is different from the normal operational and situational intelligence gathered and reported by the Planning Section.

Interoperability: Ability of systems, personnel, and equipment to provide and receive functionality, data, information and/or services to and from other systems, personnel, and equipment, between both public and private agencies, departments, and other organizations, in a manner enabling them to operate effectively together. Allows emergency management/response personnel and their affiliated organizations to communicate within and across agencies and jurisdictions via voice, data, or video-on-demand, in real time, when needed, and when authorized.

Job Aid: Checklist or other visual aid intended to ensure that specific steps of completing a task or assignment are accomplished.

Joint Field Office (JFO): The primary Federal incident management field structure. The JFO is a temporary Federal facility that provides a central location for the coordination of Federal, State, tribal, and local governments and private-sector and nongovernmental organizations with primary responsibility for response and recovery. The JFO structure is organized, staffed, and managed in a manner consistent with National Incident Management System principles. Although the JFO uses an Incident Command System structure, the JFO does not manage on-scene operations. Instead, the JFO focuses on providing support to on-scene efforts and conducting broader support operations that may extend beyond the incident site.

Joint Information Center (JIC): A facility established to coordinate all incident-related public information activities. It is the central point of contact for all news media. Public information officials from all participating agencies should co-locate at the JIC.

Joint Information System (JIS): A structure that integrates incident information and public affairs into a cohesive organization designed to provide consistent, coordinated, accurate, accessible, timely, and complete information during crisis

Appendix E. Acronyms and Glossary

or incident operations. The mission of the JIS is to provide a structure and system for developing and delivering coordinated interagency messages; developing, recommending, and executing public information plans and strategies on behalf of the Incident Commander (IC); advising the IC concerning public affairs issues that could affect a response effort; and controlling rumors and inaccurate information that could undermine public confidence in the emergency response effort.

Jurisdiction: A range or sphere of authority. Public agencies have jurisdiction at an incident related to their legal responsibilities and authority. Jurisdictional authority at an incident can be political or geographical (e.g., Federal, State, tribal, local boundary lines) or functional (e.g., law enforcement, public health).

Jurisdictional Agency: The agency having jurisdiction and responsibility for a specific geographical area, or a mandated function.

Key Resource: Any publicly or privately controlled resource essential to the minimal operations of the economy and government.

Letter of Expectation: See Delegation of Authority.

Liaison: A form of communication for establishing and maintaining mutual understanding and cooperation.

Liaison Officer: A member of the Command Staff responsible for coordinating with representatives from cooperating and assisting agencies or organizations.

Local Government: Public entities responsible for the security and welfare of a designated area as established by law. A county, municipality, city, town, township, local public authority, school district, special district, intrastate district, council of governments (regardless of whether the council of governments is incorporated as a nonprofit corporation under State law), regional or interstate government entity, or agency or instrumentality of a local government; an Indian tribe or authorized tribal entity, or in Alaska a Native Village or Alaska Regional Native Corporation; a rural community, unincorporated town or village, or other public entity. See Section 2 (10), Homeland Security Act of 2002, Pub. L. 107-296, 116 Stat. 2135 (2002).

Logistics: The process and procedure for providing resources and other services to support incident management.

Logistics Section: The Incident Command System Section responsible for providing facilities, services, and material support for the incident.

Management by Objectives: A management approach that involves a five-step process for achieving the incident goal. The Management by Objectives approach includes the following: establishing overarching incident objectives; developing strategies based on overarching incident objectives; developing and issuing assignments, plans, procedures, and protocols; establishing specific, measurable tactics or tasks for various incident-management functional activities and

Appendix E. Acronyms and Glossary

directing efforts to attain them, in support of defined strategies; and documenting results to measure performance and facilitate corrective action.

Manager: Individual within an Incident Command System organizational unit who is assigned specific managerial responsibilities (e.g., Staging Area Manager or Camp Manager).

Mitigation: Activities providing a critical foundation in the effort to reduce the loss of life and property from natural and/or manmade disasters by avoiding or lessening the impact of a disaster and providing value to the public by creating safer communities. Mitigation seeks to fix the cycle of disaster damage, reconstruction, and repeated damage. These activities or actions, in most cases, will have a long-term sustained effect.

Mobilization: The process and procedures used by all organizations-Federal, State, tribal, and local-for activating, assembling, and transporting all resources that have been requested to respond to or support an incident.

Mobilization Guide: Reference document used by organizations outlining agreements, processes, and procedures used by all participating agencies/organizations for activating, assembling, and transporting resources.

Multiagency Coordination (MAC) Group: A group of administrators or executives, or their appointed representatives, who are typically authorized to commit agency resources and funds. A MAC Group can provide coordinated decision making and resource allocation among cooperating agencies, and may establish the priorities among incidents, harmonize agency policies, and provide strategic guidance and direction to support incident management activities. MAC Groups may also be known as multiagency committees, emergency management committees, or as otherwise defined by the Multiagency Coordination System.

Multiagency Coordination System (MACS): A system that provides the architecture to support coordination for incident prioritization, critical resource allocation, communications systems integration, and information coordination. MACS assist agencies and organizations responding to an incident. The elements of a MACS include facilities, equipment, personnel, procedures, and communications. Two of the most commonly used elements are Emergency Operations Centers and MAC Groups.

Multijurisdictional Incident: An incident requiring action from multiple agencies that each have jurisdiction to manage certain aspects of an incident. In the Incident Command System, these incidents will be managed under Unified Command.

Mutual Aid Agreement or Assistance Agreement: Written or oral agreement between and among agencies/organizations and/or jurisdictions that provides a mechanism to quickly obtain emergency assistance in the form of personnel, equipment, materials, and other associated services. The primary objective is to

Appendix E. Acronyms and Glossary

facilitate rapid, short-term deployment of emergency support prior to, during, and/or after an incident.

National: Of a nationwide character, including the Federal, State, tribal, and local aspects of governance and policy.

National Essential Functions: A subset of government functions that are necessary to lead and sustain the Nation during a catastrophic emergency and that, therefore, must be supported through continuity of operations and continuity of government capabilities.

National Incident Management System: A set of principles that provides a systematic, proactive approach guiding government agencies at all levels, nongovernmental organizations, and the private sector to work seamlessly to prevent, protect against, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life or property and harm to the environment.

National Response Framework: A guide to how the Nation conducts all-hazards response.

Nongovernmental Organization (NGO): An entity with an association that is based on interests of its members, individuals, or institutions. It is not created by a government, but it may work cooperatively with government. Such organizations serve a public purpose, not a private benefit. Examples of NGOs include faith-based charity organizations and the American Red Cross. NGOs, including voluntary and faith-based groups, provide relief services to sustain life, reduce physical and emotional distress, and promote the recovery of disaster victims. Often these groups provide specialized services that help individuals with disabilities. NGOs and voluntary organizations play a major role in assisting emergency managers before, during, and after an emergency.

Officer: The Incident Command System title for a person responsible for one of the Command Staff positions of Safety, Liaison, and Public Information.

Operational Period: The time scheduled for executing a given set of operation actions, as specified in the Incident Action Plan. Operational periods can be of various lengths, although usually they last 12 to 24 hours.

Operations Section: The Incident Command System (ICS) Section responsible for all tactical incident operations and implementation of the Incident Action Plan. In ICS, the Operations Section normally includes subordinate Branches, Divisions, and/or Groups.

Organization: Any association or group of persons with like objectives. Examples include, but are not limited to, governmental departments and agencies, nongovernmental organizations, and the private sector.

Personal Responsibility: The obligation to be accountable for one's actions.

Appendix E. Acronyms and Glossary

Personnel Accountability: The ability to account for the location and welfare of incident personnel. It is accomplished when supervisors ensure that Incident Command System principles and processes are functional and that personnel are working within established incident management guidelines.

Plain Language: Communication that can be understood by the intended audience and meets the purpose of the communicator. For the purpose of the National Incident Management System, plain language is designed to eliminate or limit the use of codes and acronyms, as appropriate, during incident response involving more than a single agency.

Planned Event: A scheduled nonemergency activity (e.g., sporting event, concert, parade, etc.).

Planning Meeting: A meeting held as needed before and throughout the duration of an incident to select specific strategies and tactics for incident control operations and for service and support planning. For larger incidents, the Planning Meeting is a major element in the development of the Incident Action Plan.

Planning Section: The Incident Command System Section responsible for the collection, evaluation, and dissemination of operational information related to the incident, and for the preparation and documentation of the Incident Action Plan. This Section also maintains information on the current and forecasted situation and on the status of resources assigned to the incident.

Portability: An approach that facilitates the interaction of systems that are normally distinct. Portability of radio technologies, protocols, and frequencies among emergency management/response personnel will allow for the successful and efficient integration, transport, and deployment of communications systems when necessary. Portability includes the standardized assignment of radio channels across jurisdictions, which allows responders to participate in an incident outside their jurisdiction and still use familiar equipment.

Pre-Positioned Resource: A resource moved to an area near the expected incident site in response to anticipated resource needs.

Preparedness: A continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action in an effort to ensure effective coordination during incident response. Within the National Incident Management System, preparedness focuses on the following elements: planning; procedures and protocols; training and exercises; personnel qualification and certification; and equipment certification.

Preparedness Organization: An organization that provides coordination for emergency management and incident response activities before a potential incident. These organizations range from groups of individuals to small committees to large standing organizations that represent a wide variety of committees, planning groups, and other organizations (e.g., Citizen Corps, Local

Appendix E. Acronyms and Glossary

Emergency Planning Committees, Critical Infrastructure Sector Coordinating Councils).

Prevention: Actions to avoid an incident or to intervene to stop an incident from occurring. Prevention involves actions to protect lives and property. It involves applying intelligence and other information to a range of activities that may include such countermeasures as deterrence operations; heightened inspections; improved surveillance and security operations; investigations to determine the full nature and source of the threat; public health and agricultural surveillance and testing processes; immunizations, isolation, or quarantine; and, as appropriate, specific law enforcement operations aimed at deterring, preempting, interdicting, or disrupting illegal activity and apprehending potential perpetrators and bringing them to justice.

Primary Mission Essential Functions: Government functions that must be performed in order to support or implement the performance of National Essential Functions before, during, and in the aftermath of an emergency.

Private Sector: Organizations and individuals that are not part of any governmental structure. The private sector includes for-profit and not-for-profit organizations, formal and informal structures, commerce, and industry.

Protocol: A set of established guidelines for actions (which may be designated by individuals, teams, functions, or capabilities) under various specified conditions.

Public Information: Processes, procedures, and systems for communicating timely, accurate, and accessible information on an incident's cause, size, and current situation; resources committed; and other matters of general interest to the public, responders, and additional stakeholders (both directly affected and indirectly affected).

Public Information Officer: A member of the Command Staff responsible for interfacing with the public and media and/or with other agencies with incident-related information requirements.

Publications Management: Subsystem that manages the development, publication control, publication supply, and distribution of National Incident Management System materials.

Recovery: The development, coordination, and execution of service- and site-restoration plans; the reconstitution of government operations and services; individual, private-sector, nongovernmental, and public assistance programs to provide housing and to promote restoration; long-term care and treatment of affected persons; additional measures for social, political, environmental, and economic restoration; evaluation of the incident to identify lessons learned; post incident reporting; and development of initiatives to mitigate the effects of future incidents.

Recovery Plan: A plan developed to restore an affected area or community.

Appendix E. Acronyms and Glossary

Reimbursement: A mechanism to recoup funds expended for incident-specific activities.

Resource Management: A system for identifying available resources at all jurisdictional levels to enable timely, efficient, and unimpeded access to resources needed to prepare for, respond to, or recover from an incident. Resource management under the National Incident Management System includes mutual aid agreements and assistance agreements; the use of special Federal, State, tribal, and local teams; and resource mobilization protocols.

Resource Tracking: A standardized, integrated process conducted prior to, during, and after an incident by all emergency management/response personnel and their associated organizations.

Resources: Personnel and major items of equipment, supplies, and facilities available or potentially available for assignment to incident operations and for which status is maintained. Resources are described by kind and type and may be used in operational support or supervisory capacities at an incident or at an Emergency Operations Center.

Response: Activities that address the short-term, direct effects of an incident. Response includes immediate actions to save lives, protect property, and meet basic human needs. Response also includes the execution of emergency operations plans and of mitigation activities designed to limit the loss of life, personal injury, property damage, and other unfavorable outcomes. As indicated by the situation, response activities include applying intelligence and other information to lessen the effects or consequences of an incident; increased security operations; continuing investigations into nature and source of the threat; ongoing public health and agricultural surveillance and testing processes; immunizations, isolation, or quarantine; and specific law enforcement operations aimed at preempting, interdicting, or disrupting illegal activity, and apprehending actual perpetrators and bringing them to justice.

Retrograde: To return resources back to their original location.

Safety Officer: A member of the Command Staff responsible for monitoring incident operations and advising the Incident Commander on all matters relating to operational safety, including the health and safety of emergency responder personnel.

Section: The Incident Command System organizational level having responsibility for a major functional area of incident management (e.g., Operations, Planning, Logistics, Finance/Administration, and Intelligence/Investigations (if established)). The Section is organizationally situated between the Branch and the Incident Command.

Single Resource: An individual, a piece of equipment and its personnel complement, or a crew/team of individuals with an identified work supervisor that can be used on an incident.

Appendix E. Acronyms and Glossary

Situation Report: Confirmed or verified information regarding the specific details relating to an incident.

Span of Control: The number of resources for which a supervisor is responsible, usually expressed as the ratio of supervisors to individuals. (Under the National Incident Management System, an appropriate span of control is between 1:3 and 1:7, with optimal being 1:5, or between 1:8 and 1:10 for many large-scale law enforcement operations.)

Special Needs Population: A population whose members may have additional needs before, during, and after an incident in functional areas, including but not limited to: maintaining independence, communication, transportation, supervision, and medical care. Individuals in need of additional response assistance may include those who have disabilities; who live in institutionalized settings; who are elderly; who are children; who are from diverse cultures, who have limited English proficiency, or who are non-English-speaking; or who are transportation disadvantaged.

Staging Area: Temporary location for available resources. A Staging Area can be any location in which personnel, supplies, and equipment can be temporarily housed or parked while awaiting operational assignment.

Standard Operating Guidelines: A set of instructions having the force of a directive, covering those features of operations which lend themselves to a definite or standardized procedure without loss of effectiveness.

Standard Operating Procedure: A complete reference document or an operations manual that provides the purpose, authorities, duration, and details for the preferred method of performing a single function or a number of interrelated functions in a uniform manner.

State: When capitalized, refers to any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any possession of the United States. See Section 2 (14), Homeland Security Act of 2002, Pub. L. 107-296, 116 Stat. 2135 (2002).

Status Report: Information specifically related to the status of resources (e.g., the availability or assignment of resources).

Strategy: The general plan or direction selected to accomplish incident objectives.

Strike Team: A set number of resources of the same kind and type that have an established minimum number of personnel, common communications, and a leader.

Substate Region: A grouping of jurisdictions, counties, and/or localities within a State brought together for specified purposes (e.g., homeland security, education, public health), usually containing a governance structure.

Appendix E. Acronyms and Glossary

Supervisor: The Incident Command System title for an individual responsible for a Division or Group.

Supporting Agency: An agency that provides support and/or resource assistance to another agency. See Assisting Agency.

Supporting Technology: Any technology that may be used to support the National Incident Management System, such as orthophoto mapping, remote automatic weather stations, infrared technology, or communications.

System: Any combination of facilities, equipment, personnel, processes, procedures, and communications integrated for a specific purpose.

Tactics: The deployment and directing of resources on an incident to accomplish the objectives designated by strategy.

Task Force: Any combination of resources assembled to support a specific mission or operational need. All resource elements within a Task Force must have common communications and a designated leader.

Technical Specialist: Person with special skills that can be used anywhere within the Incident Command System organization. No minimum qualifications are prescribed, as technical specialists normally perform the same duties during an incident that they perform in their everyday jobs, and they are typically certified in their fields or professions.

Technology Standards: Conditions, guidelines, or characteristics that may be required to facilitate the interoperability and compatibility of major systems across jurisdictional, geographic, and functional lines.

Technology Support: Assistance that facilitates incident operations and sustains the research and development programs that underpin the long-term investment in the Nation's future incident management capabilities.

Terrorism: As defined in the Homeland Security Act of 2002, activity that involves an act that is dangerous to human life or potentially destructive of critical infrastructure or key resources; is a violation of the criminal laws of the United States or of any State or other subdivision of the United States; and appears to be intended to intimidate or coerce a civilian population, to influence the policy of a government by intimidation or coercion, or to affect the conduct of a government by mass destruction, assassination, or kidnapping.

Threat: Natural or manmade occurrence, individual, entity, or action that has or indicates the potential to harm life, information, operations, the environment, and/or property.

Tools: Those instruments and capabilities that allow for the professional performance of tasks, such as information systems, agreements, doctrine, capabilities, and legislative authorities.

Appendix E. Acronyms and Glossary

Tribal: Referring to any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native Village as defined in or established pursuant to the Alaskan Native Claims Settlement Act (85 Stat. 688) [43 U.S.C.A. and 1601 et seq.], that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Type: An Incident Command System resource classification that refers to capability. Type 1 is generally considered to be more capable than Types 2, 3, or 4, respectively, because of size, power, capacity, or (in the case of Incident Management Teams) experience and qualifications.

Unified Approach: The integration of resource management, communications and information management, and command and management in order to form an effective system.

Unified Area Command: Version of command established when incidents under an Area Command are multijurisdictional. See Area Command.

Unified Command (UC): An Incident Command System application used when more than one agency has incident jurisdiction or when incidents cross political jurisdictions. Agencies work together through the designated members of the UC, often the senior persons from agencies and/or disciplines participating in the UC, to establish a common set of objectives and strategies and a single Incident Action Plan.

Unit: The organizational element with functional responsibility for a specific incident planning, logistics, or finance/administration activity.

Unit Leader: The individual in charge of managing Units within an Incident Command System (ICS) functional Section. The Unit can be staffed by a number of support personnel providing a wide range of services. Some of the support positions are pre-established within ICS (e.g., Base/Camp Manager), but many others will be assigned as technical specialists.

Unity of Command: An Incident Command System principle stating that each individual involved in incident operations will be assigned to only one supervisor.

Vital Records: The essential agency records that are needed to meet operational responsibilities under national security emergencies or other emergency or disaster conditions (emergency operating records), or to protect the legal and financial rights of the government and those affected by government activities (legal and financial rights records).

Appendix E. Acronyms and Glossary

Volunteer: For purposes of the National Incident Management System, any individual accepted to perform services by the lead agency (which has authority to accept volunteer services) when the individual performs services without promise, expectation, or receipt of compensation for services performed. See 16 U.S.C. 742f(c) and 29 CFR 553.10

1 Purpose and Scope

This annex outlines the basic City emergency services necessary to respond to a disaster. It outlines the main roles and responsibilities for primary agencies, provides a concept of operations to assist the City in coordinating emergency services, and references related authorities, agreements, and supporting plans. The City Emergency Management Organization, as outlined in the Basic Plan of this EOP, is designed to provide support to local emergency services agencies through assistance in accessing needed resources and coordination in more complex incidents and events. Nothing in this annex is meant to replace or supersede the standard operating procedures of local response agencies.

This annex covers the following functions:

- Emergency Communications
- Fire Services
- Search and Rescue
- Hazardous Materials Response
- Law Enforcement
- Emergency Public Information
- Evacuation and Population Protection

Emergency services information that is specific to a unique hazard (e.g., hazardous materials releases, terrorism, flood response, etc.) can be found in the appropriate Incident Annex.

2 Policies and Agreements

The following policies and agreements are currently in place to support emergency services for the City:

- Baker County All Hazard Mutual Agreement
- ORWARN – Oregon Water/Wastewater Agency Response Network

Copies of these agreements can be obtained through the City Manager’s Office.

3 Situation and Assumptions

3.1 Situation

The City may encounter situations in which many, or all, of its emergency response agencies need to be activated. The primary emergency service agencies are the Police Department, Fire Department, City Emergency Management, and Baker County Consolidated Dispatch. If additional response resources are needed, mutual aid is available from neighboring local governments and the County.

Resources available for the City and neighboring jurisdictions can be activated through Baker City Emergency Management.

3.2 Assumptions

- City emergency services agencies are able to handle routine and small-scale emergencies within their existing capabilities and response plans and procedures.
- A natural or human-caused emergency or disaster may occur at any time requiring response capabilities beyond those normally available to the City.
- Emergency personnel are trained in the Incident Command System (ICS) / National Incident Management System (NIMS).
- Utilization of the City Emergency Operations Plan (EOP) does not require activation of the Emergency Operations Center (EOC). The need to activate the EOC will be determined at the time by the City Emergency Manager or Incident Commander.
- In an emergency, the City may assume a Unified Command approach.
- Due to limited City resources, and depending on the extent of an emergency, the City may not be able to meet the requests for emergency response/recovery assistance from other units of local government in the County during a major emergency.

FA 1. Emergency Services

- Both the media and the public will expect and demand that information regarding an emergency be provided in a timely manner.
- The local media, particularly radio and television, can perform an essential role in providing emergency instructions and status information to the public, both through news bulletins and National Emergency Alert System (EAS) broadcasts, webpages, and social media sites.
- Most of the public will receive and understand official information related to evacuation.
- Most of the public will act in its own interest and evacuate dangerous areas when advised to do so by local government authorities. However, some individuals may refuse to evacuate. It is also assumed that most evacuees will use private transportation means; however, transportation may have to be provided for some.
- City staff / emergency responders will work to address the concerns of access and functional needs populations who may have trouble understanding or accessing official emergency information.
- Time constraints, route limitations, and hosting facilities' capacities to accommodate evacuees could significantly stress and deplete local resources.

4 Roles and Responsibilities

The roles and responsibilities for each department in support of emergency services will vary depending on the type of resource, the length of the warning period, and the duration of the incident.

4.1 Baker City Emergency Management

Baker City Emergency Management may be responsible for the following actions in support of an emergency:

- Activating City EOC
- Coordinating with County Emergency Management, if necessary.
- Reporting to the EOC to assume overall responsibility for City government activities.
- Regularly briefing the City Council on developments in the situation.
- Coordinating with County Emergency Management to designate an alternative EOC location, if necessary.

FA 1. Emergency Services

- Assigning a representative of the City to the County EOC, if County EOC is activated.
- Coordinating the flow of public information to ensure consistency and appropriateness.

4.2 Baker County Consolidated Dispatch

The Public Safety Answering Point (PSAP) for the City is Baker County Consolidated Dispatch. Dispatch may be responsible for the following actions during an emergency:

- Maintaining emergency contact lists for agencies and communities served.
- Maintaining primary and backup equipment.
- Notifying Emergency Management and other appropriate agencies of situations affecting the City.
- Developing and maintaining a recall roster for essential personnel.
- Ensuring a communications capability exists between Consolidated Dispatch and City EOC.

4.3 Baker City Fire Department

The Fire Department may be responsible for the following actions in support of an emergency:

- Commanding firefighting forces and direct all responding support forces operating within the incident. Establish the initial ICS structure. Call on mutual aid resources as necessary.
- Providing a qualified representative to the EOC to fill role of Fire Branch Director in the Operations Section.
- If necessary, providing for the safety of personnel and their families before they report to their duty station. Firefighters then should report to the fire station to be part of the staffing pool.
- Deploying equipment as assigned.
- Assisting law enforcement as assigned.
- Coordinating activities through the City EOC.

Specific departmental duties and responsibilities are contained in the Fire Department response plans and procedures.

FA 1. Emergency Services

4.4 Baker City Police Department

The Police Department may be responsible for the following actions in support an emergency:

- Providing law enforcement and public safety support during an emergency.
- Assisting in warning and evacuation of the public as conditions require.
- Providing a qualified representative to the EOC to fill role of Law Enforcement Branch Director in the Operations Section.
- Providing for the safety of personnel and their families before they report to their duty station. Police department employees then should report to the Police Department to be part of the staffing pool.
- Responding equipment as assigned.
- Assisting in traffic / crowd control as necessary.

Specific departmental duties and responsibilities are contained in the Police Department response plans and procedures.

4.5 Baker City Public Works Department

The Public Works Department may be responsible for the following actions in support of an emergency:

- Providing a qualified representative to report to the EOC to assume overall responsibility for Public Works activities under the direction of the Operations Chief or Branch Director.
- Providing for the safety of personnel and their families prior to reporting to their duty stations. Public works employees then should report to the Public Works Department to be part of the staffing pool.
- Responding equipment as assigned.
- Working with the Police Department and/or Fire Department to close streets and / or reroute traffic, as applicable.
- Providing damage assessment information to the City EOC, as applicable.

Specific departmental duties and responsibilities are contained in the Public Works Department response plans and procedures.

FA 1. Emergency Services

4.6 Baker County Emergency Management

Baker County Emergency Management may be responsible for the following actions in support of an emergency:

- Coordinating with the City EMO in local emergency response operations.
- Activating the County ECC, notifying lead agencies to report and coordinating county support agencies for local/county response activities.
- Supporting ICS at the City level and providing resources as appropriate.
- Supporting mutual aid activities.
- Making recommendations to the City EMO on response activities including the issuance of a “State of Emergency” proclamation.
- Coordinating with the City around recovery activities.

4.7 Other City Departments

- Providing support activities as outlined in the City EOP.

4.8 Other Organizations

- Organizations such as ODOT, OSP, and local hospitals may assign liaisons as points of contact within the City EOC for coordination and communication.

5 Concept of Operations

5.1 General

The City has established this EOP in accordance with NIMS and has designated the City Manager or his/her designee as the Emergency Manager. The Emergency Manager is responsible for developing and training an Emergency Management Organization capable of managing the response and recovery of a major emergency in accordance with the provisions of this plan.

Oregon Revised Statutes 401.305 and 401.335 give the City responsibility and authority to direct activities that will allow the City to mitigate, prepare for, respond to, and recover from emergencies or major disasters. The EOP may be implemented at the discretion of the Emergency Manager or Incident Commander.

FA 1. Emergency Services

Day-to-day supervision of the EOP is the responsibility of the Emergency Manager or his/her designee. If the EOC is activated, the EOC Manager (or designee) is responsible for organizing, supervising, and operating the EOC.

Some emergencies may require a self-triggered response. In the event of an emergency in which telephone service is interrupted, members of the Operations and General Staff should ensure the safety of their families and then report to the EOC.

Upon declaration of a State of Emergency, the City Manager assumes executive control over all City department and resources. In this circumstance, the City Manager has the authority to involve any or all City personnel in the response to a disaster or other emergency incident to the extent allowed by law. The declaration of an emergency nullifies leaves and vacations as deemed necessary by the Mayor or City Council.

Emergency contact information for the EOC staff is housed in the City Departments.

5.2 Emergency Communications

Baker County Consolidated Dispatch serves as the formal alert and warning and emergency message distribution point for the City. Emergency messages may be received via radio, telephone, or the Law Enforcement Data System and will be distributed according to departmental procedures. Messages that affect the overall emergency preparedness of the City, such as information about the movement of hazardous materials or weather alerts, will be distributed to the Police Department, Fire Department, and Emergency Manager. It is the responsibility of the Emergency Manager or Incident Commander to determine what further notifications should be made and actions taken in response to the message.

After normal working hours, Baker County Consolidated Dispatch Center will use the emergency contact list to contact responding department representatives. Once contact with the responding department's representative is made, it is the responsibility of that representative to determine and activate the appropriate departmental response and further contacts that must be made.

5.2.1 Alert and Warning

The effectiveness of an alert and warning system depends largely upon the specificity and clarity of instructions and upon whether the public perceives the warning entity as credible at the time the warning is issued. In addition, messages must be geographically precise, repeated more than once, and broadcast in any other available medium.

The City's alert and warning system utilizes City Siren, Local Radio Broadcast Reverse 911, and door-to-door contact. Police and fire vehicle public address systems and door-to-door contact are either last-resort or used for highly localized hazards. Other local media (TV, radio, newspaper, etc.) may be utilized as

FA 1. Emergency Services

appropriate. These methods may be used separately or in combination to alert and warn the public of an emergency. In addition, special facilities such as schools, hospitals, utilities, and industrial facilities may need notification. Contact information for these facilities is housed in the City Departments.

5.2.1.1 General Guidelines

- Upon detection of an emergency condition arising within the City, the Incident Commander will decide whether there is a need for immediate alert, attempt to notify the Emergency Manager, and direct appropriate implementation.
- If the emergency is localized, City law enforcement may alert residents in the area by telephone, mobile public address systems, and door-to-door contact.
- The City may promote educational campaigns about its alert and warning system.
- A log of warnings issued during the incident shall be maintained by the assigned Public Information Officer (PIO), and used to coordinate appropriate messages.

5.2.1.2 Emergency Alert System

The EAS consists of linked broadcast stations and governmental communication systems to provide emergency alert and warning to the public. The City's primary public broadcast station has been identified as KCMB (104.7 fm). All participating television and radio stations rebroadcast the information given to the primary station.

The County Reverse 9-1-1 notification system will also be used as part of the City EAS, including the option of the City siren.

Detailed instructions for the activation and use of the EAS are outlined in the Baker County EAS Plan. This plan can be activated by the Emergency Manager, or designee, or the Incident Commander. Sample EAS messages can be found in Appendix A-1 of this annex.

5.2.1.3 Other Methods of Alert

Most public safety vehicles are equipped with mobile or hand-held public address systems that may be used for alert and warning.

Door-to-door alert may be necessary in the event of a rapidly emerging incident that poses a clear threat to public safety. Residents may be directed to temporary shelter depending on the incident and the expected duration of the emergency.

Direction of these assets shall be the responsibility of the Incident Commander through the appropriate ICS Sections (Operations, Planning, and Logistics).

FA 1. Emergency Services

See the Baker County EOP, ESF 2 – Communications for more details.

5.2.2 Emergency Communications Systems

- Adequate communications are vital for effective and efficient warning, response, and recovery operations. Current communications may be degraded by a particular hazard occurrence.
- Equipment is available to provide communications necessary for emergency operations. To the greatest extent possible, landline and cellular telephones, pagers, and e-mail will be the primary system for notification of key officials and critical workers.
- The City will also post emergency public information on its website.
- Additional communications equipment required for emergency operations will be made available from amateur radio operators, citizens, businesses, and/or other governmental agencies (mobile repeater equipment may be available).

5.3 Fire Services

The primary fire services agency for the City is the City Fire Department.

Disaster operations for fire services will be an extension of normal agency and facility duties. Responsibilities include fire control, hazardous material and oil spill response, and radiological response. During emergency situations, fire service teams may also be assigned to perform additional emergency tasks, including providing fire protection for temporary shelters, assisting law enforcement personnel in route alerting, or going door to door to warn citizens who cannot be reached by primary warning systems.

A designated representative shall serve as the EOC Fire Protection Branch Director, coordinating the flow of fire and rescue information and processing requests for additional fire and rescue resources, granting them as appropriate.

Fire service personnel are responsible for assessing threat hazards posed by fire, radiological materials, and other hazardous materials. They also recommend to the Incident Commander appropriate protective actions for emergency responders, including requirements for personal protective equipment. In addition, fire service personnel are responsible for recommending appropriate protective actions to ensure public safety in the immediate vicinity of a threat.

The Fire Department is responsible for assessing and providing information to the public and for maintaining a link to the EOC, if appropriate. In the event of an evacuation, warning may be delegated to the Police Department as part of the evacuation process. In the event of a natural or technological disaster that could increase the chances of fire, or during periods of extremely hot, dry, and windy weather, additional public information briefings may be conducted.

FA 1. Emergency Services

See the Baker County EOP, ESF 4 – Firefighting for more details.

5.4 Emergency Medical Services

The Fire Department is the primary agency responsible for provision and coordination of emergency medical services in the City.

Emergency Medical Services (EMS) is a type of emergency service dedicated to providing out-of-hospital acute medical care and / or transport to definitive care, to patients with illnesses and injuries that the patient or the medical practitioner, believes constitutes a medical emergency. Disaster operations for EMS will be an extension of normal agency and facility duties. Coordination between EMS, search and rescue, and fire service providers is necessary to ensure emergency operational readiness. EMS will provide field medical care as needed during emergency situations and coordinate necessary medical transportation.

5.4.1 Mass Casualty Operations

A Mass Casualty Incident (MCI) is an incident where the City's ability to provide emergency medical services to injured victims is overwhelmed. This may include limited ambulance resources or hospital capacity.

In the event of an MCI, local EMS providers and medical facilities will conduct operations to provide immediate resources, to minimize the loss of life through prompt medical treatment in the field, and to coordinate field medical services and activities with existing medical facilities and other support services and resources.

5.4.2 Mass Fatality Operations

A Mass Fatality Incident (MFI) is an incident where an incident results in multiple fatalities and the City's ability to provide for appropriate body identification, removal and related services is overwhelmed.

In the event of an MFI, the County Medical Examiner, in coordination with local law enforcement, will be the primary agency and will be responsible for removal and examination of the deceased, notification of next of kin and determination of the need for investigation and/or autopsy or the release and disposition of remains.

See Baker County EOP, ESF 8 – Public Health and Medical Services for more details.

5.5 Search and Rescue

The Baker County Sheriff's Office is the primary agencies responsible for search and rescue operations and may provide assistance to the City if needed.

Search and rescue operations can involve several different scenarios, including:

FA 1. Emergency Services

- Rescuing survivors or recovering bodies from debris following a disaster such as a severe weather event or earthquake.
- Rescuing survivors or recovering bodies of plane crashes.
- Rescuing survivors or recovering bodies involved in accidents on waterways.

Regardless of the situation, search and rescue operations will likely be a multi-agency event involving responders from a number of local emergency response agencies, local volunteer organizations, and possibly State agencies (e.g. State Urban Search and Rescue team may be activated for assistance).

See the Baker County EOP, ESF 9 – Search and Rescue for more details.

5.6 Hazardous Materials Response

Hazardous materials response includes ensuring that actions are taken to mitigate, hazardous materials and minimize the impacts of incidents. The City Fire Department is the primary agency responsible for hazardous materials operations in the City. However, the Fire Department is only trained and equipped to the operations level, and response will be limited to site assessment and basic containment. Additional support through the OSFM Regional HazMat Team (Ontario/Hermiston) will be requested through the following process.

- The Fire Department will arrive on scene and size up the incident. If it is determined that the incident is beyond their level of training and equipment, the Incident Commander will request a team through the Oregon Emergency Response System (OERS) at 1-800-452-0311.
- OERS will notify the OSFM duty officer and other appropriate agencies. NOTE: The Fire Department may contact OSFM directly to request a response. However, even if they contact the team directly, the local responder will still need to contact OERS so that other appropriate notifications are made. All teams are authorized to respond to incidents meeting State response criteria without authorization from the OSFM duty officer.

When a Regional Hazardous Materials Team arrives on scene, its role is to provide technical resources to the Incident Commander. The Fire Department retains Incident Command. If the incident is large enough to require a Unified Command, the team leader becomes a part of that structure. The regional teams are responsible for mitigating and containing the incident. They do not become involved in clean-up operations. A full team may not respond in every instance. The system provides for a tiered response, ranging from technical advice over the phone to on-site reconnaissance, to a full team response.

The Oregon Department of Transportation can also provide hazardous materials response support for an incident occurring on the state highway.

FA 1. Emergency Services

See the County Hazardous Materials Response Plan and the Baker County EOP, ESF 10 – Oil and Hazardous Materials for more details.

5.7 Law Enforcement Services

Disaster operations for law enforcement will be an extension of normal agency and facility duties. Responsibilities include maintenance of law and order, traffic control, and crowd control. The City's primary law enforcement agency is the Police Department.

The City Police Chief is responsible for directing the City's law enforcement response to a major emergency and coordinating response activities with the EOC. The Chief, or a designated representative, will serve as the EOC Law Enforcement Branch Chief, coordinating the flow of law enforcement information, processing requests for additional law enforcement resources, and allocating them, as appropriate.

Law enforcement agencies will establish inner and outer perimeters as resources allow to secure a disaster scene. A strict policy of limited access to the disaster area will be rigidly enforced to ensure the safety and well-being of the community. All movement into and out of the area will be requested through the established command post.

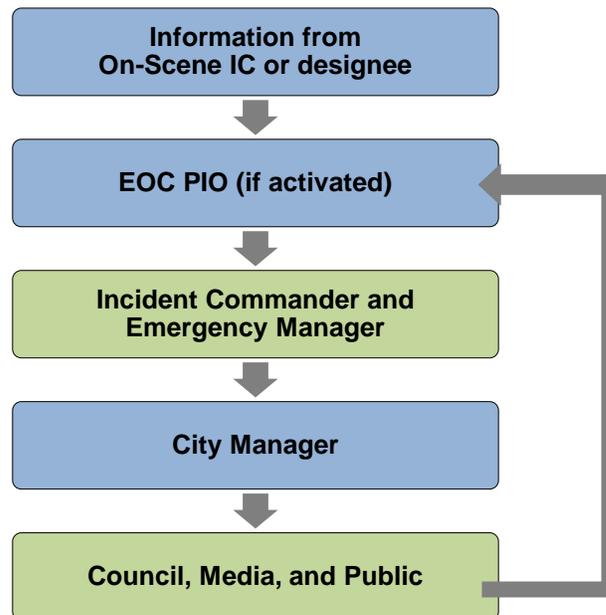

See the Baker County EOP, ESF 13 – Public Safety and Security for more details.

5.8 Emergency Public Information

The City PIO may be located in the Emergency Manager's Office until the EOC is activated. Once the EOC is activated, PIO functions are directed from the EOC, with news releases approved by the Emergency Manager and / or Incident Commander. In addition to formal news releases from the EOC PIO, the on-scene PIO can continue to provide information regarding response activities.

5.8.1 Information Flow

Incident information flow may be routed as follows.

Appendix A-2 of this annex contains guidelines for the release of information to the media.

5.8.2 Joint Information System

Providing timely and accurate public information during an emergency of any nature is critical to the overall response efforts. A Joint Information System (JIS) will be implemented in conjunction with the ICS and a local and / or regional Joint Information Center (JIC) will be established under Unified Command. During a regional or Statewide event, the City will ensure that procedures are coordinated with those implemented by State and regional PIOs.

Depending on the size and nature of an incident, the JIC may be co-located with an existing EOC / command post or could be designated as an independent facility. A lead PIO, representing the lead agency for the response, will be assigned to the incident and will:

- Coordinate information-sharing among the larger PIO network.
- Develop and distribute materials to the general public and media partners.
- Implement information clearance processes set by the Incident Commander.
- Schedule media briefings in a designated location away from the EOC and other emergency operations.

FA 1. Emergency Services**5.8.3 Media Briefing Facilities**

During an emergency, media briefing areas may be established in the closest available facility that is capable of handling the media briefings.

5.8.4 Media Access to the Scene

- In cooperation with the EOC and the Safety Officer, the Incident Commander may allow media representatives restricted access to the scene, accompanied by a member of the Public Information staff. This should be done with consideration of the safety of media personnel, the impact on response, and the wishes and concerns of the victims.
- If it is not safe or practical to admit all media representatives to the scene, a media “pool” may be created, in which media representatives select one camera crew to take video footage for all. If even such controlled access is impractical, a “staged” photo opportunity to tape response vehicles or support activities may satisfy the media’s need for video footage.
- Response personnel must be protected from unwanted media intrusion. Off-shift personnel should be provided uninterrupted rest. It may be necessary to provide security to facilities where response personnel are housed and disconnect the telephones to ensure privacy.
- Victims and families should be provided access to public officials without having to face media, as appropriate.
- The media may be allowed access to response personnel, at the discretion of the Incident Commander, only if such an interview does not interfere with the response effort.
- Response personnel will not comment on the incident without the consent of the Incident Commander. Inquiries should be directed to the designated PIO, with approval of the IC and the department of jurisdiction.

5.9 Evacuation and Population Protection

The City Emergency Manager, or the Incident Commander may order an evacuation. The City Manager must be notified of the evacuation to consider both the legal and social implications of this action. If, however, for the health and safety of citizens, time does not permit access to the City Manager, the Emergency Manager or Incident Commander may order an evacuation and notify the City Manager as soon as practical. See Appendix B-1 of this annex for a sample evacuation order.

Overall, evacuation operations fall under the direction of the City Police Department. However, if the evacuation area is contaminated by hazardous materials, the evacuation will be conducted by the Fire Department in

FA 1. Emergency Services

coordination with Police. See Appendix B of this annex for further details regarding evacuation protocol. Alert and warning functions coordinated with Consolidated Dispatch Center notify affected persons of impending evacuations.

5.9.1 Identification of Need

Not all emergencies requiring protective action on the part of the public necessitate evacuation. The City Emergency Manager or Incident Commander must weigh the risks of leaving the population unprotected against the risks of sheltering in place or evacuating. Before an evacuation can be implemented, the following activities must be performed:

- Identify high-hazard areas, including those that may be impacted if the incident escalates or conditions change.
- Identify potential evacuation routes, their capacities, and their vulnerability to the hazard (see Appendix B-5 of this annex for the City's evacuation plan).
- Alert and warn the public at risk. Include specific information about the risk, the protective actions that need to be taken, and the possible risks of non-compliance.

5.9.2 Determination of Time Needed for Evacuation

To determine evacuation time requirements, the following factors should be considered:

- Time from response to decision to evacuate.
- Time needed to alert and instruct the public, depending upon the time of day and other factors.
- Time needed to mobilize the population, once warned.
- Time required to evacuate the hazard area.
- Availability of appropriate shelter.

5.9.3 Sheltering in Place

If sufficient time is not available to evacuate and / or the nature of the incident makes evacuation unsafe, Incident Command may choose to direct those in the affected area to shelter in place. Sheltering in place restricts affected people to their current locations. Other restrictions may also be necessary (see Appendix A-1 of this annex for EAS message format).

See the Baker County EOP, ESF 15 – External Affairs for more details on communicating the direction to shelter in place.

6 Annex Development and Maintenance

The City Manager or designee is responsible for regular review and maintenance of this annex. To ensure that City personnel are familiar with their roles in providing emergency services, the City will incorporate elements of emergency services into its training and exercise program.

7 Supporting Plans and Procedures

The following documents support emergency services for the City:

Baker County

Appendix A-1 Emergency Alert System Templates**EVACUATION:**

The City of Baker City is managing a(n) _____ emergency. A State of Emergency has been declared. The Incident Command and Baker City Manager are requesting the immediate evacuation of the area between _____ on the east, on the west, _____ on the north and _____ on the south due to _____. Please take medications, and personal hygiene supplies with you and evacuate to (a point) _____ by traveling _____. Failure to evacuate may result in life endangerment. The American Red Cross is opening shelters for those affected by the evacuation at _____. If you need help evacuating your home, please signal emergency workers by placing a white cloth on your front door or calling the City at _____.

SHELTER IN PLACE:

The Incident Command and Baker City Manager are urging citizens for the area between _____ on the east, _____ on the west, _____ on the north and _____ on the south _____ south to take the following protective actions due to _____. Stay indoors with all windows closed. If you must go outdoors for any reason, _____. Failure to follow these instructions may result in damage to _____. Please stay tuned to this station for further details.

FA 1. Emergency Services

Appendix A-2 Guidelines for Release of Information to the Media

The following guidelines shall be used in evaluating and releasing information concerning the incident:

1. Accurate information will be provided to the media. Facts that can be confirmed should be released as soon as possible. If little information is available, the following statement should be issued:

“We are aware that an (incident/accident) involving (type of incident) occurred at approximately (time), in the vicinity of (general location). Emergency crews are responding, and we will have additional information available as we are able to confirm it. We will hold a briefing at (location), and will alert the media at least 1/2 hour prior to the briefing. At this time, the briefing is the only place where officials authorized to speak about the incident and confirmed information will be available. Thank you for your assistance.”

2. Emergency information dissemination should be restricted to approved, specific, and verified information concerning the incident and should include:
 - a. Nature and extent of emergency occurrence.
 - b. Impacted or potentially affected areas of the City.
 - c. Advice on emergency safety procedures, if any.
 - d. Activities being conducted by the City to combat the hazardous conditions or mitigate the effects.
 - e. Procedures for reporting emergency conditions to the EOC.
3. Information concerning the incident should be consistent for all members of the media.
4. Information should be presented in an objective manner.
5. Rumor control is vital during emergency operations. Sensitive or critical information must be authorized and verified before release. Unconfirmed rumors or information from unauthorized sources may be responded to in the following manner:

“We will not confirm _____ until we have been able to check out the information through authorized sources. Once we have confirmed information, we will release it to all members of the press at the same time.”

FA 1. Emergency Services

6. Information that media representatives often request includes:
 - a. Emergency: What is it?
 - b. Location: Where is it?
 - c. Time: When did it occur? How long will it last?
 - d. Fatalities: Are there any? How many?
 - e. Injuries: Are there any? How Many? What is the nature of the injuries?
 - f. Injured: Where are they being treated? Where can family members call to get information?
 - g. Involved agencies: What agencies responded? How many? What level of involvement do they have?
7. Do not release information that might hinder emergency response, prejudice the outcome of an investigation, or pose a further threat to public safety. Examples include:
 - a. Personal conjecture about the course of the emergency or the conduct of response.
 - b. Opinions about evidence, or a suspect or defendant's character, guilt, or innocence.
 - c. Contents of statements used in alibis, admissions, or confessions.
 - d. References to the results of various tests and examinations.
 - e. Statements that might jeopardize the testimony of witnesses.
 - f. Demeaning information/statements.
 - g. Information that might compromise the effectiveness of response and recovery.
8. In an incident involving fatalities, the names of the victims or the cause of death shall not be released without authorization from the District Attorney's and Medical Examiner's office.
9. Confidential information is not to be released. This includes home phone numbers of City personnel, volunteer emergency workers, and any unpublished fire stations and City telephone numbers.
10. Public information briefings, releases, interviews, and warnings shall be logged and tape-recorded. Copies shall become part of the final incident package.
11. Do not commit to firm briefing times unless it is certain these times can be kept.

- B-3 Evacuation Plan

THIS PAGE LEFT BLANK INTENTIONALLY

THIS PAGE LEFT BLANK INTENTIONALLY

Appendix B-2 Evacuation Checklist

✓	Action Item	Assigned
	PLANNING:	
	1. Determine area(s) at risk: <ul style="list-style-type: none"> ▪ Determine population of risk area(s) ▪ Identify any special facilities and functional needs populations in risk area(s) 	
	2. Determine evacuation routes for risk area(s) and check the status of these routes.	
	3. Determine traffic control requirements for evacuation routes.	
	4. Estimate public transportation requirements and determine pickup points.	
	5. Determine temporary shelter requirements and select preferred shelter locations.	
	ADVANCE WARNING:	
	6. Provide advance warning to special facilities and advise them to activate evacuation, transportation, and reception arrangements. Determine if requirements exist for additional support from local government.	
	7. Provide advance warning of possible need for evacuation to the public, clearly identifying areas at risk.	
	8. Develop traffic control plans and stage traffic control devices at required locations	
	9. Coordinate with special facilities regarding precautionary evacuation. Identify and alert functional needs populations.	
	10. Ready temporary shelters selected for use.	
	11. Coordinate with transportation providers to ensure that vehicles and drivers will be available when and where needed.	
	12. Coordinate with school districts regarding closure of schools.	
	13. Advise neighboring jurisdictions that may be affected of evacuation plans.	
	EVACUATION:	
	14. Advise neighboring jurisdictions that an evacuation recommendation or order will be issued.	
	15. Disseminate the evacuation recommendation or order to special facilities and functional needs populations. Provide assistance in evacuating, if needed.	
	16. Disseminate evacuation recommendation or order to the public through available warning systems, clearly identifying areas to be evacuated.	

FA 1. Emergency Services

✓	Action Item	Assigned
	17. Provide amplifying information to the public through the media. Emergency public information should address: <ul style="list-style-type: none"> ▪ What should be done to secure buildings being evacuated ▪ What evacuees should take with them ▪ Where evacuees should go and how they should get there ▪ Provisions for functional needs population and those without transportation 	
	18. Staff and open temporary shelters	
	19. Provide traffic control along evacuation routes and establish procedures for dealing with vehicle breakdowns on such routes.	
	20. Provide transportation assistance to those who require it.	
	21. Provide security in or control access to evacuated areas.	
	22. Provide situation reports on evacuation to the County.	
RETURN OF EVACUEES		
	23. If evacuated areas have been damaged, reopen roads, eliminate significant health and safety hazards, and conduct damage assessments.	
	24. Determine requirements for traffic control for return of evacuees.	
	25. Determine requirements for and coordinate provision of transportation for return of evacuees.	
	26. Advise neighboring jurisdictions that return of evacuees will begin.	
	27. Advise evacuees through the media that they can return to their homes and businesses; indicate preferred travel routes.	
	28. Provide traffic control for return of evacuees.	
	29. Coordinate temporary housing for evacuees that are unable to return to their residences.	
	30. Coordinate with special facilities regarding return of evacuees to those facilities.	
	31. If evacuated areas have sustained damage, provide the public information that addresses: <ul style="list-style-type: none"> ▪ Documenting damage and making expedient repairs ▪ Caution in reactivating utilities and damaged appliances ▪ Cleanup and removal/disposal of debris ▪ Recovery programs 	
	32. Terminate temporary shelter and mass care operations.	
	33. Maintain access controls for areas that cannot be safely reoccupied.	

Appendix B-3 Evacuation Plan

In the event of an evacuation in the City:

1. All City employees not directly involved in the incident shall be available for traffic control and direction.
2. The City has the authority to close local roads and to restrict access to and from all areas of the City.
3. Roads under the jurisdiction of the Oregon Department of Transportation (ODOT) would be authorized for closure by the ODOT District Manager; in the case of a crime or fire, the authority includes the Oregon State Police.
4. The City Police Department has the authority to remove stalled and parked vehicles that impede the flow of traffic.
5. Traffic flow direction may be altered, reversed, etc. at the direction of the Incident Commander when the situation warrants.
6. Changes in traffic flow will be coordinated with the County Sheriff, Oregon State Police, ODOT, and City of Baker City Public Works.

Supporting Agencies	Baker City Emergency Management Baker City Fire Department Baker City Police Department Baker City Public Works Department Baker School District Baker County Health Department Local Volunteer and Faith-Based Organizations Humane Society

1 Purpose and Scope

This annex provides information regarding the City’s response to the needs for mass care / sheltering, human services, and public health support for victims of natural and technological emergencies and disasters. It outlines basic roles and responsibilities for primary agencies, provides a concept of operations to assist the City in coordinating emergency services, and references related authorities, agreements, and supporting plans. The City Emergency Management Organization, as outlined in the Basic Plan of this Emergency Operations Plan (EOP), is designed to provide support to local human services agencies through assistance in accessing needed resources and coordination in more complex incidents and events. Nothing in this annex is meant to replace or supersede the standard operating procedures of local response agencies.

This annex covers the following functions:

- Mass Care;
- Emergency Assistance;
- Housing;
- Human Services;
- Public Health Services; and
- Care of Emergency Response Personnel and Emergency Operations Center (EOC) Staff.

For larger events that may require short- or long-term housing for disaster victims, County Emergency Management coordinates this need with the City Emergency Manager. Emergency shelter includes the use of pre-identified shelter sites in existing structures, creation of temporary facilities or shelters, and use of other facilities outside the incident area, should evacuation be necessary.

FA 2. Human Services

Food is provided to victims through a combination of fixed sites, mobile feeding units, and bulk distribution. Emergency first aid, consisting of basic first aid and referral to appropriate medical personnel and facilities, is provided at mass care / sheltering facilities. Bulk distribution of emergency relief items such as food, water, and ice is managed and coordinated via established sites within the City. Some situations may require coordination and management of volunteer services and donated goods to maximize benefits without hindering response activities.

The City's Emergency Management Organization will also work with local service providers and advocacy groups to ensure that populations with access and functional needs are addressed in City emergency planning efforts. Access and functional needs populations describes members of the community who experience physical, mental, or medical care needs, and that may require assistance before, during, and after an emergency incident after exhausting their usual resources and support network. Agencies who serve certain segments of the populations (e.g. elderly, developmentally disabled) will be responsible for developing plans to address their clients and may be asked to support City emergency operations as appropriate.

Baker County is currently developing plans and procedures to address access and functional needs populations. The City will engage in that planning process as appropriate.

2 Policies and Agreements

A formal agreement between the American Red Cross (Red Cross) and the City for shelter operations and mass care services is in development. The agreement will be primarily implemented by the Red Cross when activated by County request.

3 Situation and Assumptions

3.1 Situation

Emergencies or disasters can necessitate evacuation of people from residences that are temporarily uninhabitable, damaged, or destroyed. Providing for these victims will consist of making facilities and services available and coordinating activities with government agencies and volunteer disaster assistance organizations. Emergency shelter or housing needs may be short or long term. When such needs arise, it is the responsibility of the City to work in conjunction with the Baker County Emergency Management and with the various human service agencies to, the extent of capabilities, meet them.

3.2 Assumptions

- Although City government has primary responsibility for implementing and coordinating the resources and services included in this annex, the Red Cross will manage and coordinate sheltering and

FA 2. Human Services

mass care operations to the extent of its capability. The Salvation Army may support these operations, and other professional and/or volunteer organizations (e.g., faith-based organizations) that normally respond to emergency/disaster situations may also be involved.

- The Red Cross will have agreements in place for use of specific shelters that could be activated by calling the local Red Cross representative. These shelters may be used for specific events associated with the City and County, as well as housing evacuees from neighboring counties if the need arises.
- Permission to use Red Cross–approved facilities for disaster operations and sheltering will be obtained and agreed upon in writing. Pre-identified facilities intended for shelter and mass care may be available and operational as time allows.
- Assistance will be available through mutual aid agreements with the County, other counties, other regions, and State and Federal emergency agencies and organizations.
- Unique demands will be placed on the delivery of human services, including crisis counseling, emergency assistance, and the care of access and functional needs groups. As a consequence, the clientele groups of both local and State human service organizations will increase. Services may be impacted or limited in some cases.
- Under localized emergency conditions, a high percentage of evacuees will seek lodging with friends or relatives rather than go to established facilities.
- If the threat of an evacuation is due to a visible hazard or has been discussed in the media, some spontaneous evacuation will occur prior to an implementing order. Therefore, mass care operations may have to commence early in any disaster period.

4 Roles and Responsibilities

The roles and responsibilities for each department in support of emergency services will vary depending on the type of resource, the length of the warning period, and the duration of the incident.

4.1 City and County Emergency Management

- Coordinating emergency preparedness planning and exercise activities with the Red Cross.
- Identifying local government’s authority, responsibility, and role in providing long-term temporary emergency housing for disaster victims.

FA 2. Human Services

- Assessing the situation and issuing appropriate notifications to activate and staff the EOC, including notification of the Red Cross, if it is determined that a representative is needed to coordinate emergency food and shelter.
- Establishing a communications link with agencies, departments, volunteer groups, and the public to ensure that they are kept informed of available shelters.
- Assisting in coordinating logistics to support operations and ensure that the provisions of any memorandum of understanding (MOU) are implemented, as necessary.
- Coordinating with local, State, and Federal agencies in damage assessment and cost recovery activities, as well as identify long-term temporary emergency housing options.
- Ensuring that necessary communication activities are conducted to inform the public of disaster recovery activities, including information regarding long-term temporary emergency housing assistance.
- Continuing to assist in restoration of normal services and operations, as appropriate.
- Conducting an after action debriefing/evaluation regarding the overall effectiveness of the City's efforts in providing emergency food and shelter.

4.2 American Red Cross

It is not the intent of the City to supplant the Red Cross as the primary provider and coordinator of emergency housing, sheltering, and feeding services; however, the City is not relieved of its obligation for the welfare of its citizens in times of emergencies, as outlined in Chapter 401 of the Oregon Revised Statutes.

The American Red Cross may be responsible for the following actions in support of an emergency:

- Developing and maintaining plans, procedures, and policies for establishing, managing, and operating a feeding and sheltering system to meet the needs created by a major disaster.
- Developing and maintaining MOUs with local governments to define and clarify roles and responsibilities in preparing for and responding to disasters.
- Participating in the annual training and/or exercises conducted by the City Emergency Management Organization to test the EOP.

FA 2. Human Services

- Implementing the response actions outlined in the MOU with the City, as necessary.
- Evaluating the direct or indirect effects of the hazard on available shelter resources.
- Providing specific resource requirements, including feeding support, clothing and bedding supplies, emergency registration of people, and trained shelter management volunteers.
- Coordinating activities with voluntary organizations active in disaster; faith-based organizations; other social service agencies; and local, State, and Federal government to provide emergency food and shelter.
- Assisting the City in determining post-emergency needs for long-term emergency temporary housing, as requested.
- Communicating the capability and location of shelter facilities and make arrangements for returning them to normal use.
- Compiling a record of emergency expenditures.
- Critiquing the provision of shelters for people displaced from their residences and institute reforms, as required.

4.3 Baker City Fire Department

- Providing personnel, supplies, materials, and facilities as available in support of this function.
- Establishing a shelter EMS support as available.
- Providing fire and line safety inspections in conjunction with Oregon State Fire Marshall Office, as appropriate.

4.4 Police Department

The Police Department may be responsible for the following actions in support of an emergency:

- Assisting with shelter security and communications.

4.5 Baker County Emergency Management

Baker County Emergency Management may be responsible for the following actions in support of an emergency:

- Establishing a liaison with ECC.
- Providing liaison with American Red Cross.

FA 2. Human Services

- Assisting in dissemination of public information in coordination with the City PIO.
- Maintaining a list of available shelters in the County.

4.6 Baker County Health Department

The County Health Department may be responsible for the following actions in support of an emergency:

- Upon request, screening shelter residents and visitors for communicable diseases with establishment of a POD (point of distribution).
- Establishing and monitoring isolation space.
- Providing staff and supplies for immunizations as directed by the medical officer.
- Providing advice on sanitation measures for emergency food and water.
- Monitoring garbage and waste disposal.

4.7 School District

The School District may be responsible for the following actions in support of an emergency:

- Providing shelter locations as available.
- Providing other resources such as transportation, buses, staff etc.

5 Concept of Operations**5.1 General**

The City Council has overall responsibility for ensuring the welfare of citizens and visitors within the City during an emergency or disaster. In cooperation with available volunteer disaster assistance organizations, the City Emergency Manager or designee will ensure the provision of basic human services. Disaster victims will be encouraged to obtain housing with family or friends or in commercial facilities. To the greatest extent possible, the City will assist and coordinate the post-disaster housing needs of the homeless. While coordinated City / Red Cross decision-making is desirable, the Red Cross may independently initiate operations. The Salvation Army and other charitable groups (e.g., faith-based organizations) may provide additional support for disaster victims.

In the case of unmet needs, the Emergency Manager will make requests for County assistance via the EOC to County Emergency Management. Some

FA 2. Human Services

emergencies will not entail mass care assistance but will still require a limited amount of emergency assistance.

Initial preparedness efforts may begin with identification of population groups requiring special assistance during an emergency (e.g., senior citizens and the handicapped). Needs should be matched to capabilities and resources, and any gaps should be addressed through planning, training, and exercises. When an incident occurs and evacuation is required, preparations will begin for receiving evacuees at selected facilities. Essential personnel, including volunteers, will be alerted; pre-positioned material resources (cots, blankets, food, etc.) will be made ready; and medical facilities will be alerted to the possibility of receiving evacuee patients. Participating agencies will provide food and clothing as needed, assist with registration of evacuees/victims, and provide information to assist victims needing additional services. Once the incident transitions to the recovery phase, the human needs of victims should be continually assessed and met as necessary via one or more recovery centers.

5.2 Mass Care

Mass care includes the registration of evacuees, the opening and management of temporary lodging facilities, and the feeding of evacuees and workers through both mobile and fixed feeding sites. The Red Cross will assist in registering evacuees and, as applicable, will coordinate information with appropriate government agencies regarding evacuees housed in Red Cross shelters.

5.2.1 Shelter

Protective shelters are life-preserving; they are designed to afford protection from the direct effects of hazard events and may or may not include the life-supporting features associated with mass care facilities. In contrast, mass care facilities are life-supporting; they provide protection from the elements and basic life-sustaining services when hazard events result in evacuations. The latter category of facilities is the focus of this annex and is designated as Reception and Care facilities in local Red Cross sheltering plans.

The designation of specific lodging and feeding facilities will depend on the actual situation and the location of the hazard area. Public school facilities may receive prime consideration for use as emergency mass care facilities; such use will be coordinated with school officials. Selected facilities will be located far enough from the hazard area to preclude the possibility of the threat extending to the mass care facility. Agreements for use of some facilities have been obtained by the Red Cross. The City Manager or designee will obtain permission from owners to use other facilities as required. When Red Cross facilities are opened, the Red Cross will be responsible for maintaining all functions and staffing according to Red Cross policy. The Red Cross will maintain listings of qualified and trained shelter and lodging facility managers.

Options for temporary shelter available to the City during the first 72 hours of an incident may include:

FA 2. Human Services

- Predetermined sheltering sites and supplies available through the Red Cross.
- General purpose tents may be available through the Emergency Management and requested by County EOC.
- If a State or Presidential Declaration has been made, additional temporary dwellings or structures requested through the Oregon Emergency Management or the Federal Emergency Management Agency may be available.

A designated member of the City EOC staff may serve as the City Shelter Coordinator. Services will be provided through the coordinated efforts of staff members, the Red Cross, the Salvation Army, other State-supported agencies, volunteer agencies, and mutual-aid agreements with various support groups. Law enforcement agencies will provide security at shelter facilities, where possible, and will also support back-up communications, if needed.

Food will be provided to victims through a combination of fixed sites, mobile feeding units, and bulk distribution. Feeding operations are based on nutritional standards and, if possible, should include meeting dietary requirements of victims with special dietary needs. The Red Cross will be responsible for meal planning, coordination of mobile feeding, and identifying feeding sites and resources for the procurement of food and related supplies. The Red Cross will coordinate all mass feeding and other services needed at open shelters within the City's jurisdiction with City Emergency Management via the City or County activated EOC.

Shelter / lodging facility managers will be responsible for the operation of their individual facilities. The primary communications link between shelter facilities and the EOC will be landline and cellular phones. If telephones cannot be used or are overloaded, Baker County 9-1-1 mobile communication equipment may provide radio assistance. Shelter facility managers should arrange for persons in their facilities to monitor prescribed communication sources for guidance and announcements.

5.2.2 Sheltering Service and Companion Animals

The City, the Red Cross, and other organizations or groups providing sheltering and mass care will comply with Americans with Disabilities Act (ADA) requirements for service animals, with the facility owners' limitations, and with County and State of Oregon Health Code requirements.

However, pets are not allowed in Red Cross shelters. Depending on the emergency, evacuees may be requested to provide food and water for pets prior to leaving their homes, or they may take small animals to a pet care facility at their own direction and expense. The American Red Cross is in the process of developing an agreement to coordinate with local facilities to support sheltering of pets in concert with Red Cross shelters.

5.2.3 Bulk Distribution

Emergency relief items to meet urgent needs are distributed via established sites within the affected area. Distribution of food, water, and ice through Federal, State, and local governmental entities and non-governmental organizations is coordinated at these sites. The Red Cross will coordinate all bulk distribution activities needed within the City's jurisdiction with the City Emergency Manager or designee via the City or County EOC.

Agencies and organizations involved in supporting and managing bulk distribution may include, but not limited to:

- City Manager's Office;
- Red Cross;
- Salvation Army;
- Private sector partners and faith-based organizations; and
- Disaster assistance personnel, paid, and volunteer staff.

5.3 Emergency Assistance

5.3.1 Disaster Welfare Information

Disaster Welfare Information collects and provides information regarding individuals residing within the affected area to immediate family members outside the affected area. The system also aids in reunifying family members within the affected area. The Red Cross will establish a Disaster Welfare Inquiry Operation to answer requests from relatives and friends concerning the safety and welfare of evacuees or those in disaster areas. Welfare inquiry listings, along with registration listings, will be coordinated with the EOC and law enforcement agencies for comparison with missing persons lists. County Amateur Radio Emergency Services provides support to the Red Cross and City Emergency Management in gathering, disseminating, and managing disaster welfare information.

5.3.2 Disaster Resource Center(s)

Upon a Presidential disaster declaration, a Disaster Resource Center (DRC) may be established. In addition to numerous grant and assistance programs available through the DRC, the Individual and Family Grant Program provides grants to meet disaster-related necessary expenses or serious needs for which assistance by other means is either unavailable or inadequate.

Logistics Section personnel may be called upon to arrange a large facility (often a school, church, or community center) to serve as a DRC. The Federal Emergency Management Agency is responsible for operating Disaster Recovery Centers, which are often located in facilities such as schools, churches, and community

FA 2. Human Services

centers. A DRC provides a location where citizens can meet with local, State, Federal, and volunteer agency representatives to apply for disaster assistance. Advertising of these facilities will be coordinated by the Public Information Officer (PIO) through the Joint Information Center (JIC), located in the Federal/State disaster field office. Federal, State, local, and volunteer agencies may provide or accept applications for the following services through the DRC:

- Temporary housing for disaster victims whose homes are uninhabitable as a result of a disaster;
- Essential repairs to owner-occupied residences in lieu of temporary housing so that families can return to their damaged homes;
- Disaster unemployment and job placement assistance for those unemployed as a result of a major disaster;
- Disaster loans to individuals, businesses, and farmers for refinancing, repair, rehabilitation, or replacement of damaged real and personal property not fully covered by insurance;
- Agricultural assistance payments, technical assistance, and Federal grants for the purchase or transportation of livestock;
- Information regarding the availability of and eligibility requirements for food stamps;
- Individual and family grants to meet disaster-related expenses and other needs of those adversely affected by major disasters when they are unable to meet such needs through other means;
- Legal counseling to low-income families and individuals;
- Tax counseling concerning various disaster-related benefits;
- Consumer counseling and assistance in obtaining insurance benefits;
- Crisis counseling and referrals to mental health agencies to relieve disaster-caused mental health problems;
- Social Security assistance for those who are eligible, such as death or disability benefits or monthly payments; and
- Veterans' assistance such as death benefits, pensions, insurance settlements, and adjustments to home mortgages held by the Veterans Administration (VA) if a VA-insured home has been damaged.
- Other specific programs and services appropriate to the disaster.

FA 2. Human Services

Logistics may also arrange office space, document reproduction services, etc. for State and Federal damage assessment teams.

If Federal mobile homes are to be supplied for use as emergency shelters, the Logistics Section may assist in site choice and preparation consistent with the City's local comprehensive land use plan.

5.4 Long-Term Housing

All housing needs identified during and following emergency incidents or disasters impacting the City will be coordinated through the County Emergency Manager via the County EOC. In some disaster situations, the Federal government may be requested to provide emergency housing. Disaster victims will be encouraged to obtain housing with family or friends, or in commercial facilities. To the greatest extent possible, local and County government will coordinate post-disaster housing needs for the homeless population.

5.5 Human Services**5.5.1 Behavioral Health**

The City relies on organizations such as e.g. Mountain Valley Mental Health for providing behavioral health services during a disaster. Details regarding the provision of these services is provided in the County EOP.

Additional agencies and organizations involved with providing crisis counseling and mental health support to victims and families, the first responder community, and Access and Functional Needs Populations include:

- Area hospitals;
- County and regional volunteer organizations; and
- Local nursing homes and care facilities.

See the Baker County EOP, ESF 6 – Mass Care, Emergency Assistance, Housing, and Human Services for more details.

5.5.2 Access and Functional Needs Populations

The needs of children and adults who experience disabilities and others who experience access and functional needs should be considered during emergency planning as directed by policy makers and according to State and Federal regulations and guidance. The City will seek the assistance from human service agencies or organizations to assist in coordinating the emergency housing, sheltering, and feeding of Access and Functional Needs Populations. The following is a detailed description of the types of support individuals within each functional need category may require:

FA 2. Human Services

- **Maintaining Independence.** Individuals requiring support to be independent in daily activities may lose this support during an emergency or a disaster. Such support may include consumable medical supplies (diapers, formula, bandages, ostomy supplies, etc.); durable medical equipment (wheelchairs, walkers, scooters, etc.); service animals; and/or attendants or caregivers. Supplying needed support to these individuals will enable them to maintain their pre-disaster level of independence.
- **Communication.** Individuals who have limitations that interfere with the receipt of and response to information will need that information provided in methods they can understand and use. They may not be able to hear verbal announcements, see directional signs, or understand how to get assistance due to hearing, vision, speech, cognitive, or intellectual limitations, and/or limited English proficiency.
- **Transportation.** Individuals who cannot drive or who do not have vehicles may require transportation support for successful evacuation. This support may include accessible vehicles (e.g., vehicles with lift equipment or oxygen facilities) or information about how and where to access mass transportation during an evacuation.
- **Supervision.** Before, during, and after an emergency, individuals may lose the support of caregivers, family, or friends or may be unable to cope in a new environment (particularly if they have dementia, Alzheimer's disease, or psychiatric conditions such as schizophrenia or intense anxiety). If separated from their caregivers, young children may be unable to identify themselves, and when in danger, they may lack the cognitive ability to assess the situation and react appropriately.
- **Medical Care.** Individuals who are not self-sufficient or who do not have adequate support from caregivers, family, or friends may need assistance with managing unstable, terminal, or contagious conditions that require observation and ongoing treatment; managing intravenous therapy, tube feeding, and vital signs; receiving dialysis, oxygen, and suction administration; managing wounds; and operating power-dependent equipment to sustain life. These individuals require the support of trained medical professionals.

5.5.2.1 Children and Disasters

Planning and preparing for the unique needs of children is of utmost concern to the City and, whenever possible, the City will consider preparedness, evacuation, and shelter operations, and public outreach and education activities that identify those issues particular to children. In particular, these issues may include:

FA 2. Human Services

- **Preparedness.** Preparedness activities that relate to the needs of children. This includes involving members of the community familiar with children's issues.
- **Evacuation.** Identifying where children are located (schools, daycares) and how they will be evacuated.
- **Shelter.** Identifying resources for diapers, formula, and food appropriate for all ages; portable cribs and playpens; and staffing resources needed to supervise unaccompanied children.
- **Public Outreach and Education.** Promoting personal preparedness among families with children as well as at local schools and daycares.

5.5.2.2 Household Pets and Service Animals

Whenever possible, the City will consider preparedness, evacuation, shelter operations, and public outreach and education activities that identify issues particular to household pets and service animals. These issues may include:

- **Preparedness.** Preparedness activities that relate to the needs of household pets and service animals. This includes involving members of the community familiar with pet and service animal issues.
- **Shelter.** Identifying resources for food and crates, as well as staffing resources needed to supervise household pets.
- **Public Outreach and Education.** Promoting personal preparedness among families with pets as well as at local pet rescue agencies.

5.5.2.3 Managing, Transportation and Communicating

Agencies and organizations involved in managing, transporting, and communicating with Access and Functional Needs Populations during an emergency and pertaining to mass care include:

- Area hospitals.
- Private clinics and care facilities.
- School districts.
- Local radio stations serving the City.

Nursing homes and residential care facilities are required to have disaster and emergency plans in place that ensure the transfer of clients to appropriate facilities.

FA 2. Human Services

5.5.2.4 Programs in Place

The City has the following programs in place for access and functional needs populations:

- Telecommunications device for the deaf (TDD) / text phone (TTY) contact and captioned cable alert for hearing-impaired persons is located at [location].
- Oregon State Fire Marshall does routine fire inspections of adult assisted living facilities, rest homes, nursing homes and hospitals. Transportation assistance for people who experience physical disabilities, through Community Connections and school buses.
- Emergency Public Notification System ("Reverse 9-1-1")

To learn more about the Federal Emergency Management Agency's Office of Disability Integration and Coordination and the Functional Needs Support Services Guidance, visit <http://www.fema.gov/about/odic/>.

5.6 Public Health Services

The Baker County Health Department provides public health and welfare services to all citizens within the County. Contact with the Department during a major emergency will be through Baker County Emergency Management.

The Health Department is responsible for developing plans to address how public health personnel plan for, respond to, and recover from all hazards that may impact public health, including communicable disease, pandemic scenarios, chemical incidents, radiological incidents, and bioterrorism. The department maintains a comprehensive plans and guidelines for public health personnel responding to a public health incident in the County.

County public health administrators are charged with the strict and thorough enforcement of the public health laws of Oregon. As part of their duties, they may enact protective public health measures on matters relating to the preservation of life and health of the people of the State. In addition to naturally occurring pandemics, a bioterrorism event may be the most challenging experience the public health arena will ever face. The control of such an epidemic requires a coordinated effort of public health services, public safety agencies, and emergency management organizations traditionally lacking in integrated operations.

The Health Department will request emergency medical, health and welfare services not available in the County from the Oregon Health Authority.

See the Baker County EOP, ESF 8 – Public Health and Medical Services for more details.

5.7 Care of Response Personnel and EOC Staff

Arrangements for the feeding and sheltering of EOC staff is the responsibility of the Logistics Section. As space allows, EOC staff may sleep and eat at the EOC. Sleeping areas may also be set up in other facilities.

Response personnel may be released to their homes or stations to sleep. If necessary, space may be arranged in a shelter. This shelter should be different than the one used for disaster victims or evacuees.

Families of response personnel may be sheltered together in the event of an extended incident involving a major shelter operation. This will facilitate keeping families informed and help maintain the morale of response personnel.

6 Annex Development and Maintenance

The City Emergency Manager or designee is responsible for regular review and maintenance of this annex. To ensure that City staff are familiar with their roles in providing human services, the City will incorporate elements of human services into its training and exercise program.

7 Supporting Plans and Procedures

The following documents support human services for the City:

Baker County

- Baker County Emergency Operations Plan
 - ESF 6 – Mass Care, Emergency Assistance, Housing, and Human Services
 - ESF 8 – Public Health and Medical Services
 - ESF 11 – Agriculture and Natural Resources
 - ESF 14 – Long-Term Community Recovery

State of Oregon

- State of Oregon Emergency Operations Plan and ESFs

Federal

- National Response Framework and ESFs

8 Appendices

- None at this time.

FA 3. Infrastructure Services

FA 3 Tasked Agencies	
Primary Agencies	Baker City Public Works Department
Supporting Agencies	Baker City Emergency Management Baker City Fire Department Baker City Police Department Baker County Emergency Management Baker County Road Department Baker County Assessor’s Office Baker County Sheriff’s Office Oregon Department of Transportation Local Utilities: Water: Baker City Public Works Department Sewer: Baker City Public Works Department Electricity: OTECC Gas: Williams, Cascade Telephone(s): Century Link, Verizon, U.S. Cellular Internet: Windwave, TheGeo.net, Century Link, Verizon

1 Purpose and Scope

This annex provides information regarding the coordination of infrastructure, public works, damage assessment, and engineering services during all phases of emergency management. It outlines basic roles and responsibilities for primary agencies, provides a concept of operations to assist the City in coordinating emergency services, and references related authorities, agreements, and supporting plans. The City Emergency Management Organization, as outlined in the Basic Plan of this Emergency Operations Plan (EOP), is designed to provide support to local infrastructure services agencies through assistance in accessing needed resources and coordination in more complex incidents and events. Nothing in this annex is meant to replace or supersede the standard operating procedures of local response agencies.

The annex covers the following functions:

- Transportation;
- Infrastructure Repair and Restoration;
- Energy and Utilities; and
- Debris Management.

See FA 4 for information on Damage Assessment.

2 Policies and Agreements

The following policies and agreements are currently in place to support infrastructure services for the City:

- Baker City is a member of the Oregon Public Works Emergency Response Cooperative Assistance Agreement. The agreement:
 - Enables public works agencies to support each other during an emergency.
 - Provides the mechanism for immediate response to the requesting agency when the responding agency determines it can provide the needed resources and expertise.
 - Sets up the documentation needed to seek maximum reimbursement possible from appropriate federal agencies.
- Oregon Water / Wastewater Agency Response Network (ORWARN): ORWARN is composed of member utilities providing voluntary emergency assistance to each other. ORWARN facilitates rapid and short-term deployment of emergency services, in the form of personnel, equipment, and materials.

3 Situation and Assumptions

3.1 Situation

In a major disaster or emergency, response and recovery operations may be beyond local response capabilities. Structures may be destroyed or severely weakened. Homes, public buildings, bridges, and other facilities may have to be reinforced or demolished to ensure safety. Debris may make streets and highways impassable. Public utilities may be damaged and be partially or fully inoperable. A major disaster may affect the lives of local response personnel and their families and prevent them from performing their prescribed emergency duties. Similarly, equipment in the immediate disaster area may be damaged or inaccessible. Sufficient resources may not be available to the City to meet emergency requirements. County and State assistance may be required to identify and deploy resources from outside the affected area to ensure a timely, coordinated effective response.

3.2 Assumptions

- Response operations for the City Public Works Department will include assisting law enforcement and fire services in traffic control and rescue operations and clearing and maintaining critical lifeline routes.

FA 3. Infrastructure Services

- In a natural hazards event such as flood, windstorm, or earthquake response, the Public Works Department may be assigned or assume the lead agency role.

4 Roles and Responsibilities

4.1 General Responsibilities

The activities and responsibilities for each department in support of infrastructure services will vary depending on the type of resource, the length of the warning period, and the duration of the incident.

4.1.1 Baker City Emergency Management

Emergency Management may be responsible for the following actions in support of an emergency:

- Regularly briefing the Mayor and City Council on situational developments;
- Monitoring resource availability from all City departments.
- Assessing developing conditions and evaluate their potential impact.
- Researching sources of needed resources.
- Establishing and maintaining contact with the County and provide updates on developing conditions.
- Considering activation of the EOC.
- Documenting actions taken and costs incurred.
- Facilitating post-incident analysis.

4.1.2 Baker City Public Works Department

The Public Works Department may be responsible for the following actions in support of an emergency:

- Developing and maintaining an emergency notification list of department personnel.
- Opening emergency response routes for rescue and life-saving operations.
- Restoring streets and ensuring that traffic flows, including traffic control devices in conjunction with ODOT where applicable.
- Restoring wastewater (sanitary sewer) and storm water system capacities.

FA 3. Infrastructure Services

- Restoring and operating sanitary sewer pump stations and pressure mains.
- Interfacing with utility providers to ensure timely restoration of services.
- Removing and disposing of debris from public rights-of-way and City property that was a direct result of a disaster event.
- Maintaining storm water flow.
- Administering of existing contracts and developing new ones to restore infrastructure and services.
- Maintaining the City's fleet and providing emergency fuel supplies and equipment necessary to provide for the public's safety, health, and well-being; this will be given top priority during an emergency.
- Maintaining and regularly testing the City's emergency generators.
- Coordinating with the police to assist in traffic control.
- Developing and maintaining operating procedures for disaster response.
- Establishing contracts and relationships with contractors and vendors who may play key roles in repair and restoration of City infrastructure.
- Requesting assistance through the County, if necessary.
- Documenting incident actions and costs incurred.
- Notifying regulating agency(s), as appropriate.

4.1.3 Baker City Fire Department

The Fire Department may be responsible for the following actions in support of an emergency:

- Notifying appropriate personnel of the developing situation.
- Assessing the department's minimum resource needs to maintain operations.
- Evaluating potential safety issues and making recommendations to the Safety Officer.
- Providing communication resources and support as needed.

FA 3. Infrastructure Services

- Providing fire suppression personnel and equipment to support public works response and recovery activities.

4.1.4 Baker City Police Department

The Police Department may be responsible for the following actions in support an emergency:

- Assuming primary responsibility for closing and/or rerouting traffic on city streets to assist movement of people, keep people out of danger, and/or keep them from impeding emergency response activities.
- Coordinating and assisting the County Road Department and Public Works in closing County roads and/or rerouting traffic through the City, if applicable.
- Coordinating and assisting the Oregon Department of Transportation (ODOT) and Oregon State Police (OSP) in closing State highways and/or rerouting traffic through the City, if applicable.
- Alerting personnel of developing conditions.
- Assessing the department's minimum resource needs to maintain operations.
- Evaluating potential security and safety issues and making recommendations to the Safety Officer.
- Providing police personnel and equipment to support public works response and recovery activities.
- Providing communication resources and support as needed.

4.1.5 Utilities

Local utilities may be responsible for the following actions in support of an emergency:

- Coordinating response activities with Public Works Department regarding restoration of services.
- Making repairs and restoring services as soon as possible.
- Supporting the City with equipment, personnel, etc., as appropriate.

5 Concept of Operations**5.1 General**

When the EOP is implemented, all activities and resources in support of infrastructure services will be coordinated by the City Emergency Operations

FA 3. Infrastructure Services

Center (EOC) staff as identified and managed using the Incident Command System (ICS). The Public Works Department is the lead agency for infrastructure operations and solid waste (debris) management.

Public Works will focus on restoring vital lifeline systems to the community, with an emphasis on critical roads. Public Works will also place emphasis on supporting law enforcement, fire, and search and rescue services with evacuation and traffic control capabilities. Other operational priorities include:

- Damage assessment (see FA 4 – Recovery Strategy).
- Stabilization of damaged public and private structures to facilitate search and rescue and/or protect the public’s health and safety.
- Identification and labeling of uninhabitable/unsafe structures.
- Coordination of the closure and repair of transportation infrastructure.
- Repair and restoration of damaged public systems (e.g., water, wastewater, and stormwater systems).
- Coordination with utility restoration operations (electricity, gas, and telecommunications).
- Prioritization of efforts to restore, repair, and mitigate infrastructure owned by the City and County.

Public Works will use local contractors to supplement its emergency response capabilities, escalating unmet needs through the County EOC and/or mutual aid partners.

5.2 Transportation

An emergency may also severely damage the transportation system throughout the City. Most local transportation activities will be hampered by damaged facilities, equipment, and infrastructure, as well as disrupted communications. At the same time, the disaster may create significant demands for local, state and regional transportation resources to provide for relief and recovery.

The City may be required to provide coordination of transportation resources and identify emergency transportation routes for the movement of people and materials.

Additional transportation-related actions that may be required include:

- Monitoring and reporting on the status of and damage to transportation infrastructure as a result of an emergency incident.
- Identifying temporary alternative transportation solutions that can be implemented.

FA 3. Infrastructure Services

- Coordinating with County and State transportation agencies to implement the restoration and recovery of transportation systems and infrastructure.

Transportation systems available in the City include Community Connection.

See the Baker County EOP, ESF 1 – Transportation for more detail.

5.3 Infrastructure Repair and Restoration

The City has identified critical infrastructure and resources to be protected and prioritized during an emergency event or disaster, to the greatest extent possible. During an emergency situation, the protection of human lives will take precedence during all facets of response, and essential services within the City will be maintained as long as conditions permit.

Infrastructure repair and restoration actions may include:

- Conducting pre- and post-incident assessments of public works and infrastructure.
- Coordinating technical assistance, including engineering expertise, construction management, and contracting and real estate services.
- Providing emergency repair of damaged public infrastructure and critical facilities.

See the Baker County EOP, ESF 3 – Public Works and Engineering for more details.

5.4 Energy and Utilities

In addition, a utility failure would impact the availability of essential services such as the water supply, electrical power, natural gas, telephone, and sanitary sewer services. While a failure may result from natural or human-created causes, the severity of the incident must be measured by the duration of the disruption of the service and its impact on life and property.

It is expected that public and private utility providers, such as those which provide power, water, natural gas, petroleum, sanitation, or communications services, will develop internal organizational procedures which will guide operations after a major event. These procedures should facilitate the basic assessment of what happened, what can be done about it, and what is needed. If appropriate, this information should be provided to the City EOC as soon as possible.

Contact with utility providers may be established by the Emergency Program Manager or through the City EOC to coordinate resources, establish priorities, assess and document damages, and provide information to the public. The EOC may initiate information programs to keep the public informed of utility status and

FA 3. Infrastructure Services

any restrictions. Utility providers will be invited to send a liaison to the City EOC to facilitate coordination between agencies.

Energy and utility related expected actions may include:

- Collecting, evaluating, and sharing information regarding energy/utility system damage and estimations of the impact of outages/failures within affected areas.
- Coordinating restoration of service in impacted areas.
- Ensuring backup power and utility sources for critical facilities.

See the Baker County EOP, ESF12 – Energy for more details.

5.5 Debris Management

Public Works will define roles, responsibilities, and procedures and provides guidance for development and implementation of all elements involved in managing debris removal operations in the response and recovery phases of a disaster.

If needed, the City will request the following infrastructure services from County Emergency Management:

- Identification and labeling of uninhabitable / unsafe structures;
- Establishment of priorities and processes for issuing demolition and building permits;
- Stabilization of damaged public and private structures to facilitate search and rescue and / or protect the public's health and safety; and
- Development and designation of emergency collection, sorting, and debris routes and sites for debris clearance from public and private property.

6 Annex Development and Maintenance

The Baker City Public Works Department is responsible for regular review and maintenance of this annex. To ensure that City staff are familiar with their roles in providing infrastructure services, the City will incorporate elements of infrastructure services into its training and exercise program.

7 Supporting Plans and Procedures

The following documents support infrastructure services for the City:

Baker City

- Water System Operations Plan

Baker County

- Baker County Emergency Operations Plan
 - ESF 1 – Transportation
 - ESF 3 – Public Works and Engineering
 - ESF 12 – Energy

State of Oregon

- State of Oregon Emergency Operations Plan and ESFs

1 Purpose and Scope

This annex outlines the basic City services and resources necessary to recover from a disaster. It covers the following functions:

- Damage Assessment;
- Public Assistance; and
- Individual Assistance.

In addition, this annex outlines the scope of long-term recovery activities as defined in the National Disaster Recovery Framework. The City has not developed a formal Recovery Plan to date, but will take the functional elements of long-term recovery into consideration in its recovery planning as described in Section 5.3.1 of this annex.

2 Policies and Agreements

The following policies and agreements are currently in place to support recovery for the City:

- None at this time.

3 Situation and Assumptions

3.1 Situation

The recovery phase of an emergency is the period of time following the response period, when actions are taken to help citizens return to a normal, or safer, life as soon as possible after an emergency.

Recovery is both a short- and long-term process. In the short term, emphasis is placed on restoring vital services to the community and identifying and providing basic needs to the public. Long-term recovery restores the community to its normal state, or better. It is at this point that knowledge gained by the incident is converted to mitigation measures for future hazard risks.

Local, County, and Federal government are responsible for assisting the public and private sectors in disaster recovery. A widespread disaster may affect the

FA 4. Recovery Strategy

functionality of business, disrupt employment, interrupt government services, and impact tax revenue. Recovery is a function undertaken during and after an event, along with the response. Expedient recovery will limit costs, damages, and long-term impacts on the community. The purpose of this Recovery Strategy annex is to provide a strategy for the City to coordinate its recovery efforts with its partners at the State and Federal levels.

In most cases, recovery begins during an event's response phase, when damage is identified and assessed. Damages are classified as being in the private or public sector. The extent of damages in dollars will determine what, if any, State or Federal assistance may be available during the recovery phase. To request this assistance, a local proclamation of emergency must be made and communicated to the Governor. Good record keeping and mitigation planning will support recovery efforts and ensure post-emergency compensation.

In addition to assistance available from governments, private non-profit organizations support recoveries as well. The American Red Cross (Red Cross) and Salvation Army are examples of those involved in such efforts. The Governor can also request direct assistance from selected Federal agencies without a formal presidential declaration.

A comprehensive guide to Community Recovery in the State of Oregon can be found at the following internet site:

http://www.oregon.gov/OMD/OEM/fin_rec/disaster_recover_guide.shtml.

3.2 Assumptions

- Disaster recovery typically lasts much longer and costs significantly more than preparedness and response activities.
- Recovery activities may continue long after the Emergency Operations Center (EOC) has been closed, requiring the activities to be coordinated and managed from a different location.
- Depending on the type and scope of the incident, federal resources and/or funds may be available for public and/or private (individual and businesses) assistance.
- Long-term recovery planning and activities could include mitigation efforts to reduce the potential hazard of similar disasters in the future.
- Depending on the incident it may be more appropriate for some recovery functions to be tasked to a specific City department rather than an EOC Section.

4 Roles and Responsibilities

During recovery, many of the Section Chiefs' responsibilities and activities continue, but sometimes with a change in focus. These responsibilities are described below.

4.1 Baker City Emergency Management

City Emergency Management will coordinate the City's recovery activities including the following actions:

- Activating the disaster assessment team or process. Ensuring that damage information is received from private nonprofit organizations.
- Receiving and compiling disaster information to:
 - Share the information with the appropriate County and municipal agencies.
 - Prioritize response and recovery activities.
 - Determine whether additional resources are needed.
 - Submit forms to County Emergency Management as needed.
- Coordinating with appropriate agencies to address unmet needs.
- Receive and disseminate information to decision makers to prioritize recovery efforts and determine the need for State or Federal assistance.
- Coordinating the involvement of community response partners regarding the Preliminary Damage Assessment (PDA) and disaster declaration process.
- Assisting County, State, and Federal agencies with conducting PDAs.
- Ensuring that documentation of disaster-related response and recovery costs is complete.
- Coordinating with local officials to identify and recommend mitigation projects.

4.2 Emergency Operations Center Staff

The Emergency Manager or EOC Manager will direct Emergency Operations Center (EOC) staff in recovery actions.

4.2.1 Operations Section

- Coordinating restoration of roads, bridges, essential services, and essential service facilities, and work on long-term reconstruction.

FA 4. Recovery Strategy

- Coordinating temporary housing and long-term shelter operations for displaced individuals.
- Coordinating initial damage assessments.

4.2.2 Planning Section

- Demobilizing resources.
- Documenting of emergency activities.
- Creating situation status reports.
- Coordinating resource management with the Logistics Section and EOC Manager.
- Creating incident-specific maps to assist in damage assessment and recovery efforts.

4.2.3 Logistics Section

- Making arrangements for Disaster Recovery Center for the Federal Emergency Management Agency (FEMA).
- Documenting emergency activities.
- Coordinating resource management with the Planning and Finance Sections.

4.2.4 Finance Section

- Keeping records of all costs incurred.
- Documenting emergency activities.
- Preparing documents for submission to State and federal government.
- Coordinating and documenting damage assessment.

4.2.5 Public Information Officer

- Disseminating public information.
- Documenting all emergency activities.

4.3 City Departments**4.3.1 Baker City Public Works Department**

The Public Works Department may be responsible for the following actions in support of an emergency:

FA 4. Recovery Strategy

- Supporting damage assessment activities.
- Ensuring restoration of the water and wastewater systems.
- Coordinating with law enforcement to restrict access to buildings, road, and areas that are unsafe.
- Providing qualified representative to report to the EOC to assume overall responsibility for planning activities with Public Works issues.
- Compiling, analyzing, and coordinating Public Works planning activities in support of emergency operations.

4.3.2 Baker City Finance Department

The City Finance Department may be responsible for the following actions in support of recovery:

- Providing a qualified representative to report to the ECC and assume responsibility for all necessary fiscal activities.

Financial Department duties and responsibilities include tracking, analyzing, approving, and reporting fiscal activities in support of recovery operations.

4.3.3 Baker City Building Department

The City Building Department may be responsible for assisting with damage assessment operations and may be responsible for the following actions in support of recovery:

- Conducting damage assessment of prioritized facilities.
- Coordinating with the Baker County Assessor's Office around damage assessment activities.

4.3.4 Other City Agencies

- Assisting with the damage assessment and disaster declaration processes as requested.
- Documenting disaster-related response and recovery costs.
- Coordinating with local officials to identify and recommend mitigation projects.

4.4 County Departments

4.4.1 Baker County Emergency Management

Baker County Emergency Management may be responsible for the following actions in support of an emergency:

FA 4. Recovery Strategy

- Coordinating with the ECC.
- Assisting the City in coordination of damage assessment activities.
- Assisting the City in assembling the information for a local declaration of emergency and requesting provisions of state/federal recovery support if needed.
- Providing technical support to ensure that documentation of the City's disaster response costs begin as soon as possible to support fiscal management in the event state/federal disaster funds become available.
- Conducting exercises and training for personnel in disaster recovery activities.

4.4.2 Baker County Assessor's Office

The County Assessor's Office may be responsible for assisting with damage assessment operations and may be responsible for the following actions in support of recovery:

- Conducting damage assessment of prioritized facilities.
- Coordinating with the City Building Department around damage assessment activities.

5 Concept of Operations

5.1 General

5.1.1 Local Emergency Declaration

When the City is faced with an emergency or disaster condition that requires a coordinated response beyond that which occurs routinely and the required response is not achievable solely with the added resources acquired through mutual aid or cooperative assistance agreements, the Mayor (or designee) may decide to declare a local emergency.

A local emergency declaration provides City officials with the additional authority that may be needed to address emergency conditions; can facilitate large-scale evacuations; and, once the appropriate response is beyond the capability of the County, can set the stage for requesting State assistance.

See the Basic Plan, Chapter 1 for procedures for declaring a state of emergency.

5.1.2 Local Request for State Assistance

If an emergency has occurred wholly within the boundaries of the City, a request for assistance from the State must be submitted to the County for transmittal to Oregon Emergency Management (OEM) for consideration by the Governor. The

FA 4. Recovery Strategy

State has a reasonable expectation that counties will endeavor to assist cities within their jurisdictions before turning to the State and/or Federal government for assistance.

Requests for assistance submitted to the County for transmittal to the State must include:

- The type of emergency or disaster;
- The location(s) affected;
- Deaths, injuries, and population still at risk;
- The current emergency conditions or threat;
- An initial estimate of the damage and impacts;
- Actions taken and resources committed by local governments; and
- Specific information about the assistance being requested.

5.1.3 County and Federal Recovery Efforts

Community recovery assistance from the County and Federal levels comes in the form of activating Emergency Support Function (ESF) 14 – Long-Term Community Recovery. This support function provides a mechanism for coordinating Federal support to State, tribal, regional, and local governments; nongovernmental organizations; and the private sector to enable community recovery from the long-term consequences of extraordinary disasters. ESF 14 accomplishes this by identifying and facilitating availability and use of sources of recovery funding and by providing technical assistance for community recovery and recovery planning support. For information regarding County recovery procedures, refer to ESF 14 in the County EOP. For information at the Federal level, ESF 14 can be found at <http://www.fema.gov/pdf/emergency/nrf/nrf-esf-14.pdf>.

NOTE: Detailed information regarding local and state recovery processes is provided in the State Disaster Recovery Guidebook, Part I – Overview.

5.2 Short-Term Recovery Activities

During the recovery phase of an emergency, the Emergency Manager or a designated Incident Commander has the final authority to establish priorities for recovery activities and the allocation of resources to support them. Some activities, such as damage assessment, will most likely begin during the response phase of the emergency once the incident is stabilized. Short-term recovery activities may include:

- Damage assessment and posting of unsafe and unusable buildings, roads, or bridges;

- Assessment of victims' needs;
- Removal of disaster debris;
- Removal of human and animal remains;
- Testing of drinking water and, if necessary, establishing new or additional drinking water supplies;
- Emergency repairs of sanitary, sewer, and storm drainage systems;
- Repair of utility lines, e.g., electricity and natural gas; and
- Establishment of security in affected areas.

5.2.1 Damage Assessment

Damage assessment is conducted in two phases: Initial Damage Assessment (IDA) and secondary damage assessment. The IDA, a Planning Section responsibility, provides supporting information for the disaster declaration and is the responsibility of the City, unless otherwise coordinated with County. The secondary damage assessment is an in-depth analysis of long-term effects and costs of the emergency and is performed with the combined efforts of local, State, and Federal agencies and the Red Cross.

- The timely and accurate assessment of damage to public or private property will be of vital concern to local officials following a disaster and will have great bearing upon the manner in which recovery is conducted in the City.
- Damage assessments may need to be undertaken at different periods during a disaster event: a “windshield” survey may be conducted initially to obtain an overall general impression of the event’s impact as part of preparing to issue the disaster declaration. A more detailed damage assessment will need to be performed to document the need for State and Federal aid.
- County, State, and Federal assistance will depend upon the adequate and timely documentation of the results of the disaster on the local community.

5.2.1.1 Windshield Surveys

During the initial phase of an event with widespread property damage (such as windstorm, earthquake, etc.), normal communication links may not exist. It will be important to get an account of the damage as soon as possible in order to prioritize resource assignments.

As appropriate after an event, units from appropriate agencies may begin a process called “windshield surveys.” Windshield surveys consist of response agency units

FA 4. Recovery Strategy

driving throughout the City in a systematic manner to survey predetermined high-priority facilities. When damage is discovered, a description of the situation is to be reported. The goal is to get a quick overview of the entire situation and then assign resources to the priority situations.

5.2.1.2 Initial Damage Assessment

During an emergency or disaster, local governments conduct a quick initial assessment of damages and impacts, sometimes as part of a request for State or Federal resources to augment local ones. The Emergency Manager coordinates this assessment and usually assigns some IDA responsibilities to other local government departments.

The IDA evaluates the damages and costs related to a disaster, the impact of the disaster on the community, and which State, Federal, or volunteer agency programs might be able to provide needed assistance. With respect to Federal assistance, a determination during the IDA of the extent of affected homes, businesses, and public facilities assists State officials in determining whether they need to follow up with other damage or impact assessments, including perhaps a PDA for Individual Assistance, Public Assistance, or both.

As soon as it can safely be done during or following the event, local officials should complete the Initial Damage Assessment Summary Report Form and forward it to the County. Counties should forward the completed form to OEM.

Table 1 below outlines the City’s priorities for damage assessment.

Table 1 Baker City Damage Assessment Priorities

Priority #1	Public Safety and Restoration of Vital Services
Emergency Operations	Emergency Operations Center Fire Department Police Department facilities
Hazardous Industries	Hazardous occupancy industry Natural gas pipelines Electrical power stations and other like facilities
Utilities & Transportation Infrastructure	Sanitary sewer Storm and water lines Bridges and overpasses Major Roads/Evacuation Routes
Medical and Care Facilities	Care and shelter facilities Medical facilities (hospitals/clinics)
Other Vital Public Services	Schools and other public facilities Food suppliers Other major businesses
<i>Note: Each facility should be analyzed on structural integrity, safety, functional capability, and estimated costs to repair or replace.</i>	

Table 1 Baker City Damage Assessment Priorities

Priority #2	Assessment of Damage to Support Emergency or Major State or Emergency Declaration
	Multi-family complexes Single-family residences Other businesses

5.2.1.3 Secondary Damage Assessment

The IDA should provide the basis for secondary assessment activities. Secondary damage assessments most often occur during the recovery phase after initial response activities have taken place. Finance Section personnel should be able to perform the tasks outlined below.

- Identify damaged facilities and lead State and Federal damage assessment teams to them.
- Document expenditures in response to events for which a declaration has been requested. The State of Oregon standard for cost estimating is contained in the State Forestry Fire Plan. If the City can document actual costs, these should be used to develop accurate cost estimates.
- In the event that the Finance Section is not staffed, the City Manager (or designee) will coordinate this activity.

The City Department of Public Works will provide personnel to lead damage assessment teams. Volunteers may be trained and can be expected to lead damage assessment teams for Priority #2 IDAs. Additional support may be available from the County.

See the State Disaster Recovery Guidebook, Part I – Overview for more detailed information on damage assessment.

5.2.2 Public Assistance

Requests for Public Assistance for the City will be coordinated with County Emergency Management.

5.2.2.1 Eligible Entities and Projects

Eligible applicants under the Public Assistance Program are units of local government, state agencies, organizations, and agencies of native peoples, and private nonprofit organizations that meet certain criteria.

To be eligible for assistance, a project must result from a Presidentially declared emergency or major disaster, must lie within the designated disaster area, must be the responsibility of an eligible applicant, and must not fall within the authority of another Federal agency.

FA 4. Recovery Strategy

5.2.2.2 Request for Public Assistance

Applicants notify FEMA of their intent to apply for public assistance by filing a Request for Public Assistance form. The request form is an applicant's official notification to FEMA of their intent to apply for Public Assistance. The form outlines general information identifying the applicant, including the applicant's name, address, and primary and secondary contacts. If the applicant is unable to submit the request form to OEM at the Applicants' Briefing, the applicant must submit the form within 30 days of the date of designation of the County for Public Assistance. An applicant need not wait until all damage is identified before requesting assistance.

Federal and State personnel will review each request form to ensure applicant eligibility. Once a request form has been submitted, the project formulation process can begin. Project formulation is the process of documenting the eligible facility, the eligible work, and the eligible cost for damaged projects.

5.2.2.3 Steps to Obtain Disaster Assistance

There are five primary steps to obtaining public disaster assistance:

- A request form is submitted by the applicant.
- A Public Assistance Coordinator is assigned to each applicant.
- The applicant presents a list of damages to the Public Assistance Coordinator at the kickoff meeting. This list serves as the basis for completing Project Worksheets. The applicant then has 60 days from the date of the kickoff meeting to report or identify damages to FEMA.
- The Public Assistance Coordinator and State staff work with the applicant/subgrantee to identify any special considerations, ensure that all damage and emergency work costs are identified, and ensure that the scope-of-work on Project Worksheets is eligible and complete.
- Upon approval of Project Worksheets, the funds are obligated to OEM, who is the grantee and will disburse Public Assistance funds to the subgrantee. Federal funds for small projects will be disbursed after approval, and Federal funds for large projects will be disbursed as work is accomplished.

See the State Disaster Recovery Guidebook, Part IV – Programs Which Assist Public Agencies for more detailed information on public assistance.

5.2.3 Individual Assistance

Individual Assistance programs strive to meet the disaster-related needs of individuals and families while utilizing disaster assistance resources as efficiently as possible. Disaster recovery officials especially strive to avoid duplication of benefits. Efficient use of recovery resources is also aided by providing assistance through a sequence of programs. Those with serious unmet disaster-related needs

FA 4. Recovery Strategy

proceed through each step until all avenues, public and private, have been explored to meet those needs.

5.2.3.1 Insurance

Claims should be made in accordance with appropriate insurance policies in effect for the hazard that caused the disaster. Disaster assistance programs are not a replacement for proper insurance, nor can any disaster assistance program provide cost recovery for those affected by disaster as comprehensive as that provided by insurance policies. Moreover, most natural disasters that affect an individual or family are not widespread enough to result in the implementation of Federal disaster assistance programs. Hence, in the vast majority of cases, insurance and voluntary agency assistance are the only avenues for helping families and individuals recover.

5.2.3.2 Voluntary Agency Assistance

Many voluntary agencies provide disaster recovery assistance to individuals and families. Like insurance, voluntary agencies should be viewed as having resources that are utilized prior to governmental disaster assistance programs. In cases for which there is a Presidential declaration of emergency, access to some voluntary agency assistance may be gained at or through DRCs. Most voluntary agency assistance is intended to meet immediate disaster-related needs such as shelter, food, clothing, health and medical care (including counseling and mental health assistance), essential household furnishings, bedding, transportation, and, sometimes, temporary assistance to rent housing.

See Appendix D, Typical Individual Assistance for additional individual assistance programs.

5.2.3.3 Disaster Recovery Centers

Local, State, and Federal entities will:

- If individual assistance is authorized, establish a local disaster recovery assistance center to assist qualified citizens with filing claims for financial or housing assistance.
- If public assistance is authorized, dispatch assessors to develop, in coordination with local representatives, disaster survey reports for public damage and response costs.
- Provide technical assistance and advice regarding recovery and mitigation activities to both citizens and public agencies, as appropriate.
- Coordinate public information and assistance activities with the EOC Public Information Officer and keep local authorities informed of assistance provided to local residents, businesses, and local entities.

Identify and coordinate with State and Federal agencies regarding a location for the DRC.

FA 4. Recovery Strategy

See the State Disaster Recovery Guidebook, Part II – Programs Which Assist Families and Individuals for more detailed information on individual assessment.

5.3 Long-Term Recovery Activities

5.3.1 National Disaster Recovery Framework

The National Disaster Recovery Framework is a guide that enables effective recovery support to disaster-impacted States, tribes, territorial and local jurisdictions. It provides a flexible structure that enables disaster recovery managers to operate in a unified and collaborative manner. It also focuses on how best to restore, redevelop, and revitalize the health, social, economic, natural, and environmental fabric of the community and build a more resilient nation.

The National Disaster Recovery Framework is consistent with the framework set forth in the Presidential Policy Directive 8, National Preparedness, which directs FEMA to work with interagency partners to publish a recovery framework. It is the first framework published under the Presidential Policy Directive reflecting the core recovery capabilities by supporting operational plans as an integral element of a National Preparedness System. It is a first step toward the Presidential Policy Directive 8 objective to achieve a shared understanding and a common, integrated perspective across all mission areas—Prevention, Protection, Mitigation, Response, and Recovery—in order to achieve unity of effort and make the most effective use of the nation’s limited resources.

The National Disaster Recovery Framework defines:

- Core recovery principles;
- Roles and responsibilities of recovery coordinators and other stakeholders;
- A coordinating structure that facilitates communication and collaboration among all stakeholders, as well as guidance for pre- and post-disaster recovery planning; and
- The overall process by which communities can capitalize on opportunities to rebuild stronger, smarter, and safer.

The National Disaster Recovery Framework introduces six new Recovery Support Functions that provide a structure to facilitate problem solving, improve access to resources, and foster coordination among State and Federal agencies, nongovernmental partners and stakeholders. Each Recovery Support Function has coordinating and primary Federal agencies and supporting organizations that operate together with local, State, and Tribal government officials, nongovernmental organizations, and private-sector partners.

The National Disaster Recovery Framework presents three positions that provide focal points for incorporating recovery considerations into the decision-making

FA 4. Recovery Strategy

process and monitoring the need for adjustments in assistance where necessary and feasible throughout the recovery process. These positions are Federal Disaster Recovery Coordinators, State or Tribal Disaster Recovery Coordinators, and Local Disaster Recovery Managers.

5.3.2 Community Planning and Capacity Building

The core recovery capability for community planning is the ability to effectively plan and implement disaster recovery activities, engaging the whole community to achieve their objectives and increase resilience. The goal of recovery planning for the City is to unify and coordinate expertise and assistance programs from across the City and in coordination with the County to aid in restoring and improving the ability of the City to organize, plan, manage, and implement recovery. Recovery planning assists the City in developing a pre- and post-disaster system of support for their communities emphasizing the integration of hazard mitigation throughout planning process. Recovery planning will serve as a forum for helping to integrate the nongovernmental and private-sector resources into City recovery planning processes.

5.3.3 Economic Recovery

The core recovery capability for economic recovery is the ability to return economic and business activities (including agricultural) to a state of health and develop new economic opportunities that result in a sustainable and economically viable community. Economic recovery is a critical and integral part of recovery. Disasters damage not only property but also entire markets for goods and services. The speed and effectiveness of returning a community to self-sufficiency and vitality depend upon quickly adapting to changed market conditions, reopening businesses, and/or establishing new businesses. Businesses employ workers, provide for community needs and services, and generate revenue once again, allowing the community, both its members and government, to provide for itself.

5.3.4 Health and Social Services Recovery

For the purposes of this plan, the term “health” will refer to and include public health, behavioral health, and medical services.

The core recovery capability for health and social services is the ability to restore and improve health and social services networks to promote the resilience, independence, and well-being of the whole community. The City will participate in locally led recovery efforts to address public health, health care facilities and coalitions, and essential social service needs.

5.3.5 Housing Recovery

The core recovery capability for housing is the ability to implement housing solutions that effectively support the needs of the whole community and contribute to its sustainability and resilience. Like infrastructure and safety services, housing is a critical and often challenging component of disaster

FA 4. Recovery Strategy

recovery. It is critical because local economies cannot recover from devastating disasters without adequate housing, especially affordable housing. It is challenging because many years' worth of housing repair, rehabilitation, reconstruction, and new construction often need to occur at an accelerated pace as a result of a disaster. These conditions create design, construction, labor, materials, logistics, inspection, and financing issues.

5.3.6 Infrastructure Systems Recovery

The core recovery capability for infrastructure systems is the ability to efficiently restore the infrastructure systems and services to support a viable, sustainable community and improve resilience to and protection from future hazards. This function promotes a holistic approach to disaster recovery coordination, support, planning, and implementation for infrastructure systems that serve the community.

5.3.7 Natural and Cultural Resources Recovery

The core recovery capability for natural and cultural resources is the ability to protect these resources, including historic properties, through appropriate response and recovery actions to preserve, conserve, rehabilitate, and restore them in a manner consistent with post-disaster community priorities and in compliance with appropriate environmental and cultural resources laws. This function coordinates departments and agencies working together to provide information and assistance to communities seeking to protect, rehabilitate, recover, and restore natural and cultural resources during recovery.

6 Annex Development and Maintenance

The Emergency Manager or designee is responsible for regular review and maintenance of this annex. To ensure that City staff are familiar with their roles in providing disaster recovery services, the City will incorporate elements of recovery into its training and exercise program.

7 Supporting Plans and Procedures

The following documents support recovery for the City:

Baker County

Appendix A-1 Initial Damage Assessment Checklist

As its name suggests, an Initial Damage Assessment (IDA) is meant to be an *initial* assessment of the damage and impacts caused by the disaster. Do not spend a great deal of time on details at this stage. The IDA only needs to outline enough damage and impacts to the community to bring in the right programs for a closer assessment.

All those using information obtained from an IDA should be cautioned concerning the limitations of the data and should expect variations between this initial assessment and the actual number of applications received should disaster assistance programs be offered.

General

The following guidelines should be followed when conducting an IDA:

- Examine and note areas of major damage and damage that is likely to be expensive to repair and mitigate.
- Although insured losses should be noted, do not spend a great deal of time trying to collect detailed insurance information during the IDA. Determining the details of insurance in place is time consuming and unnecessary at this stage. If detailed insurance information is needed, it can be collected during a second assessment, such as the joint Preliminary Damage Assessment (PDA).

Note: An exception to this rule is “small disasters,” which require collecting insurance information during the IDA in order that the Small Business Administration can make a decision on whether or not to dispatch personnel to Oregon to lead a Small Business Administration (SBA) “damage survey.”

- The Individual Assistance IDA Field Data Collection Form is designed to assist you in conducting the IDA for homes and businesses.
- The Infrastructure (Public Assistance) IDA Data Collection Form may assist you in conducting the IDA for public sector damages.
- Analyze IDA data based on the following questions:
 - Is the damage such that only immediate personal needs exist? If so, these needs can probably be met by volunteer organizations such as the American Red Cross (Red Cross), Salvation Army, Mennonite Disaster Service, and others.
 - Is the damage primarily to the agricultural sector? If so, you may want to ask the State to look into U.S. Department of Agriculture assistance.

FA 4. Recovery Strategy

- Are the impacts primarily to businesses that have suffered significant damage or other problems that would cause loss of revenue? If so, you may want to ask the state to look into SBA programs.
- Is the damage primarily to homes? If so, perhaps the State should request SBA assistance or request an Individual Assistance joint PDA.
- Is the damage primarily to publicly owned facilities? If so, perhaps the State should request a Public Assistance joint PDA.

Whom to Involve

Since speed and accuracy are essential in obtaining the maximum amount of information in the shortest amount of time, more than one person should be involved in the IDA process. The Emergency Manager should assemble a team to assist, including members such as:

- Red Cross officials: depending on the capabilities of the Red Cross branch that serves your area, you may want to ask the Red Cross to coordinate the IDA effort with respect to homes and to assess the number of persons significantly impacted by the disaster. In some cases, the Red Cross will have already done so; you may be able to utilize information they have already gathered;
- Building inspectors and tax assessors from local governments, and appraisers from lending institutions or insurance companies, to evaluate buildings, manufactured homes, and businesses;
- City / County engineers, public works officials, utility officials, etc. to assess damages to roads, bridges, other public facilities, and utility systems;
- Hospital and urgent care facility officials for information on injuries and fatalities;
- School district officials to provide school damage figures;
- County health officials to assess of disaster effects on community health;
- Officials in charge of levees, drainage systems, private nonprofit, recreational facilities, etc.; and
- County agent for farm and ranch damage assessment.

Collecting Initial Damage Assessment Data by Telephone Bank

Local jurisdictions may want to establish a telephone bank to collect IDA information on damage and impacts to homes and businesses. If you decide to utilize the telephone bank approach, work with local media to reach affected individuals, families, and businesses. For each, try to collect at least the following:

- Name of individual, family, or business.
- Address of the damaged or impacted structure.
- Mailing address if different.
- Telephone numbers where the person reporting the damage or impacts can be reached.
- If the damaged structure is a home, is it a primary home or a second home? Is it a rental? If so, count the home twice: once as a home, a second time as a business. Try to obtain the appropriate points of contact for both the tenant and owner.
- Is the loss/damage insured?
- Obtain a brief description of, and, if possible, estimated cost associated with, the damage or impact; collect only enough information to allow you to categorize the damage as minor, major, or destroyed. Also note homes and businesses that are not damaged but that are directly impacted, such as loss of potable water, loss of septic system, loss of driveway access, etc. Homes meeting these criteria should be noted as “affected habitable”; businesses as “interrupted.”

THIS PAGE LEFT BLANK INTENTIONALLY

Appendix A-2 Preliminary Damage Assessment Checklist

To prepare for the arrival of State and Federal joint Preliminary Damage Assessment (PDA) officials, local jurisdictions should do as much of the following as time permits.

General

- The Emergency Manager should coordinate the PDA or designate a PDA Coordinator. The person in this position should have a working knowledge of the PDA process and forms and thorough familiarity with local geography, government officials, and public facilities.
- Line up appropriate officials who will become the local government representatives on the joint PDA Teams. For Individual Assistance, consider assessors, building department inspectors, etc. For Public Assistance, consider building department inspectors, road department engineers and technicians, bridge engineers, etc.
- Prepare maps that note the locations and nature of the damage.
 - Delineate any areas where the damage is primarily to homes, businesses, and agricultural land.
 - Indicate the location of each damaged public facility and the government agency responsible for its care.
 - Mark the location of sites where disaster-related costs were incurred.
 - If possible, all damage sites should be identified by local officials before State/Federal inspectors arrive.
- On the same maps, indicate the best routes of travel, accounting for roads and bridges that are out of service due to the disaster and methods for efficient routing such as travel "loops" likely to be taken by the joint PDA Teams.
- Also on the maps, indicate areas where major utilities are still out of service, areas with septic tanks or wells, areas that are still experiencing the effects of the disaster, and health and safety hazards such as hazardous materials spills, biological hazards, downed power lines, etc.
- If possible, have photographs of damage sites available for State and Federal inspectors.
- Assemble and briefly summarize information on the resources committed by the jurisdiction in responding to the disaster. Be sure to

FA 4. Recovery Strategy

include the time commitment, overtime, etc. of the City staff who have been involved.

- Ask everyone involved in the joint PDA to look for ways of rebuilding so there is less damage and hardship next time; provide these ideas to the hazard mitigation PDA teams.
- Set up a joint PDA Team support facility that includes:
 - Tables and chairs
 - Displays, such as maps, chalk boards, dry erase boards, flip charts, bulletin boards, etc.
 - Telephones and telephone directories
 - Copies of the Oregon Blue Book
 - One or more photocopiers
 - Availability of drinking water, coffee, etc.
 - Restrooms
 - If available and appropriate, your Emergency Operations Center can serve as the joint PDA Team support facility.
- Make arrangements for a facility to conduct the joint PDA public official and team briefings such as a courtroom, public auditorium, lecture hall, etc.
- Be prepared to provide high clearance vehicles for the use of the teams; these vehicles should be driven by the local representative and should comfortably seat up to five people.
- If necessary, assist State and Federal joint PDA team members to find lodging and meals during their stay in the disaster area.

Individual Assistance

- Develop a written summary of the impacts of the disaster, including the following information:
 - Have there been injuries or deaths? Are persons missing?
 - Are families isolated due to the disaster?
 - Is public health and safety significantly compromised?
 - Is debris on private property a health and safety hazard? Does it prevent access to homes?

FA 4. Recovery Strategy

- Are services such as medical care, schools, mail delivery, public transportation, communication, etc. significantly affected?
 - Are utilities (electric, gas, water, sewer, drainage systems, dikes, etc.) out of service? When will service be restored? Are outages widespread or concentrated in one area?
 - Have many private vehicles been destroyed?
 - Is there increased unemployment due to the disaster?
- Gather and assemble the following information about the area(s) affected by the disaster:
 - Which affected areas are urban, suburban, and rural? Commercial? Industrial? Delineate these areas on the teams' maps.
 - What was the economic base and condition prior to the disaster?
 - What was the pre-disaster market value of homes in the disaster area(s)? Be prepared to provide dollar ranges to fit "high," "medium," and "low" categories.
 - Ask the American Red Cross to make available any information they have collected during their "windshield" and "on-site detailed" damage assessments.
 - Work with Oregon Emergency Management and the Federal Emergency Management Agency to find out what you can about insurance coverage in force in the disaster areas. FEMA will conduct some of this research from its regional office.
 - What resources are available in the area to provide temporary housing for displaced persons? Are there vacant rental homes, mobile homes, or apartments?
 - If flooding has occurred, make estimates for the team regarding the duration of flooding, as well as water depths and velocities. Was the water contaminated with chemicals? Sewage? Other?
 - Assign local, State, Federal, and volunteer agency officials to each team; have each team cover both dwellings and businesses in a geographic area.
 - Dispatch teams to their areas; have each team report back to the central PDA support facility periodically by radio or telephone. Some teams may cover ground more quickly than others. If so, one or more

FA 4. Recovery Strategy

geographic areas may be assigned to a team or teams likely to finish before others.

Public Assistance

- Develop a written description of the impacts of the disaster on local government, including:
 - Population served by the local government.
 - Budget balance before and after the disaster.
 - Capability of local government to deal with the interruption or loss of essential public services, continuing public health and safety problems, and loss of public facilities, equipment, materials, etc.
 - Public service impacts that will continue without Federal assistance, including deferral of permanent repairs, reductions in ongoing services, delays in planned capital improvements, continued isolation of families or communities, etc.
- If the time the joint PDA will begin has been well established, make appointments for the team at sites where the damage or the impact of the damage is greatest.
- In lieu of making appointments, develop a list of contacts for each damage site, including telephone numbers, and times when they are easiest to reach.
- Ensure that local government representatives designated to serve on joint PDA Teams have a knowledge of repairs already completed and repairs needing to be made, as well as a knowledge of the location of damage sites.
- Be prepared to provide State and Federal officials a detailed cost breakdown of labor, equipment, materials, and supplies for all completed work, including work completed through contracts with private-sector companies. While a variety of forms can be used to summarize these items, the format chosen must document who, what, when, where, and how.
- Be prepared to describe which sites will be repaired or reconstructed by contract, and which will be repaired by local forces. If a contractor's estimate has been received, have it available for the State and Federal inspectors.
- If damaged facilities are to be rebuilt to conform with new codes, specifications, or standards, be prepared to provide inspectors with

FA 4. Recovery Strategy

copies of the specifications, local resolutions, ordinances, etc. that require upgrading of the facilities.

- Time permitting: Using as many “Infrastructure (Public Assistance) Initial Damage Assessment Field Data Collection Forms” as necessary, develop a list of work performed and facilities damaged as a direct result of the disaster. Estimate the cost of repair or restoration of damaged public facilities. Be sure to include work that has and has not been completed. Organize the information by category of work.
- Assign local, State, and Federal officials to each team; have each team cover a geographic area.
- Dispatch the teams to their areas; have each team report back into the central PDA support facility periodically by radio or telephone. Some teams may cover ground more quickly than others. If so one or more geographic areas may be assigned to a team or teams likely to finish before the others.

Hazard Mitigation

- Think of the joint PDA as an opportunity to quickly identify hazard mitigation opportunities before much of the permanent repair work has been accomplished.
- Talk with the people who helped you to accomplish the Initial Damage Assessment about hazard mitigation opportunities they discovered during this process; provide this information to the State and Federal inspectors (Federal Emergency Management Agency and Small Business Administration).
- Resources permitting, assign a local representative to join Federal Emergency Management Agency and Oregon Emergency Management hazard mitigation staff assigned to accomplish the hazard mitigation portion of the joint PDA. Assemble as many teams as appropriate and as resources permit; often there will be only one hazard mitigation PDA team per local jurisdiction.

INDIVIDUAL ASSISTANCE INITIAL DAMAGE ASSESSMENT (IDA) FIELD DATA COLLECTION FORM

For the purposes of this form, "Individual Assistance" may be thought of as potential assistance to individuals, families, and businesses which is tied to the structures they inhabit. This form is intended for use by local governments and their agents collecting IDA data on homes and businesses in the field. It may also be useful for collecting data being provided via "telephone-banks." The information collected on these forms should be summarized on the Initial Damage Assessment Summary Report Form.

JURISDICTION: _____ DATE: _____

AREA BOUNDARIES: North _____ East _____
 West _____ South _____

STREET NAME: _____

Place a mark for each unit, and a diagonal line for every fifth unit (i.e.: ). When assessing multi-family dwellings, and businesses co-located within one structure, make a mark for each individual unit within the appropriate category of damage. Where a dwelling or business is not damaged, but is significantly affected by the event (for example; no access, loss of potable water, anticipated long-term utility outage, etc.), place the mark for that unit in the affected row.

**ESTIMATED DISASTER ECONOMIC INJURY WORKSHEET
FOR BUSINESSES**

Accurate responses to the questions below will assist in evaluating a request for an economic injury disaster declaration from the U. S. Small Business Administration.

1. Name of Business Owner: _____
Name of Property Owner: _____
Business/Property Address: _____
Mailing Address: _____
Telephone Numbers: Business: _____ Home: _____

2. **Estimated Adverse Economic Impact**

Did the disaster economically impact your business? If so, when did the impact start and end?

_____ to _____
(month/year) (month/year)

What were your business' revenues during that period? \$ _____

What were your business' revenues during the same period of the prior year? \$ _____

3. Amount of business interruption insurance received or anticipated, if any: \$ _____

4. Provide a brief explanation of what adverse economic effects the disaster had on your business:

5. How many people did you employ **prior** to the disaster? _____

How many people did you employ **after** the disaster? _____

If your business also suffered property damage, answer the following questions:

6. Estimated dollar loss to:

Real property (building), if owned: \$ _____

Contents (machinery and equipment, furniture and fixtures,
inventory, leasehold improvements, etc): \$ _____

7. Insurance recovery received or anticipated for **property** damages: \$ _____

INSTRUCTIONS FOR THE INSTRUCTIONS (PUBLIC ASSISTANCE) INITIAL DAMAGE ASSESSMENT FIELD DATA COLLECTION FORM

This form is intended to be utilized by local government officials or their agent during the Initial Damage Assessment (IDA) to record estimates of damage, costs, and impacts of the disaster on public infrastructure. The following categories of work shall be utilized:

<u>Emergency Work Categories</u>	<u>Permanent Work Categories</u>
A = Debris Removal	C = Roads and bridges
B = Protective Measures	D = Water control facilities
	E = Public buildings and equipment
	F = Public utility systems
	G = Parks and other

List the work performed, and public facilities damaged, as a direct result of the disaster. Estimate the cost of repair or restoration of damaged public facilities. Be sure to include both work that has been completed and which has not.

For Roads and bridges on the Federal Aid System, Enter "FAS" instead of "C" under the category of work; likewise for debris removal and protective measures related to FAS facilities. Alternatively, FAS damage and costs can be listed on separate field data collection forms if the local jurisdiction wishes. Although FAS costs will not be a factor in determining a request for a Presidential declaration, it may be useful to assess and summarize these damages for inclusion in any requests to the FHWA for assistance.

Only private nonprofits (PNPs) providing the following types of government-like services to the general public should be included on this form: education facilities, utilities, emergency or medical facilities, custodial care facilities, museums, zoos, community centers, libraries, homeless shelters, and senior citizen centers. All other PNPs should be treated as businesses for the purpose of damage assessment, and included on Individual Assistance damage assessment forms.

Local officials should be prepared to provide state and federal officials with a detailed cost breakdown of personnel, equipment, materials, and supplies for all completed work. While a variety of forms can be used to summarize these items, the format must document the type and location of work performed. Sample forms are available in the *Disaster Recovery Assistance Guidebook*. Be prepared to describe which sites will be repaired or reconstructed by estimates of potential threats and routine maintenance should not be listed on the forms.

Totals should be summarized on the Initial Damage Assessment Summary Report Form.

Excel Tips: To copy IDA DATA Form, highlight IS IDA DATA tab with cursor arrow + Ctrl, then drag.

INSTRUCTIONS FOR THE INITIAL DAMAGE ASSESSMENT SUMMARY REPORT FORM
GENERAL INFORMATION

Above all else, remember that the Initial Damage Assessment (IDA) Summary Report is an estimate. While accuracy is desirable, with this report *give an edge to speed over accuracy*.

Only those lines on the form which are not self-explanatory are further described in these instructions.

Counties should include in their IDA Summary Report to OEM damage and costs associated with the event throughout the county. Depending on how your county damage assessment method is established, this may include collecting IDA Summary Reports from the cities and special districts within the county, and summarizing their reports into one countywide report. State agency costs associated with the event, and the costs associated with repairs to damaged state facilities within your jurisdiction should also be included in the county report.

IMPACTS TAB

Name of reporting official is the name of the person filing the report. Her or his title goes on the line below. Next to "EOC activated:" note the date and time the EOC was first activated for this event. If the EOC has been closed, please note this as well on the next line. Next to the line "pop. still at risk," please estimate the number of people whose safety, health, and well-being are still at risk due to the emergency.

Please supplement this form, as needed, with additional information which further describes the situation, including maps, charts, field damage assessment forms, etc.

COST SUMMARY TAB**Housing**

To the extent that it is made known, or can be effectively assessed, include the total estimated costs associated with damage to housing, whether insured or not insured. In the "comments" column, estimate the percentage of insurance in place for the losses which have been experienced, but do not expend great effort in attempting to establish insurance coverage during an initial damage assessment. These details can be collected later, if needed.

[Note: There is an exception which may require an effort to more accurately estimate insurance coverage in-place; "small disasters" may require collecting insurance information during the IDA in order that the Small Business Administration can make a decision on whether or not to dispatch personnel to Oregon to lead an SBA "damage survey."]

Determine the number of homes with minor and major damage, and the number destroyed. "Major" damage indicates those homes which are not habitable without costly or delayed repair. "Minor" damage refers to homes that are habitable with minor repair or clean-up. Include in the dollar cost estimates both repairs and clean-up. "Affected habitable" are homes which are not actually damaged and are habitable, but are affected in some way (for example: loss of potable water, loss of access road or bridge, etc.).

All "second" homes (vacation homes), no matter how affected, should be shown next to the line "second homes." Generally, potential disaster assistance programs do not apply to second homes.

Do not specifically seek personal property (contents) information, but where it is given, it may be included. If it is included with the dollar estimate assigned to "destroyed," "major," "minor," or "affected habitable," this is acceptable for the purposes of an initial damage assessment. If it is given as a separate amount, include this amount next to the line "personal property (not included above)," but try to avoid double-counting the house under the "#" column (i.e.: count the personal property under "#" only if not already included in an above category).

Include rental units in the assessment and note as such under "comments." Please note that rental homes should also be included as a "businesses" under that category.

The Local Emergency Program Manager may wish to solicit information about losses through appropriate press releases and telephone banks (see Collecting Initial Damage Assessment Data by Telephone Bank).

Keep a list of affected homeowners and how they can be reached.

Business

The process of collecting and analyzing information needed for businesses is different than that needed for housing, in large part because potential assistance programs have different criteria. Ideally, the IDA Summary Report should consider the total estimated disaster-related costs to businesses and whether or not these costs are insured.

Determine the number of businesses with minor and major damage, and the number destroyed. In the case of businesses, "destroyed" should be assigned to those businesses with 80% or greater uninsured losses, and "major" to businesses with greater than 40% uninsured losses due to physical damage. Businesses with lower percentages of uninsured physical damage should be shown as "minor." Include in the dollar cost estimates repairs, damage to or loss of inventory, and clean-up costs. In the "comments" column, report on your estimate of the overall percentage of insurance in place for the losses which have been experienced. Like the housing category, the smaller the disaster, the more critical having a good estimate of insurance coverage in-place will be.

Next to the line "business interrupted," show summary information on businesses which are not damaged, but are unable to operate because of the emergency conditions. If known, loss of business and increased operating expenses should be included under this category. Like above, in the "comments" column, estimate any insurance which is in place for interruption of business due to the disaster conditions. Make appropriate clarifying comments.

Consider trying to solicit information about losses through appropriate press releases and telephone banks (see Collecting Initial Damage Assessment Data by Telephone Bank). Assistance may also be obtained through local groups such as the chamber of commerce.

Keep a list of affected business people and how they can be reached.

Private nonprofits (PNPs)

Generally, for the purposes of initial damage assessment, private nonprofits (PNPs) should be treated similar to businesses because the potential assistance programs for the vast majority of PNPs are similar to those for businesses.

There are, however, a few exceptions. The most common ones are PNPs which offer their services to the general public, and meet the following categories: educational, utility, emergency service or facility including medical facilities, custodial care, museums, zoos, community centers, libraries, homeless shelters, senior citizen centers, and rehabilitation facilities. PNPs meeting these specific categories should be shown under "infrastructure" on the IDA Summary Report (not under private nonprofit). This is due to the fact that they may be eligible for infrastructure assistance if there is a Presidential major disaster declaration.

Technically, PNPs are not special service districts, but PNPs meeting the specific categories listed in the previous paragraph should be included with the special districts for the purposes of the IDA Summary Report. For example, PNP utilities (usually called "co-ops") should be included under "infrastructure, special districts, category 'F.'"

For all other PNPs, determine the number with minor and major damage, and the number destroyed. In the case of PNPs, "destroyed" should be assigned to those PNPs with 80% or greater uninsured losses, and "major" to PNPs with greater than 40% uninsured losses due to physical damage. PNPs with lower percentages of uninsured physical damage should be shown as "minor." Include in the dollar cost estimates repairs, damage to or loss of inventory, and clean-up costs. In the "comments" column, estimate an overall percentage of insurance in place for the losses which have occurred. Like the housing and business categories, the smaller the disaster, the more critical having a good estimate of insurance coverage in-place will be.

Next to the line "service interrupted," show summary information on PNPs which are not damaged, but are unable to operate because of the emergency conditions. If known, loss of service and increased operating expenses should be included under this category. Make appropriate clarifying comments.

Like the previous categories, one may be able to obtain the needed information about losses through press releases and telephone banks. Keep a list of affected PNP points-of-contact and how they can be reached.

Agriculture

Assessment of agricultural losses is usually led by the USDA County Emergency Board (CEB), which is typically comprised of county extension agents, soil and water conservation district representatives, and representatives of the Natural Resources Conservation Service (NRCS) and Farm Service Agency (FSA).

Estimate the acres and dollars associated with crop loss; include with this figure the costs for replanting (if appropriate), reduced production due to the emergency, and the removal of debris from farm land. In the comments column next to crop loss, note the types of crops on those acres. When appropriate and factually defensible, projected crop losses may be included. Please do not include a dollar amount for soil lost to erosion; while loss of productive soil is tragic, and while dollar equivalents probably could be developed, they should not be reflected on the IDA Summary Report.

Where it is known that damages will be covered by insurance, do not include this amount under dollar loss estimate. Do not expend great effort in attempting to establish insurance coverage during an initial damage assessment; these details can be collected later, if needed.

Keep a list of affected farmers and how they can be reached.

Infrastructure

Note the number of sites and cost associated with the jurisdiction's efforts at debris clearance, and with measures taken to protect lives and property.

Note the number of sites and dollar estimates associated with transportation system damage (roads, bridges, etc.). Separate this information into those sites on the Federal Aid System (FAS), and those off the System (non-FAS).

Note the number of sites and estimated dollar costs associated with damage to water control facilities, public buildings and equipment, public utility systems, parks, etc. For public buildings and equipment, divide losses into insured/uninsured categories.

Please include the costs for special service districts and state facilities located within your jurisdiction, but do not include damage to federal facilities under infrastructure. The category "county facilities costs & loss" refers only to county facilities and county costs. The cumulative totals for all infrastructure within a county should be calculated under "totals - all governments," and a grand total estimate for the infrastructure category shown just above the double line.

Estimated total cost & loss

Add the estimated total dollar cost and loss figures from housing, business, PNP, agriculture, and infrastructure. Put the sum to the right of "Estimated Total Cost & Loss." Do not include the "#" fields under agriculture in this total.

Transmittal

The IDA Summary Report should be submitted to Oregon Emergency Management in the format shown via fax, email, or PACKET amateur radio. Please call OEM by telephone or radio prior to sending the form.

Maintain a copy of the report for your files.

Updates

Updates should be provided to OEM as they become available. Updates should show *cumulative* figures.

Did you participate in the Federal/State Preliminary Damage Assessment (PDA)? YES NO

Private Non-Profit Organization? YES NO

If yes, which of the facilities identified below best describe your organization? _____

Title 44 CFR, part 206.221(e) defines an eligible private non-profit facility as: "... any private non-profit educational, utility, emergency, medical or custodial care facility, including a facility for the aged or disabled, and other facility providing essential governmental type services to the general public, and such facilities on Indian reservations." "Other essential governmental service facility means museums, zoos, community centers, libraries, homeless shelters, senior citizen centers, rehabilitation facilities, shelter workshops and facilities which provide health and safety safety services of a governmental nature. All such facilities must be open to the general public."

Private Non-Profit Organizations must attach copies of their Tax Exemption Certificate and Organization Charter or By-Laws. If your organization is a school or educational facility, please attach information on accreditation or certification.

PROJECT WORKSHEET INSTRUCTIONS

The Project Worksheet must be completed for each identified damaged project. A project may include damages more than one site.

After completing all Project Worksheets, submit the worksheets to your Public Assistance Coordinator.

Identifying Information

Disaster: Indicate the disaster declaration number as established by FEMA (i.e. "FEMA 1136-DR-TN", etc.).

Project No.: Indicate the project designation number you established to track the project in your system (i.e. 1,2,3, etc.).

PA ID No.: Indicate your Public Assistance identification number on this space. This is optional.

Date: Indicate the date the worksheet was prepared in MM/DD/YY format.

Category: Indicate the category of the project according to FEMA specified work categories (i.e., A,B,C,D,E,F,G). This is optional.

Applicant: Name of the government or other legal entity to which the funds will be awarded.

County: Name of the county where the damaged facility is located. If located in multiple counties, indicate "Multi-County."

Damage facility: Identify the facility and describe its basic function and pre-disaster condition.

Work Complete as of: Indicate the date the work was assessed in the format of MM/DD/YY and the percentage of work completed to that date.

Location: This item can range anywhere from an "address," "intersection of...," "1 mile south of...on..." to "county wide." If damages are in different locations or different counties please list each location. Include latitude and longitude of the project if known.

Damage Description and Dimensions: Describe the disaster-related damage to the facility, including the cause of the damage and the area or components affected.

Scope of Work: List work that has been completed, and work to be completed, which, is necessary to repair disaster-related damage.

Does the Scope of Work change the pre-disaster conditions of the site: If the work described under the Scope of Work changes the site conditions (i.e. increases/decreases the size or function of the facility or does not replace damage components in kind with like materials), check (x) yes. If the Scope of Work returns the site to its pre-disaster configuration, capacity and dimensions check (x) no.

Special Considerations: If the project includes insurable work, and/or is affected by environmental (NEPA) or historic concerns, check (x) either the Yes or No box so that appropriate action can be initiated to avoid delays in funding. Refer to *Applicant Handbook* for further information.

Hazard Mitigation: If the pre-disaster conditions at the site can be changed to prevent or reduce the disaster-related damage, check (x) Yes. If no opportunities for hazard mitigation exist check (x) no. Appropriate action will be initiated and avoid delays in funding. Refer to *Applicant Handbook* for further information.

Is there insurance coverage on this facility: Federal law requires that FEMA be notified of any entitlement for proceeds to repair disaster-related damages from insurance or any other source. Check (x) yes if any funding or proceeds can be received for the work within the Scope of Work from any source besides FEMA.

Project Cost

Item: Indicate the item number on the column (i.e. 1, 2, 3, etc.). Use additional forms as necessary to include all items.

Code: If using the FEMA cost codes, place the appropriate number here.

Narrative: Indicate the work, material or service that best describes the work (i.e. "force account labor overtime", "42 in. RCP", "sheet rock replacement", etc.).

Quantity/Unit: List the amount of units and the unit of measure ("48/cy", "32/lf", "6/ea", etc.).

Unit Price: Indicate the price per unit.

Cost: This item can be developed from cost to date, contracts, bids, applicant's experience in that particular repair work, books which lend themselves to work estimates, such as RS Means, or by using cost codes supplied by FEMA.

Total Cost: Record total cost of the project.

Prepared By: Record the name, title, and signature of the person completing the Project Worksheet.

Applicant Rep.: Record the name, title, and signature of Applicant's representative.

Records Requirements

Please review the *Applicant Handbook, FEMA 323* for detailed instructions and examples.

For all completed work, the applicant must keep the following records:

- *Force account labor documentation sheets identifying the employee, hours worked, date and location;
- *Force account equipment documentation sheets identifying specific equipment, operator, usage by hour/mile and cost used;
- *Material documentation sheets identifying the type of material, quantity used and cost;
- *Copies of all contracts for work and any lease/rental equipment costs.

For all estimated work, keep calculations, quantity estimates, pricing information, etc. as part of the records to document the "cost/estimate" for which funding is being requested.

APPLICANT		PA ID NO.	DATE
PROJECT NAME	PROJECT NO.	LOCATION	

Form must be filledout - for each project.

1. Does the damaged facility or item of work have insurance and/or is it an insurable risk? (e.g., buildings, equipment, vehicles, etc.)
 Yes No Unsure
Comments

2. Is the damaged facility located within a floodplain or coastal high hazard area/or does ti have an impact on a floodplain or wetland?
 Yes No Unsure
Comments

3. Is the damaged facility or item of work located within or adjacent to a Coastal Barrier Resource System Unit or an Otherwise Protected rea?
 Yes No Unsure
Comments

4. Will the proposed facility repairs/reconstruction change the pre-disaster condition? (e.g., footprint, material, location, capacity, use or function)
 Yes No Unsure
Comments

5. Dose the applicant have a hazard mitigation proposal or would the applicant like technical assistance for a hazard mitigation proposal?
 Yes No Unsure
Comments

6. Is the damaged facility on the National Register of Historic Places or the state historic listing? Is it older than 50 years? Are there other, sililar buildings near the site? Yes No Unsure
Comments

7. Are there any pristine or undisturbed areas on, or near, the project site? Are there large tracts of forestland?
 Yes No Unsure
Comments

8. Are there any hazardous materials at or adjacnt to the damaged facility and/or item of work?
 Yes No Unsure
Comments

9. Are there any other environmental or controversial issues associated with the damaged facility and/or item of work?
 Yes No Unsure
Comments

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this form is estimated to average 30 minutes per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing, reviewing, and submitting the form. You are not required to respond to this collection of information unless a valid OMB control number appears in the upper right corner of this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street, SW, Washington, DC, 20472, Paperwork Reduction Project (1660-0017). **Please do not send your completed survey to the above address.**

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this form is estimated to average 30 minutes per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing, reviewing, and submitting the form. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street, SW, Washington, DC, 20472, Paperwork Reduction Project (1660-0017). **Please do not send your completed survey to the above address.**

FEMA and State personnel will use this questionnaire to determine the eligibility of specific facilities of an approved Private Non-Profit (PNP) organization (See 44 CFR 206.221). Owners of critical facilities (i.e., power, water (including providing by an irrigation organization or facility, if it is not provided solely for irrigation purposes), sewer, wastewater treatment, communications and emergency medical care) can apply directly to FEMA for assistance for emergency work (debris removal and emergency protective measures) and permanent work (repair, restore or replace a damaged facility). Owners of non-critical facilities can apply directly to FEMA for assistance for emergency work, but must first apply to the U. S. Small Business Administration (SBA) for assistance for permanent work. If the owner of a non-critical facility does not qualify for an SBA loan or the cost to repair the damaged facility exceeds the SBA loan amount, the owner may apply to FEMA for assistance.

1. Name of PNP Organization _____

2. Name of the damaged facility and location

3. What was the primary purpose of the damaged facility _____

4. Is the facility a critical facility as described above? Yes No

5. Who may use the facility _____

6. What fee, if any, is charged for the use of the facility _____

7. Was the facility in use at the time of the disaster? Yes No

8. Did the facility sustain damage as a direct result of the disaster? Yes No

9. What type of assistance is being requested? _____

10. Does the PNP organization own the facility? Yes No

11. If "Yes" obtain proof of ownership; check here if attached.

12. Does the PNP organization have the legal responsibility to repair the facility? Yes No

13. If "Yes", provide proof of legal responsibility; check here if attached. Yes No

14. Is the facility insured? Yes No

15. If "Yes", obtain a copy of the insurance policy; check here if attached.

Appendix C Individual Assistance Materials

- C-1 Disaster Recovery Center Requirements Checklist
- C-2 FEMA DRC Site Requirements Worksheet

THIS PAGE LEFT BLANK INTENTIONALLY

Appendix C-1 Disaster Recovery Center Requirements Checklist

General Information

DRCs are sited only in jurisdictions where the need exists and local officials request them. There are no State or Federal reimbursement for costs associated with use of the building selected (e.g., rent and utility costs).

Local officials must be willing to provide security at the facility during daily operations. DRCs may be open for as short as a few days, and as long as a few weeks. Site selection for DRCs is a joint local, State, and Federal responsibility. This process is facilitated when local officials have prepared ahead of time and identified buildings that could serve as DRCs.

Required

The following should be considered in identifying possible facilities to serve as Disaster Recovery Centers:

- The building must be large enough for the needs of the situation (number of agencies and clients anticipated in the DRC). This may vary from as few as 1200 to more than 4500 square feet. Consequently, it is advisable to identify a variety of buildings of different sizes in different locations within your jurisdiction.
- Sufficient tables and chairs for the needs of the situation should be readily available (either in the facility or easily moved to the facility). Each agency working at the facility will need at least one table and five chairs.
- The building must have heat, electricity, good lighting, potable water, rest rooms, and adequate parking.
- Appropriate emergency medical support should be quickly available to the building.
- Appropriate fire protection should be readily available.
- Access to and through the building must be barrier-free for disabled persons. (DRCs must meet Americans with Disabilities Act requirements and have a certification to that effect from the local building official on file prior to the disaster.)
- The building owner must be willing to allow the Federal Emergency Management Agency and the Small Business Administration to install telephone lines.

Preferred

- The public should generally be familiar with the building.
- The building should be proximate to most of the affected population. Travel time should be reasonable for most of the people affected by the disaster. Public transportation should be available, if possible.
- Custodial support should be available at the facility.
- An indoor waiting area near the entrance to the building is helpful.
- Bilingual support should be available, if appropriate.
- Child care is a useful addition if it can be provided at the facility.
- Local officials should be prepared to help provide supplies, such as trash cans, writing pads, pencils, local telephone directories, maps of the disaster area(s), string, masking tape, etc.

Appendix C-2 FEMA Disaster Recovery Center Site Requirements Worksheet

FEMA DRC SITE REQUIREMENTS WORKSHEET

The following is the worksheet that FEMA uses to evaluate potential DRC facilities:

Date site evaluated:	Primary or secondary site (circle one)	
Site address:	County name:	
Site contact/telephone number:	City name:	
After hours contact/telephone:	County E.M. Director/telephone:	
Site accessible hrs:	Site keys: location and who has them?	
DRC SITE REQUIREMENTS		
	YES/NO	COMMENTS
Proximate to affected area(s)?		
Parking adequate? (preferably 40 spaces or more, but no fewer than 20 spaces)		
Electricity, water, lighting adequate? <ul style="list-style-type: none"> - adequate power available for fax machines and computers? - water system functioning? - emergency lighting system available? - exterior lighting available? 		
Secure, safe, and sanitary facility? <ul style="list-style-type: none"> - building sound, of good construction, and non-leaking condition? - electric wiring in sound condition or sealed off from contact with staff and clients? (no exposed wiring - no missing receptacle cover plates or damaged receptacles) - sprinkler system operating or fire extinguishers available? - dry floors with no holes or other obstructions? - heating and/or cooling system(s) verified as inspected and functioning properly? - restrooms functional or portable units available? - adequate ventilation of working area? - can doors be locked? - are windows secure? - parking lot lighted/safe for staff and clients to walk to their cars? 		
Lease or use agreement?		
Agreement between county/city officials?		
Building is handicap accessible? <ul style="list-style-type: none"> - adequate handicap parking? - ramp for wheelchair (if necessary)? - doorways wide enough to accommodate wheelchair? - restrooms handicapped accessible, including wheelchair? 		
Space required: (1,200 sq. ft. minimum)		
Existing telephones available to FEMA? Number?		
Incoming telephone cable capacity? <ul style="list-style-type: none"> - number of pairs feeding the facility and cable type? - pre-existing service and telephone or circuit numbers? - contact local telephone company to verify availability of circuits to support minimum of 16 phone lines - Verify that inside wiring can be easily accomplished. Existing cabling may not be reliable. Insure that access to areas including ceilings, telephone rooms, and crawl spaces is available. 		
Tables and chairs available to FEMA? Number? (minimum 15 tables, 60-75 chairs)		
Fax available to FEMA? <ul style="list-style-type: none"> - number of faxes: _____ - make/model #: _____ (Identify for each in comments) 		
Janitorial and trash pickup services? Frequency?		
Crowd control devices such as ropes, cones, etc.?		

THIS PAGE LEFT BLANK INTENTIONALLY

Appendix D Typical Individual Assistance Programs

Typical Individual Assistance Programs

HUMANITARIAN SERVICE GROUPS

(e.g., American Red Cross, Church Groups, Voluntary Organizations, Community Service Groups)

Funded by: Agency or group

Administered by: Agency or group at temporary or permanent locations

Details: These services can be requested by individuals or by local or state officials. Services provided include immediate emergency aid such as clothing, food, medical assistance, shelter, cleanup help, transportation, furniture, and medical supplies

EMERGENCY FOOD STAMP PROGRAM

Funded by: Food and Nutrition Services (U.S. Department of Agriculture [USDA])

Administered by: State Department of Social and Health Services (DSHS)

Details: Provides food coupons to qualified disaster victims. Requires a request to the USDA by the DSHS, based on request to DSHS by State Emergency Management in coordination with local Emergency Management.

INSURANCE ASSISTANCE

Administered by: American Insurance Association, Federal Emergency Management Agency, and National Flood Insurance Program

Details: Provide counseling regarding insurance problems or questions.

CONSUMER PROTECTION

Administered by: State Attorney General’s Office

Details: Provides counseling regarding consumer problems, such as non-availability of products and services needed for reconstruction, price gouging, and disreputable business concerns and practices. May involve coordination with the Insurance Commissioner and/or legal counsel.

Typical Individual Assistance Programs

CRISIS COUNSELING

Administered by: Baker County Health Department

Details: Available only after a special request by the Governor and approved by the Federal Emergency Management Agency. Provides referral services and short-term counseling for mental health problems caused or aggravated by a disaster.

INDIVIDUAL AND FAMILY GRANT PROGRAM

Funded by: 75% Federal, 25% State

Administered by: State Emergency Management

Provides assistance to individuals and families to permit them to meet disaster-related necessary expenses and serious needs for which other assistance is either unavailable or inadequate. It is not intended as a replacement for an insurance program.

TEMPORARY HOUSING PROGRAM

Funded by: 100% Federal

Administered by: Federal Emergency Management Agency

Details: Provides financial assistance or government-owned dwellings, if available, for those whose primary residences are uninhabitable due to a disaster.

DISASTER LOANS

Funded by: U.S. Small Business Administration

Administered by: U.S. Small Business Administration

Physical Disaster Loans - Low-interest loans to individuals for repair, replacement, or rehabilitation of owner-occupied primary residences or personal property loss for renters.

Business Loans (Physical Disaster Loans) - Low-interest loans to businesses for repair, replacement, or rehabilitation of disaster-damaged property.

Economic Injury Disaster Loans - For businesses suffering economic loss as a result of a single sudden physical event of catastrophic nature. The Small Business Administration's maximum loan is \$500,000. Funds can be used for indebtedness and operating expenses.

Typical Individual Assistance Programs

EMERGENCY LOANS, FARMERS HOME ADMINISTRATION

Administered by: U.S. Department of Agriculture (USDA)

Details: Provides low-interest loans to farmers, ranchers, and agricultural operators (either tenant-operator or owner-operator) for physical and production losses. Loans may also be used to repair or replace farm property and supplies or for repayment of farm operating debts incurred during the disaster year. Loans may also be available if approved by the USDA, following a governor's request

DISASTER UNEMPLOYMENT ASSISTANCE

Funded by: Federal Emergency Management Agency

Administered by: U.S. Department of Labor through the State Employment Security Department

Details: Provides weekly benefit payments to those out of work due to a disaster, including self-employed persons, farm workers, farm and ranch owners, and others not normally covered under regular unemployment insurance programs.

TAX ASSISTANCE

Administered by: Internal Revenue Service and Tax Information for Indian Tribal Governments

Details: Provides counseling and assistance in the form of income tax rebates to disaster victims who file income tax returns during the year of the disaster or during any of the three previous years. These earlier returns may be amended to receive an immediate tax rebate for non-insured casualty losses to homes, personal property, businesses, or farming/ranching operations. Benefits may also result from filing amended state income tax returns.

SOCIAL SECURITY BENEFITS

Funded by: Social Security Administration

Administered by: Social Security Administration

Details: Assistance to annuitants with address changes and expedited check delivery. Assistance in applying for disability, death, survivor benefits, and Social Security Insurance payments.

Typical Individual Assistance Programs

VETERAN’S BENEFITS

Funded by: Veterans Administration (VA)

Administered by: Veterans Administration

Details: Assistance in applying for VA death benefits, pensions, insurance settlements, and adjustments to VA-insured home mortgages. VA representatives will also record address changes, if necessary.

LEGAL SERVICES

Administered by: Federal Emergency Management Agency

Details: Free legal counseling to low-income persons for disaster-related problems. May include replacing legal documents, transferring titles, contracting problems, will probates, and insurance problems.

Incident Annexes

1

IA 1 – Drought

THIS PAGE LEFT BLANK INTENTIONALLY

Note: Ultimate responsibility for providing water service to the citizens lies with the local water districts. Each jurisdiction is responsible for its own water supplies and maintenance of facilities. Assistance from the County and State will be provided in the form of personnel and equipment, as requested by the affected area.

Drought Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Continue to maintain and revise, as needed, applicable response plans pertaining to drought, including the City and County EOPs and supporting procedures and plans.	
	<input type="checkbox"/> Pre-designate alternative sources of drinking water in case of drought or other water shortage event.	
	<input type="checkbox"/> Conduct pre-incident planning related to drought and determine vulnerabilities in various drinking water systems.	
	- Prepare scripts to be used on local television station(s) for emergency broadcast. Include release instructions.	
	- Prepare radio messaging to be used by local radio stations for emergency broadcast.	
	<input type="checkbox"/> Have personnel participate in necessary training and exercises, as determined by City and County Emergency Management.	
	<input type="checkbox"/> Participate in drought preparedness activities, seeking understanding of interactions with participating agencies in a drought scenario.	
	<input type="checkbox"/> Ensure that emergency contact lists are updated and establish a pre-event duty roster allowing for 24/7 operational support for the EOC.	
	<input type="checkbox"/> Identify local contractors and vendors that could assist during a drought and develop MOUs with those private businesses.	
	<input type="checkbox"/> Inform City and County Emergency Management of any major developments that could adversely affect response operations (e.g., personnel shortages, loss of firefighting equipment, etc.).	
	<input type="checkbox"/> Work with the local planning commission to ensure that new construction does not increase hazards or vulnerability threat.	
	<input type="checkbox"/> Ensure that city maps of water mains, valves, and public sewer systems are up-to-date and accessible.	
	<input type="checkbox"/> Provide public safety information and educational programs regarding emergency preparedness and response.	

Drought Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
RESPONSE PHASE	<input type="checkbox"/> When deemed necessary, activate the EOP when drought and other water shortage incidents pose a threat.	
	<input type="checkbox"/> Activate the appropriate EOCs and establish Incident Command. For larger events that cross multiple jurisdictions, establish a Unified Command. The Tribal and/or the County EOCs may be staffed. Staffing levels vary with the complexity and needs of the response. At a minimum, the IC, all Section Chiefs, the Resource Coordinator, and management support positions will most likely be needed.	
	<input type="checkbox"/> Estimate emergency staffing levels and request personnel support.	
	<input type="checkbox"/> Ensure that action is taken to protect personnel and emergency equipment from possible damage by drought.	
	<input type="checkbox"/> Develop work assignments for ICS positions (<i>recurring</i>).	<i>ICS Form 203: Organization Assignment List</i>
	<input type="checkbox"/> Notify supporting agencies.	
	- Identify local, regional, State, and Federal agencies/entities that may be able to mobilize resources to support local response efforts and EOC staffing.	
	<input type="checkbox"/> Determine the type, scope, and extent of the incident (<i>recurring</i>). Verify reports and obtain estimates of the area that may be affected. Obtain status of impacts within the jurisdiction.	<i>ICS Form 209: Incident Status Summary.</i>
	- Notify command staff, support agencies, adjacent jurisdictions, ESF leads/coordinators, and liaisons of any situational changes.	
	<input type="checkbox"/> Develop and initiate shift rotation plans, including briefing of replacements during shift changes.	
	- Dedicate time during each shift to preparing for shift change briefings.	<i>Incident Action Plan</i>
	<input type="checkbox"/> Confirm or establish communications links among local and county EOCs, other AOCs, and the State ECC. Confirm operable phone numbers and verify functionality of alternate communications resources.	
	<input type="checkbox"/> Ensure that all required notifications have been completed. Consider other local, regional, State, and Federal agencies/entities that may be affected by the incident. Notify them of the status.	
	<input type="checkbox"/> Manage and coordinate interagency functions. Providing multi-agency coordination is the primary goal. Assimilate into a Unified Command structure if the scope of the incident so dictates.	

Drought Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Implement local plans and procedures for drought and/or water shortage operations. Ensure that copies of all documents are available to response personnel. Implement agency-specific protocols and SOPs.	<i>Local, agency, and facility-specific Standard Operating Procedures</i>
	<input type="checkbox"/> Conduct and obtain current damage reports and determine the affected area (<i>recurring</i>).	
	<input type="checkbox"/> Repair and restore essential services and vital systems as required.	
	<input type="checkbox"/> Secure assistance from private contractors/vendors as needed.	
	<input type="checkbox"/> Provide emergency power as needed to maintain service to the community.	
	<input type="checkbox"/> Initiate curtailment procedures if shortages or overload conditions appear imminent.	
	<input type="checkbox"/> Determine the need for additional resources and request as necessary through appropriate channels (<i>recurring</i>).	
	<input type="checkbox"/> Submit a request for emergency/disaster declaration, as applicable.	
	<input type="checkbox"/> Activate mutual aid agreements. Activation includes placing backup teams on standby and alerting resource suppliers of both potential and current needs.	
	<input type="checkbox"/> Coordinate resource access, deployment, and storage in the operational area. Resources to coordinate include equipment, personnel, facilities, supplies, procedures, and communications. Track resources as they are dispatched and/or used.	<i>ICS Resource Tracking Forms</i>
	<input type="checkbox"/> Develop plans and procedures for registering mutual aid and other first responders as they arrive on the scene and receive deployment orders.	
	<input type="checkbox"/> Establish a JIC and designate a lead PIO for the jurisdiction.	
	<input type="checkbox"/> Formulate emergency public information messages and media responses utilizing “one message, many voices” concepts (<i>recurring</i>).	
	- Public information will be reviewed by the IC (or designee). Information will be approved for release by the IC and lead PIO, with support from Tribal liaison(s) prior to dissemination to the public.	
	<input type="checkbox"/> Record all EOC and individual personnel activities (<i>recurring</i>). All assignments, person(s) responsible, and actions taken should be documented in logbooks.	<i>EOC Planning Section Position Checklist, ICS Form 214 – Unit Log</i>
	<input type="checkbox"/> Record all incoming and outgoing messages (<i>recurring</i>). All messages, and the names of those sending and receiving them, should be documented as part of the EOC log.	

Drought Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Develop and deliver situation reports (<i>recurring</i>). At regular intervals, the IC/EOC manager and staff will assemble a situation report.	
	<input type="checkbox"/> Develop and update the IAP (<i>recurring</i>). This document is developed by the Planning Section and approved by the IC. The IAP should be discussed at regular intervals and modified as the situation changes.	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>
	<input type="checkbox"/> Implement objectives and tasks outlined in the IAP (<i>recurring</i>).	
	<input type="checkbox"/> Ensure that all reports of injuries, deaths, and major equipment damage accrued during response activities are communicated to the IC and/or the Safety Officer.	
RECOVERY/ DEMobilIZATION PHASE	<input type="checkbox"/> Ensure an orderly demobilization of emergency operations in accordance with current demobilization plans.	
	<input type="checkbox"/> Once the threat to public safety is eliminated, conduct and/or coordinate recovery operations.	
	<input type="checkbox"/> Activate, if necessary, the appropriate recovery strategies, continuity of operations plans, and/or continuity of government plans.	
	<input type="checkbox"/> Make recommendations to city and county governments regarding changes in planning, zoning, and building codes/ordinances to lessen the impact of future drought or water shortage emergencies.	
	<input type="checkbox"/> Release mutual aid resources as soon as possible.	
	<input type="checkbox"/> Conduct a post-event debriefing to identify success stories, opportunities for improvement, and development of the After Action Report/Improvement Plan.	
	<input type="checkbox"/> Deactivate/demobilize EOCs, AOCs, and command posts.	
	<input type="checkbox"/> Correct response deficiencies reflected in the Improvement Plan.	
	<input type="checkbox"/> Revise any applicable emergency response plans based on the success stories and/or lessons learned during the response.	
	<input type="checkbox"/> Submit valuable success stories and/or lessons learned to the Lessons Learned Information Sharing website (www.llis.gov)	

2

IA 2 – Earthquake

THIS PAGE LEFT BLANK INTENTIONALLY

NOTE: This annex also includes landslides as a secondary hazard.

An earthquake of 5 or greater on the Richter Scale may or may not cause widespread damage, but it is a situation that would warrant activating the EOC to better coordinate the flow of information and damage assessment.

Initially, the lead agencies for earthquake response will be the Police Department and the Fire Department. After the initial assessment to determine the extent of damage, injury, and loss of life has been accomplished, the ICS/Operations Section Chief may transition to the fire service. As emergency response transitions from rescuing casualties to recovery of deceased victims, the Public Works Department may be expected to assume the role of lead department in the ICS/Operations section for the City’s earthquake response. The Public Works Department efforts in this response and early recovery phase of the disaster are likely to concentrate on reestablishing public infrastructure facilities.

Earthquake Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Continue to maintain and revise, as needed, applicable response plans pertaining to earthquakes and other seismic activity, including the EOP and supporting procedures and plans.	
	<input type="checkbox"/> Pre-designate evacuation routes and alternate routes for areas vulnerable to earthquakes.	
	<input type="checkbox"/> Conduct pre-incident planning for sheltering and evacuation related to earthquakes.	
	- Prepare map(s) and script to be used on local television station(s) for emergency broadcast. Include release instructions.	
	- Prepare radio messaging to be used by local radio stations for emergency broadcast.	
	<input type="checkbox"/> Have personnel participate in necessary training and exercises, as needed..	
	<input type="checkbox"/> Participate in earthquake preparedness activities, seeking understanding of interactions with participating agencies in an earthquake scenario.	
	<input type="checkbox"/> Ensure that emergency contact lists are updated, and establish a pre-event duty roster allowing for 24/7 operational support for the County and City EOCs.	
	<input type="checkbox"/> Ensure that earthquake response equipment and personnel inventories are updated. Test and maintain response and communications equipment. Keep a stock of necessary response supplies.	
	<input type="checkbox"/> Inform Emergency Management Director of any major developments that could adversely affect response operations (e.g., personnel shortages, loss of firefighting equipment, etc.).	

Earthquake Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Work with planning department and local planning commissions to establish appropriate infrastructure protection measures in landslide-prone areas.	
	<ul style="list-style-type: none"> - Implement seismic inspection procedures on a regular basis and incorporate improvements to structures, while also updating appropriate mitigation plans. 	
	<input type="checkbox"/> Provide public safety information and educational programs regarding emergency preparedness and response.	
RESPONSE PHASE	<input type="checkbox"/> Activate the EOP when earthquake and/or seismic incidents pose threats.	
	<input type="checkbox"/> Activate the appropriate EOCs and establish Incident Command. For larger events that cross multiple jurisdictions, establish a Unified Command. The City and/or the County EOC may be staffed. Staffing levels vary with the complexity and needs of the response. At a minimum, the IC, all Section Chiefs, the Resource Coordinator, and management support positions will most likely be needed.	
	<input type="checkbox"/> Estimate emergency staffing levels and request personnel support.	
	<input type="checkbox"/> Ensure that action is taken to protect personnel and emergency equipment from possible damage by earthquake, also being cognizant of aftershocks.	
	<input type="checkbox"/> Develop work assignments for ICS positions (<i>recurring</i>).	<i>ICS Form 203: Organization Assignment List</i>
	<input type="checkbox"/> Notify supporting agencies.	
	<ul style="list-style-type: none"> - Identify local, regional, State, and Federal agencies/entities that may be able to mobilize resources to support local response efforts and EOC staffing. 	
	<input type="checkbox"/> Determine the type, scope, and extent of the incident (<i>recurring</i>). Verify reports and obtain estimates of the area that may be affected. Obtain status of impacts within the jurisdiction.	<i>ICS Form 209: Incident Status Summary.</i>
	<ul style="list-style-type: none"> - Notify command staff, support agencies, adjacent jurisdictions, ESF leads/coordinators, and liaisons of any situational changes. 	
	<input type="checkbox"/> Develop and initiate shift rotation plans, including briefing of replacements during shift changes.	
<ul style="list-style-type: none"> - Dedicate time during each shift to preparing for shift change briefings. 	<i>Incident Action Plan</i>	

Earthquake Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Confirm or establish communications links among local and County EOCs, other AOCs, and the state ECC. Confirm operable phone numbers and verify functionality of alternate communications resources.	
	<input type="checkbox"/> Ensure that all required notifications have been completed. Consider other local, regional, tribal, State, and Federal agencies/entities that may be affected by the incident. Notify them of the status.	
	<input type="checkbox"/> Manage and coordinate interagency functions. Providing multi-agency coordination is the primary goal. Assimilate into a Unified Command structure if the scope of the incident so dictates.	
	<input type="checkbox"/> Implement local plans and procedures for earthquake operations. Ensure that copies of all documents are available to response personnel. Implement agency-specific protocols and SOPs	<i>Local, agency, and facility-specific Standard Operating Procedures</i>
	<input type="checkbox"/> Conduct and obtain current damage reports and determine the affected area (<i>recurring</i>).	
	<input type="checkbox"/> Determine the need to conduct evacuations and sheltering activities (<i>recurring</i>). Evacuation activities may be coordinated among County ESF-1 (Transportation), ESF-5 (Emergency Management), ESF-6 (Mass Care, Housing, and Human Services), and ESF-15 (Public Information and External Affairs).	
	<input type="checkbox"/> Determine the need for additional resources and request as necessary through appropriate channels (<i>recurring</i>).	
	<input type="checkbox"/> Submit a request for emergency/disaster declaration, as applicable.	
	<input type="checkbox"/> Activate mutual aid agreements. Activation includes placing backup teams on standby and alerting resource suppliers of both potential and current needs.	
	<input type="checkbox"/> Coordinate resource access, deployment, and storage in the operational area. Resources to coordinate include equipment, personnel, facilities, supplies, procedures, and communications. Track resources as they are dispatched and/or used.	<i>ICS Resource Tracking Forms</i>
	<input type="checkbox"/> Develop plans and procedures for registering mutual aid and other first responders as they arrive on the scene and receive deployment orders.	
	<input type="checkbox"/> Establish a JIC and designate a lead PIO for the jurisdiction.	
	<input type="checkbox"/> Formulate emergency public information messages and media responses utilizing “one message, many voices” concepts (<i>recurring</i>).	

Earthquake Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	- Public information will be reviewed by the IC (or designee). Information will be approved for release by the IC and lead PIO prior to dissemination to the public.	
	<input type="checkbox"/> Record all EOC and individual personnel activities (<i>recurring</i>). All assignments, person(s) responsible, and actions taken should be documented in logbooks.	<i>EOC Planning Section Position Checklist, ICS Form 214 – Unit Log</i>
	<input type="checkbox"/> Record all incoming and outgoing messages (<i>recurring</i>). All messages, and the names of those sending and receiving them, should be documented as part of the EOC log.	
	<input type="checkbox"/> Develop and deliver situation reports (<i>recurring</i>). At regular intervals, the IC/EOC Manager and staff will assemble a situation report.	
	<input type="checkbox"/> Develop and update the IAP (<i>recurring</i>). This document is developed by the Planning Section and approved by the IC. The IAP should be discussed at regular intervals and modified as the situation changes.	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>
	<input type="checkbox"/> Implement objectives and tasks outlined in the IAP (<i>recurring</i>).	
	<input type="checkbox"/> Coordinate with private sector partners, as needed.	
	<input type="checkbox"/> Ensure that all reports of injuries, deaths, and major equipment damage accrued during response activities are communicated to the IC and/or the Safety Officer.	
RECOVERY/ DEMOBILIZATION PHASE	<input type="checkbox"/> Ensure an orderly demobilization of emergency operations in accordance with current demobilization plans.	<i>ICS Form 221 – Demobilization Plan</i>
	<input type="checkbox"/> Once the threat the public safety is eliminated, conduct and/or coordinate cleanup and recovery operations.	
	<input type="checkbox"/> Activate, if necessary, the appropriate recovery strategies, continuity of operations plans, and/or continuity of government plans.	
	<input type="checkbox"/> Release mutual aid resources as soon as possible.	
	<input type="checkbox"/> Conduct a post-event debriefing to identify success stories, opportunities for improvement, and development of the After Action Report/Improvement Plan.	
	<input type="checkbox"/> Deactivate/demobilize EOCs, AOCs, and command posts.	
	<input type="checkbox"/> Correct response deficiencies reflected in the Improvement Plan.

IA 3 – Major Fire

THIS PAGE LEFT BLANK INTENTIONALLY

Major Fire Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Arrange for personnel to participate in necessary training and exercises, as determined by City Emergency Management and Fire Department.	
	<input type="checkbox"/> Participate in City preparedness activities, seeking understanding of interactions with participating agencies in a major fire scenario.	
	<input type="checkbox"/> Ensure that emergency contact lists are current and establish a pre-event duty roster allowing for 24/7 operational support to the City EOC.	
	<input type="checkbox"/> Inform City Emergency Management of any major developments that could adversely affect response operations (e.g., personnel shortages, loss of firefighting equipment, etc.).	
RESPONSE PHASE	<input type="checkbox"/> Activate the City EOC and establish Incident Command or Unified Command, as appropriate. Staffing levels vary with the complexity and needs of the response. At a minimum, the IC, all Section Chiefs, the Resource Coordinator and management support positions will be included.	<i>Basic Plan of the City EOP and agency/company-specific plans</i>
	<input type="checkbox"/> Estimate emergency staffing levels and request personnel support.	
	<input type="checkbox"/> Develop work assignments for ICS positions (<i>recurring</i>).	<i>ICS Form 203-Organization Assignment List</i>
	<input type="checkbox"/> Notify supporting fire services agencies.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Identify local, regional, and/or State agencies that may be able to mobilize resources and staff to the City EOC for support.	
	<input type="checkbox"/> Determine the scope and extent of the fire (<i>recurring</i>). Verify reports and obtain estimates of the area that may be affected.	<i>ICS Form 209-Incident Status Summary</i>
	<input type="checkbox"/> Notify command staff, support agencies, adjacent jurisdictions, coordinators, and/or liaisons of any situational changes.	
	<input type="checkbox"/> Develop and initiate shift rotation plans, including briefing of replacements during shift changes.	
	<input type="checkbox"/> Dedicate time during each shift to prepare for shift change briefings.	<i>Incident Action Plan</i>
	<input type="checkbox"/> Confirm or establish communications links among City EOC, County EOC, and other AOCs, as applicable. Confirm operable phone numbers and verify functionality of alternative communication equipment/channels.	<i>FA 1 of the City EOP</i>
<input type="checkbox"/> Ensure that all required notifications have been completed. Consider other local, County, regional, State, and Federal agencies that may be affected by the incident. Notify them of the status.	<i>FA 1 of the City EOP</i>	

Major Fire Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Fire Chief assumes duties to direct resources for fires within the City. In the event of multiple fire agencies responding to the incident, the Fire Defense Board Chief, acting as the Fire Services Coordinator, will be integrated into the Operations Section of the County EOC.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Manage and coordinate interagency functions. Providing multi-agency coordination is the primary goal. Assimilate into a UC structure if scope of response increases.	
	<input type="checkbox"/> Implement local plans and procedures for fire operations.	<i>Agency-specific SOPs</i>
	<input type="checkbox"/> Obtain current and forecasted weather to project potential spread of the fire (<i>recurring</i>).	
	<input type="checkbox"/> Determine the need to conduct evacuations and sheltering activities (<i>recurring</i>).	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Determine the need for additional resources and request as necessary through appropriate channels (<i>recurring</i>).	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Submit request for a local or countywide disaster/emergency declaration, as applicable.	<i>Basic Plan of the City EOP</i>
	<input type="checkbox"/> Activate mutual aid agreements. Activation includes placing backup teams on standby and alerting resource suppliers with potential needs as well as current needs.	
	<input type="checkbox"/> Coordinate resource access, deployment, and storage in the operational area. Resources to coordinate include equipment, personnel, facilities, supplies, procedures, and communications. Track resources as they are dispatched and/or used.	<i>ICS Resource Tracking Forms; FA 1 of the City EOP</i>
	<input type="checkbox"/> Develop plans and procedures for registration of task fire forces/strike teams as they arrive on scene and receive deployment orders.	
	<input type="checkbox"/> Establish a JIC.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Formulate emergency public information messages and media responses utilizing “one message, many voices” concepts (<i>recurring</i>).	
	<input type="checkbox"/> Public information focusing on fire prevention, control, and suppression will be reviewed by the Fire Chief (or designee). Information will be approved for release by the IC and Lead PIO prior to dissemination to the public.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Record all EOC and individual personnel activities (<i>recurring</i>). All assignments, person(s) responsible, and actions taken should be documented in logbooks.	<i>EOC Planning Section Position Checklist, ICS Form 214 – Unit Log</i>
	<input type="checkbox"/> Record all incoming and outgoing messages (<i>recurring</i>). All messages, and the names of those sending and receiving them, should be documented as part of the EOC log.	
	<input type="checkbox"/> Produce situation reports (<i>recurring</i>). At regular periodic intervals, the EOC Director and staff will assemble a Situation Report.	

Major Fire Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Develop an IAP (<i>recurring</i>). This document is developed by the Planning Section and approved by the IC. The IAP should be discussed at regular periodic intervals and modified as the situation changes.	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>
	<input type="checkbox"/> Implement objectives and tasks outlined in the IAP (<i>recurring</i>).	
	<input type="checkbox"/> Coordinate with the private sector partners as needed.	
RECOVERY/ DEMOBILIZATION	<input type="checkbox"/> Ensure that all reports of injuries, deaths, and major equipment damage due to fire response are communicated to the IC and/or Safety Officer.	
	<input type="checkbox"/> Ensure an orderly demobilization of emergency operations in accordance with current demobilization plans.	
	<input type="checkbox"/> Release mutual aid resources as soon as possible.	
	<input type="checkbox"/> Activate and implement applicable mitigation plans, community recovery procedures, and continuity of operations/government plans until normal daily operations can be completely restored.	<i>FA 1 of the City EOP and agency recovery plans</i>
	<input type="checkbox"/> Conduct post-event debriefing to identify success stories, opportunities for improvement, and development of the After Action Report/Improvement Plan.	
	<input type="checkbox"/> Deactivate/demobilize the City EOC.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Implement revisions to the City EOP and supporting documents based on lessons learned and best practices adopted during response.	
	<input type="checkbox"/> Correct response deficiencies reflected in the Improvement Plan.	
	<input type="checkbox"/> Submit valuable success stories and/or lessons learned to the Lessons Learned Information Sharing website (www.llis.gov)

4

IA 4 – Flood (including Dam Failure)

THIS PAGE LEFT BLANK INTENTIONALLY

IA 4. Flood (including Dam Failure)

Flood Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Arrange for personnel to participate in necessary training and develop exercises relative to flood events.	
	<input type="checkbox"/> Coordinate the City preparedness activities, seeking understanding of interactions with participating agencies in flooding scenarios.	
	<input type="checkbox"/> Ensure that emergency contact lists are updated and establish a pre-event duty roster allowing for 24/7 operational support to the City EOC.	
	<input type="checkbox"/> Contact supporting emergency response agencies to review and determine whether major developments have arisen that could adversely affect response operations (e.g., personnel shortages, loss of equipment, etc.).	
	<input type="checkbox"/> Annually review and update the EOP and SOPs, as needed.	<i>City EOP, Annexes, and agency-specific SOPs</i>
	<input type="checkbox"/> Review flood prone areas.	
	<input type="checkbox"/> Familiarize staff with requirements for requesting State and Federal Disaster Assistance.	<i>Stafford Act, FEMA guidance, and Oregon EMP</i>
	<input type="checkbox"/> Ensure that supplies, such as communications devices and sandbags, are prepared and ready for use. This includes primary and alternate communications and warning systems.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Identify and review local contractor lists to see who may provide support specific to flood response.	
<input type="checkbox"/> Review, revise, and, where necessary, establish mutual aid agreements with other City agencies and private contractors relative to multiple agency response to floods.		
RESPONSE PHASE	<input type="checkbox"/> The City Manager or designee will provide overall guidance for the deployment of resources.	
	<input type="checkbox"/> Activate mutual aid agreements.	
	<input type="checkbox"/> Activate the City EOC and implement appropriate staffing plans. Contact appropriate private partners to assign liaisons to the EOC for coordination of specific response activities.	<i>City Basic Plan, agency and company-specific plans</i>
	<input type="checkbox"/> Estimate emergency staffing levels and request personnel support, including specialized staff such as engineers, building inspectors, heavy equipment operators, and/or environmental remediation contractors.	
	<input type="checkbox"/> Develop and initiate shift rotation plans, including briefing of replacements during shift changes.	<i>SOPs and command structure for City EOC, Incident Action Plan</i>
	<input type="checkbox"/> Submit request for disaster/emergency declaration, as applicable.	<i>City Basic Plan</i>
	<input type="checkbox"/> Coordinate the evacuation of the affected area, if necessary. Assign appropriate agency liaisons to the City EOC, as the situation requires.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Support Search and Rescue operations by coordinating resource requests outside of the jurisdiction.	<i>FA 1 of the City EOP</i>

IA 4. Flood (including Dam Failure)

Flood Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Request the American Red Cross to activate sheltering plans and open/staff shelters, if needed.	<i>American Red Cross Shelter Plans</i>
	<input type="checkbox"/> Establish a JIC.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Formulate emergency public information messages and media responses using “one voice, one message” concepts.	
	<input type="checkbox"/> Record all EOC activities, completion of personnel tasks, incoming and outgoing messages, and the names of those sending and receiving them.	<i>Existing ICS and EOC forms, ICS Form 214 – Unit Log</i>
	<input type="checkbox"/> These should be documented in EOC logbooks.	
	<input type="checkbox"/> Begin damage assessments in coordination with the Public Works Department and County/local government.	<i>FA 3 of the City EOP</i>
	<input type="checkbox"/> Assist with in coordinating Public Works activities, such as debris removal from: <ul style="list-style-type: none"> ▪ Storm Drains ▪ Bridge viaducts ▪ Main arterial routes ▪ Public rights-of-way ▪ Dams (via established liaisons at the City EOC) ▪ Other structures, as needed 	<i>FA 3 of the City EOP</i>
	<input type="checkbox"/> Contact local contractors for support, if necessary. Establish contact with private sector partners and/or dam operators (if the flood is associated with dam failure or malfunction).	
<input type="checkbox"/> Coordinate with City Police Department, County Sheriff’s Office, and other law enforcement agencies to provide services to affected areas (curfew enforcement, road closures, security, etc.).	<i>FA 1 of the City EOP</i>	
	Collect and chronologically file records and bills generated during the incident in order to ensure timely submittal of documents for reimbursement.	
RECOVERY PHASE	<input type="checkbox"/> Monitor secondary hazards associated with floods (landslides, contamination, damage to bridges/roads, impacts to utility lines/facilities) and maintain on-call personnel to support potential response to these types of hazards.	
	<input type="checkbox"/> Deactivate/demobilize the City EOC. Deactivate mutual aid resources as soon as possible.	<i>FA 1 of the City EOP, ICS Form 221 – Demobilization Plan</i>
	<input type="checkbox"/> Activate and implement applicable mitigation plans, community recovery procedures, and continuity of operations/government plans until normal daily operations can be completely restored.	<i>FA 1 of the City EOP and agency-specific recovery plans</i>
	<input type="checkbox"/> Implement revisions to the City EOP and supporting documents based on lessons learned and best practices adopted during response.	

IA 4. Flood (including Dam Failure)

Flood Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Offer recommendations to City government and Public Works departments for changes in planning, zoning, and building code ordinances.	
	<input type="checkbox"/> Participate in After Action Reports and critiques. Submit valuable success stories and/or lessons learned to the Lessons Learned Information Sharing website (www.llis.gov).

5

IA 5 – Severe Weather (including Landslides)

IA 5. Severe Weather (including Landslides)

THIS PAGE LEFT BLANK INTENTIONALLY

IA 5. Severe Weather (including Landslides)

Severe Weather Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Continue to maintain and revise, as needed, applicable response plans pertaining to severe weather and landslides, including the City EOP and supporting procedures/plans.	
	<input type="checkbox"/> Monitor weather and flood reports.	
	<input type="checkbox"/> Pre-designate evacuation routes and alternate routes for areas vulnerable to landslides or other hazards relating to severe weather.	
	<input type="checkbox"/> Conduct pre-incident planning for sheltering and evacuation related to severe weather and landslides.	
	<ul style="list-style-type: none"> <input type="checkbox"/> Prepare map(s) and scripts for use by local television station(s) during emergency broadcasts. Include release instructions. 	
	<ul style="list-style-type: none"> <input type="checkbox"/> Prepare radio messages for use by local radio stations during emergency broadcasts. Include release instructions. 	
	<input type="checkbox"/> Have personnel participate in necessary training and exercises, as determined by City Emergency Management in coordination with lead agencies and coordinators.	
	<input type="checkbox"/> Participate in City and County severe weather and landslide preparedness activities, seeking understanding of interactions with participating agencies in a severe weather scenario.	
	<input type="checkbox"/> Ensure that emergency contact lists are updated and establish a pre-event duty roster allowing for 24/7 operational support for the City EOC.	
	<input type="checkbox"/> Ensure that landslide and flood response equipment and personnel inventories are current for the City. Test and maintain response and communications equipment. Keep a stock of necessary response supplies.	
	<input type="checkbox"/> Inform City and County Emergency Management of any major developments that could adversely affect response operations (e.g., personnel shortages, loss of firefighting equipment, etc.).	
	<input type="checkbox"/> Work with the count planning department for establishment of appropriate infrastructure protection measures in landslide/flood-prone areas.	
	<input type="checkbox"/> Provide public safety information and educational programs regarding emergency preparedness and response.	

IA 5. Severe Weather (including Landslides)

Severe Weather Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
RESPONSE PHASE	<input type="checkbox"/> Activate the City EOP when severe weather and/or landslides incidents pose threats to the city.	
	<input type="checkbox"/> Activate the appropriate EOCs and establish Incident Command. For larger events that cross multiple jurisdictions, establish a Unified Command. City and/or County EOCs may be staffed. Staffing levels vary with the complexity and needs of the response. At a minimum, the IC, all Section Chiefs, the Resource Coordinator, and management support positions will most likely be needed.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Estimate emergency staffing levels and request personnel support.	
	<input type="checkbox"/> Ensure that action is taken to protect personnel and emergency equipment from possible damage by severe weather, landslides, or floodwaters.	
	<input type="checkbox"/> Develop work assignments for ICS positions (recurring).	<i>ICS Form 203: Organization Assignment List</i>
	<input type="checkbox"/> Notify supporting agencies as well as the Mayor and City Council.	
	<ul style="list-style-type: none"> ▪ Identify local, County, and regional agencies/entities that may be able to mobilize resources to support local response efforts and EOC staffing. 	
	<input type="checkbox"/> Determine the type, scope, and extent of the incident (recurring). Verify reports and obtain estimates of the area that may be affected. Obtain status of impacts within the City.	<i>ICS Form 209: Incident Status Summary</i>
	<ul style="list-style-type: none"> ▪ Notify command staff, support agencies, adjacent jurisdictions, agency leads/coordinators, and liaisons of any situational changes. 	
	<input type="checkbox"/> Develop and initiate shift rotation plans, including briefing of replacements during shift changes.	
	<ul style="list-style-type: none"> ▪ Dedicate time during each shift to preparing for shift change briefings. 	<i>Incident Action Plan</i>
	<input type="checkbox"/> Confirm or establish communications links among local and County EOCs and other AOCs. Confirm operable phone numbers and verify functionality of alternate communications resources.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Ensure that all required notifications have been completed. Consider other local, County, and regional agencies/entities that may be affected by the incident. Notify them of the status.	
<input type="checkbox"/> Manage and coordinate interagency functions. Providing multi-agency coordination is the primary goal. Assimilate into a Unified Command structure if the scope of the incident so dictates.		

IA 5. Severe Weather (including Landslides)

Severe Weather Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Implement local plans and procedures for severe weather, landslide, and/or flood operations. Ensure that copies of all documents are available to response personnel. Implement agency-specific protocols and SOPs.	<i>Local, agency, and facility-specific SOPs</i>
	<input type="checkbox"/> Obtain current and forecasted weather to project potential damage and determine the affected area (recurring).	
	<input type="checkbox"/> Determine the need to conduct evacuations and sheltering activities (recurring).	<i>FAI of the City EOP</i>
	<input type="checkbox"/> Determine the need for additional resources, and request as necessary through appropriate channels (recurring).	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Submit a request for an emergency/disaster declaration, as applicable.	<i>Basic Plan of the City EOP</i>
	<input type="checkbox"/> Activate mutual aid agreements. Activation includes placing backup teams on standby and alerting resource suppliers of both potential and current needs.	
	<input type="checkbox"/> Coordinate resource access, deployment, and storage in the operational area. Resources to coordinate include equipment, personnel, facilities, supplies, procedures, and communications. Track resources as they are dispatched and/or used.	<i>ICS Resource Tracking Forms; FA 1 of the City EOP</i>
	<input type="checkbox"/> Develop plans and procedures for registering mutual aid and other first responders as they arrive on the scene and receive deployment orders.	
	<input type="checkbox"/> Establish a JIC and designate a lead PIO for the City.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Formulate emergency public information messages and media responses utilizing “one message, many voices” concepts (recurring).	
	<input type="checkbox"/> Public information will be reviewed by the IC (or designee). Information will be approved for release by the IC and Lead PIO before dissemination to the public.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Record all EOC and individual personnel activities (recurring). All assignments, person(s) responsible, and actions taken should be documented in logbooks.	<i>EOC Planning Section Position Checklist, ICS Form 214 – Unit Log</i>
	<input type="checkbox"/> Record all incoming and outgoing messages (recurring). All messages, and the names of those sending and receiving them, should be documented as part of the EOC log.	
	<input type="checkbox"/> Develop situation reports (recurring). At regular intervals, the EOC Director and staff will assemble a situation report.	

IA 5. Severe Weather (including Landslides)

Severe Weather Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Develop and update the IAP (recurring). This document is developed by the Planning Section and approved by the IC. The IAP should be discussed at regular intervals and modified as the situation changes.	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>
	<input type="checkbox"/> Implement objectives and tasks outlined in the IAP (recurring).	
	<input type="checkbox"/> Coordinate with private sector partners as needed.	
	<input type="checkbox"/> Ensure that all reports of injuries, deaths, and major equipment damage accrued during response activities are communicated to the IC and/or the Safety Officer.	
RECOVERY/DEMobilIZATION PHASE	<input type="checkbox"/> Ensure an orderly demobilization of emergency operations in accordance with current demobilization plans.	
	<input type="checkbox"/> Once the threat to public safety is eliminated, conduct cleanup and recovery operations.	
	<input type="checkbox"/> Activate, if necessary, the appropriate recovery strategies, continuity of operations plans, and/or continuity of government plans.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Release mutual aid resources as soon as possible.	
	<input type="checkbox"/> Conduct a post-event debriefing to identify success stories, opportunities for improvement, and development of the After Action Report/Improvement Plan.	
	<input type="checkbox"/> Deactivate/demobilize the EOCs, AOCs, and command posts.	
	<input type="checkbox"/> Correct response deficiencies reflected in the Improvement Plan.	
	<input type="checkbox"/> Revise any applicable emergency response plans based on the success stories and/or lessons learned during the response.	
<input type="checkbox"/> Submit valuable success stories and/or lessons learned to the Lessons Learned Information Sharing website (www.llis.gov)		

6

IA 6 – Volcano

THIS PAGE LEFT BLANK INTENTIONALLY

Volcano Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Arrange for personnel to participate in necessary training and develop exercises relative to volcanic events.	
	<input type="checkbox"/> Provide information and training on volcano-hazard response to emergency workers and the public. <ul style="list-style-type: none"> <input type="checkbox"/> Implement a public outreach program on volcano hazards. <input type="checkbox"/> Review public education and awareness requirements. 	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Participate in City and County preparedness activities, seeking understanding of interactions with participating agencies in a volcano scenario.	
	<input type="checkbox"/> Ensure that contact lists are current and establish a pre-event duty roster allowing for 24/7 operational support to the City EOC.	
	<input type="checkbox"/> Familiarize staff with requirements for requesting State and Federal Disaster Assistance.	<i>Stafford Act, FEMA guidance, and Oregon EMP</i>
	<input type="checkbox"/> Inform City Emergency Management of any major developments that could adversely affect response operations (e.g., personnel shortages, loss of firefighting equipment, etc.).	
RESPONSE PHASE	<input type="checkbox"/> Activate the City EOC and establish Incident Command or Unified Command, as appropriate. Contact appropriate private partners to assign liaisons to the EOC for coordination of specific response activities. Staffing levels vary with the complexity and needs of the response. At a minimum, the IC, all Section Chiefs, the Resource Coordinator, and management support positions should be included.	<i>FA 1 of the City EOP, agency and company-specific plans</i>
	<input type="checkbox"/> Activate and implement the City EOP.	
	<input type="checkbox"/> Notify supporting agencies. <ul style="list-style-type: none"> <input type="checkbox"/> Identify local, regional, and State agencies that may be able to mobilize resources and staff to the City EOC for support 	
	<input type="checkbox"/> Provide local warnings and information and activate appropriate warning/alert systems.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Support a Regional Coordination Center, if necessary. <input type="checkbox"/> Establish a JIC. <ul style="list-style-type: none"> <input type="checkbox"/> Provide a PIO for the JIC. <input type="checkbox"/> Formulate emergency public information messages and media responses utilizing “one message, many voices” concepts (<i>recurring</i>). 	<i>FA 1 of the City EOP</i>

Volcano Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Initiate and coordinate local emergency declarations or requests for assistance from mutual aid partners, County, State, and/or Federal resources. If applicable, submit request for local disaster/emergency declaration following established County procedures.	
	<input type="checkbox"/> Estimate emergency staffing levels and request personnel support.	
	<input type="checkbox"/> Develop work assignments for ICS positions (<i>recurring</i>).	<i>ICS Form 203-Organization Assignment List</i>
	<input type="checkbox"/> Develop and initiate shift rotation plans, including briefing of replacements during shift changes.	<i>ICS Form 209-Incident Status Summary</i>
	<ul style="list-style-type: none"> ▪ Dedicate time during each shift to prepare for shift change briefings. 	
	<input type="checkbox"/> Confirm or establish communications links among primary and support agencies, the City EOC, County EOC, and State ECC; confirm operable phone numbers and backup communication links.	
	<input type="checkbox"/> Ensure that all required notifications have been completed. Consider other local, regional, State, and Federal agencies that may be affected by the incident. Notify them of the status.	<i>Incident Action Plan</i>
	<input type="checkbox"/> Manage and coordinate interagency functions. Providing multi-agency coordination is the primary goal. Assimilate into a Unified Command structure if scope of response increases.	
	<input type="checkbox"/> Obtain current and forecasted weather to project potential spread of ash, fires, and/or gases (<i>recurring</i>).	
	<input type="checkbox"/> Determine need to conduct evacuations and sheltering activities (<i>recurring</i>). Request that the American Red Cross activate and implement local sheltering plans.	<i>FA 2 Annex of the City EOP and American Red Cross Shelter Plans</i>
	<input type="checkbox"/> Coordinate evacuation of affected areas, if necessary. Assign appropriate ESF liaisons to the City and/or County EOCs, as the situation requires	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Determine the need for additional resources and request as necessary through the City EOC (<i>recurring</i>).	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Activate mutual aid agreements. Activation includes placing backup teams on standby and alerting resource suppliers of both potential and current needs.	
	<input type="checkbox"/> Coordinate resource access, deployment, and storage in the operational area. Resources to coordinate include equipment, personnel, facilities, supplies, procedures, and communications. Track resources as they are dispatched and/or used.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Develop plans and procedures for registration of task forces/strike teams as they arrive on scene and receive deployment orders.	

Volcano Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Record all EOC activity and completion of individual personnel tasks (<i>recurring</i>). All assignments, person(s) responsible, and significant actions taken should be documented in logbooks.	<i>ICS Resource Tracking forms and EOC forms</i>
	<input type="checkbox"/> Record all incoming and outgoing messages (<i>recurring</i>). All messages, and the names of those sending /receiving, them should be documented as part of the EOC log.	<i>Existing EOC forms/templates</i>
	<input type="checkbox"/> Produce situation reports (<i>recurring</i>). At regular periodic intervals, the EOC Director and staff will assemble a situation report.	<i>EOC Planning Section Position Checklist, ICS Form 214 – Unit Log</i>
	<input type="checkbox"/> Develop an IAP (<i>recurring</i>). This document is developed by the Planning Section and approved by the IC. The IAP should be discussed at regular periodic intervals and modified as the situation changes.	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>

IA 9 – Terrorism

THIS PAGE LEFT BLANK INTENTIONALLY

Background Information

This annex can be applied to incidents involving Weapons of Mass Destruction (WMD) and Chemical, Biological, Radiological, Nuclear and Explosive (CBRNE) materials.

Law enforcement agencies will normally take the lead role in crisis management. The City Police department has the lead role in terrorism crisis management within the City and the County Sheriff’s Office elsewhere in the county. The lead agencies for the State and Federal government are Oregon State Police and the Federal Bureau of Investigations.

The laws of the United States assign primary authority to State and local governments to respond to the consequences of terrorism; the Federal government provides assistance as required. The City and County EOCs typically will be activated and have the lead role in terrorism consequence management for most types of terrorist incidents, but the County Health Department will be assigned the lead local role in terrorism consequence management for incidents involving biological agents. The Oregon Office of Emergency Management and Federal Emergency Management Agency are the State and Federal consequence management leads.

Terrorism Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Continue to maintain and revise, as needed, the appropriate emergency response plans relating to Terrorism response, including the City EOP and annexes.	
	<input type="checkbox"/> Have personnel participate in necessary training and exercises, as determined by City Emergency Manager.	
	<input type="checkbox"/> Participate in City, County, regional, State, and Federal terrorism preparedness activities, seeking understanding of interactions with participating agencies in a terrorism scenario.	
	<input type="checkbox"/> Ensure that emergency contact lists are updated and establish a pre-event duty roster allowing for 24/7 operational support for the City EOC. Include appropriate regional, State, and Federal emergency contacts for terrorism response.	
	<input type="checkbox"/> Ensure that terrorism response equipment and personnel inventories for the City and for the regional teams are updated. This includes response to chemical, biological, radiological, nuclear, and explosive agents. Test and maintain response and communications equipment. Keep a stock of necessary supplies.	
	<input type="checkbox"/> Inform City Emergency Manager of any major developments that could adversely affect response operations (e.g., personnel shortages, loss of firefighting equipment, etc.).	
	<input type="checkbox"/> Provide public safety information and educational programs for terrorism emergency preparedness and response.	

Terrorism Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
SURVEILLANCE PHASE (BIO ONLY)	<input type="checkbox"/> Activate Incident/Unified Command upon recommendation from the City Police Department. Unified Command may consist of County, regional, State, and Federal crisis management and consequence management agencies.	
	<input type="checkbox"/> Mobilize appropriate emergency personnel and first responders. When necessary, send fire, HazMat, law enforcement, public health, and others to the site. Determine responder activities and establish non-contaminated areas prior to mobilizing resources.	
	<input type="checkbox"/> Evaluate the safety of emergency personnel. Initiate development of site- and agent-specific health and safety plan.	
	<input type="checkbox"/> Assess the situation/confirm the WMD/CBRNE incident. Gather all available data regarding the status of the incident. Record the information using established forms, log sheets, and templates. Use of standard ICS forms may be necessary.	<i>ICS Form 209: Incident Status Summary</i>
	<input type="checkbox"/> Activate public notification procedures. Contact agency and partner emergency personnel to ensure that they are aware of the incident status and are available and staffed to respond.	
	<input type="checkbox"/> Control the scene. Alert the public and consider shelter-in-place needs, relocation of people/animals, and special needs. This task should be coordinated with law enforcement.	
	<input type="checkbox"/> Conduct hazard assessment. In the case of a possible intentional release, begin addressing information needs for criminal investigation. For example, what is the ultimate purpose of the biological release? What is the target? Do further hazards and secondary threats exist? What is the source of release?	
	<input type="checkbox"/> Draft an IAP. Outline response goals and timelines and prepare for longer term (1–7 day) logistics, staffing, and operations.	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>
<input type="checkbox"/> Maintain communication between field response crews, local/County EOCs, Regional EOC, and State ECC, as applicable. Communication should be ongoing throughout the duration of the response and include incident status reports, resource requests, and projected staffing and equipment needs.		

Terrorism Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
RESPONSE PHASE	<input type="checkbox"/> Gather additional information. Include photographs and video recording.	
	<input type="checkbox"/> Determine whether the threat level for the affected area should be elevated and inform appropriate agencies.	
	<input type="checkbox"/> Determine if any advisories should be issued to the public.	
	<input type="checkbox"/> If an explosive device is found, clear the immediate area and notify appropriate first responders. Be cognizant of any secondary devices that may be on site.	
	<input type="checkbox"/> Be cognizant of any secondary devices that may be on site.	
	<input type="checkbox"/> Be cognizant that CBRNE agents may be present.	
	<input type="checkbox"/> Investigate the crime scene and collect vital evidence.	
	<input type="checkbox"/> Activate the City EOP.	
	<input type="checkbox"/> Activate the appropriate EOCs and establish Incident Command. For larger events that cross multiple jurisdictions, establish a Unified Command. During terrorism incidents, local and/or County EOCs may be staffed. Staffing levels vary with the complexity and needs of the response. At a minimum, the IC, all Section Chiefs, the Resource Coordinator, and management support positions will most likely be needed.	
	<input type="checkbox"/> Estimate emergency staffing levels and request personnel support.	
	<input type="checkbox"/> Develop work assignments for ICS positions (<i>recurring</i>).	<i>ICS Form 203: Organization Assignment List</i>
	<input type="checkbox"/> Establish an ICP near the incident location. The ICP should be located uphill and upwind of the incident location.	
	<input type="checkbox"/> Notify supporting agencies (dependent on the type of incident) and the City Council.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Identify local, County, regional, and/or State agencies that may be able to mobilize resources to the EOC for support.	
	<input type="checkbox"/> Determine the type, scope, and extent of the Terrorism incident (<i>recurring</i>). Verify reports and obtain estimates of the area that may be affected. Also verify the status of critical infrastructure.	<i>ICS Form 209: Incident Status Summary</i>
<input type="checkbox"/> Notify the regional HazMat team, public health agencies, support agencies, dispatch centers/public safety answering points, adjacent jurisdictions, Federal agencies (including FBI), and ESF leads/coordinators of any situational changes.		
<input type="checkbox"/> Verify that the hazard perimeter and hazard zone security have been established.

Terrorism Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Record all incoming and outgoing messages (<i>recurring</i>). All messages, and the names of those sending and receiving them, should be documented as part of the EOC log.	
	<input type="checkbox"/> Develop and deliver situation reports (<i>recurring</i>). At regular intervals, the EOC Director and staff will assemble a situation report.	
	<input type="checkbox"/> Develop an IAP (<i>recurring</i>). This document is developed by the Planning Section and approved by the IC. The IAP should be discussed at regular intervals and modified as the situation changes.	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>
	<input type="checkbox"/> Implement objectives and tasks outlined in the IAP (<i>recurring</i>).	
	<input type="checkbox"/> Coordinate with private sector partners, as needed.	
	<input type="checkbox"/> Ensure that all reports of injuries, deaths, and major equipment damage due to the terrorist incident are communicated to the IC and/or Safety Officer.	
RECOVERY/ DEMOBILIZATION PHASE	<input type="checkbox"/> Ensure an orderly demobilization of emergency operations in accordance with current demobilization and community recovery plans.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> As applicable, clean-up activities will most likely be conducted by private contractors and coordinated among the City, the responsible party (if known), and the Oregon DEQ. Support from the EPA may be necessary.	
	<input type="checkbox"/> Activate, if necessary, the appropriate recovery strategies, continuity of operations plans, and/or continuity of government plans.	
	<input type="checkbox"/> Release mutual aid resources as soon as possible.	
	<input type="checkbox"/> Conduct a post-event debriefing to identify success stories, opportunities for improvement, and development of the After Action Report/Improvement Plan.	
	<input type="checkbox"/> Deactivate/demobilize the EOC.	
	<input type="checkbox"/> Correct response deficiencies reflected in the Improvement Plan.	
	<input type="checkbox"/> Revise any applicable emergency response plans based on the success stories and/or lessons learned during the response.	
<input type="checkbox"/> Submit valuable success stories and/or lessons learned to the Lessons Learned Information Sharing website (www.llis.gov)

IA 10 – Transportation Accidents

THIS PAGE LEFT BLANK INTENTIONALLY

IA 10. Transportation Accidents

Two major types of transportation accidents are considered in this incident annex: air and rail. Motor vehicle accidents that occur on roadways within the city would not normally constitute a major emergency under the Emergency Operations Plan (EOP), unless hazardous materials or mass casualties/fatalities complicate the incident. Those contingencies are covered in other annexes. The Fire Department and Police Department will assume initial command if the transportation accident involves a fire and/or casualties and to secure the incident site. The Federal Aviation Administration (FAA) has the authority and responsibility to investigate all accidents involving aircraft. The National Transportation Safety Board (NTSB) has the authority and responsibility to investigate accidents involving all aircraft and selected rail accidents. It is NTSB policy to be on the scene of a major accident as soon as possible. In minor aircraft accidents, the FAA may respond to the scene instead of the NTSB. The Department of Defense has the authority to investigate any accident involving military aircraft.

Transportation Accidents		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Arrange for personnel to participate in necessary training and exercises, as determined by City Emergency Manager.	
	<input type="checkbox"/> Participate in City preparedness activities, seeking understanding of interactions with participating agencies in a major transportation incident scenario.	
	<input type="checkbox"/> Ensure that emergency contact lists are current and establish a pre-event duty roster allowing for 24/7 operational support to the City EOC.	
	<input type="checkbox"/> Inform City Emergency Manager of any major developments that could adversely affect response operations (e.g., personnel shortages, loss of equipment, etc.).	
	<input type="checkbox"/> Arrange for personnel to participate in necessary training and exercises, as determined by the City Emergency Manager and Fire Department.	
	<input type="checkbox"/> Assess the City's transportation infrastructure (e.g. roads, bridges, and traffic control devices) and implement an emergency transportation route plan.	
	<input type="checkbox"/> Develop alternate routes based on assessment of hazard threats to transportation infrastructure and based on input from the County EOC, ODOT, and other road owners.	

IA 10. Transportation Accidents

Transportation Accidents		
Phase of Activity	Action Items	Supplemental Information
RESPONSE PHASE	<input type="checkbox"/> Notification of the occurrence of a transportation incident will come through the Baker County Consolidated Dispatch Center or observance by field personnel.	
	<input type="checkbox"/> Conduct a scene assessment to determine appropriate level of emergency medical, transportation, and HazMat response. Based on the location of the accident, mass casualty and/or evacuation procedures may be required.	<i>ICS Form 209: Incident Status Summary</i>
	<input type="checkbox"/> Determine the type, scope, and extent of the HazMat incident (<i>recurring</i>). Verify reports and obtain estimates of the area that may be affected.	<i>IA 4. Hazardous Material Incident Annex</i>
	<input type="checkbox"/> Develop alternate routes based on assessment of damages to city transportation infrastructure and based on input from the City EOC, ODOT, and other road owners. Estimate emergency staffing levels and request personnel support.	
	<input type="checkbox"/> City personnel should not attempt to remove accident-related debris from the accident area except as necessary to facilitate fire suppression, rescue, and emergency medical care.	
	<input type="checkbox"/> The Police Department has the authority to secure the crash site to maintain the integrity of the accident site (after fire suppression and victim rescue operations are complete).	
	<input type="checkbox"/> Contact the NTSB prior to removing deceased victims or moving aircraft wreckage. Call: NTSB Safety Office 425-227-2000 (24 hrs)	
	<input type="checkbox"/> For railroad accidents, the IC should contact the railroad company's emergency response center, as well as the NTSB prior to removing any victims or wreckage.	
	<input type="checkbox"/> Coordinate the collection, storage, and disposition of all human remains and their personal effects from the crash site.	
	<input type="checkbox"/> Activate the City EOC and establish Incident Command or Unified Command, as appropriate. Staffing levels vary with the complexity and needs of the response. At a minimum, the IC, all Section Chiefs, the Resource Coordinator, and management support positions should be included.	
	<input type="checkbox"/> If appropriate, the IC (or designee) will activate the EAS by contacting the National Weather Service (453-4561/2081) to initiate a public broadcast message. Radio and television stations will copy the message and interrupt regular programming for the emergency broadcast.	
	<input type="checkbox"/> Develop work assignments for ICS positions (<i>recurring</i>).	<i>ICS Form 203: Organization Assignment List</i>

IA 10. Transportation Accidents

Transportation Accidents		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Identify local, regional, and/or State agencies that may be able to mobilize resources and staff to the City EOC for support.	
	<input type="checkbox"/> Notify supporting emergency response agencies, ODOT, NTSB, and FAA if the accident involves an aircraft.	
	<input type="checkbox"/> Notify command staff, support agencies, adjacent jurisdictions, coordinators, and/or liaisons of any situational changes.	
	<input type="checkbox"/> Confirm or establish communications links among the City EOC, the County EOC, and other AOCs, as applicable. Confirm operable phone numbers and verify functionality of alternative communication equipment/channels.	
	<input type="checkbox"/> Ensure that all required notifications have been completed. Consider other local, County, regional, State, and Federal agencies that may be affected by the incident. Notify them of the status.	
	<ul style="list-style-type: none"> ▪ For incidents occurring on State highways, ensure that the ODOT has been notified. 	
	<ul style="list-style-type: none"> ▪ Contact appropriate key stakeholders and partners if the incident poses an actual or potential threat to State parks, recreational areas, historical sites, environmentally sensitive areas, tourist routes, or other designated areas. 	
	<ul style="list-style-type: none"> ▪ If agricultural areas and livestock are potentially exposed or impacted, notify local extension services (OSU), ODA, and the State Veterinarian. 	<i>ESF 11 Annex of the County EOP</i>
	<input type="checkbox"/> Appoint a PIO to formulate emergency public information messages and media responses utilizing “one message, many voices” concepts (<i>recurring</i>).	
	<input type="checkbox"/> Public information focusing on transit access points, control, and traffic control will be reviewed by the Chief of Police (or designee). Information will be approved for release by the IC and Lead PIO prior to dissemination to the public.	
	<input type="checkbox"/> If necessary, establish a JIC staffed by PIOs from various agencies.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Allow the airline or agency affected by the accident to confirm casualties and to notify the next of kin via prescribed methodology.	
	<input type="checkbox"/> Advise the County EOC and ODOT of road restrictions and resource/support needs.	

IA 10. Transportation Accidents

Transportation Accidents		
Phase of Activity	Action Items	Supplemental Information
	<ul style="list-style-type: none"> <input type="checkbox"/> Coordinate provision of up-to-date information to friends and family of victims. Consideration should be giving to keeping all such people in a central location, protected from the press, and where information can be provided as it becomes available. 	
	<ul style="list-style-type: none"> <input type="checkbox"/> Support the removal of debris in coordination with, or under the direction of, investigative agencies such as the TSA, NTSB, and FBI. 	
	<ul style="list-style-type: none"> <input type="checkbox"/> Submit a request for emergency/disaster declaration, as applicable. 	<i>Basic Plan of the City EOP</i>
	<ul style="list-style-type: none"> <input type="checkbox"/> If necessary, determine the need to conduct evacuations and sheltering activities. 	
	<ul style="list-style-type: none"> <input type="checkbox"/> Coordinate with the American Red Cross to provide Shelter and Family Referral Services through the EOC. 	
	<ul style="list-style-type: none"> <input type="checkbox"/> Determine the need for additional resources and request as necessary through appropriate channels. 	
	<ul style="list-style-type: none"> <input type="checkbox"/> Develop an IAP (<i>recurring</i>). This document is developed by the Planning Section and approved by the IC. The IAP should be discussed at regular intervals and modified as the situation changes. 	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>
	<ul style="list-style-type: none"> <input type="checkbox"/> Implement objectives and tasks outlined in the IAP (<i>recurring</i>). 	
	<ul style="list-style-type: none"> <input type="checkbox"/> Record all EOC and individual personnel activities (<i>recurring</i>). All assignments, person(s) responsible, and actions taken should be documented in logbooks. 	<i>EOC Planning Section Position Checklist, ICS Form 214 – Unit Log</i>
	<ul style="list-style-type: none"> <input type="checkbox"/> Record all incoming and outgoing messages (<i>recurring</i>). All messages, and the names of those sending and receiving them, should be documented as part of the EOC log. 	
	<ul style="list-style-type: none"> <input type="checkbox"/> Produce situation reports (<i>recurring</i>). At regular periodic intervals, the EOC Director and staff will assemble a Situation Report. 	<i>ICS Form 209: Incident Status Summary</i>

IA 11 – Utility Failure

THIS PAGE LEFT BLANK INTENTIONALLY

IA 11. Utility Failure

Notation: Most major power failures are the result of other incidents such as severe weather, tornados, etc. You should refer to the specific cause event checklist

Utility Failure Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
PRE-INCIDENT PHASE	<input type="checkbox"/> Coordinate with local electric utilities for information affecting local jurisdictions, obtain historical information on average outages and extended outages. Gather emergency contact information from each utility that provides service.	
	<input type="checkbox"/> Coordinate with schools, daycare centers, nursing homes, rest homes, hospitals, etc. in proper precautions and emergency actions prior to a major power failure. Encourage the purchase and installation of emergency generators.	
	<input type="checkbox"/> Coordinate with local planning boards and inspections departments regarding building codes and code enforcement to minimize damages that might occur from a prolonged power failure.	
	<input type="checkbox"/> Conduct hazard analysis of vital facilities and the impact of a major power failure on one or more of those facilities. Encourage such facilities to incorporate stand by generators in their respective emergency plan.	
	<input type="checkbox"/> Coordinate with local broadcast media to ensure timely and accurate Emergency Alert System activation.	
	<input type="checkbox"/> Procure or produce information pamphlets for distribution to the public with assistance from utilities. "What to do When the Lights Go Out".	
	<input type="checkbox"/> Ensure the public is informed to contact their electric utility to report outages.	
	<input type="checkbox"/> Determine the availability of shelters and obtain shelter agreements if the American Red Cross has not.	
	<input type="checkbox"/> Coordinate with the American Red Cross, public agencies and/or the Salvation Army for shelter operations, as appropriate.	
RESPONSE PHASE	<input type="checkbox"/> Establish incident command.	
	<input type="checkbox"/> Identify immediate action or response requirements.	
	<input type="checkbox"/> Immediately carry out those action requirements necessary to preserve life and or property, including the deployment of required resources.	
	<input type="checkbox"/> Activate the EOC as appropriate.	
	<input type="checkbox"/> Organize or establish the EOC, based on operational procedures.	
	<input type="checkbox"/> Issue alert and warning based on procedure and as warranted.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Establish communications with responding agencies.	
	<input type="checkbox"/> Through communications with responding agencies determine as quickly as possible:	

Utility Failure Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	- General boundary of the affected area.	
	- The general extent of power or other utility disruption.	
	- Immediate needs of response forces or utilities.	
	- Estimated time of repair or duration of outage.	
	- Estimated population affected.	
	<input type="checkbox"/> Evaluate overall situation.	
	<input type="checkbox"/> Communicate with National Weather Service for forecast information for estimated duration of outage / failure. (Freezing temperatures, etc.)	
	<input type="checkbox"/> Establish communications with the state.	
	<input type="checkbox"/> Establish communications with and request a liaison from electric and gas utilities as appropriate.	
	<input type="checkbox"/> Establish ongoing reporting from the response forces and utilities.	
	<input type="checkbox"/> Coordinate with the American Red Cross (or designated lead agency) the opening of appropriate number of shelters in the appropriate areas, based on shelter procedure.	
	<input type="checkbox"/> On order, evacuate effected areas using available response forces.	
	<input type="checkbox"/> Conduct first staff briefing as soon as practical after EOC activation.	
	<input type="checkbox"/> Activate or establish rumor control through the public information officer (PIO).	
	<input type="checkbox"/> Establish a schedule for briefings.	
	<input type="checkbox"/> Brief City/County/agency/utility executives.	
	<input type="checkbox"/> Provide PIO with updated information.	
	<input type="checkbox"/> Provide response forces with updated information, as appropriate.	
	<input type="checkbox"/> Release causal information, via the public information officer (PIO) as soon as practical.	
	<input type="checkbox"/> If appropriate, establish a Joint Information Center (JIC) with the utility.	<i>FA 1 of the City EOP</i>
	<input type="checkbox"/> Issue action guidance as appropriate.	
	<input type="checkbox"/> Establish 24/7 duty roster for the EOC and or command post.	
	<input type="checkbox"/> Develop and post any required maps or diagrams.	
	<input type="checkbox"/> Activate an events log.	
	<input type="checkbox"/> Review and follow resource procurement procedure.	
	<input type="checkbox"/> Inventory additional resources that may be used or called upon for use.	
	<input type="checkbox"/> Activate formal resource request procedure and resource tracking.	
	<input type="checkbox"/> Coordinate all resource requests being forwarded to the state.	

IA 11. Utility Failure

Utility Failure Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	<input type="checkbox"/> Activate financial tracking plan coordinated by the Finance Officer.	
	<input type="checkbox"/> Activate damage assessment and follow damage assessment procedure.	
	<input type="checkbox"/> Develop a 12 hour incident action plan outlining actions that must be accomplished in the next 12 hours.	<i>ICS Form 202 – Incident Objectives, ICS Form 203 – Organization Assignment List, ICS Form 204 – Assignment List, ICS Form 205 – Incident Radio Communications Plan, ICS Form 206 – Medical Plan, Safety Message, Incident Map</i>
	<input type="checkbox"/> Conduct a "second shift" or relieving shift briefing.	<i>ICS Form 209-Incident Status Summary</i>
	<input type="checkbox"/> Discuss with and present to your relief, the incident action plan for the next 12 hours.	
RECOVERY/ DEMOBILIZATION PHASE	<input type="checkbox"/> Gather damage assessment information (public, housing, business) from damage assessment teams.	
	<input type="checkbox"/> Gather information from utilities regarding potential for additional immediate or prolonged outages.	
	<input type="checkbox"/> Obtain information from the American Red Cross regarding number of sheltered and support necessary for continued operation.	<i>FA 2 Annex of the City EOP and American Red Cross Shelter Plans</i>
	<input type="checkbox"/> Obtain from the American Red Cross an estimated duration period for continued shelter operations, if any.	
	<input type="checkbox"/> Assess citizen/community needs for individual assistance and or public assistance.	
	<input type="checkbox"/> Activate local unmet needs committee if appropriate.	
	<input type="checkbox"/> Gather financial information from the Finance Officer.	
	<input type="checkbox"/> As appropriate, gather additional information to include:	
	- Personnel that responded and the time involved in the response.	
	- Time sheets or time logs.	
	- Supplies used.	
	- Contracts issued.	
	- Purchase orders issued.	
	- Additional expenditures.	
	- Damages to public buildings, equipment, utilities, etc.	
	- Loss of life of any public servant.	
	- Documents regarding economic impact.	
<input type="checkbox"/> Develop or generate reports for the following, as appropriate:		
- FEMA.		
- State.		

Utility Failure Incident Checklist		
Phase of Activity	Action Items	Supplemental Information
	- Local elected officials.	
	- County executives.	
	- Others requiring or requesting reports.	
	<input type="checkbox"/> Coordinate recovery organizations including federal and state agencies and private or volunteer relief organizations.	
	<input type="checkbox"/> Establish donations management based on policy and procedure.	
	<input type="checkbox"/> Local power outages are unlikely to lead to a Presidential declaration of disaster, however, if a Presidential declaration of disaster is made, file "Request for Public Assistance" to apply for assistance as soon as possible with the proper state or federal agency.	
	<input type="checkbox"/> Ensure public officials are made aware of the assistance application process, if applicable.	
	<input type="checkbox"/> Ensure the general public is made aware, through the PIO, of the assistance application process, if applicable.	
	<input type="checkbox"/> Perform an incident critique as soon as possible with all possible response organizations.	
	<input type="checkbox"/> Review agency and self-performance.	
	<input type="checkbox"/> Review the weaknesses of the plan.	
	<input type="checkbox"/> Correct weaknesses.	
	<input type="checkbox"/> Implement hazard mitigation or modify hazard mitigation plan accordingly.	
	<input type="checkbox"/> Brief elected officials with updated information and disaster recovery progress.
