

A COMMUNITY VISION STARTS WITH YOU!

Fall 2021

The City is working on the Northern Baker Transportation Improvement Plan to consider roadway improvement concepts on 10th Street, Pocahontas Road/Hughes Lane, and Cedar Street. Our goal is to improve features of these streets and provide safe, equitable transportation choices. If you walk, bike or drive through this area, we want to your feedback on the recommended transportation improvements.

This spring, different roadway concepts developed with the community's input were presented to the public. The team considered public feedback as they refined the different options into recommendations. You are invited to a community workshop on October 13 to learn more about the preferred roadway concepts for each corridor. If you can't attend the workshop, you can visit the online open house between October 11th and 22nd.

The project kicked off in fall 2020 and is anticipated to be complete by early 2022.

Baker City operates under an EEO policy and complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Assistance is available for individuals with disabilities by calling 523-6541.
